I. FOREIGN TRADE TURNOVER OF THE REPUBLIC OF UZBEKISTAN

In January-February 2025, the foreign trade turnover (FTT) in the country amounted to 10.8 billion US dollars and increased, compared to the same period in 2024, by 973.3 million US dollars, or 9.9 %.

Foreign trade turnover (*million US dollars*)

Of the total FTT volume, exports amounted to 4 643.0 million US dollars (an increase of 27.7 % by January 2024), and imports amounted to 6 202.6 million US dollars (an increase of 0.6 %). As a result, the balance of foreign trade turnover amounted to a negative balance of -1 559.6 million US dollars.

IV. Methodological explanations

* When forming statistical indicators on foreign trade in goods of the Republic of Uzbekistan, along with the Commodity nomenclature of foreign economic activity, the International Standard Trade Classification of the United Nations (hereinafter referred to as SITC) is used, which allows for analytical purposes to group exported and imported goods into 10 major sections. Assignment of SITC codes to goods is carried out using transition keys between the Commodity nomenclature of foreign economic activity and SITC.

Foreign trade statistics are formed on the basis of data on foreign trade in goods and services: the initial data for the formation of statistics on foreign trade in goods are data on cargo Customs declarations of the Customs Committee and statistical observations of the National Statistics Committee on goods moved from residents to non-residents that do not cross the state border and are not included in the customs declaration; the formation of statistics on foreign trade services is carried out on the basis of statistical observations.
