

STATE COMMITTEE OF THE  
REPUBLIC OF UZBEKISTAN ON STATISTICS

# INDUSTRIAL PRODUCTION OF THE REPUBLIC OF UZBEKISTAN

*FOR JANUARY-MAY 2021  
(PRELIMINARY DATA)*

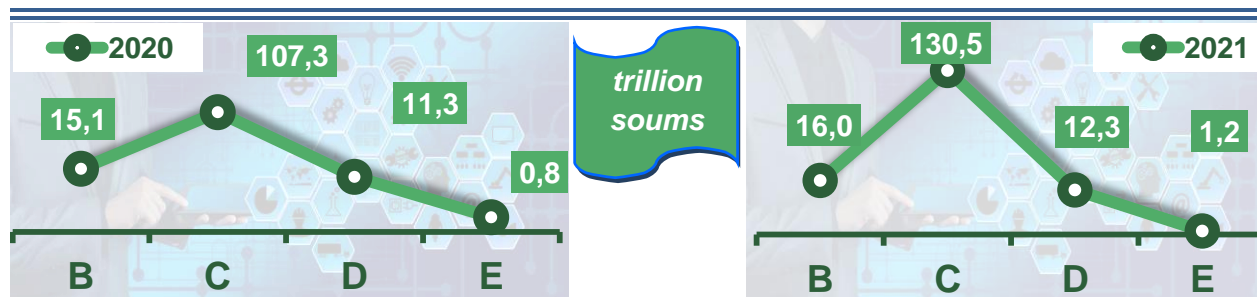

Department of Industry  
Statistics  
Tel. 71-202-80-46

## Industrial production of the Republic of Uzbekistan

for January-May

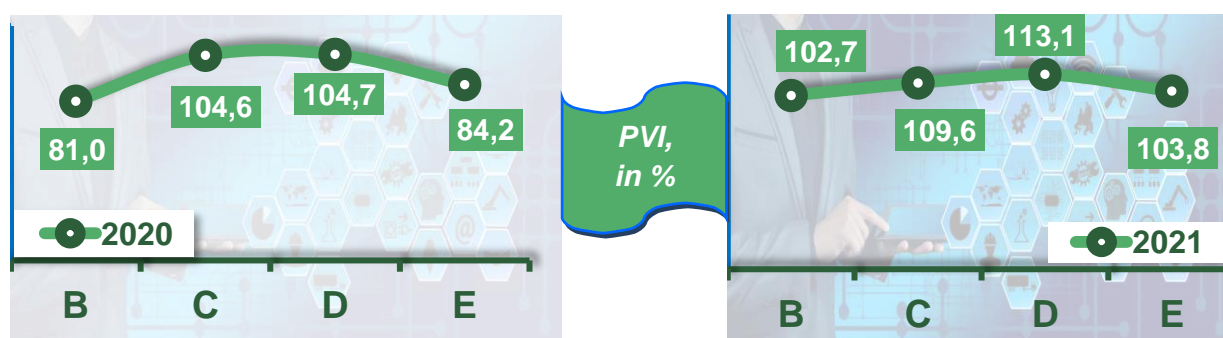

According to preliminary data, in January-May 2021, enterprises of the republic produced industrial products worth 160.0 trillion soums, the index of physical volume\* of industrial production by the same period in 2020 amounted to 108.2%.

In the structure of production, the largest share falls on manufacturing enterprises (81.6%), the volume of production of which amounted to 130.5 trillion soums.

B – Mining and quarrying, C – manufacturing industry, D –electricity, gas, steam and air conditioning, E – water supply, sewerage, waste collection and disposal.

### Industrial production by main types of economic activity

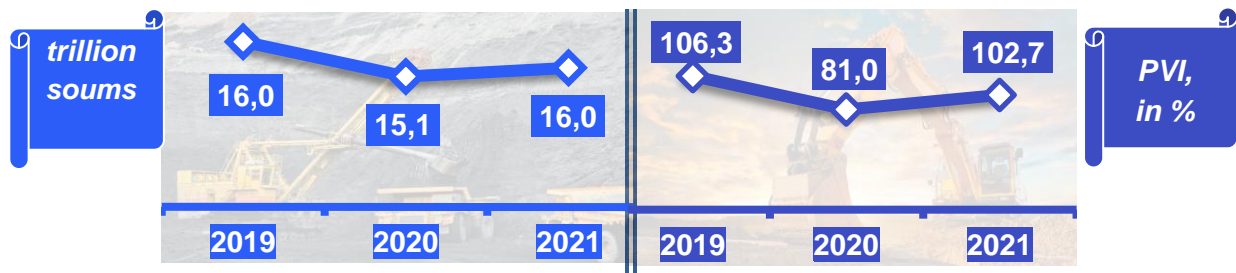

The main factors of growth in the physical volume of industrial production were its increase in mining enterprises - by 2.7%, manufacturing - by 9.6%, electricity, gas, steam and air conditioning - by 13.1%, in water supply, sewerage , collection and disposal of waste - by 3.8%.

\* The index of the physical volume of industrial production is a relative indicator that characterizes the change in the mass of products (works, services) in the compared periods.

## Mining and quarrying

for January-May

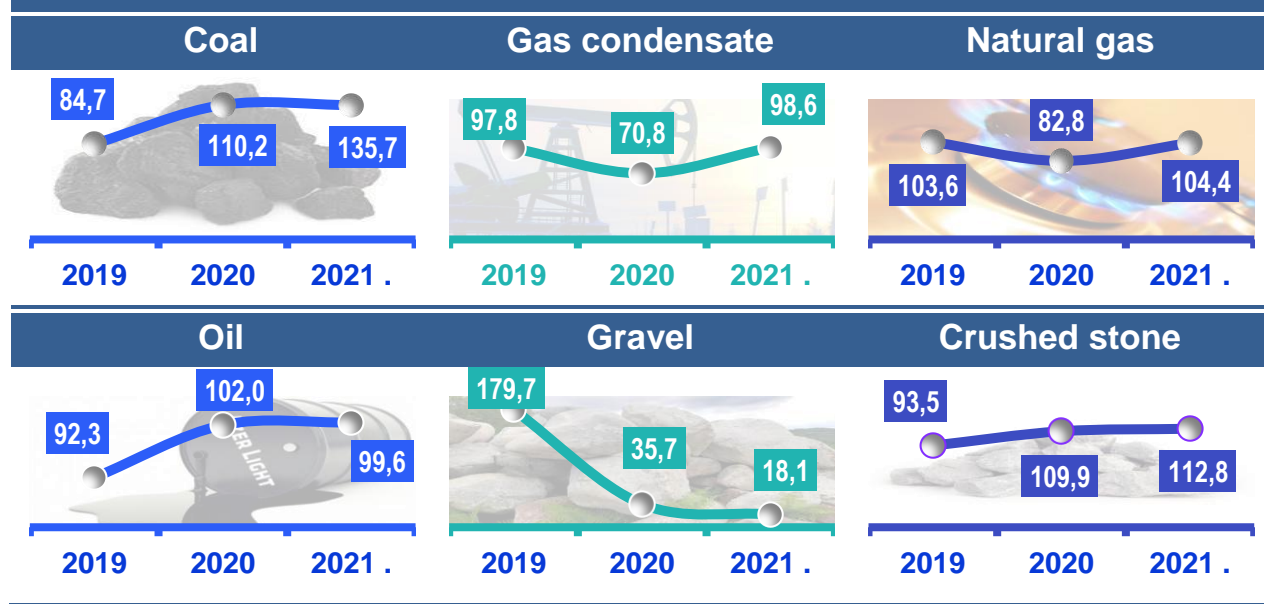

The volume of products produced by mining and quarrying enterprises in January-May 2021 amounted to 16.0 trillion soums, or 10.0% of the total industry.

Share for the period from the beginning of the year, in %

## Industrial production by large mining and quarrying enterprises

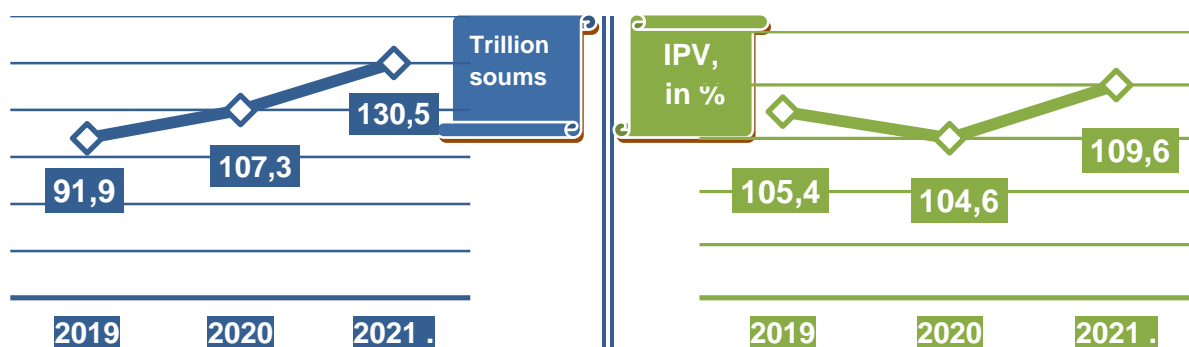

To the previous year, in %

### Industrial production by large mining and quarrying enterprises

Products	January -May 2020	January - May 2021	difference +/-
<b>Coal, thousand tons</b>	1366,7	1854,0	487,3
<b>Oil, thousand tons</b>	296,9	295,6	-1,3
<b>Natural gas, million cubic meters</b>	21452,3	22396,6	944,3
<b>Gas condensate, thousand tons</b>	576,6	568,3	-8,3
<b>Crushed stone, thousand tons</b>	514,6	580,2	65,6
<b>Gravel, thousand tons</b>	80,4	14,6	-65,8
<b>Kaolin, thousand tons</b>	78,9	96,1	17,1

### Manufacturing industry

Manufacturing enterprises in January-May 2021 produced goods for 130.5 trillion soums, or 81.6% of the total industry.

### Share for the period from the beginning of the year, in %

In the structure of the manufacturing industry, the share of high-tech industries amounted to 2.5% (1.6% in January-May 2020), medium-high-tech industries - 20.4% (24.6%), medium-low-tech industries - 40.6% (38.6%) and low-tech - 36.5% (35.2%).

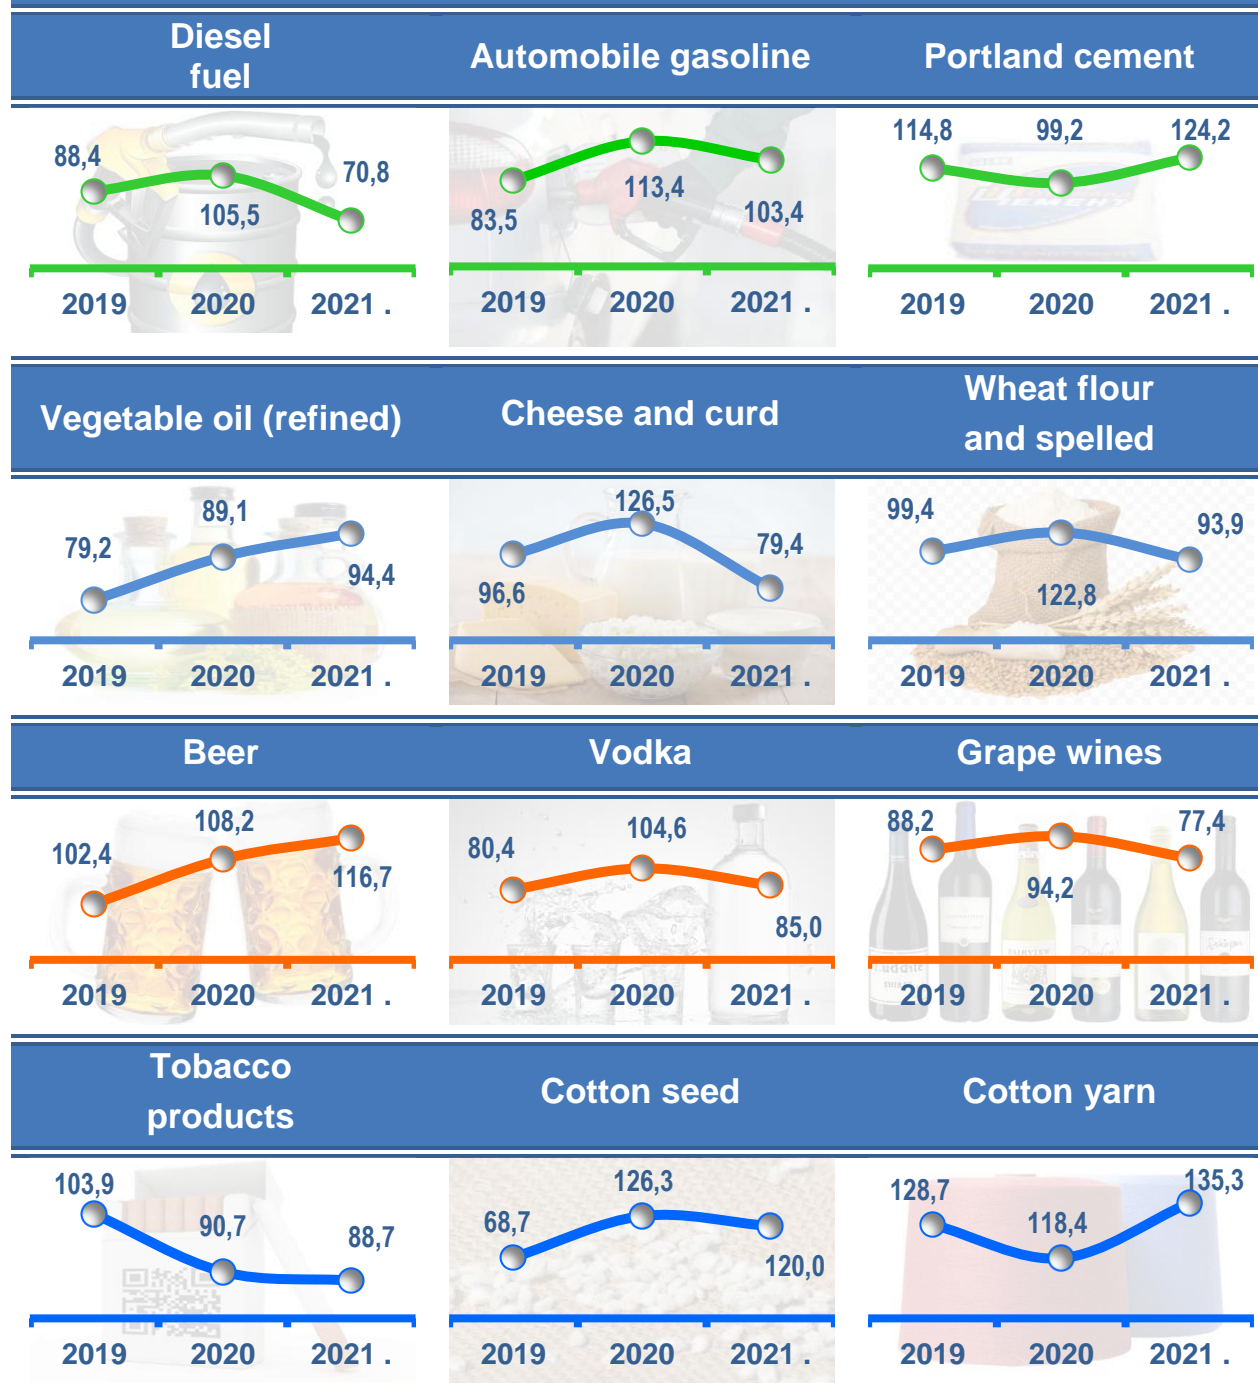

In the volume of the manufacturing industry, the share of enterprises for the production, repair, assembly of machinery and equipment, the production of cars, trailers, semitrailers and other finished products amounted to 17.5% (the physical volume index amounted to 105.3% against January-May 2020), the metallurgical industry - 27.6% (111.7%), enterprises for the production of textile, clothing and leather products - 18.2% (122.0%), for the production of food, drinks and tobacco products - 15.9% (106.5%), enterprises for the production of chemical products, rubber and plastic products - 9.4% (109.7%).

## Manufacturing of industrial products by large manufacturing enterprises

In January-May 2021, the republic produced 456.2 thousand tons of motor gasoline (compared to the corresponding period of 2020, a increase of 3.4 %), 259.0 thousand tons of cotton yarn (an increase of 35.3 %), 84.9 million liters of beer (16.7%) and 767.4 thousand tons of flour from soft wheat and spelled (a decrease of 6.1%).

To the previous year, *in %*

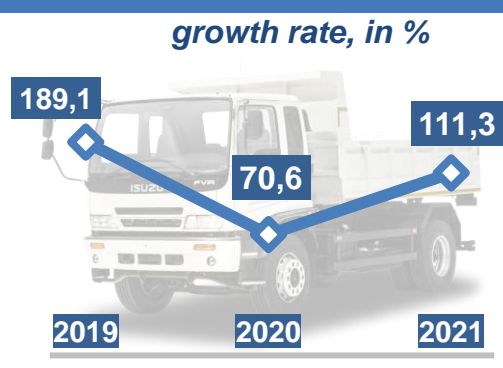

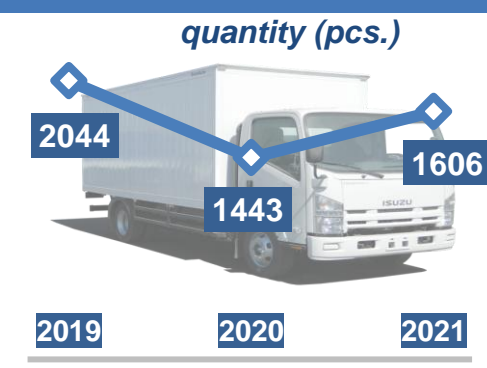

**Manufacturing of industrial products**  
**by large manufacturing enterprises**

Products	January-May 2020	January-May 2021	difference +/-
Passenger cars, pcs.	117925	85794	-32131
Trucks, pcs.	1443	1606	163
Automotive engines, thousand units	94,2	57,4	-36,8
Flour from soft wheat and spelled, thousand tons	817,2	767,4	-49,8
Cotton fiber, thousand tons	260,3	334,9	74,6
Vegetable oil (refined), thousand tons	81,1	76,6	-4,5

In January-May 2021, 1 606 trucks were produced in the republic (by the corresponding period of 2020, the volume of production increased by 11.3%).

**Production of trucks,  
for January-May**

## Manufacturing of industrial products by large manufacturing enterprises

In January-May 2021, 323 buses were produced in the republic (by the corresponding period of 2020, there was a decrease in production by 27.9%).

### Bus production, for January-May

quantity (pcs.)

growth rate, in %

In January-May 2021, 57.4 thousand units of automobile engines were produced in the republic (a decrease by 39.1% compared to the corresponding period of 2020).

### Manufacture of automobile engines, for January-May

quantity (thousand pcs.)

growth rate, in %

## Manufacturing of industrial products by large manufacturing enterprises

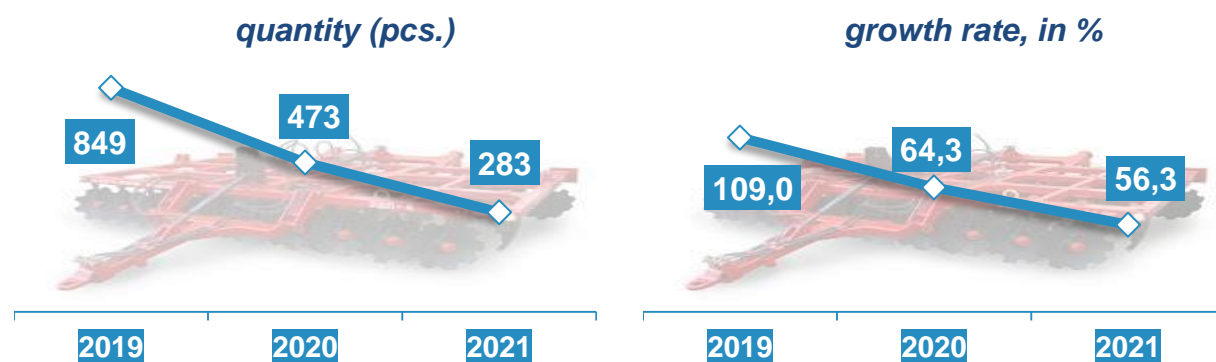

In January-May 2021, 173 tractors were produced in the republic (by January-May 2020, the production volume decreased by 72.2%).

### Tractor manufacturing, for January-May

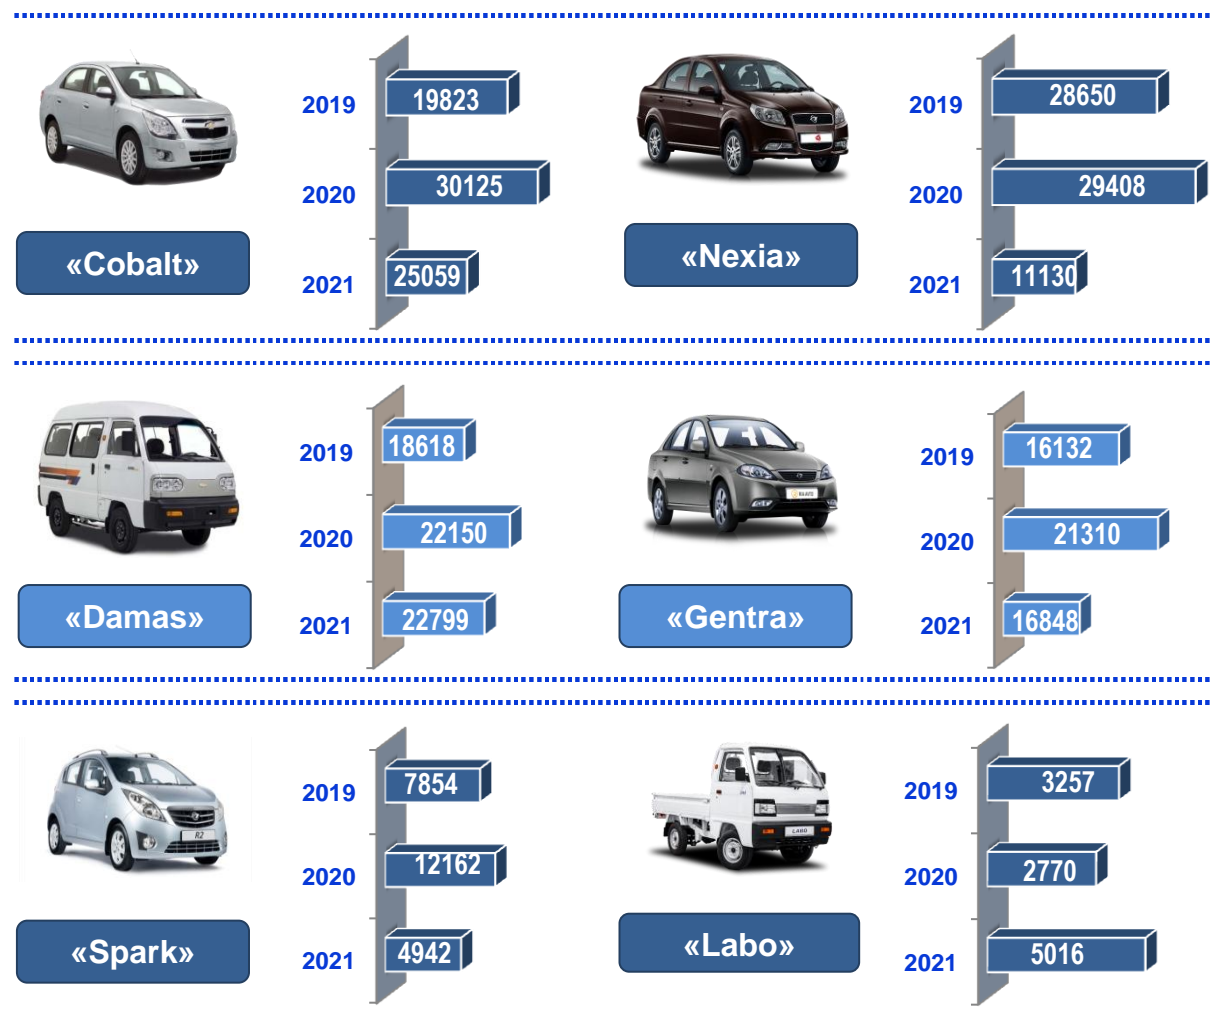

In January-May 2021, 283 pieces of rippers and cultivators were produced in the republic (by the corresponding period of 2020, a decrease in production by 43.7% was recorded).

### Production of rippers and cultivators, for January-May

In the automotive industry in January-May 2021, 25059 Cobalt cars were produced (growth rates compared to the same period in 2020 amounted to 83.2%), 11130 - Nexia (37.8%), 16848 - Gentra (79.1%), 22799 - Damas (102.9%), 4942 - Spark (40.6%) and 5016 - Labo (181.1%).

**Car production in the Republic of Uzbekistan**  
*for January-May, pcs.*

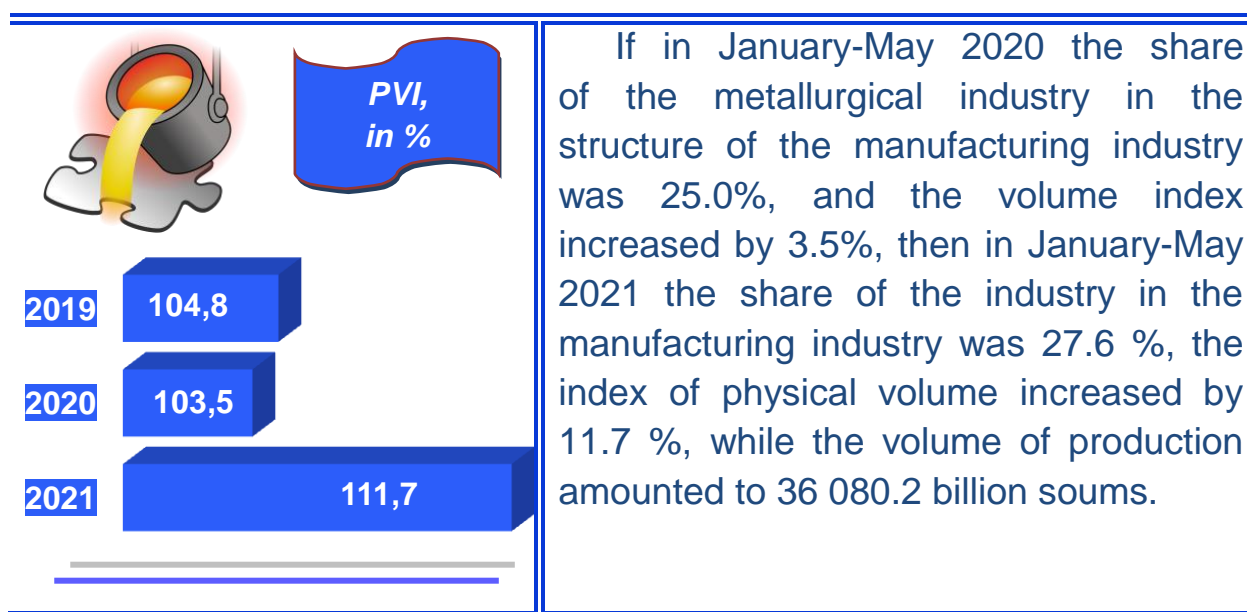

**Production by large manufacturing enterprises  
of certain types of products**

Product	January-May 2020	January-May 2021	difference +/-
Paints and varnishes based on acrylic or vinyl polymers, tons	4796,2	6445,9	1649,7
Portland cement, thsd pc.	3768,4	4679,2	910,8
Tobacco products, mln. pc.	4153,7	3685,6	-468,1
Diesel fuel, thousand tons	461,6	326,9	-134,7
Motor gasoline, thousand tons	441,3	456,2	14,9

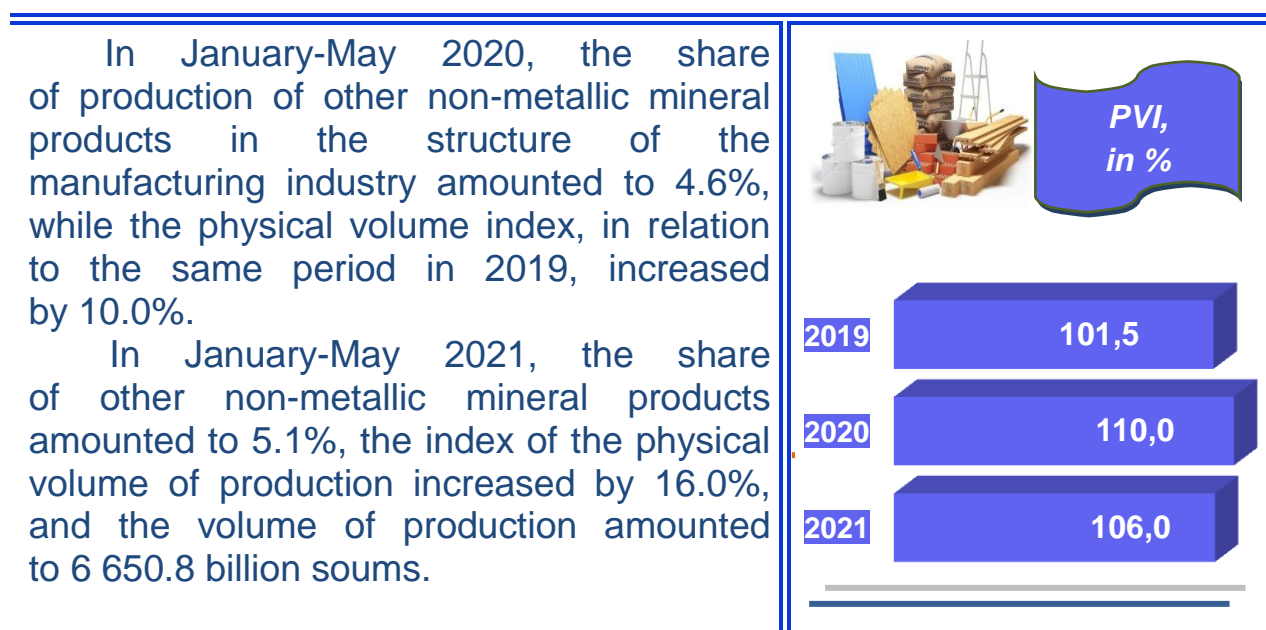

The overhaul of technological equipment made it possible to increase the capacity utilization of chemical enterprises and to exceed the production figures of the previous year for the production of methyl alcohol (10.6 times by January-May 2020), paints and varnishes based on acrylic or vinyl polymers (134.4%) and caustic soda (162,9%). At the same time, there is a decrease in the production of ammonium sulfate (81.4% compared to January-May 2020).

## Metallurgical industry *for January-May*

## Manufacture of other non-metallic mineral products *for January-May*

## Food production

*for January-May*

If in January-May 2020 the share of food production in the manufacturing industry amounted to 13.5%, and the physical volume index, in relation to 2019, reached 105.9%, then in January-May 2021 the share of food amounted to 12.9%, the index of the physical volume increased by 5.9%, the total production amounted to 16 850.7 billion soums.

*PVI,  
in %*

## Beverage production

*for January-May*

*PVI,  
in %*

At the end of January-May 2020, the share of beverage production in the structure of the processing industry amounted to 2.2%, while the physical volume index, in relation to the same period of 2019, increased by 5.1%.

In January-May 2021, the share of beverage production was 2.4%, the physical volume index was 117.9%, and the production volume reached 3 118,9 billion soums.

### Production of textile products *for January-May*

At the end of January-May 2020, the share of the production of textiles in the structure of the manufacturing industry amounted to 12.4%, while the physical volume index, in relation to the same period in 2019, amounted to 113.2%.

In January-May 2021, the share of textile production amounted to 14.4%, the index of the physical volume of their production increased by 23.7%, and the production volume amounted to 18 810.8 billion soums.

*PVI,  
in %*

### Manufacture of wearing apparel *for January-May*

*PVI,  
in %*

If in January-May 2020 the share of clothing production in the structure of the manufacturing industry was 3.1%, and the physical volume index was 103.3%, then in January-May 2021 the share

of the industry in the manufacturing industry was 3.3%, the index physical volume - 120.1%, production volume reached 4 253.6 billion soums.

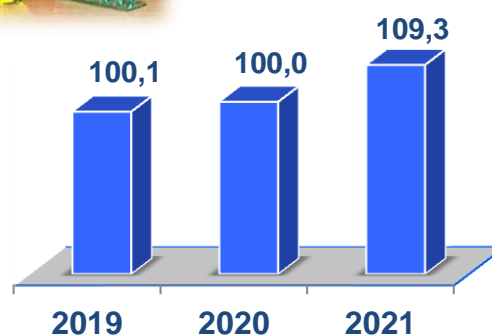

### Production of chemical products *for January-May*

In January-May 2020, the share of chemical production in the structure of the manufacturing industry was 7.8%, while the physical volume index, in relation to the same period in 2019, amounted to 100.0%.

In January-May 2021, the share of chemical products amounted to 7.8%, the index of physical volume of production increased by 9.3, and the volume of production amounted to 10 158.9 billion soums.

*PVI,  
in %*

### Production of coke and refined petroleum products *for January-May*

*PVI,  
in %*

At the end of January-May 2020, the share of coke and product production in the structure of the manufacturing industry amounted to 4.6%, while the physical volume index, in relation to the same period of 2019, amounted to 100.0%.

In January-May 2021, the share of coke and refined products production amounted to 3.2%, the physical volume index also decreased by 33.4%, and the production volume amounted to 4 201.7 billion soums.

**Manufacture of motor vehicles, trailers and semi-trailers**  
*for January-May*

*PVI,  
in %*

At the end of January-May 2020, the share of production of vehicles, trailers and semi-trailers in the structure of the manufacturing industry amounted to 12.5%, while the physical volume index, in relation to the same period of 2019, reached 109.0%.

In January-May 2021, the share of this industry amounted to 8.3%, the physical volume index decreased by 21.8%, and the production volume amounted to 10 889.2 billion soums.

**Manufacture of rubber and plastic products**  
*for January-May*

At the end of January-May 2020, the share of the production of rubber and plastic products in the structure of the manufacturing industry amounted to 1.7%, while the physical volume index, in relation to the same period in 2019, increased by 8.5%.

In January-May 2021, the share of this industry amounted to 1.6%, the physical volume index - 111.8%, production volume – 2 069.0 billion soums.

*PVI,  
in %*

## Electricity, gas, steam and air conditioning

*for January-May*

The volume of products produced by enterprises of power supply, gas supply, steam and air conditioning amounted to 12.3 trillion soums (7.7% of the total industry).

The index of the physical volume of the industry, compared to the corresponding period of 2020, increased by 13.1%.

### Share since the beginning of the year, *in%*

### Production by large enterprises of power supply, gas, steam and air conditioning of certain types of industrial products

Product name	January-May 2020	January-May 2021	difference +/-
<b>Electricity, million kW/h</b>	26434,1	28809,1	2375,0
<b>Heat energy thousand Gcal</b>	13426,5	13658,9	232,4
<b>Gas from underground coal gasification, thousand cubic meters</b>	126647	126466	-181,0

## Water supply, sewerage, waste collection and disposal

for January-May

The volume of products produced by enterprises of water supply, sewerage, waste collection and disposal amounted to 1.2 trillion soums (0.7% of the total industry).

### Share for the period from the beginning of the year, in %

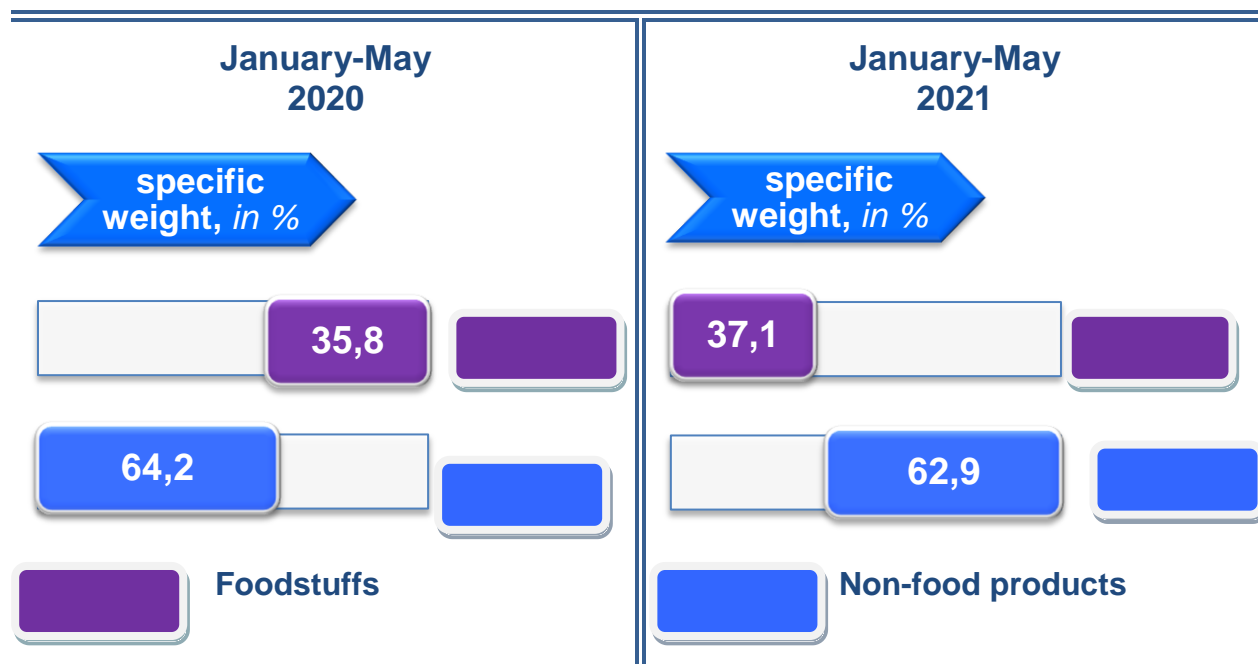

Product name	January-May 2020	January-May 2021	difference +/-
Services for the removal, transportation and treatment of wastewater, <i>billion soums</i>	68,4	108,3	39,9
Services for the emptying, cleaning and treatment of cesspools, sedimentation tanks and septic tanks, <i>mln. soums</i>	153,0	203,5	50,5
Textile waste, <i>tons</i>	5688,7	5627,2	-61,5

Compared to the corresponding period of 2020, there was an increase in services for the emptying, cleaning and treatment of cesspools, sedimentation tanks and septic tanks by 33.0%, as well as services for the removal, transportation of wastewater and their treatment - by 58.4%. At the same time, a decrease in the production of textile waste by 1.1% was recorded.

### Consumer goods manufacturing

As a result of measures taken to expand the range and stimulate the production of finished products, the production of consumer goods amounted to 49.4 trillion soums and, in comparison with the corresponding period of 2020, the growth rate reached 107.3%, the share in the total volume of industry was 30.9%.

In the structure of food production, the production of wine and vodka products and beer amounted to 6.1% (6.6% in January-May 2020).

In the structure of consumer goods production in the republic, the largest share falls on the city of Tashkent (22.2% of the total volume of consumer goods) Andijan (17.5%), Tashkent (11.2%) and Samarkand (9.3%) regions.

The largest growth in consumer goods production was recorded in Jizzakh (124.7% compared to the corresponding period of 2020), Syrdarya (122.0%), Bukhara (122.0%), Samarkand (124.2%) regions and Tashkent city (120.5%), exceeding the national average (107.3%).

**Index of physical volume of industrial production  
and growth rates of consumer goods  
by regions of the Republic of Uzbekistan, %**

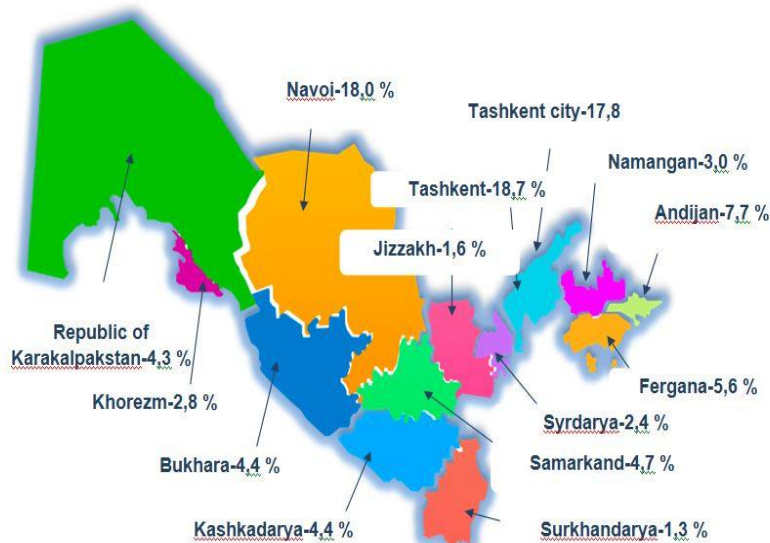

The change in industrial production was significantly influenced by the growth in the index of the physical volume of industrial production in Kashkadarya (127.4% compared to January-May 2020), Jizzakh (119.1%), Syrdarya (123.7%), Samarkand (110.9 %) regions and Tashkent city (117.9%).

### The share of industrial products of the regions in the total production of the Republic of Uzbekistan, %

In the structure of industrial output of the republic, the largest share falls on enterprises in Tashkent city (17.8% of the republican volume of industry), Tashkent (18.7%), Navoi (18.0%), Andijan (7.7%) and Fergana (5.6%) regions.

The smallest share of industrial production was recorded at the enterprises of Surkhandarya (1.3%) and Jizzakh (1.6%) regions.

Analysis of the differentiation of industrial output per capita showed an excess of the national average (4,621.7 thousand soums) in Navoi (28,372.9 thousand soums), Tashkent (10,016,1 thousand soums), Syrdarya (4,396.8 thousand soums) regions and Tashkent city (10,517.7 thousand soums).

The production of consumer goods per capita in the reporting period in the republic amounted to 1,427.9 thousand soums, including in Tashkent city – 4,057.8 thousand soums, Andijan region – 2,712.5 thousand soums, Tashkent region - 1,856.5 thousand soums.

## Small business contribution to industrial production for January-May 2021, in %

During the reporting period, small businesses produced goods worth 35,8 trillion soums, the share of which in the total production volume amounted to 22,4%.

In terms of regions, the largest share of small business was observed in Jizzakh (47,3% of the total volume of industry in the region), Samarkand (37,9%), Namangan (41,7%), Fergana (39,4%) and Surkhandarya (37,6%) regions.

At the same time, the smallest share of small business was noted in Navoi (5.8%), Tashkent (17.2%), Khorezm (20.3%) and Kashkadarya (19.8%) regions, as well as in the Republic of Karakalpakstan (15.9 %). Analysis of the structure of industrial production in the context of the regions of the republic showed that the low share of production of small businesses in the total volume of industry is explained by the significant volume of production of large industrial enterprises located in these regions.

**Number of operating and newly created industrial enterprises**

*as of June 1, 2021*

Today, 88.4 thousand industrial enterprises operate in the republic, of which 16.3 thousand (18.4% of the total number of operating enterprises) fall on the city of Tashkent, 9.6 thousand (10.9 %) – Fergana, 9,1 thousand (10.3 %) – Tashkent, 9,0 thousand (10.2 %) – Andijan, 7.6 thousand (8.6 %) – Samarkand and 7,0 thousand (7.9 %) – Namangan regions.

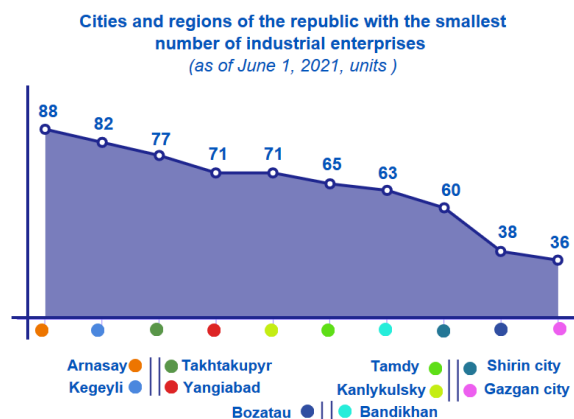

In January-May 2021, 9276 industrial enterprises were newly created in the republic, of which 977 (10.5% of the total number of newly created) accounted for Fergana, 879 (9.5%) - Samarkand, 838 (9,0%) - Kashkadarya, 792 (8,5%) – Namangan and 1012 (10,9%) - Tashkent city.
