

Industrial Production in the Republic of Uzbekistan

January–September 2026

- I. Number of Operating Industrial Enterprises in Uzbekistan
- II. Key Industrial Indicators in Uzbekistan
- III. Production of Select Industrial Goods by Large Industrial Enterprises
- IV. Methodological Notes and Metadata on Industrial Production

I. Number of Operating Industrial Enterprises in Uzbekistan

As of October 1, 2026, a total of 66.0 thousand industrial enterprises were operating in the republic. An analysis of these enterprises by their main types of economic activity showed that the largest share was concentrated in the following sectors:

- food production – 13,3 thousand (20,2%);
- production of other non-metallic mineral products – 9,2 thousand (13,9%);
- apparel manufacturing – 6,8 thousand (10,3%);
- manufacturing of fabricated metal products – 5,4 thousand (8,2%);
- furniture manufacturing – 4,5 thousand (6,9%);
- textile manufacturing – 4,0 thousand (6,1%);
- production of rubber and plastic products – 3,0 thousand (4,6%).

**Figure 1. Share of Industrial Enterprises
by Main Type of Economic Activity**
as of October 1, 2026

II. Key Indicators of Industry in Uzbekistan

In January–September 2026 enterprises in the republic produced industrial goods worth **1 085,7** trillion soums. This represents an increase of **8,1** % compared to the same period last year.

Table 1. Industrial Production Volume and Physical Volume Index by Region

	Volume, billion UZS	Physical Volume Index, %
Republic of Uzbekistan	1 085 692,2	108,1
<i>Regions:</i>		
Republic of Karakalpakstan	27 841,9	107,1
Andijan Region	87 509,4	108,1
Bukhara Region	46 339,0	108,7
Jizzakh Region	37 972,4	113,1
Kashkadarya Region	48 082,8	108,4
Navoi Region	228 966,7	107,4
Namangan Region	40 309,9	109,0
Samarkand Region	60 217,8	109,5
Surkhandarya Region	22 552,3	108,6
Syrdarya Region ¹⁾	24 346,0	108,2
Tashkent Region	175 544,9	108,4
Fergana Region	55 134,7	108,5
Khorezm Region	32 372,6	108,6
Tashkent City	187 230,9	107,9

Volume of industrial production per capita

An analysis of the volume of industrial production per capita shows that figures higher than the national average (**27,6** million UZS) were recorded in the Navoi Region (**192,4** million UZS), Tashkent city (**57,6** million UZS), and the Tashkent Region (**46,4** million UZS).

At the same time, while the growth rate of industrial production per capita for the republic was **106,2%**, the Jizzakh Region **111,0%**, the Samarkand Region **107,4%**, Bukhara region **107.1%**, and Namangan region **107.0%** all recorded figures above the national level.

¹⁾ Taking into account the increased electricity output from newly established enterprises in the region operating on the basis of public-private partnerships

(January-September)

Thematic Indicators:

[Industrial Production Volume per Capita \(Annual\)](#)
[Industrial Production Volume per Capita \(Monthly\)](#)

Main Sectors of Industrial Production in the Republic

In the structure of industrial production for January-September 2026, the manufacturing industry accounted for the largest share at **943,2** trillion soums, representing a share of total industrial output of **86,9%**; electricity, gas, steam, and air conditioning supply accounted for **66,1** trillion soums **6,0%**; mining and quarrying accounted for **70,3** trillion soums **6,5%**; and water supply, sewerage, waste collection, and disposal accounted for **6,1** trillion soums **0,6%**.

Figure 3. Production volume by main industrial sectors and physical volume index
for January-September 2026

The industrial production structure consists of 4 main sections: B, C, D, and E.

B - Mining and quarrying

C - Manufacturing

D - Electricity, gas, steam and air conditioning supply

E - Water supply, sewerage, waste collection and disposal

III. Production of selected industrial goods by large industrial enterprises

In January–September 2026, large industrial enterprises in the republic produced the following selected types of industrial products: Natural gas – **27,0** billion m³, oil – **482,2** thousand tons, coal– **5,4** million tons, motor gasoline – **913,2** thousand tons, diesel fuel – **979,0** thousand tons, Portland cement – **16,2** million tons, yarn – **647,4** thousand tons, common wheat and spelt flour – **1 095,7** thousand tons.

Table 2. Production of selected industrial products by large industrial enterprises

Industrial products	January-September 2024 ¹⁾	January- September 2025 ¹⁾	January- September 2026
Automotive engines, units	187 127	174 826	184 686
Motor gasoline, thousand tons	998,0	890,1	913,2
Diesel fuel, thousand tons	796,8	876,1	979,0
Coal, million tons	5,3	5,8	5,4
Oil, thousand tons	542,2	490,1	482,2
Natural gas, billion m3	33,7	32,3	27,0
Gas condensate, thousand tons	923,1	849,2	729,2
Portland cement, million tons	11,9	15,7	16,2

¹⁾ Product output volumes for January-September 2024-2025 are compiled based on data provided by enterprises, adjusted in accordance with the annual balance.

Related indicators:

[Production volume of selected industrial products \(annual\)](#)

Industrial production volumes for selected types of economic activity within the manufacturing industry

In the manufacturing industry, the share of food, beverage, and tobacco product manufacturing is **20,1%**; the share of textile, clothing, leather, and leather goods manufacturing is **11,7%**; the share of finished metal products manufacturing (excluding machinery and equipment; computers, electronic, and optical products; electrical equipment; machinery and equipment not elsewhere classified; motor vehicles, trailers, and semi-trailers; other transport equipment; as well as the repair and installation of machinery and equipment) is **15,9%**; and the share of chemical, rubber, and plastic product manufacturing is **6,4%**.

**Table 3. Number of automobiles produced in Uzbekistan
for January-September, units**

Industrial products	January-September 2025¹⁾	January-September 2026
Trucks	3 615	4 447
Passenger cars	326 370	356 318
of which:		
specialized passenger cars	39 169	43 098
"Cobalt"	116 008	120 672
"Damas"	67 879	63 401
"CHEVROLET DAMAS MOVE"	-	2 137
"Tracker"	34 179	34 080

"Chery"	6 882	7 221
"Haval"	6 245	6 953
"BYD"	13 730	26 706
"TANK 500"	47	2

¹⁾ Product output volumes for January-September 2025 are compiled based on data provided by enterprises, adjusted in accordance with the annual balance.

**Table 4. Volume of textile products produced in Uzbekistan
for January-September**

Industrial products	January-September 2025¹⁾	January- September 2026
Cotton yarn, tons	426 937,4	647 403,1
Cotton fabrics containing 85 wt.% or more of cotton fibers, thousand m ²	72 540,9	94 228,7
Knitted or crocheted fabrics, tons	59 623,0	60 359,6
Knitted or crocheted outerwear, thousand units	47 996,4	38 660,8
Knitted underwear, thousand units	77 435,4	105 368,1

¹⁾ Product output volumes for January-September 2025 are compiled based on data provided by enterprises, adjusted in accordance with the annual balance.

By section: Electricity, gas, steam and air conditioning supply

In January-September 2026, **67 159,5** million kWh of electricity was generated, which is **7,3%** more than in the corresponding period of the previous year (excluding electricity generated by small businesses and households for which electricity production is not their primary activity).

The volume of heat energy produced by large enterprises decreased by **19,3%**.

Table 5. Electricity and thermal energy generation indicators

Industrial products	January-September 2024¹⁾	January-September 2025¹⁾	January-September 2026
Total electricity generated, million kWh	60 262,4	62 565,2	67 159,5
<i>of which:</i>			
<i>by large enterprises (according to statistical reports)</i>	<i>53 413,9</i>	<i>45 100,5</i>	<i>44 402,6</i>
<i>by small business entities (according to survey data) ²⁾</i>	<i>6 848,5</i>	<i>17 464,7</i>	<i>22 756,9</i>
Thermal energy, thousand Gcal (large enterprises)	16 538,0	14 423,8	11 639,9

¹⁾ Production volumes for January-September 2024-2025 were compiled by enterprises based on data adjusted in accordance with the annual balance.

²⁾ Small enterprises whose primary activity is electricity production.

Table 6. Selected indicators for water supply, sewerage, waste collection and disposal

Industrial products	January-September 2024¹⁾	January-September 2025¹⁾	January-September 2026
Wastewater removal, transportation, and treatment services, billion soums	477,9	534,6	616,6
Services for emptying, cleaning, and treating cesspools, settling tanks, and septic tanks, million soums	305,5	310,6	311,2
Textile waste, tonnes	13 954,7	22 857,6	21 840,5

¹⁾ Production volumes for January-September 2024–2025 were generated based on data adjusted by enterprises in accordance with the annual balance.

IV. Methodological explanations and metadata

Data on the volume of industrial production by product type are generated using the codes of the Statistical Classifier of Products (Goods, Works, Services) of the Republic of Uzbekistan by type of economic activity (O'zDSt 2914:2014). These include the mining and quarrying industry, the manufacturing industry, electricity supply, gas supply, steam and air conditioning supply, water supply, wastewater treatment, and waste collection and processing services (sections B, C, D, E).

In some cases, minor discrepancies between the total and the sum of its components are due to data rounding.
