

THE STATE COMMITTEE OF THE
REPUBLIC OF UZBEKISTAN ON STATISTICS

INDUSTRIAL PRODUCTION OF THE REPUBLIC OF UZBEKISTAN

*FOR JANUARY-JUNE 2021
(PRELIMINARY DATA)*

Department of Industry
Statistics
Tel 71-202-80-46

Industrial production of the Republic of Uzbekistan

for January-June

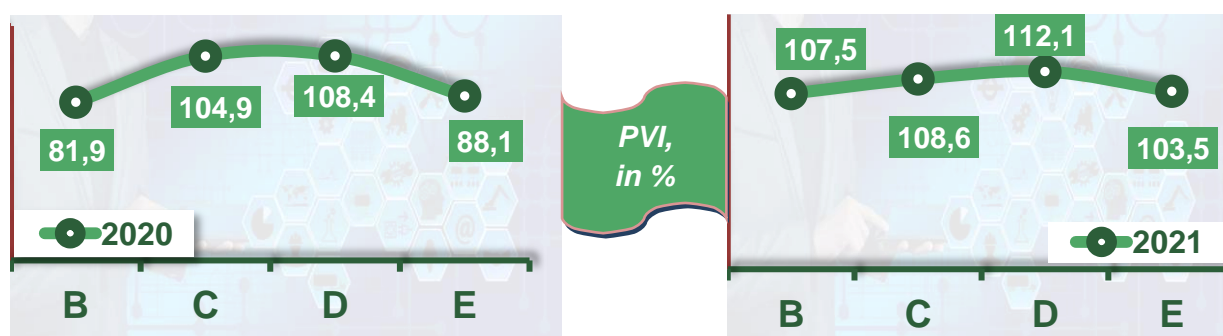

According to preliminary data, in January-June 2021, enterprises of the republic produced industrial products worth 200.1 trillion soums, the index of physical volume* of industrial production by the same period in 2020 amounted to 108.5%.

In the structure of production, the largest share falls on manufacturing enterprises (82.5%), the volume of production of which amounted to 165.1 trillion soums.

B – Mining and quarrying, C – manufacturing industry, D – electricity, gas, steam and air conditioning, E – water supply, sewerage, waste collection and disposal.

Industrial production by main types of economic activity

The main factors of growth in the physical volume of industrial production were its increase in the mining industry - by 7.5, manufacturing - by 8.6%, electricity, gas, steam and air conditioning - by 12.1%, in water supply, sewerage, collection and disposal of waste - by 3.5%.

*The index of the physical volume of industrial production is a relative indicator that characterizes the change in the mass of products (works, services) in the compared periods.

Mining and quarrying

for January-June

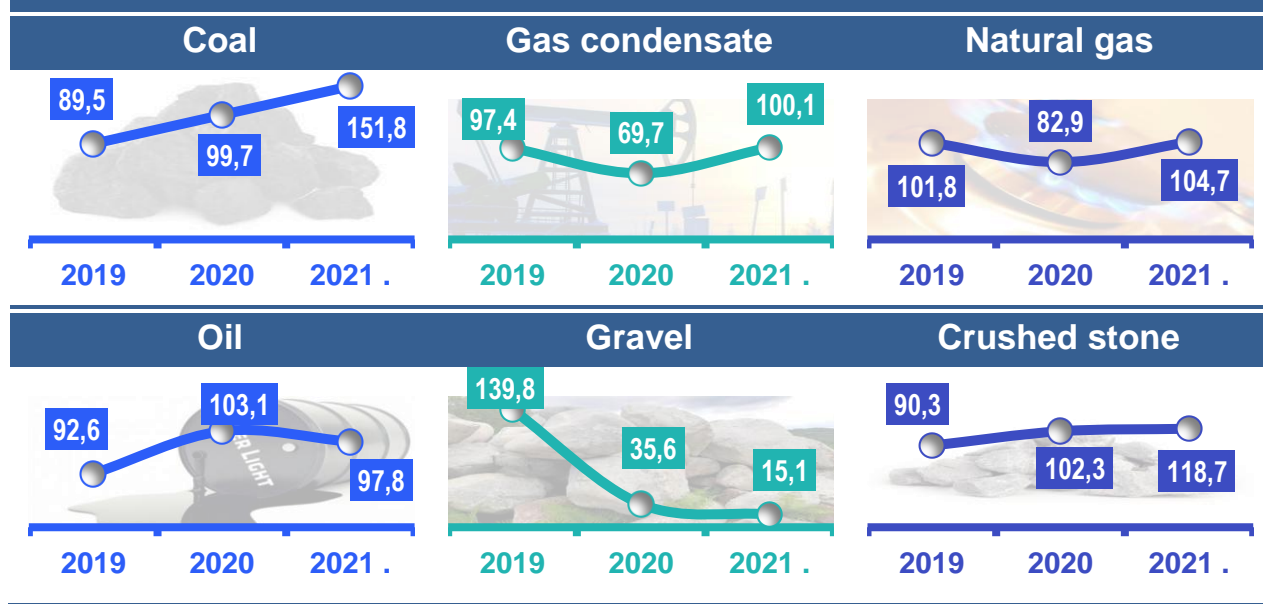

The volume of products produced by mining and quarrying enterprises in January-June 2021 amounted to 19.0 trillion soums, or 9.5% of the total industry.

Share for the period from the beginning of the year, in %

Industrial production by large mining and quarrying enterprises

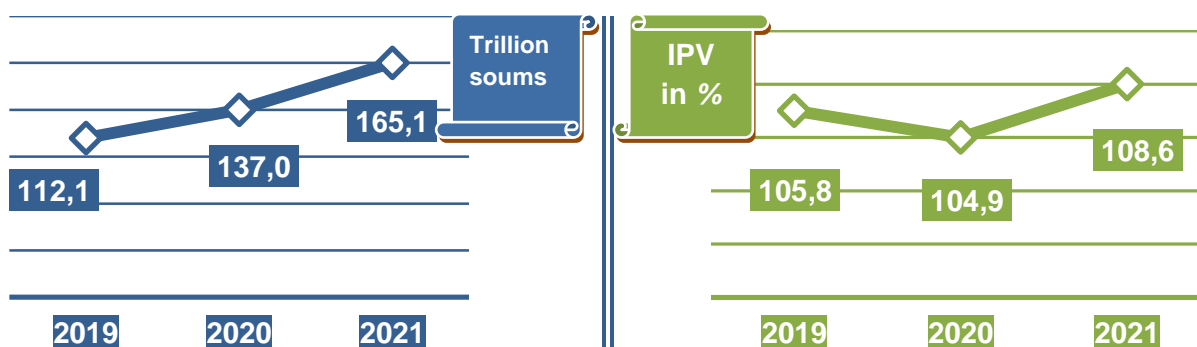

To the previous year, in %

Industrial production by large mining and quarrying enterprises

Products	January - June 2020	January - June 2021	difference +/-
Coal, thousand tons	1509,6	2291,7	782,1
Oil, thousand tons	358,8	350,8	-8,0
Natural gas, million cubic meters	25138,6	26308,3	1169,7
Gas condensate, thousand tons	671,9	672,3	0,4
Crushed stone, thousand tons	606,0	719,1	113,1
Gravel, thousand tons	110,0	16,7	-93,3
Kaolin, thousand tons	105,9	124,2	18,3

Manufacturing industry

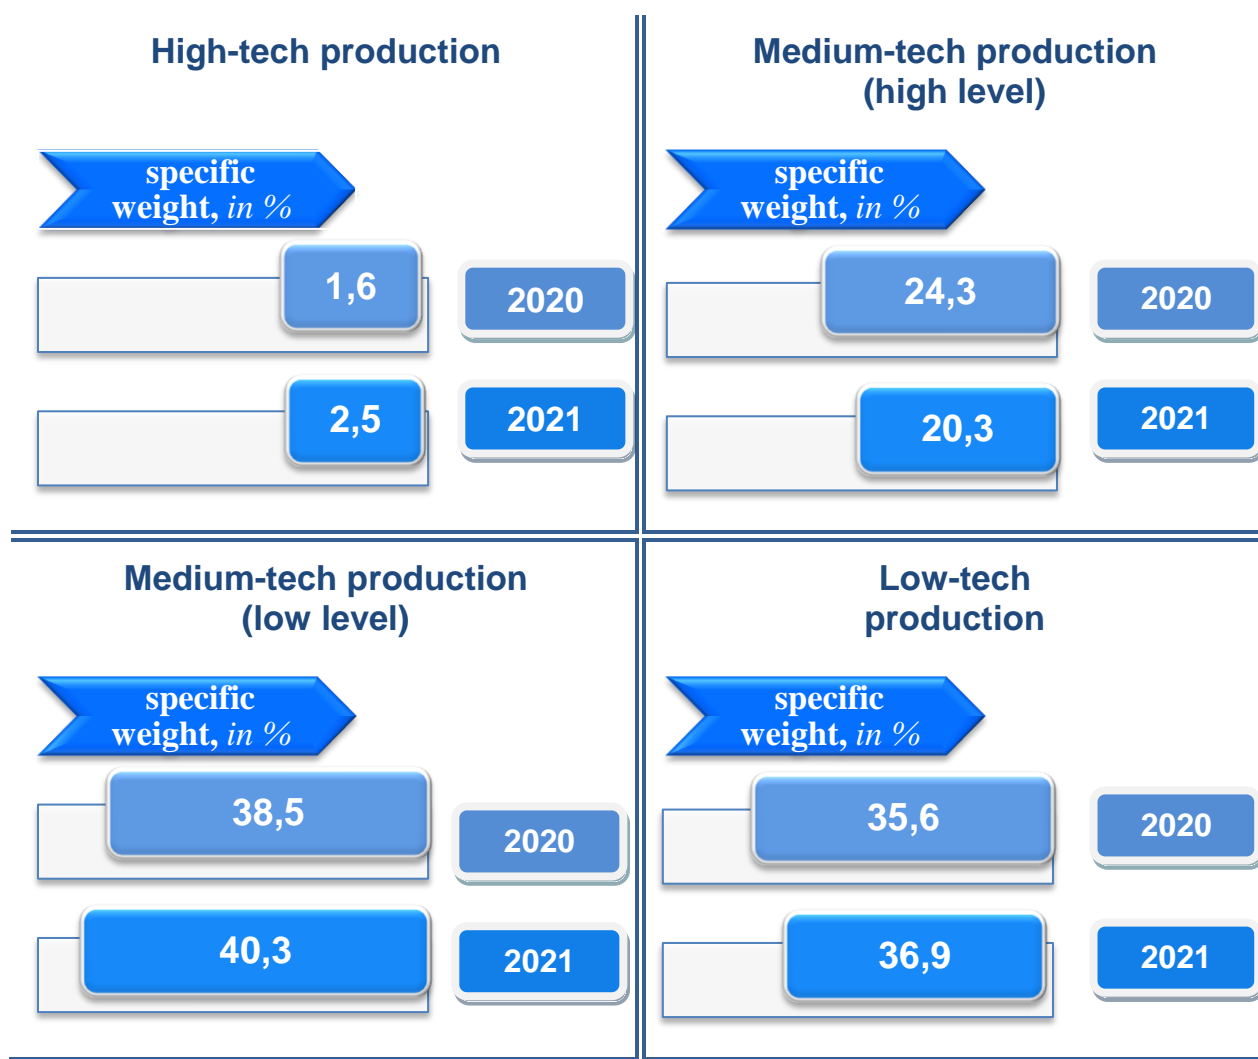

Manufacturing enterprises in January-June 2021 produced goods for 165.1 trillion soums, or 82.5% of the total industry.

Share for the period from the beginning of the year, in %

In the structure of the manufacturing industry, the share of high-tech industries amounted to 2.5% (1.6% in January-June 2020), medium-high-tech - 20.3% (24.3%), medium-low-tech - 40.3% (38.5%) and low-tech - 36.9% (35.6%).

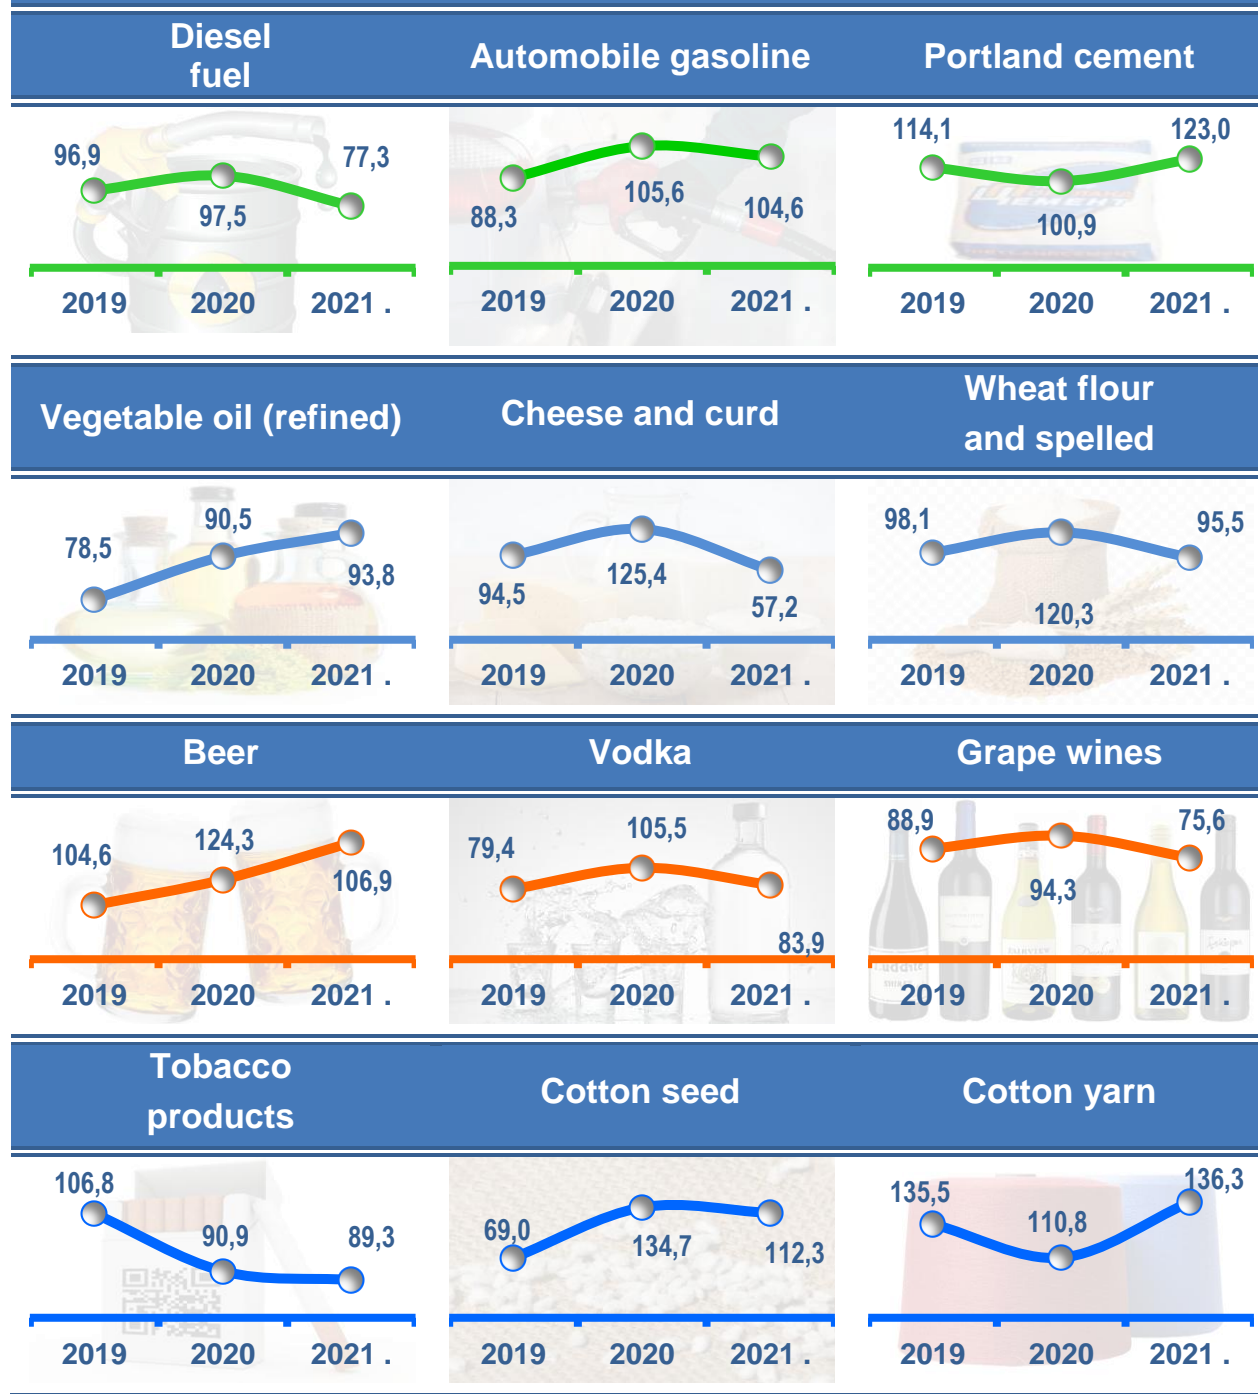

In the volume of the manufacturing industry, the share of enterprises for the production, repair, assembly of machinery and equipment, the production of cars, trailers, semi-trailers and other finished products amounted to 17.6% (the physical volume index amounted to 100.7% against January-June 2020), metallurgical industry – 27.2% (113.0%), enterprises for the production of textile, clothing and leather products – 18.0% (120.9%), for the production of food, drinks and tobacco products – 16.3% (105.9%), enterprises for the production of chemical products, rubber and plastic products – 9.4% (106.4%).

Manufacturing of industrial products by large manufacturing enterprises

In January-June 2021, the republic produced 546.5 thousand tons of motor gasoline (an increase of 4.6% compared to the corresponding period of 2020), 315.3 thousand tons of cotton yarn (an increase of 36.3%), 126.3 million liters of beer (6.9%) and 914.4 thousand tons of flour from soft wheat and spelled (decrease by 4.5%).

To the previous year, in %

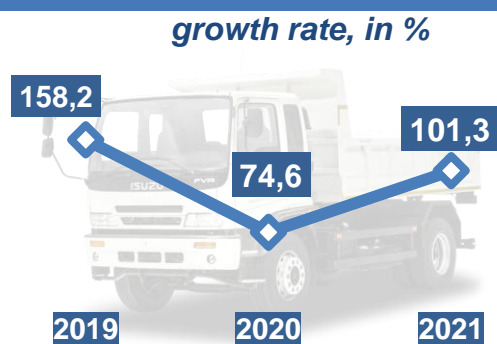

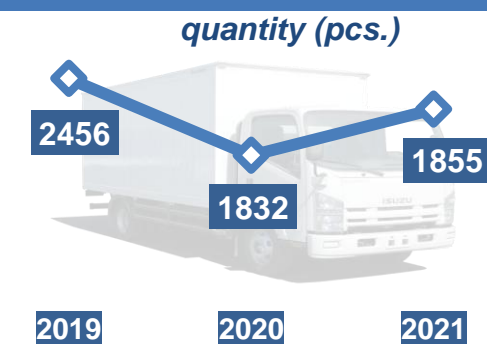

**Manufacturing of industrial products
by large manufacturing enterprises**

Products	January-June 2020	January-June 2021	difference +/-
Passenger cars, pcs.	143455	108780	-34675
Trucks, pcs.	1832	1855	23
Automotive engines, thousand units	113,1	75,6	-37,5
Flour from soft wheat and spelled, thousand tons	957,8	914,4	-43,4
Cotton fiber, thousand tons	296,6	357,9	61,3
Vegetable oil (refined), thousand tons	93,1	87,4	-5,7

In January-June 2021, 1 855 trucks were produced in the republic (by the corresponding period of 2020, the volume of production increased by 1.3%).

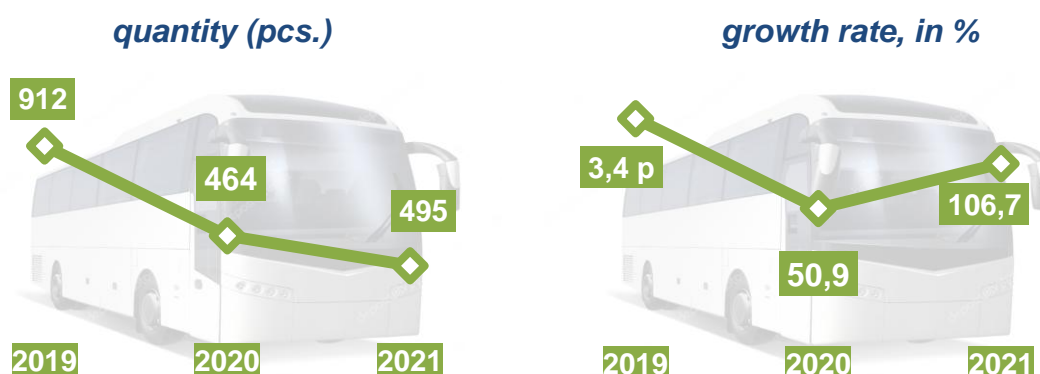

**Production of trucks,
for January-June**

Manufacturing of industrial products by large manufacturing enterprises

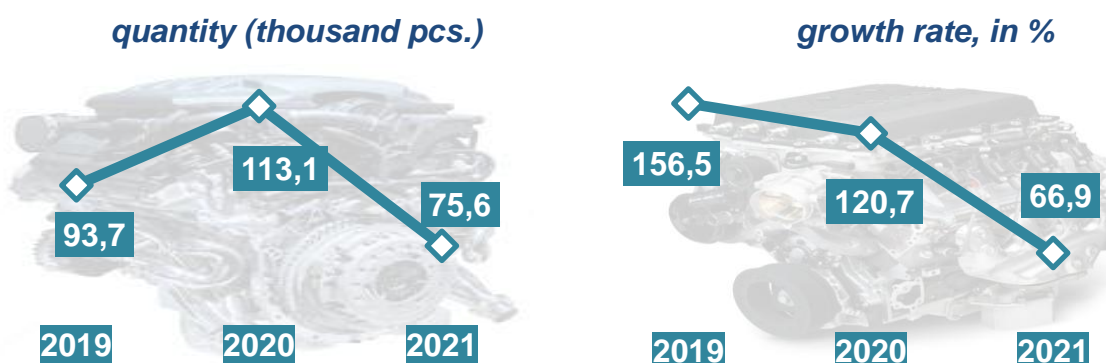

In January-June 2021, 495 buses were produced in the republic (by the corresponding period of 2020, an increase in production was noted by 6.7%).

Bus production, for January-June

In January-June 2021, 75.6 thousand units of automobile engines were produced in the republic (a decrease by 33.1% compared to the corresponding period of 2020).

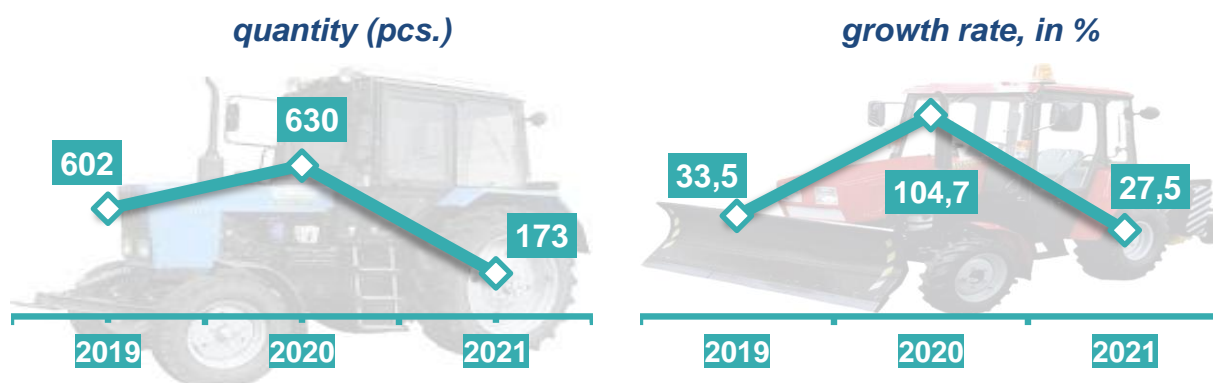

Manufacture of automobile engines, for January-June

Manufacturing of industrial products by large manufacturing enterprises

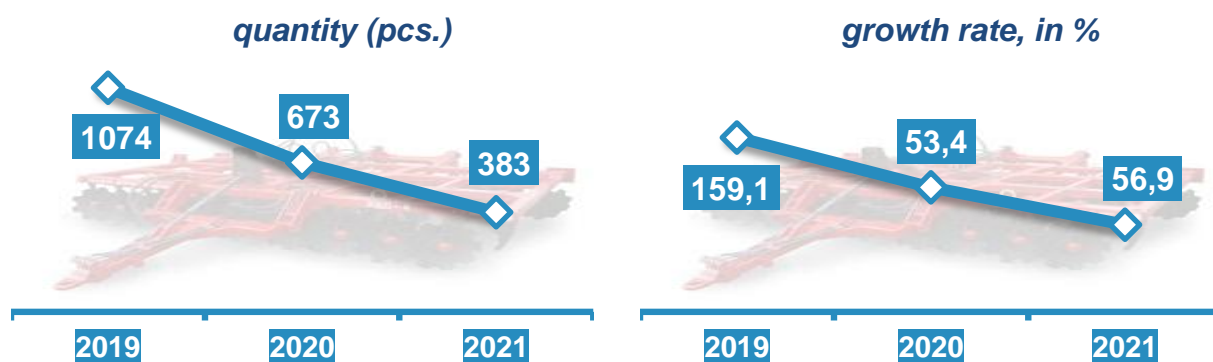

In January-June 2021, 173 tractors were produced in the republic (by January-June 2020, the production volume decreased by 72.5%).

Tractor manufacturing, for January-June

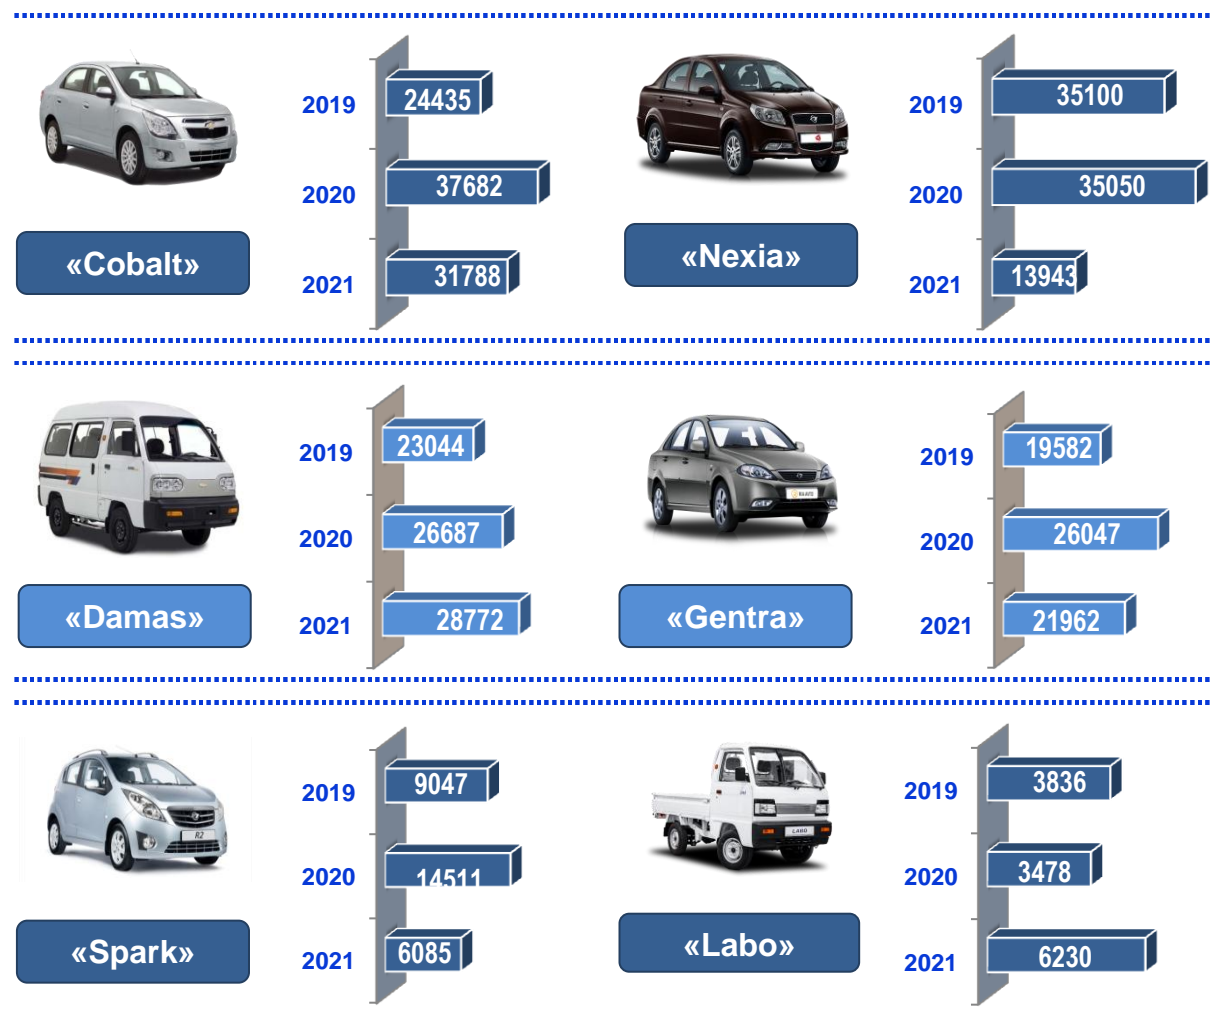

In January-June 2021, 383 pieces of rippers and cultivators were produced in the republic (by the corresponding period of 2020, a decrease in production was recorded by 43.1).

Production of rippers and cultivators, for January-June

In the automotive industry in January-June 2021, 31 788 Cobalt vehicles were produced (growth rates against the same period in 2020 amounted to 84.4%), 13 943 - Nexia (39.8%), 21 962 - Gentra (84.3%), 28 772 - Damas (107.8%), 6 085 - Spark (41.9%) and 6 230 - Labo (179.1%).

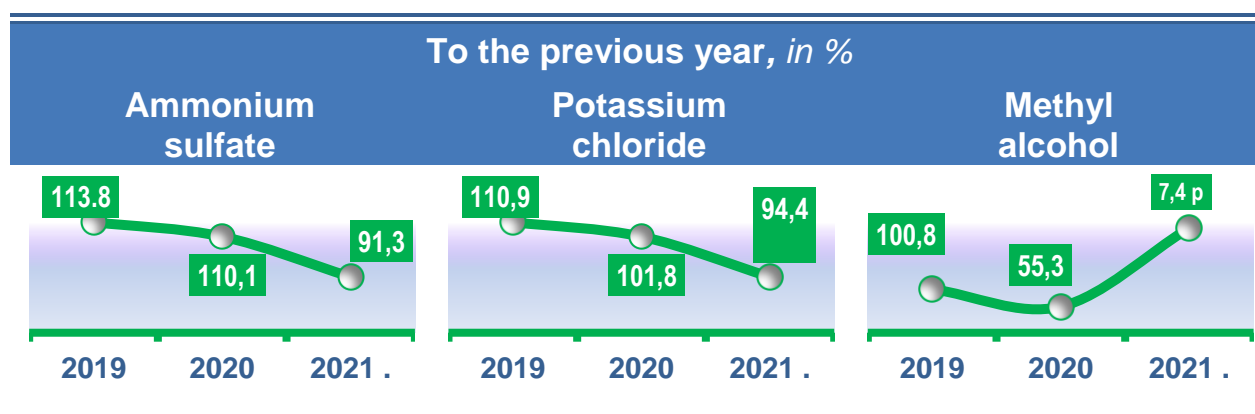

Car production in the Republic of Uzbekistan
for January-June, pcs.

**Production by large manufacturing enterprises
of certain types of products**

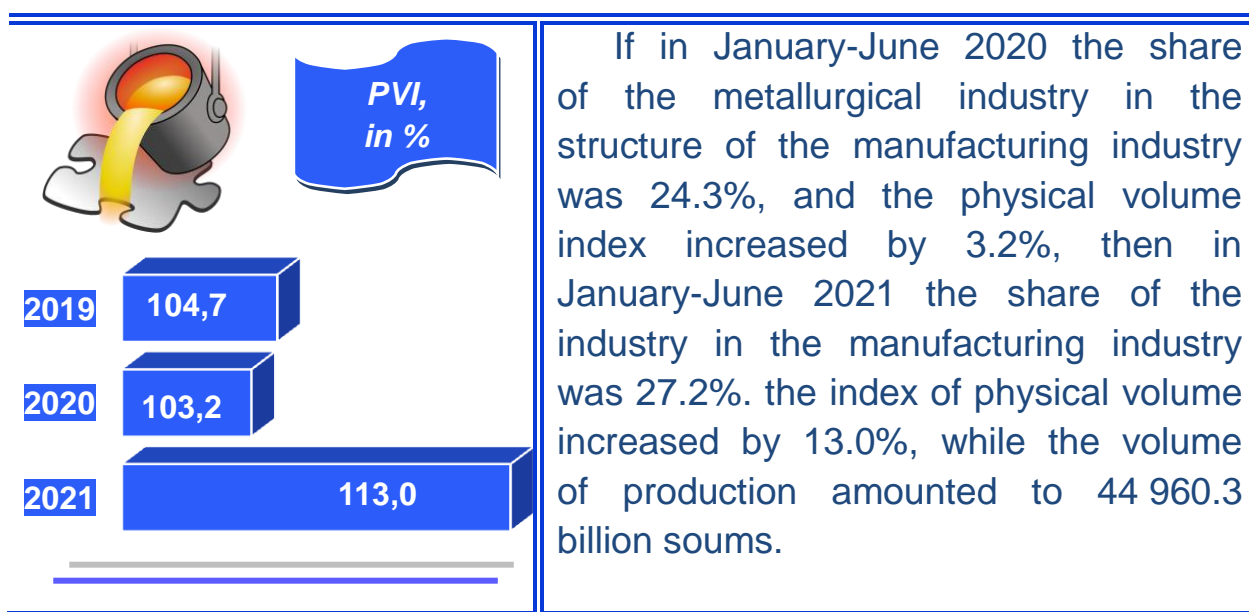

Product	January-June 2020	January- June 2021	difference +/-
Paints and varnishes based on acrylic or vinyl polymers, tons	7015,5	8504,7	1489,2
Portland cement, thsd tons	4720,3	5807,2	1086,9
Tobacco products, mln. pcs.	5035,1	4496,8	-538,3
Diesel fuel, thousand tons	526,2	407,0	-119,2
Motor gasoline, thousand tons	522,3	546,5	24,2

The overhaul of technological equipment made it possible to increase the capacity utilization of chemical enterprises and to exceed the production indicators of the previous year for the production of methyl alcohol (by 7.4 times by January-June 2020), paints and varnishes based on acrylic or vinyl polymers (121.2 %) and caustic soda (136.2%). At the same time, there is a decrease in the production of ammonium sulfate (91.3% compared to January-June 2020).

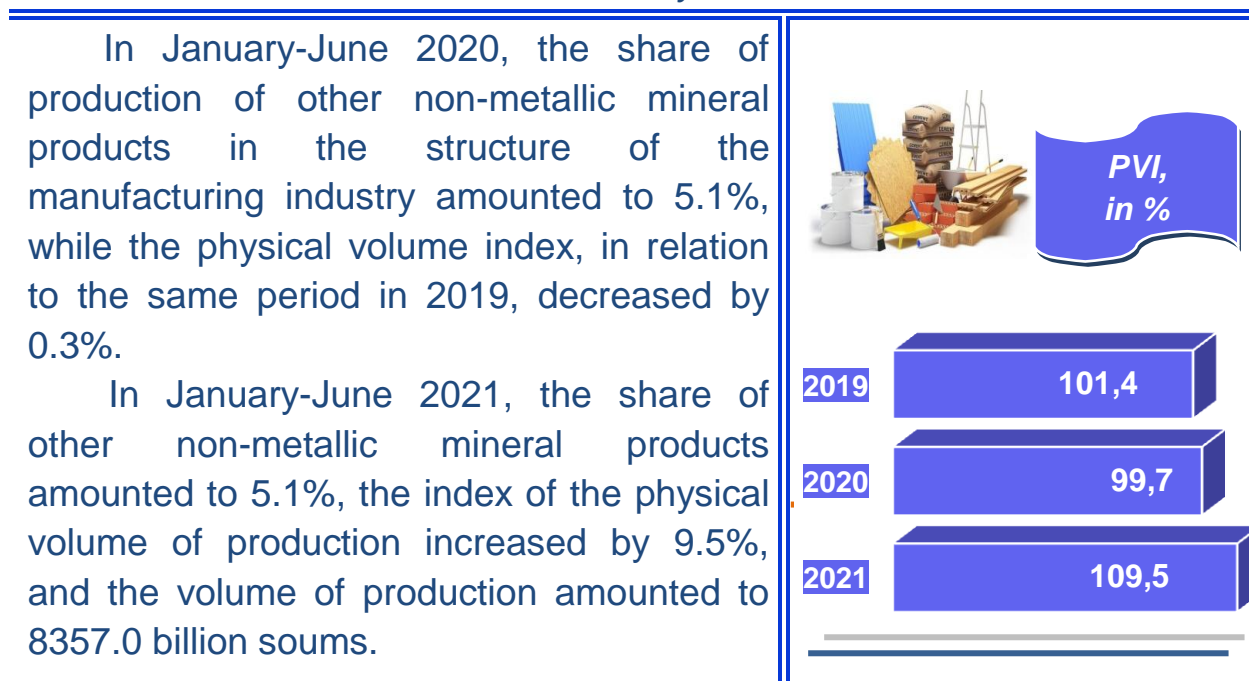

Metallurgical industry

for January-June

Manufacture of other non-metallic mineral products

for January-June

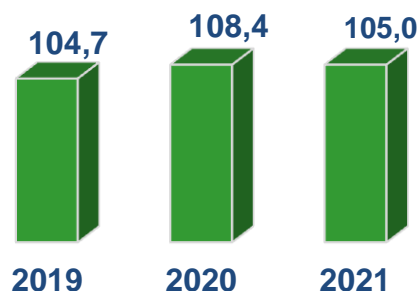

Food production

for January-June

If in January-June 2020 the share of food production in the manufacturing industry amounted to 14.0%, and the physical volume index, in relation to 2019, reached 108.4%, then in January-June 2021 the share of food products decreased to 13.3%, the index of physical volume increased by 5.0%, the total production volume amounted to 21 885.8 billion soums.

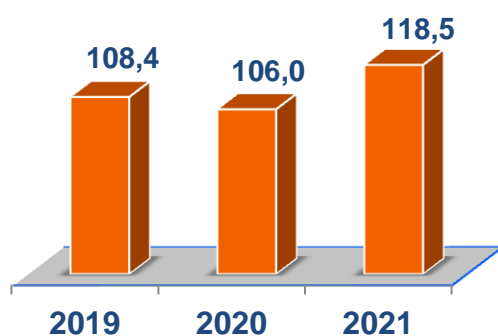

*PVI,
in %*

Beverage production

for January-June

*PVI,
in %*

At the end of January-June 2020, the share of beverage production in the structure of the manufacturing industry amounted to 2.3%, while the physical volume index, in relation to the same period in 2019, increased by 6.0%.

In January-June 2021, the share of beverage production amounted to 2.5%, the physical volume index - 118.5%, and the production volume reached 4 199.8 billion soums.

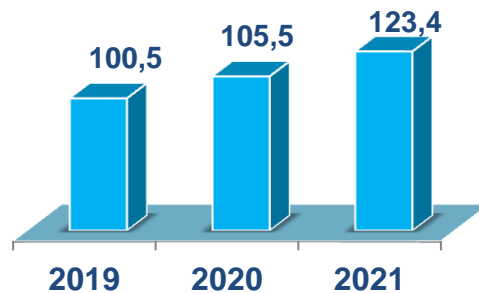

Production of textile products *for January-June*

At the end of January-June 2020, the share of the production of textiles in the structure of the manufacturing industry amounted to 11.9%, while the physical volume index, in relation to the same period in 2019, amounted to 105.5%.

In January-June 2021, the share of textile production amounted to 14.1%, the index of the physical volume of their production increased by 23.4%, and the production volume amounted to 23 277.2 billion soums.

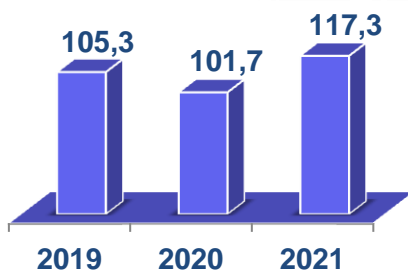

*PVI,
in %*

Manufacture of wearing apparel *for January-June*

*PVI,
in %*

If in January-June 2020 the share of clothing production in the structure of the manufacturing industry was 3.3%, and the physical volume index was 101.7%, then in January-June 2021 the share of the industry in the manufacturing industry was 3.4%, the index physical volume - 117.3%, production volume reached 5 543.2 billion soums.

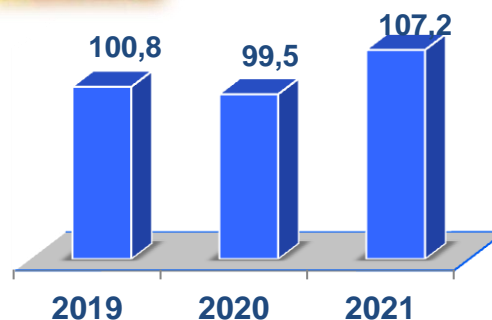

Production of chemical products for January-June

In January-June 2020, the share of chemical production in the structure of the manufacturing industry was 7.6%, while the physical volume index, in relation to the same period in 2019, amounted to 99.5%.

In January-June 2021, the share of chemical products amounted to 7.7%, the index of physical volume of production increased by 7.2%, and the volume of production amounted to 12673.8 billion soums.

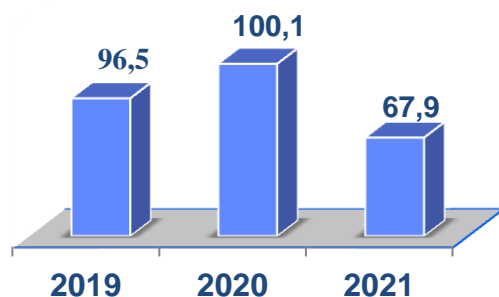

*PVI,
in %*

Production of coke and refined petroleum products for January-June

*PVI,
in %*

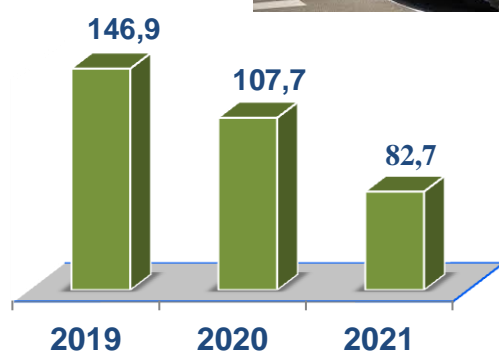

At the end of January-June 2020, the share of coke and product production in the structure of the manufacturing industry amounted to 4.2%, while the physical volume index, in relation to the same period in 2019, amounted to 100.1%.

In January-June 2021, the share of coke and refined products production amounted to 3.2%, the physical volume index also decreased by 33.1%, and the production volume amounted to 5 255.7 billion soums.

Manufacture of motor vehicles, trailers and semi-trailers for January-June

PVI,
in %

At the end of January-June 2020, the share of production of vehicles, trailers and semi-trailers in the structure of the manufacturing industry amounted to 12.1%, while the physical volume index, in relation to the same period of 2019, reached 107.7%.

In January-June 2021, the share of this industry amounted to 8.5%, the physical volume index decreased by 17.3%, and the production volume amounted to 14 053.8 billion soums.

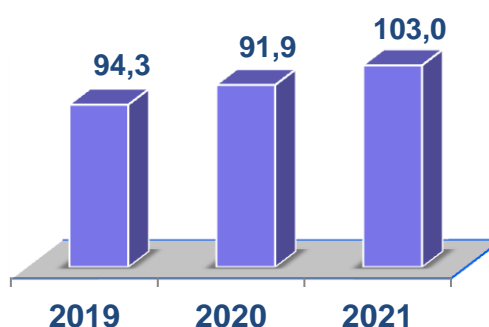

Manufacture of rubber and plastic products for January-June

At the end of January-June 2020, the share of the production of rubber and plastic products in the structure of the manufacturing industry amounted to 2.0%, while the physical volume index, in relation to the same period of 2019, decreased by 8.1%.

In January-June 2021, the share of this industry amounted to 1.7%, the physical volume index - 103.0%, the production volume - 2887.9 billion soums.

PVI,
in %

Electricity, gas, steam and air conditioning

for January-June

The volume of products produced by enterprises of electricity supply, gas, steam and air conditioning amounted to 14.6 trillion soums (7.3% of the total industry).

The index of the physical volume of the industry, compared to the corresponding period of 2020, increased by 12.1%.

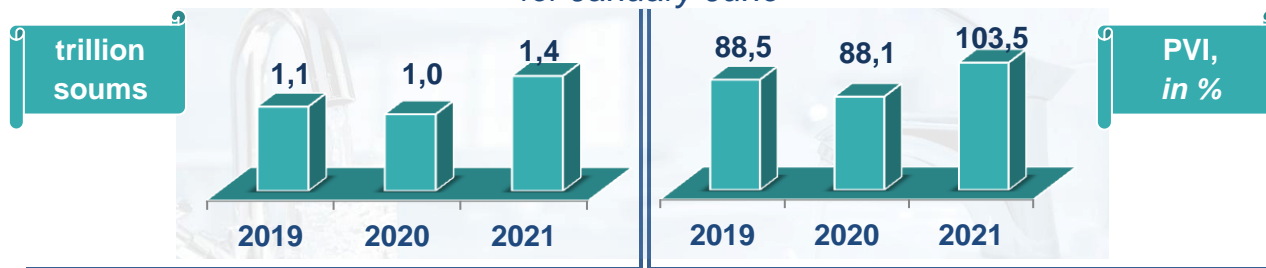

Share since the beginning of the year, *in%*

Production by large enterprises of power supply, gas, steam and air conditioning of certain types of industrial products

Product name	January-June 2020	January-June 2021	difference +/-
Electricity, million kW/h	31443,2	34318,6	2875,4
Heat energy thousand Gcal	14793,2	15016,4	223,2
Gas from underground coal gasification, thousand cubic meters	152524,0	150236,0	-2288

**Water supply, sewerage, waste
collection and disposal**
for January-June

The volume of products produced by enterprises of water supply, sewerage, waste collection and disposal amounted to 1.4 trillion soums (0.7% of the total industry).

Share for the period from the beginning of the year, in %

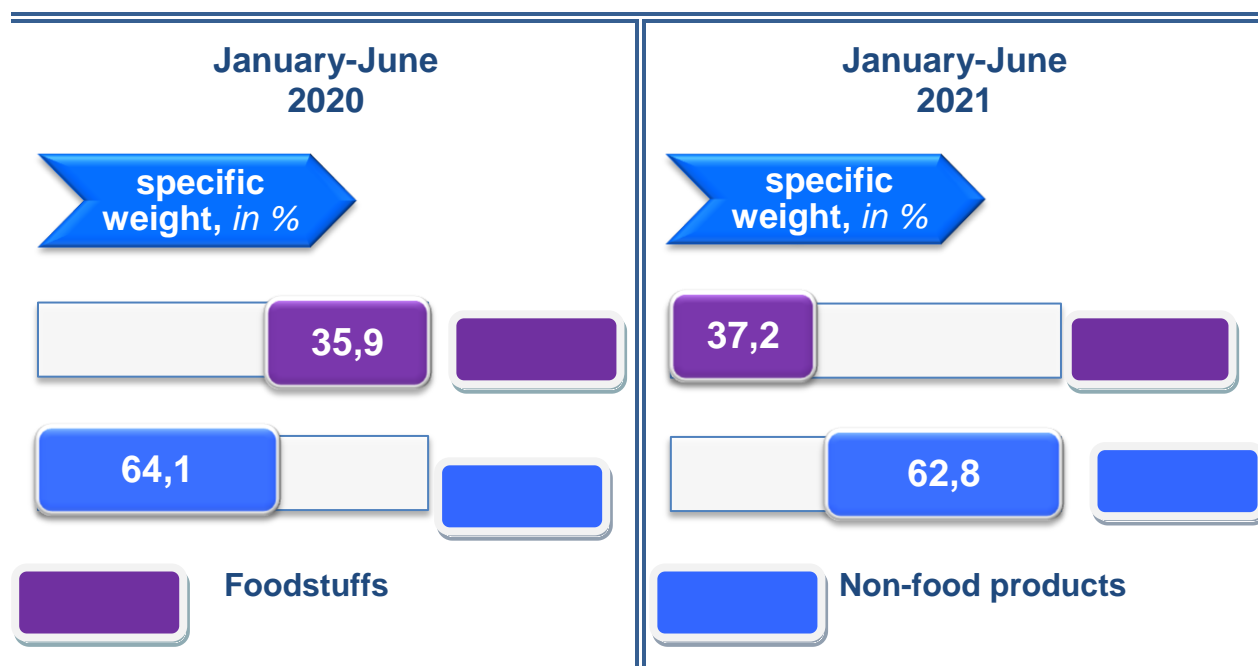

Product name	January-June 2020	January-June 2021	difference +/-
Services for the removal, transportation and treatment of wastewater, <i>billion soums</i>	98,3	132,4	34,1
Services for the emptying, cleaning and treatment of cesspools, sedimentation tanks and septic tanks, <i>mln. soums</i>	222,1	243,9	21,8
Textile waste, <i>tons</i>	6577,7	6644,8	67,1

Compared to the corresponding period of 2020, there was an increase in services for the emptying, cleaning and treatment of cesspools, sedimentation tanks and septic tanks by 9.8%, as well as services for the removal, transportation of wastewater and their treatment - by 34.7%. recorded an increase in the production of textile waste by 1.0%.

Production of consumer goods

As a result of measures taken to expand the range and stimulate the production of finished products, the production of consumer goods amounted to 64.3 trillion soums and, in comparison with the corresponding period of 2020, the growth rate reached 107.7%, the share in the total volume of industry was 32.1%.

In the structure of food production, the production of wine and vodka and beer amounted to 5.8% (7.2% in January-June 2020).

In the structure of consumer goods production in the republic, the largest share falls on the city of Tashkent (22.2% of the total volume of consumer goods), Andijan (17.0%), Tashkent (11.4%) and Samarkand (9.3%) regions.

The largest growth in the production of consumer goods was recorded in Jizzakh (138.1% against the corresponding period of 2020), Samarkand (124.3%), Bukhara (119.3%), Syrdarya (117.7%), Namangan (115.3%), Surkhandarya (115.1%) regions and Tashkent city (114.8%), exceeding the national average (107.7%).

**Index of physical volume of industrial production
and growth rates of consumer goods
by regions of the Republic of Uzbekistan, %**

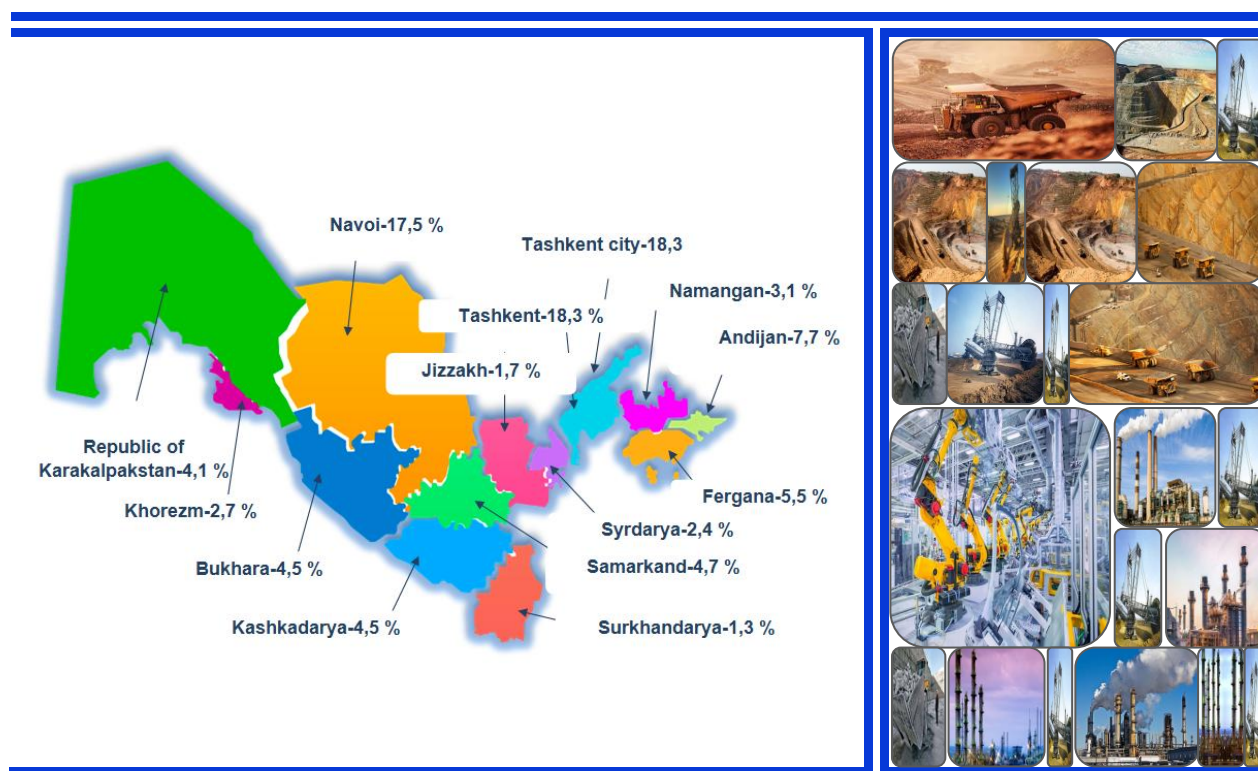

The change in industrial production was significantly influenced by the growth in the index of the physical volume of industrial production in Kashkadarya (125.6% compared to January-June 2020), Syrdarya (123.4%), Jizzakh (114.7%), Namangan (111.8 %), Tashkent (109.6%) regions and Tashkent city (113.8%).

The share of industrial products of the regions in the total production of the Republic of Uzbekistan, %

In the structure of industrial output of the republic, the largest share falls on the enterprises of Tashkent (18.3% of the republican volume of industry), Tashkent (18.3%), Navoi (17.5%), Andijan (7.7%) and Fergana (5.5%) regions.

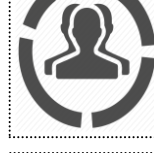

The smallest share of industrial production was recorded at the enterprises of Surkhandarya (1.3%) and Jizzakh (1.7%) regions.

Analysis of the differentiation of industrial output per capita showed an excess of the national average (5 763.9 thousand soums) in Navoi (34 493.0 thousand soums), Tashkent (12 278.1 thousand soums) regions and Tashkent city (13 487.9 thousand soums).

The production of consumer goods per capita in the reporting period in the republic amounted to 1 852.0 thousand soums, including in the city of Tashkent – 5 254.5 thousand soums, Andijan region – 3 418.8 thousand soums, Tashkent region – 2 449.6 thousand soums, Syrdarya region – 2 027.7 thousand soums.

Small business contribution to industrial production
for January-June 2021, in %

During the reporting period, small businesses produced goods worth 47.9 trillion soums, the share of which in the total production volume amounted to 24.0%.

In the context of regions, the largest share of small business was observed in Jizzakh (53.4% of the total industry in the region), Namangan (46.5%), Surkhandarya (42.4%), Syrdarya (40.9%), Samarkand (40.3%) regions.

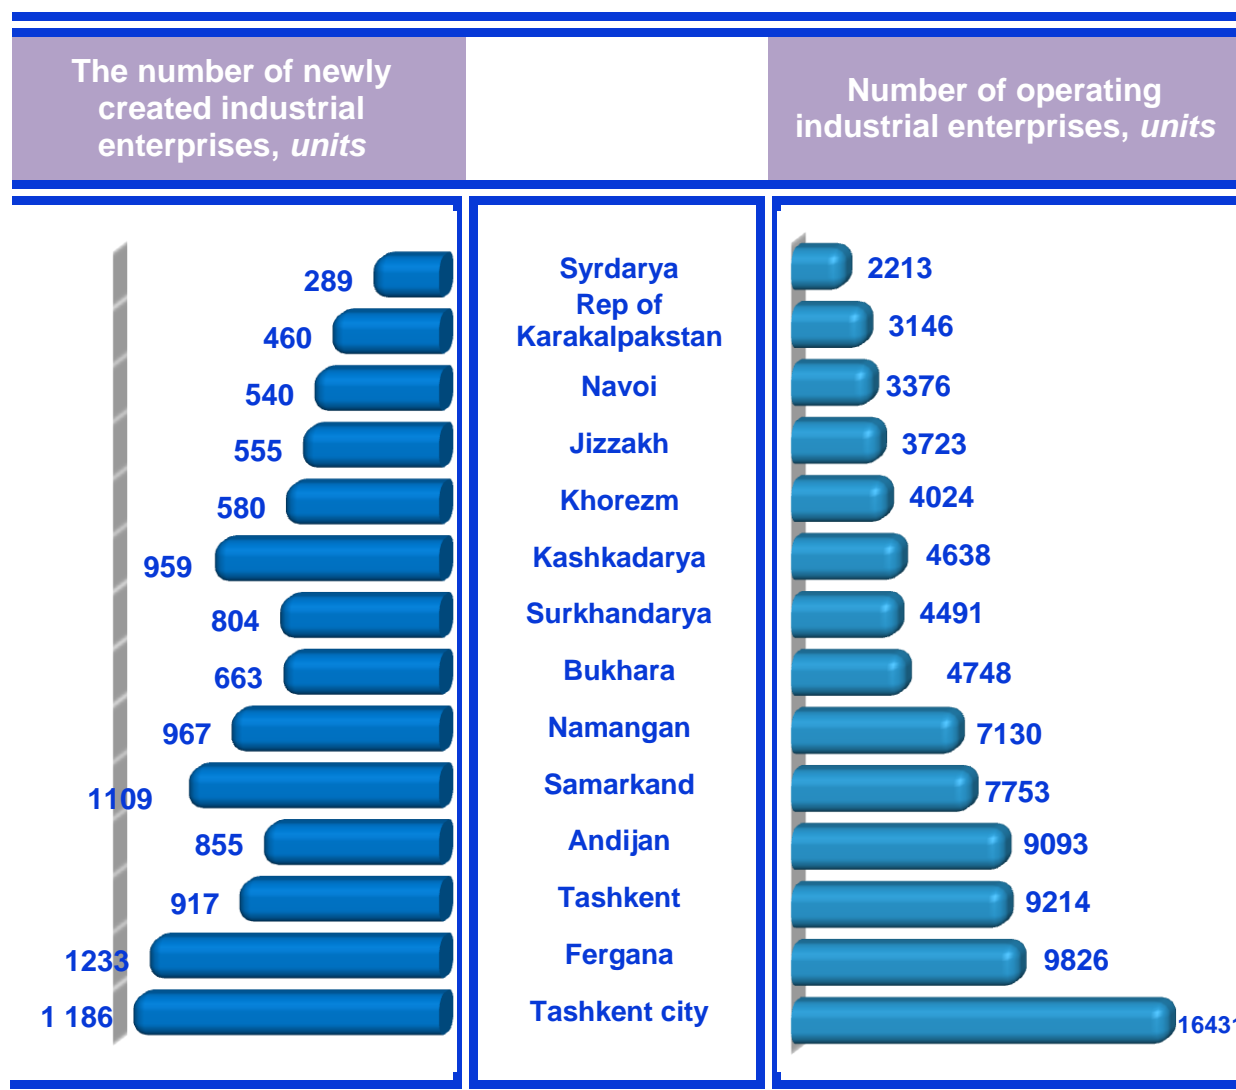

At the same time, the smallest share of small business was noted in Navoi (6.1%), Tashkent (16.2%), Khorezm (21.9%), Kashkadarya (22.7%), regions, as well as in the Republic of Karakalpakstan (18.8 %). Analysis of the structure of industrial production in the context of the regions of the republic showed that the low share of production of small businesses in the total volume of industry is explained by the significant volume of production of large industrial enterprises located in these regions.
