

**THE STATE COMMITTEE OF THE REPUBLIC  
OF UZBEKISTAN ON STATISTICS**

# **TOTAL INCOME OF POPULATION IN THE REPUBLIC OF UZBEKISTAN**

*PRELIMINARY DATA  
FOR JANUARY-JUNE 2021*

**Total income of the population in the Republic of Uzbekistan**  
*(preliminary data for January-June 2021)*

The calculation of the total income of the population is carried out on the basis of international statistical standards of the System of National Accounts, the recommendations of the International Labor Organization, an interdepartmental methodological guide developed and approved by the State Committee on Statistics, the Ministry of Economic Development and Poverty Reduction on the basis of the legislation of the Republic of Uzbekistan.

According to preliminary data, in January-June 2021, the total aggregate income of the population reached **230.9** trillion soums.

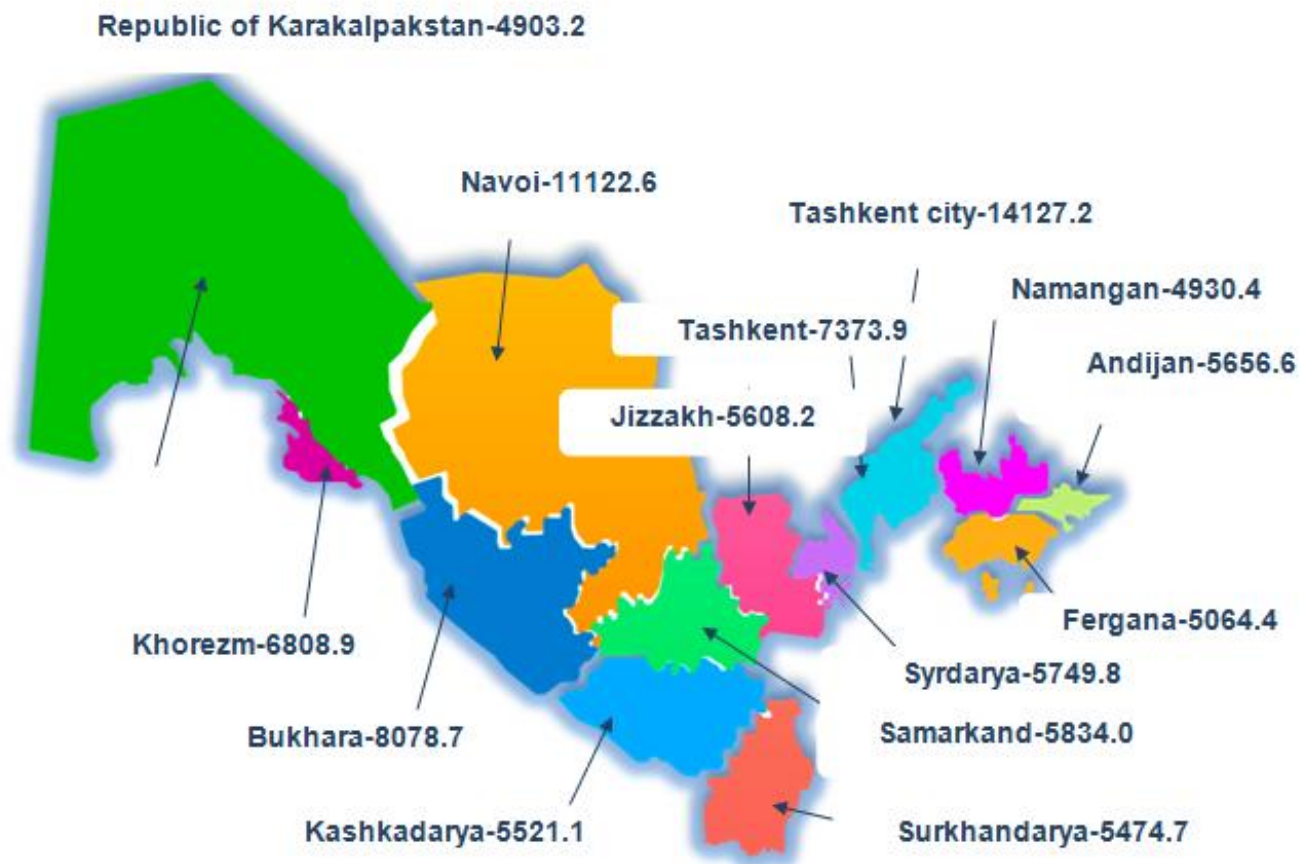

In order to exclude the influence of price factors for calculating the real growth rate of household income, the consumer price index (CPI) is used - one of the important types of inflation indicator. Due to the change in consumer prices, the growth rate of the total income of the population, compared to the same period in 2020, in real terms amounted to **110.8%**.

✓ In January-June 2021 (for six months), the average per capita nominal total income of the population was higher than the national average value in Tashkent city - 14 127.2 thousand soums, Navoi - 11 122.6 thousand soums, Bukhara - 8 078.7 thousand soums, Tashkent region - 7 373.9 thousand soums and Khorezm region - 6 808.9 thousand soums.

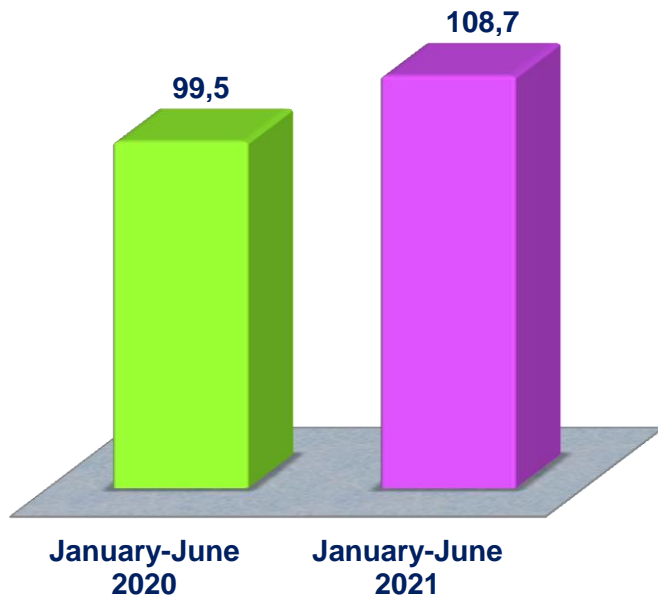

**The volume of average per capita total income of the population by regions of the Republic of Uzbekistan for January-June 2021, thousand soums**
