

STATISTICS AGENCY UNDER  
THE PRESIDENT OF THE  
REPUBLIC OF UZBEKISTAN

## MAIN INDICATORS OF THE SERVICE SECTOR IN THE REPUBLIC OF UZBEKISTAN

for January - June 2024

*Preliminary data*

In order to increase the share of the service sector in the country's economy, expand the types and improve their quality, as well as to further support business entities in this area, the Resolution of the President of the Republic of Uzbekistan dated May 11, 2021 No. PD-5113 "On measures to accelerate the development of the service sector" approved the target parameters for the development of the service sector in our country and provides for their monitoring.

## Main indicators of the service sector (for January-June 2024)

**72,5%**

**Share of enterprises  
and organizations in  
the service sector**

**7 252,0  
thousand  
soums**

**Volume of  
services per  
capita**

**46,6%**

**The share of small  
businesses in the  
service sector**

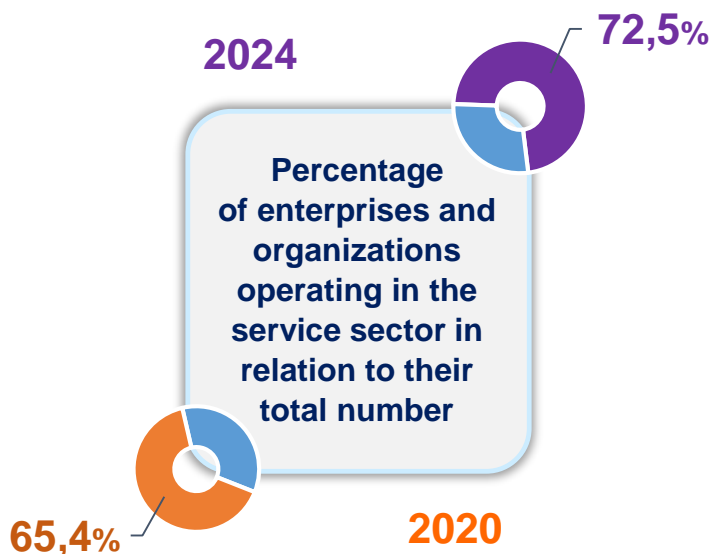

**The service sector** is a consolidated general category that includes the reproduction of various types of services provided by enterprises and organizations, as well as individuals. This is, in particular, the economic sector of the country, specializing in the provision of commercial, professional and consumer services.

## Dynamics of rental and hire services <sup>1)</sup>

(for January-June)

## Rental and hire services by region (for January-June 2024, in billion soums)

For **January-June 2024**, the volume of rental and rental services reached **4 189.4** billion soums.

In the total volume of these services, a significant part is accounted for by rental services for cars and light vehicles - **55.9** %.

<sup>1)</sup> including undistributed volumes by region

## Dynamics of services in the field of law and accounting

(for January-June, in billion soums)

In **January-June 2024**, the volume of services in the field of law and accounting reached **915.1** billion soums.

## Legal and accounting services

(for January-June 2024, in billion soums)

A significant part of the volume of these services falls on the Tashkent city, its share in the total volume of services in the field of law and accounting amounted to **83.8 %**, or **767.3** billion soums.

Compared to the same period in 2023, the volume of services in the field of law and accounting in this region increased by **150.2** billion soums, or **13.4 %**.

## Dynamics of legal and accounting services per capita (for January-June, in thousand soums)

Legal and accounting services play a key role in modern business and the lives of individuals, providing legal protection and financial transparency.

## Legal and accounting services per capita by region (for January-June 2024, in thousand soums)

In **January-June 2024**, the volume of services in the field of law and accounting per capita in the Tashkent city reached **250.9** thousand soums. Also, a relatively high rate was noted in Navoi (**8.2** thousand soums) and Tashkent (**7.7** thousand soums) regions. In Surkhandarya region this figure averaged **1.2** thousand soums.

## Dynamics of legal services *(for January-June, in billion soums)*

For **January-June 2024**, the share of legal services in the total volume of services in the field of law and accounting amounted to **33.7 %**, or **308.0** billion soums.

## Legal services by region *(for January-June 2024, in billion soums)*

Among the regions, this type of service was more in demand in Tashkent city. Here, the volume of services reached **231.1** billion soums, or **75.0 %** of the total volume of legal services.

This is because cities have significantly higher demand for legal services due to higher population densities, more commercial and civil transactions, and an increased number of legal disputes.

## Dynamics of legal services per capita

(for January-June, in thousand soums)

For **January-June 2024**, the volume of legal services per capita averaged **8.3** thousand soums.

## Legal services per capita by region

(for January-June 2024, in thousand soums)

In **January-June 2024**, the volume of legal services per capita in the Tashkent city reached **75.6** thousand soums. Along with this, a relatively high figure was noted in Khorezm (**5.1** thousand soums) and Tashkent (**3.5** thousand soums) regions. In Surkhandarya region, the volume of legal services was observed at an average level of **0.7** thousand soums.

## Dynamics of computer and household goods repair services <sup>1)</sup>

(for January-June)

Repair services for other personal items and household goods account for **28.1** % of the total volume of computer and household goods repair services.

Khorezm	102,9
Namangan	99,5
Rep. Karakalpakstan	92,6
Bukhara	83,1
Jizzakh	76,5
Syrdarya	30,4

For **January-June 2024**, the volume of services in the field of architecture, engineering surveys, technical tests and analysis reached **4 278.3** billion soums.

In the total volume of these services, the share of the Tashkent city was **57.3 %**.

**The volume of financial services** is taken into account by the volume of interest income received from financial intermediation (in the amount of payment for them), as well as in the form of fees for the services of a financial institution in providing a loan or maintaining a deposit.

**The volume of transport services** is the sum of income from transportation and other activities directly related to the implementation of the transport process (loading and unloading, transport and forwarding services, transport maintenance, etc.) by type of transport.

**Road transport services** include all land passenger transport services except rail transport, other land passenger transport services and road freight transport services, as well as moving services.

**The volume of trade services, including electronic ones**, is the gross income, which is the difference between the selling and purchase price of the goods sold. In the case of a transaction for the purchase and sale of goods in the interests of another person on the basis of contracts, assignment, commission or agency agreements, the cost of services in the amount of remuneration is reflected.

**The volume of communication and information services in current prices** is defined as the sum of the income of enterprises and organizations (in the amount of revenue from their sale) providing services in this area.

**The Education section** includes public, private education of any level and training in any profession, full-time or part-time, as well as via Internet channels and postal correspondence. This includes education provided by institutions within the regular school system of various levels, as well as adult education (training and retraining courses), auxiliary activities in the field of education, etc. When implementing **activities in the field of education**, the cost of provided market services is reflected, including distance learning (contractual).

**The volume of services in the health care sector** is the cost of market services provided for various types of medical care and sanitary services by health care institutions.

**The volume of services for the provision of food and beverages** is the value of the turnover, which includes, in addition to the sold overlay, the cost of products used in the preparation of food and sold without processing.

**The volume of accommodation services** includes the cost of services rendered for the provision of places for short-term accommodation (hotels, motels, etc.).

When providing **services related to real estate**, the cost of services related to real estate transactions, from leasing own real estate under economic management, operational management or leased, is indicated..

The output of **rental and hire services** is determined by the amount of revenue from the rental of machinery and equipment without an operator, and the rental of household goods and personal items.

**The volume of computer and household goods repair services** is the amount of revenue from the provided market services for the repair, maintenance of computers and peripheral equipment, repair of communications equipment, consumer electronics, home and garden equipment, footwear and leather goods, furniture and household accessories, clothing and accessories, sporting goods, musical instruments, hobby items and other personal consumption items and household goods.

**The volume of services in the field of architecture, engineering surveys and provision of technical consultations** includes the cost of design, survey, engineering, technological works and services performed in accordance with the requirements stipulated in the contract, as well as the cost of construction supervision works and other engineering services performed by own forces..

**The volume of legal and accounting services** is the amount of revenue from the provided market services in the field of law, for providing advice to clients on their legal rights and obligations and other legal services, as well as for maintaining accounting books, accounting and auditing, preparing tax returns.

**The volume of legal services** includes the cost of rendered market services for legal representation and protection of interests in courts and other judicial bodies, by persons who are members of the bar association or under their supervision: provision of consulting services and representation in civil, criminal cases, labor disputes, as well as the preparation of legal documents, services of bailiffs, arbitrators, inspectors and judges.
