#### **Industrial production in the Republic of Uzbekistan**

for January-August 2025

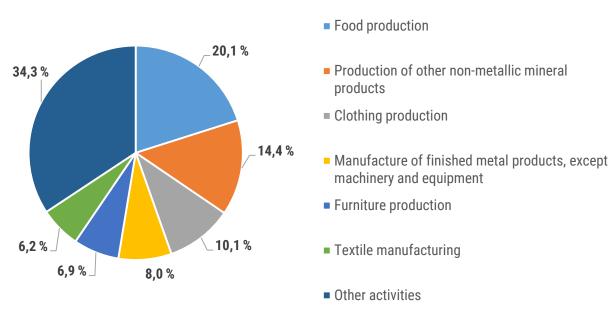

- I. The number of operating industrial enterprises in the Republic of Uzbekistan
- II. Main industrial indicators of the Republic of Uzbekistan
- III. Production of certain types of industrial products by large industrial enterprises
- IV. Methodological explanations and metadata on industrial production

### I. The number of operating industrial enterprises in the Republic of Uzbekistan

As of September 1, 2025, there were 59 000 industrial enterprises operating in the republic. By main types of economic activity, the largest number of enterprises are in the following sectors:

- Food production 11.9 thousand (20.1 %).
- Production of other non-metallic mineral products 8.5 thousand (14.4 %).
- Clothing production 6.0 thousand (10.1 %).
- Production of finished metal products 4.7 thousand (8.0 %).
- Furniture production 4.0 thousand (6.9 %).
- Production of textile products 3.7 thousand units (6.2 %).
- Production of rubber and plastic products 2.8 thousand (4.7 %).

# Share of industrial enterprises by main types of economic activity. as of September 1

#### II. Main industrial indicators of the Republic of Uzbekistan

From January to August 2025, enterprises in the republic produced industrial goods worth **660.2** trillion soums. This figure increased by **6.4** % compared to the same period of the previous year.

|   | Volume, billion soums | Physical volume index, % |
|---|-----------------------|--------------------------|
| Republic of<br>Uzbekistan                 | 660 195,4             | 106,4                    |
| Republic of<br>Karakalpakstan<br>regions: | 17 392,2              | 102,5                    |
| Andijan                                   | 61 514,4              | 107,2                    |
| Bukhara                                   | 29 907,8              | 107,1                    |
| Jizzakh                                   | 21 735,5              | 113,6                    |
| Kashkadarya                               | 29 126,1              | 106,8                    |
| Navoi                                     | 119 848,6             | 109,1                    |
| Namangan                                  | 24 268,4              | 109,1                    |
| Samarkand                                 | 34 447,2              | 107,3                    |
| Surkhandarya                              | 10 787,9              | 107,8                    |
| Syrdarya <sup>1)</sup>                    | 16 300,7              | 107,4                    |
| Tashkent                                  | 100 652,6             | 105,4                    |
| Fergana                                   | 34 332,9              | 107,0                    |
| Khorezm                                   | 21 023,1              | 109,0                    |
| Tashkent city                             | 126 860,3             | 106,5                    |

#### Indicators on the topic:

Industrial production volume (monthly)

Volume of industrial production (annual)

Index of physical volume of industrial production (monthly)

Index of physical volume of industrial production (annual)

#### Industrial production volume per capita

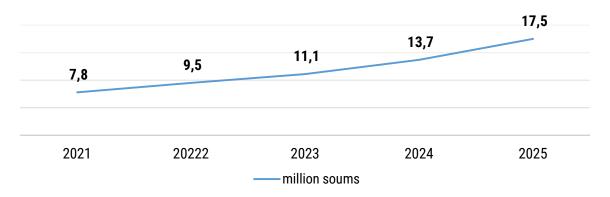

When analyzing the volume of industrial production per capita, indicators above the national average (17.5 million soums) were recorded in Navoi region (109.1 million soums), Tashkent city (40.1 million soums), Tashkent region (32.2 million soums) and Andijan region (17.7 million soums).

Moreover, if the growth rate of industrial production per capita in the republic was 104.3 %, then in the Jizzakh region it was 111.4 %, in the Navoi region – 107.2 %, in the Khorezm region – 107.1 %, which is significantly higher than the national indicator.

<sup>&</sup>lt;sup>1)</sup> Taking into account the increase in electricity generation volumes by newly established enterprises in the region operating on the basis of public-private partnerships.

#### Industrial production volume per capita (in January-August)

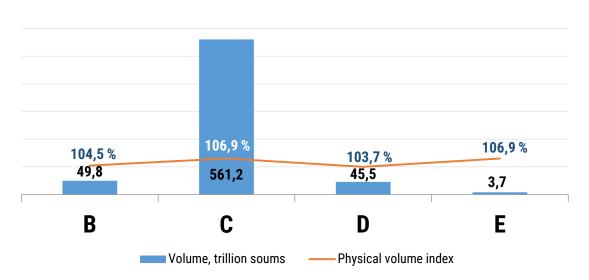

#### Indicators on the topic:

<u>Volume of industrial production per capita (annual)</u> <u>Industrial production volume per capita (monthly)</u>

#### Main branches of industrial production

In the industrial production structure for January-August 2025, the manufacturing industry accounted for the largest share, accounting for **561.2** trillion soums, with a share of total industrial production (**85.0** %); mining and quarrying accounted for **49.8** trillion soums (**7.5** %); electricity, gas, steam, and air conditioning accounted for **45.5** trillion soums (**6.9** %); and water supply, sewerage, and waste collection and disposal accounted for **3.7** trillion soums (**0.6** %).

The structure of industrial production consists of 4 sections B, C, D, E:

- B mining and quarrying
- C manufacturing industry
- D electricity, gas, steam and air conditioning supply
- E water supply; sewerage, waste collection and disposal.

## III. Production of certain types of industrial products by large industrial enterprises

In January-August 2025, the republic produced:

- Natural gas 28.9 billion cubic meters
- Oil 434.5 thousand tons
- Coal 4.7 million tons
- Motor gasoline 770.3 thousand tons
- Diesel fuel 785.8 thousand tons
- Cement 13.3 million tons
- Yarn 402 thousand tons
- Soft wheat and spelt flour 766.1 thousand tons.

<sup>&</sup>lt;sup>1)</sup> Production volumes for January-August 2023-2024 are based on data provided by enterprises, adjusted in accordance with the annual balance sheet.

#### Indicators on the topic:

Volume of production of individual types of industrial products (annual)

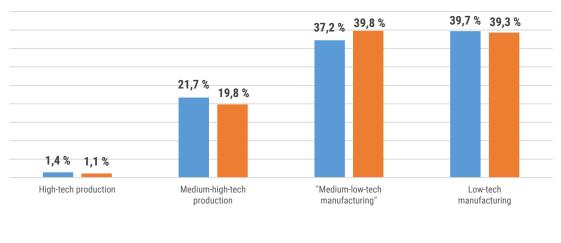

### Volumes of industrial production of individual types of economic activity included in the manufacturing industry

In the manufacturing industry, the share of production of food products, beverages and tobacco products is 19.4 %, the share of production of textiles, clothing, leather and leather products is 15.3 %, the share of production of finished metal products and equipment, computers, optical products. electrical equipment, machinery electronic and and not included in other groups, motor vehicles, trailers and semi-trailers, other transport equipment, well repair and installation of machinery and equipment as as is **18.6** %, and the share of production of chemical products, rubber and plastic products is **7.0** %.

#### Technological composition and share of the manufacturing industry

Compared to the same period of the last year, the share of the high-tech sector in the manufacturing industry was 1.1 %, medium-high-tech – 19.8 %, medium-low-tech – 39.8 %, low-tech – 39.3 %.

2024 2025

### Number of cars produced in the Republic of Uzbekistan for January-August, pcs.

| Industrial products  | 2024    | 2025    |

<sup>&</sup>lt;sup>1)</sup> Production volumes for January-August 2023-2024 are based on data adjusted by enterprises in accordance with the annual balance sheet.

#### IV. Methodological explanations and metadata

Data on industrial output by product type is compiled using codes from the Statistical Classifier of Products (Goods, Works, Services) of the Republic of Uzbekistan by Type of Economic Activity (UzDSt 2914:2014). These include mining, manufacturing, electricity, gas, steam, air conditioning, water supply, wastewater treatment, and waste collection and recycling services (Sections B, C, D, E)..
