### I. Foreign trade turnover

In January-March 2026, the country's foreign trade turnover (FTT) amounted to 18,0 billion US dollars, an increase of 471,0 million US dollars, or 2,7%, compared to the same period in 2025.

Of the total FTT volume, exports amounted to 5 809,2 million US dollars (a decrease of 29,3% compared to January-March 2025), while imports reached 12 213,8 million US dollars (an increase of 30,8% compared to January-March 2025). This resulted in a trade deficit of 6 404,6 million US dollars.

At the same time, exports of goods, excluding special exports, showed steady growth, amounting to 3 482,4 million US dollars, an increase of 26,2% compared to the same period last year.

In January–March 2026, exports of fruits and vegetables amounted to USD 317,7 million. This figure increased by 12,4% compared to the same period in 2025, and its share in total exports was 5,5%.

Share of textile product exports

In January–March 2026, textile exports amounted to USD 739,9 million, which accounted for 12,7% of total exports and was an increase of 17,6% compared to the same period in 2025.

In the structure of textile exports, the main share consists of finished textile products (51,7%) and yarn (31,4%).

**Export of services**  
*For January–March 2026, million USD*

**Thematic indicators:**

[Export of services \(by type of service, monthly\)](#)

The volume of service exports for January–March 2026 amounted to 2 326,8 million USD, or 40,1% of total exports, an increase of 26,8% compared to the same period in 2025. The main components of service exports are travel (tourism) (48,0%), transport services (35,5%), telecommunications, computer, and information services (10,3%), and other business services (2,1%).

**III. Import indicators**

During this period, imports totaled 12 213,8 million USD (an increase of 30,8% compared to January–March 2025). The main share of imports was comprised of machinery and transport equipment (33,8%), industrial goods (13,9%), and chemical substances and related products (12,0%).

An analysis of the dynamics of goods imports showed that in January–March 2026, the volume of goods imports increased by 2 689,7 million USD compared to the same period in 2025, reaching 10 991,0 million USD, while the import of services reached 1 222,8 million US dollars.

The volume of service imports for January-March 2026 amounted to 1 222,8 million US dollars, or 10,0% of total imports, an increase of 17,9% compared to the same period in 2025.

**Structure of service imports**  
*for January-March 2026, million US dollars*

**Related indicators:**

[Import of services \(by type of service, monthly\)](#)

Within the structure of service imports, the largest shares are held by travel (tourism) (49,8%), transport services (19,8%), telecommunication, computer, and information services (12,4%), and other business services (8,3%).

#### **IV. Metadata**

When compiling statistical indicators on the foreign trade of goods of the Republic of Uzbekistan, the United Nations Standard International Trade Classification (SITC) is used in addition to the Commodity Nomenclature of Foreign Economic Activity (TN VED). The SITC allows for exported and imported goods to be grouped into 10 major sections for analytical purposes. SITC codes are assigned to goods using conversion keys between the TN VED and the SITC.

Foreign trade statistics are compiled based on data on the foreign trade of goods and services. The source data for compiling statistics on the foreign trade of goods are cargo customs declarations from the Customs Committee and statistical observations from the National Statistics Committee on goods transferred from residents to non-residents that do not cross the state border and are not included in a customs declaration. Statistics on foreign trade in services are compiled based on statistical observations.

In some cases, minor discrepancies between the total and the sum of its components are due to data rounding.
