### I. Foreign Trade Turnover

In January–April 2026, the country's foreign trade turnover (FTT) amounted to \$26 332,0 million, an increase of \$1 437,0 million, or 5,8%, compared to the same period in 2025.

Of the total FTT, exports accounted for 9 973,8 million US dollars (a decrease of 16,8% compared to January–April 2025), while imports reached 16 358,2 million US dollars (an increase of 26,7% compared to January–April 2025). This resulted in a trade deficit of 6 384,4 million US dollars (a 26,7% increase compared to January–April 2025). As a result, a negative balance of 6 384,4 million US dollars was observed.

At the same time, exports of goods excluding gold amounted to 5 005,5 million US dollars, an increase of 28,7% compared to the same period last year.

**Dynamics of Key Partner Countries in the Foreign Trade Turnover of the Republic of Uzbekistan for January–April, in millions of US dollars**

	<b>2024</b>	<b>2025</b>	<b>2026</b>
China	3 960,9	4 169,5	6 226,1
Russian Federation	3 821,8	3 788,4	4 524,8
Kazakhstan	1 224,4	1 394,6	1 808,6
Türkiye	928,9	837,4	920,6
Afghanistan	319,4	516,1	728,2
Republic of Korea	694,1	588,0	638,3
United Arab Emirates	182,3	334,2	626,7
France	402,6	441,5	618,1

In January–April 2026, fruit and vegetable exports amounted to 454,5 million US dollars. This figure increased by 9,5% compared to the same period in 2025, and its share in total exports was 4,6%.

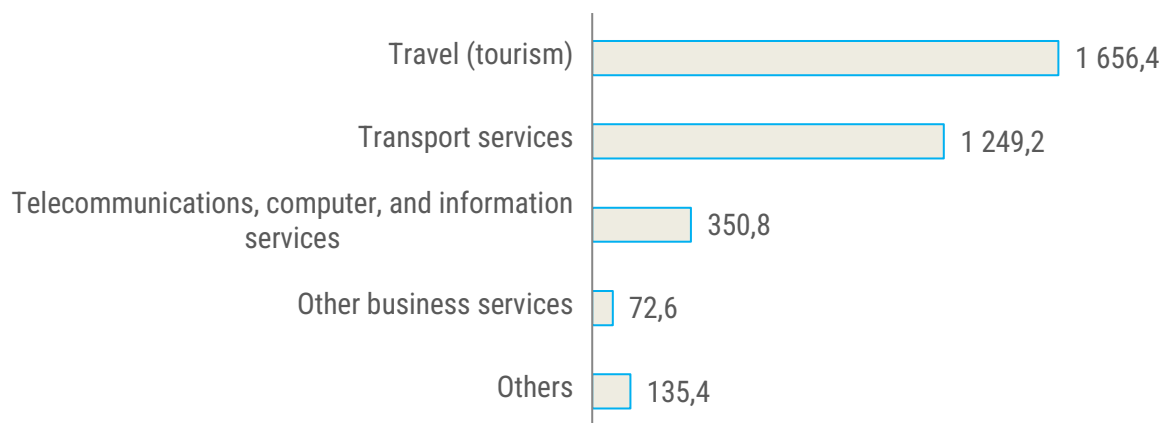

Share of textile exports

In January-April 2026, textile products were exported for a total of 1 009,2 million US dollars, which accounted for 10,1% of the total export volume and marked a 20,2% increase compared to the same period in 2025.

In the structure of textile exports, the main share is comprised of finished textile products (50,5%) and yarn (32,5%).

**Export of Services**  
*for January-April 2026, million US dollars*

**Related indicators:**

[Export of Services \(by type of service, monthly\)](#)

The volume of exports of services in January-April 2026 amounted to 3 464,5 million US dollars, or 34,7% of total exports, an increase of 32,6% compared to the same period in 2025. Within the structure of service exports, the largest shares are held by travel (tourism) (47,8%), transport services (36,1%), telecommunication, computer, and information services (10,1%), and other business services (2,1%).

### III. Import Indicators

During this period, imports amounted to 16 358,2 million US dollars (an increase of 26,7% compared to January-April 2025). The main share in its structure is comprised of machinery and transport equipment (33,7%), industrial goods (15,3%), and chemical products and similar items (12,4%).

An analysis of the dynamics of goods imports shows that in January-April 2026, compared to the same period in 2025, the volume of goods imports increased by 3 227,3 million US dollars to a total of 14 727,7 million US dollars, while the import of services reached 1 630,6 million US dollars

The value of imported services for January-April 2026 amounted to 1 630,6 million US dollars, representing 10,0% of the total, an increase of 15,5% compared to the same period in 2025.

### Structure of services imports for January–April 2026, million USD

#### Indicators for this topic:

[Import of services \(by type of service, monthly\)](#)

In the structure of services imports, the main shares are held by travel (tourism) (46,4%), transport services (21,9%), telecommunication, computer, and information services (11,3%), and other business services (9,6%).

#### IV. Metadata

When compiling statistical indicators on the foreign trade of goods of the Republic of Uzbekistan, the UN's Standard International Trade Classification (SITC) is used alongside the HS (Harmonized System), which allows for exported and imported goods to be grouped into 10 major sections for analytical purposes. Goods are assigned SITC codes using conversion keys between the HS and the SITC.

Foreign trade statistics are compiled based on data on foreign trade in goods and services. The primary data for compiling statistics on foreign trade in goods are data from cargo customs declarations of the Customs Committee and statistical observations of the National Statistics Committee on goods transferred from residents to non-residents that do not cross the state border and are not included in a customs declaration. Statistics on foreign trade in services are compiled based on statistical observations.

In some cases, minor discrepancies between the total and the sum of its components are due to data rounding.
