State Committee of the Republic of Uzbekistan on Statistics

Investments in fixed assets for January-December 2018

In the reporting period, 107,333.0 billion soums were invested in fixed assets, of which 60.7%, or 65,142.4 billion soums were borrowed funds, as well as 39.3%, or 42,190.6 billion rubles. Sum - own funds of enterprises and organizations.

In the reporting period, 34,448.4 billion soums of investments were utilized at the expense of centralized sources of financing, or 32.1% of the total investment, which is 8.6% more points compared to the same period last year.

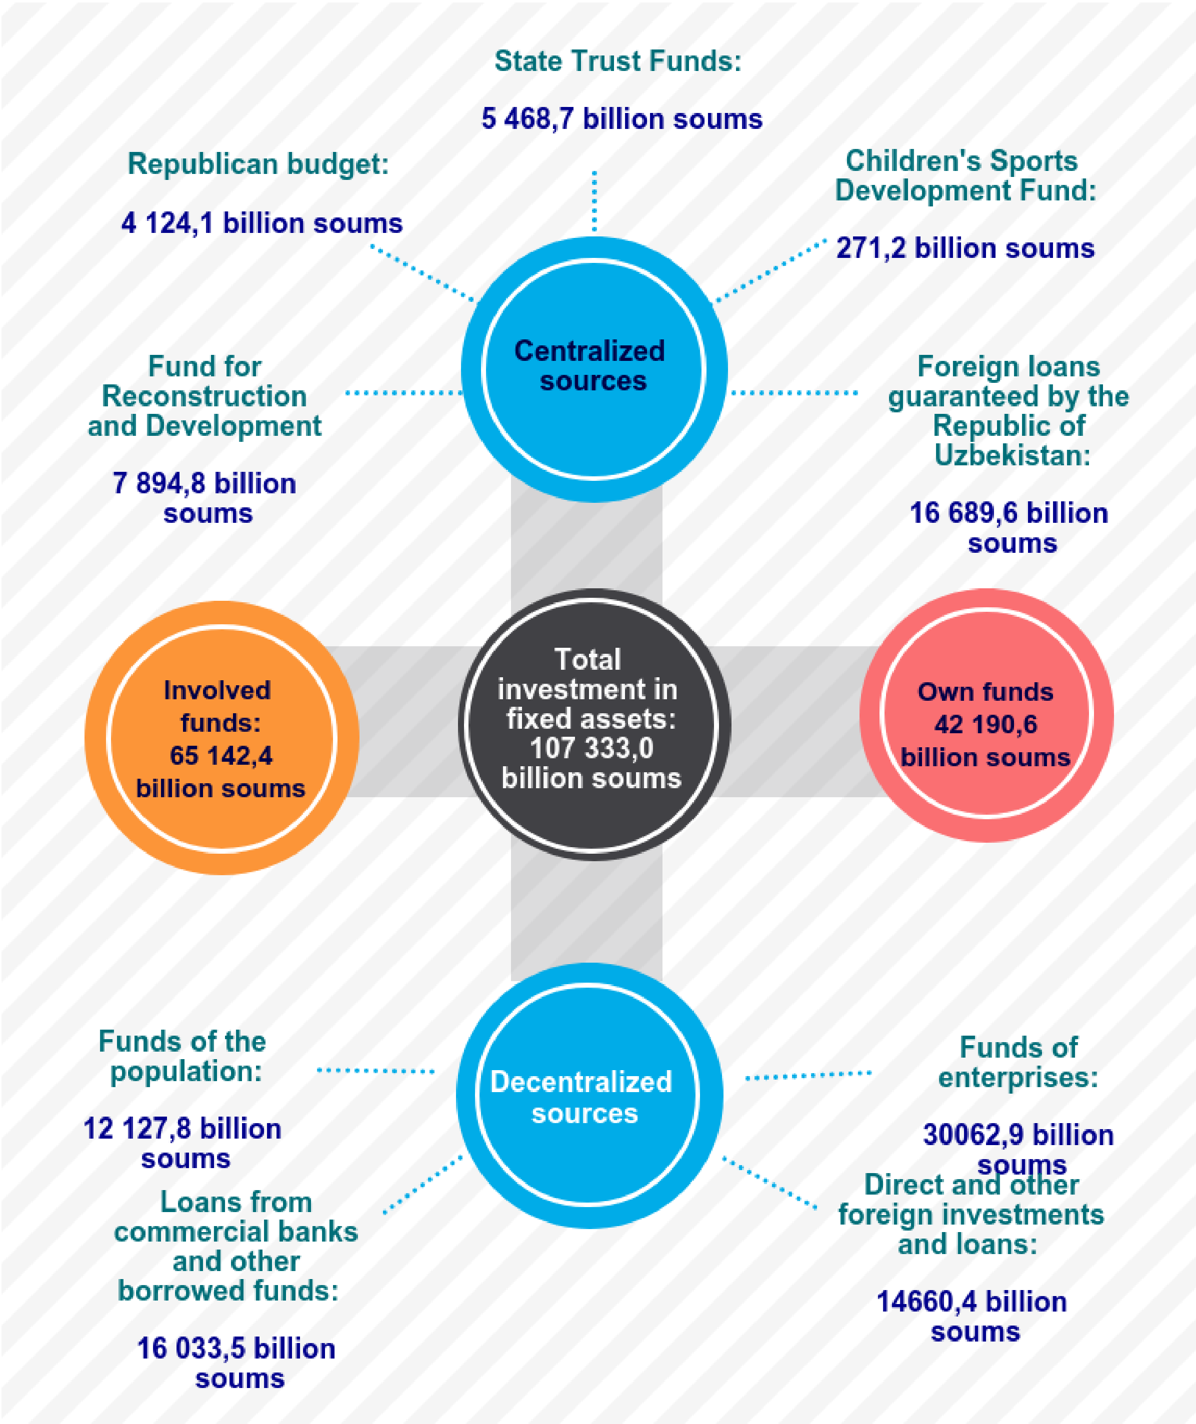
To the previous year: 118,1 %

The volume of investment in fixed assets 107333, billion soums

Due to centralized investments:
34 448.4 billion soums

Due to non-centralized investments:
72,884.6 billion soums

Investments in fixed assets



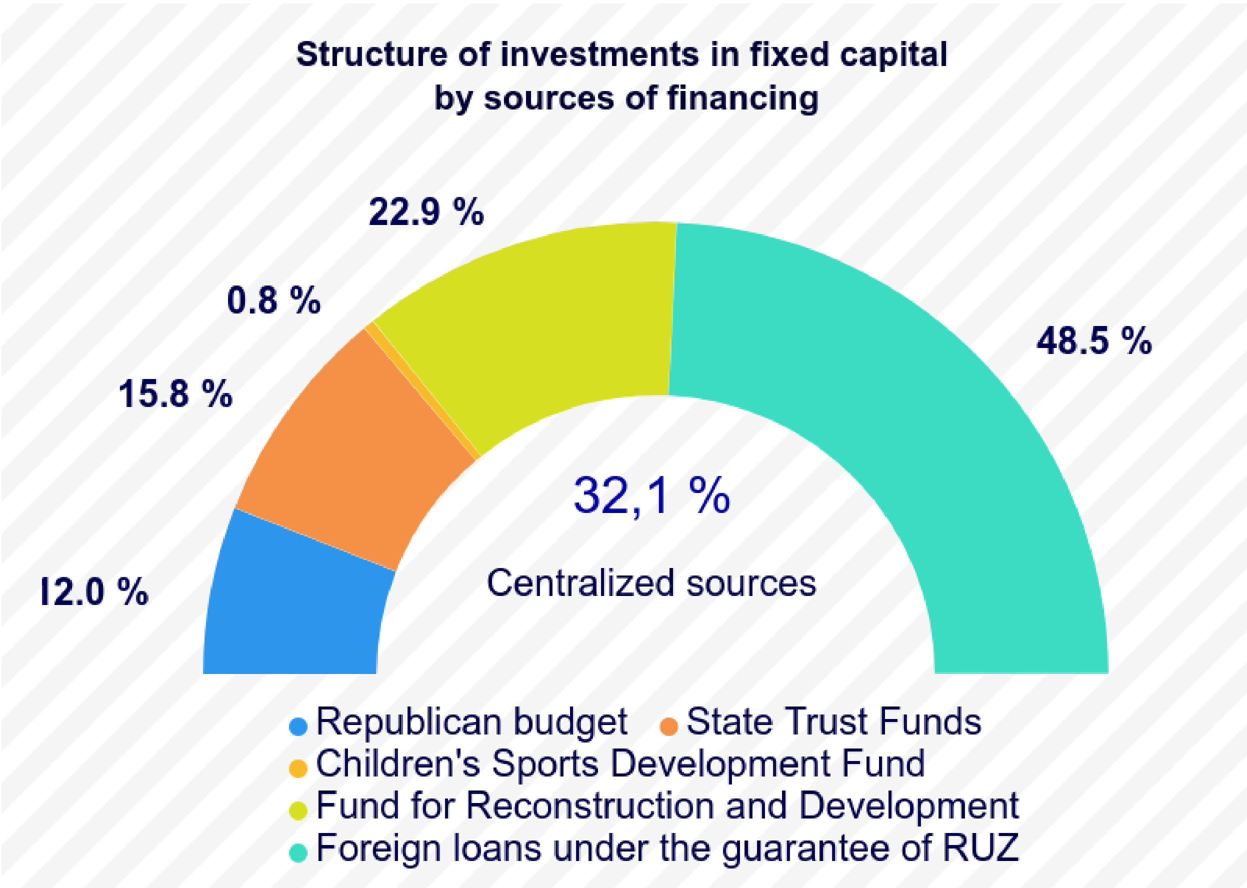
In the reporting period, 72884.6 billion soums of investments were utilized at the expense of non-centralized sources of financing, or 67.9% of the total investment, which is less than the same period last year, by 8.6%.

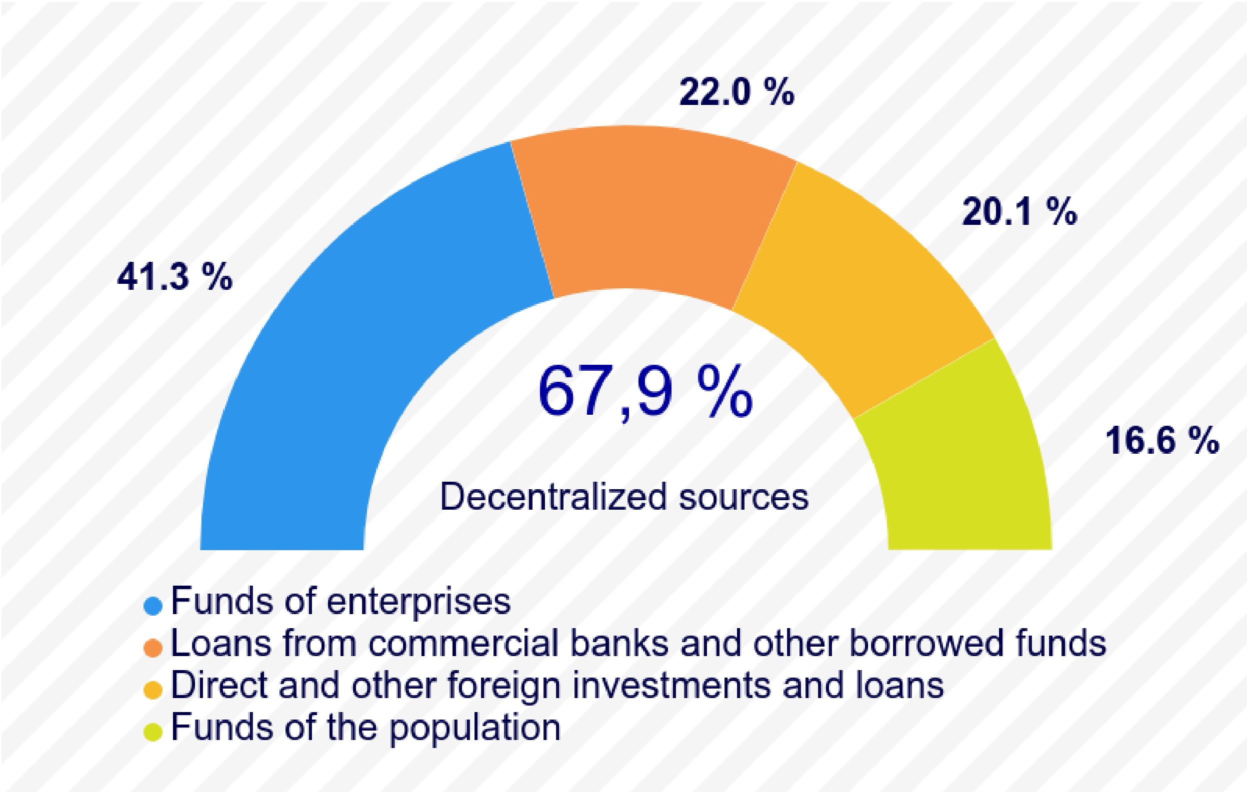
At the expense of own funds of enterprises and organizations, 3,062.9.9 billion soums of investments in fixed assets, or 28.0% of the total investments, were mastered. At the expense of the population, 12,127.8 billion soums, or 11.3% of investments, were utilized.

Investments in fixed assets

In the reporting period, under the guarantee of the Republic of Uzbekistan, foreign loans were disbursed in the amount of 16689.6 billion soums, which is 9.1% more than in 2017, or 15.5% of the total investment.

At the same time, at the expense of bank loans and other borrowed funds, UZS 16033.5 billion were spent (of the total investment in fixed assets 14.9%, and this figure, compared with last year, increased by 1.6% points), due to direct and other foreign investments and loans - 14660.4 billion soums (13.7% and decreased by 5.0%), the Development and Reconstruction Fund - 7894.8 billion soums (7.4 % and decreased by 0.9%), the republican budget - 4124.1 billion soums (3.8% and decreased by 1.3%), state trust funds - 5468.7 billion soums (5.1% and increased 1.6%) and the Children's Development Fund Port - 271.2 billion soums, or 0.3% of the total investment in fixed assets.





The highest rates and growth rates for sources of financing investments in fixed assets were observed for foreign loans under the guarantee of the Republic of Uzbekistan, compared with the corresponding period last year, an increase of 2.8 times. This is due to large investment projects: JV LLC Uzbekistan GTL - production of synthetic liquid fuel based on purified methane from the Shurtan Gas Chemical Plant, Turakurgan Thermal Power Plant - construction of a new thermal power plant with a total capacity of 900 MW comprising two blocks of combined-cycle plants of 450 MW each in the Turakurgan district of Namangan region, Takhiatash TPP - construction of two combined-cycle plants with a capacity of 230-280 MW each, Uzelektroset UE - modernization and replacement of obsolete equipment at power grid substations, Navoi TPP - expanding with the construction of the second combined-cycle plant of 450 MW, AO "Navoiazot" - Construction of production of ammonia, carbamide and others.

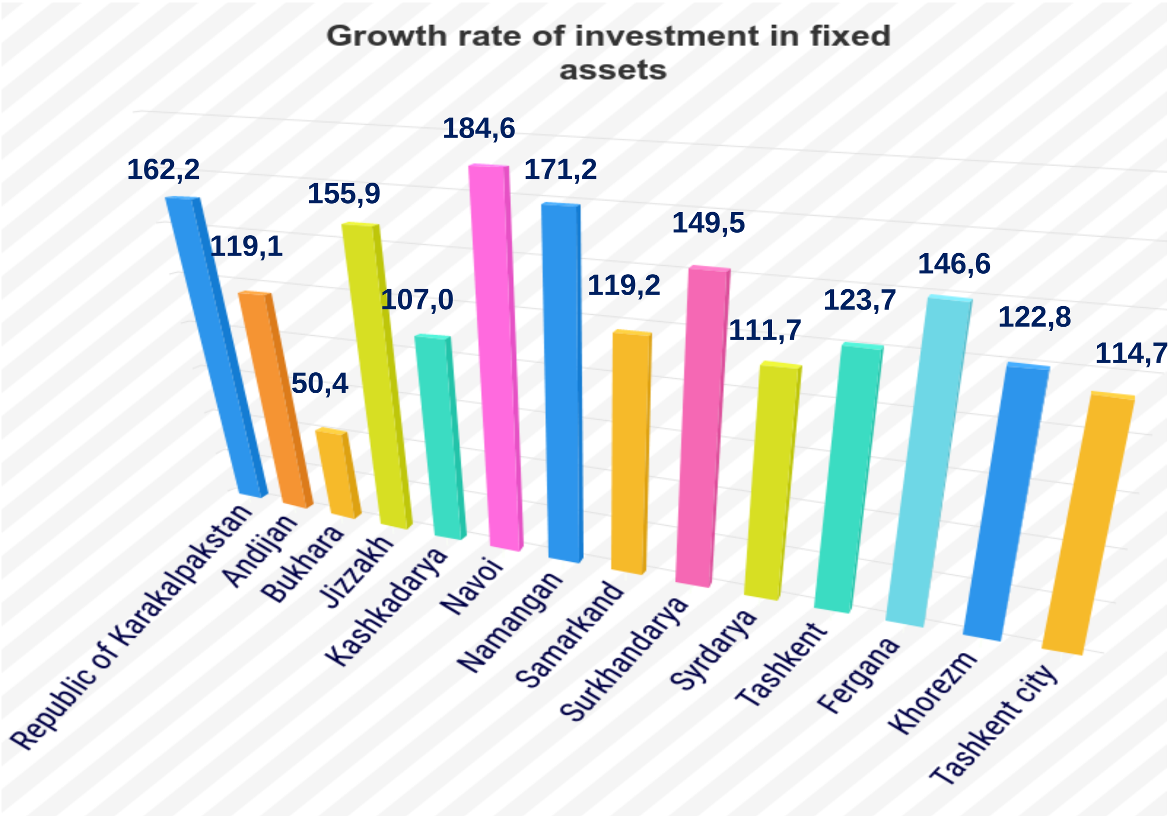
Investments in fixed assets

In a territorial aspect, investment in fixed assets the highest growth rates were observed in the Navoi region - by 84.6% more than last year. The increase in growth rates due to the construction of a mine for the extraction of precious metals in the Namangan region, respectively - 171.2% due to the construction of a thermal power plant in Turakurgan district.

Investment activity in the Jizzakh region has increased significantly: 155.9%, compared with last year, investments in plant growing, animal husbandry and hunting, sports activities, recreation and entertainment, which contributed to the growth of investments, were sent to this region.



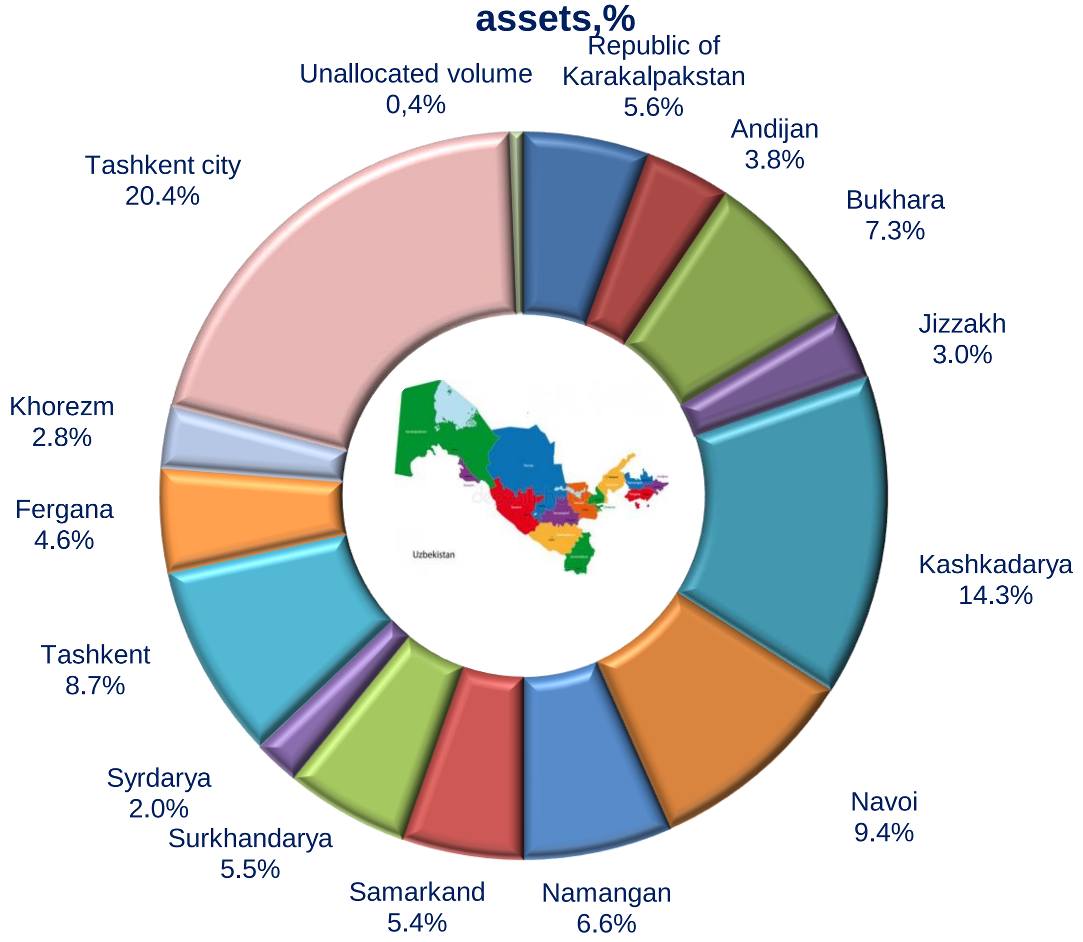
A decline in growth rates was noted in the Bukhara region - 50.4% compared to the corresponding period of last year, which is associated with large investment projects of past years for the construction of a gas processing complex.

Tashkent city still leads in the regional context, which is 20.4% of the total investment in fixed assets.

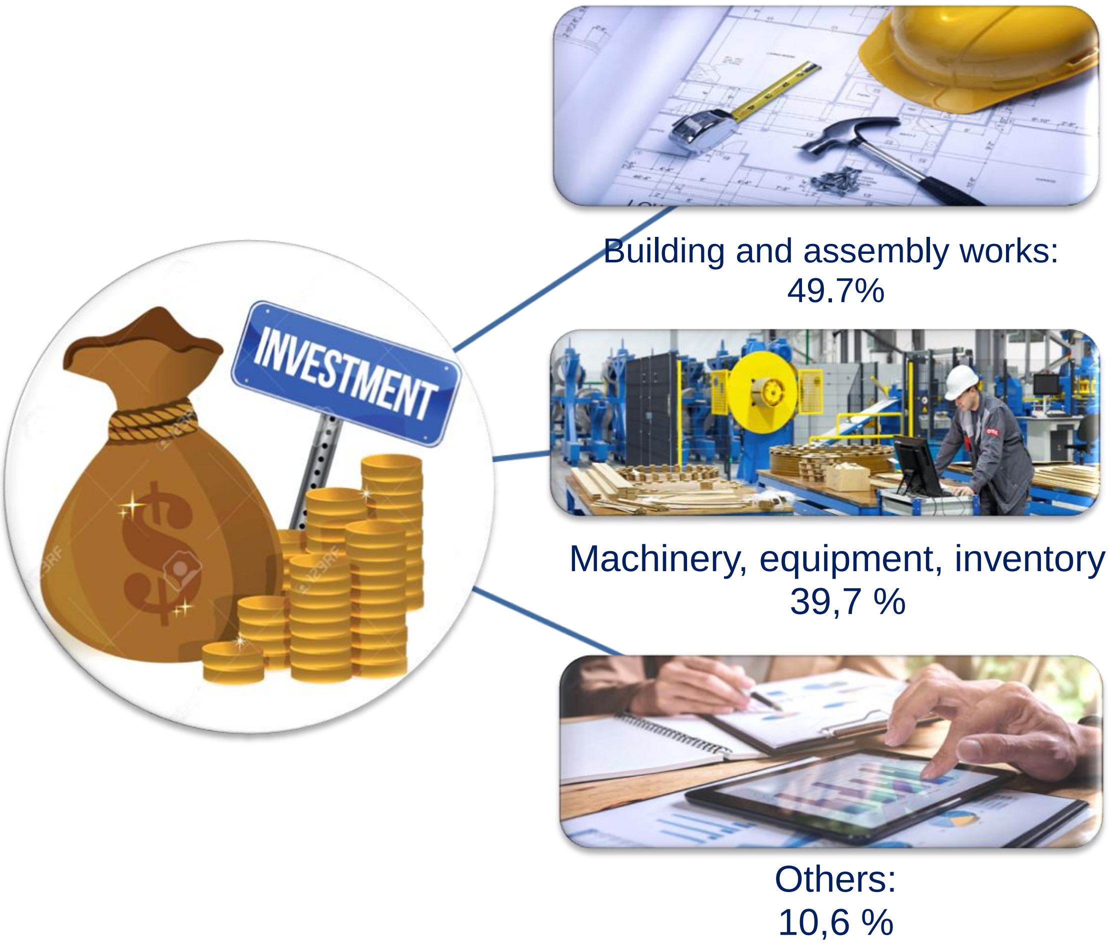
Accordingly, in Kashkadarya and Navoi regions this figure reached 14.3 and 9.4%.

The share of investments in fixed assets in Khorezm and Jizzakh regions was 2.8 and 3.0%, while in Syrdarya - 2.0% the lowest share was noted.

The share of regions in the total investment in fixed assets,%



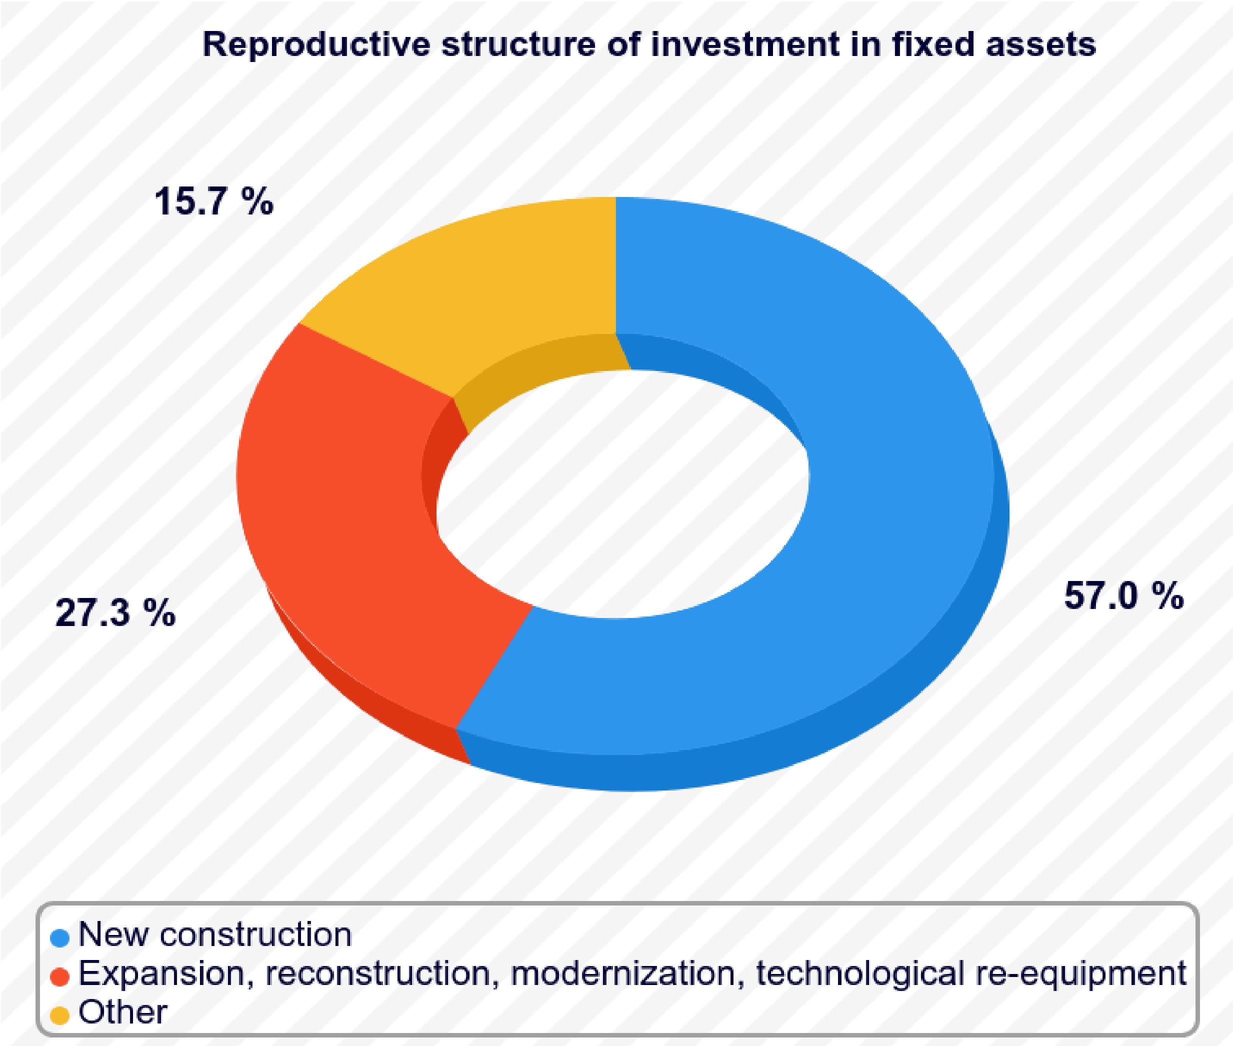
Technological structure of investment in fixed assets



In the technological structure of investments in fixed assets in the Republic of Uzbekistan, 53294.2 billion soums were allocated to construction and assembly works, which accounted for 49.7% of the total investments in fixed assets, investments in machinery, equipment and inventory reached 42,624.6 billion soums (share in total investment in fixed assets is 39.7%) and other expenses - 11414.2 billion soums (10.6%).

The highest proportion of construction and installation works in the total investment in fixed assets was observed in the Khorezm region - 69.7%. This is due to investment activity in such sectors as agriculture and livestock, hunting and services, transport and construction of residential buildings in urban areas.

As a result of the implementation of such investment projects as the development of the Khauzak and Shady fields, geological exploration in the Kungrad region produced 69.6% of the construction and installation work of the total investment in the Bukhara region.



Most of the investment in fixed assets in the reporting period was directed to new construction, the volume of which reached 61093.8 billion soums, which accounted for 57.0% of the total investment.

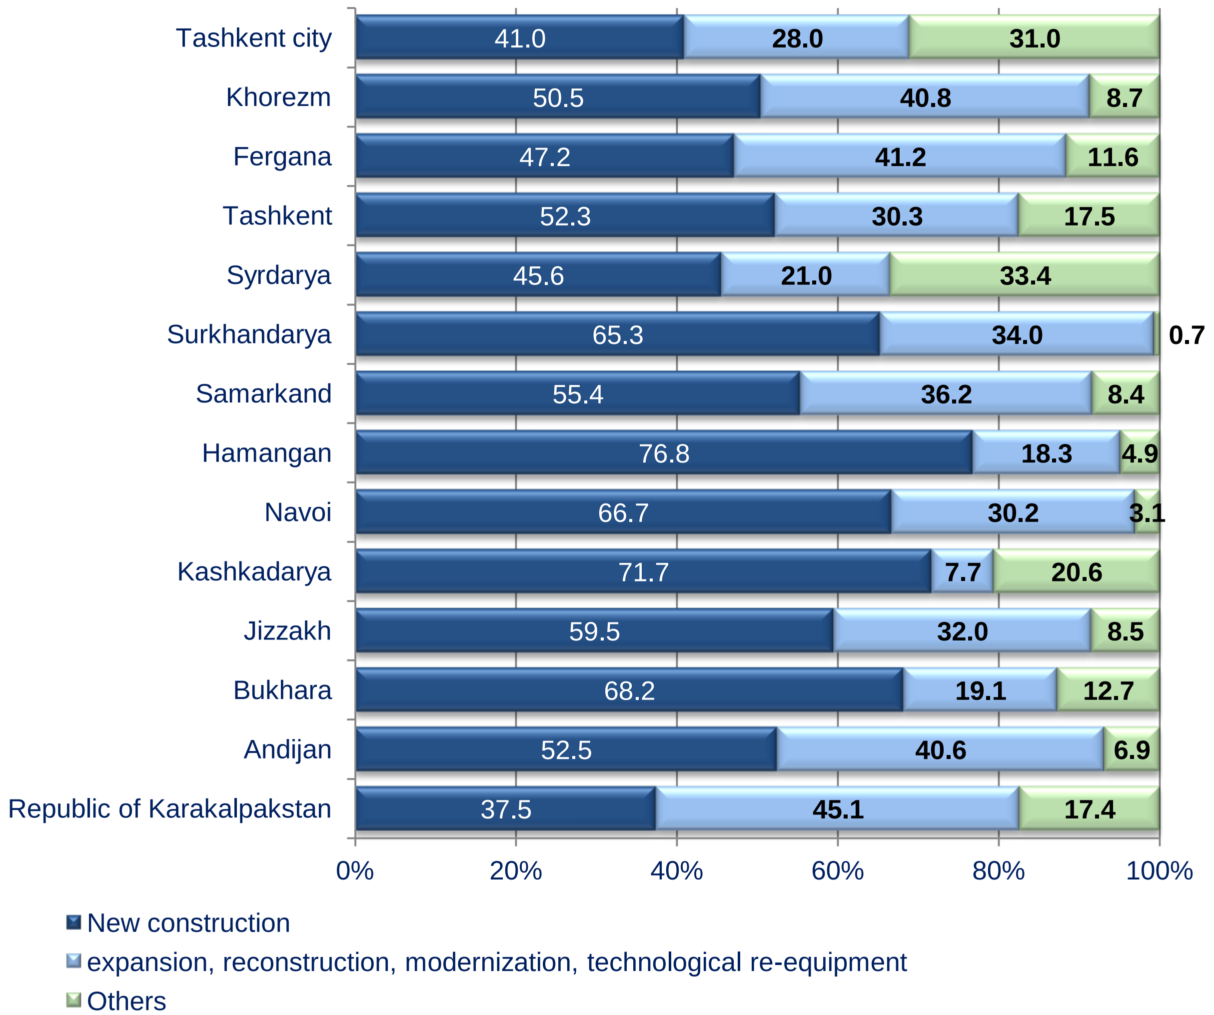
Investments in the expansion, reconstruction, modernization and technical re-equipment of existing facilities amounted to 29326.5 billion soums, or 27.3% of the total. The remaining 15.7%, or 16912.7 billion soums, were directed to other areas.

The largest share of investments aimed at new construction was observed in the Namangan region and accounted for 76.8% of the total investment in the region.

Accordingly, this indicator was 71.7% in the Kashkadarya region, 68.2% in the Bukhara region, 66.7% in the Navoi region and 65.3% in the Surkhandarya region.

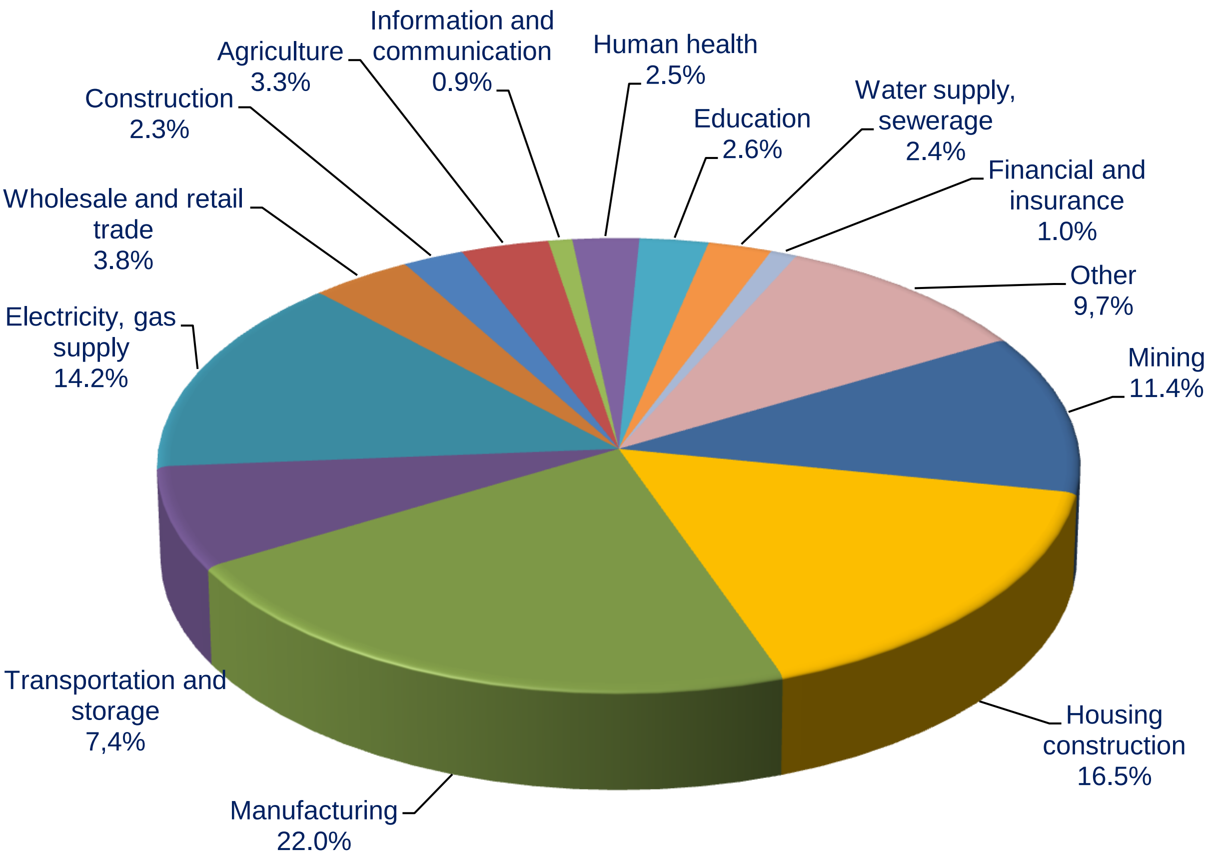
The lowest level of this indicator was recorded in the Republic of Karakalpakstan, which amounted to 37.5%.

Reproductive structure of investments in fixed capital by territory



The largest share - 45.1% of the total investment in fixed assets, aimed at expanding, reconstructing, upgrading, technical and technological re-equipment of existing production facilities and other facilities was observed in the Republic of Karakalpakstan. The lowest level of this indicator was recorded in the Kashkadarya region and amounted to 7.7% of the total investment in the region.

Структура инвестиций в основной капитал по видам экономической деятельности



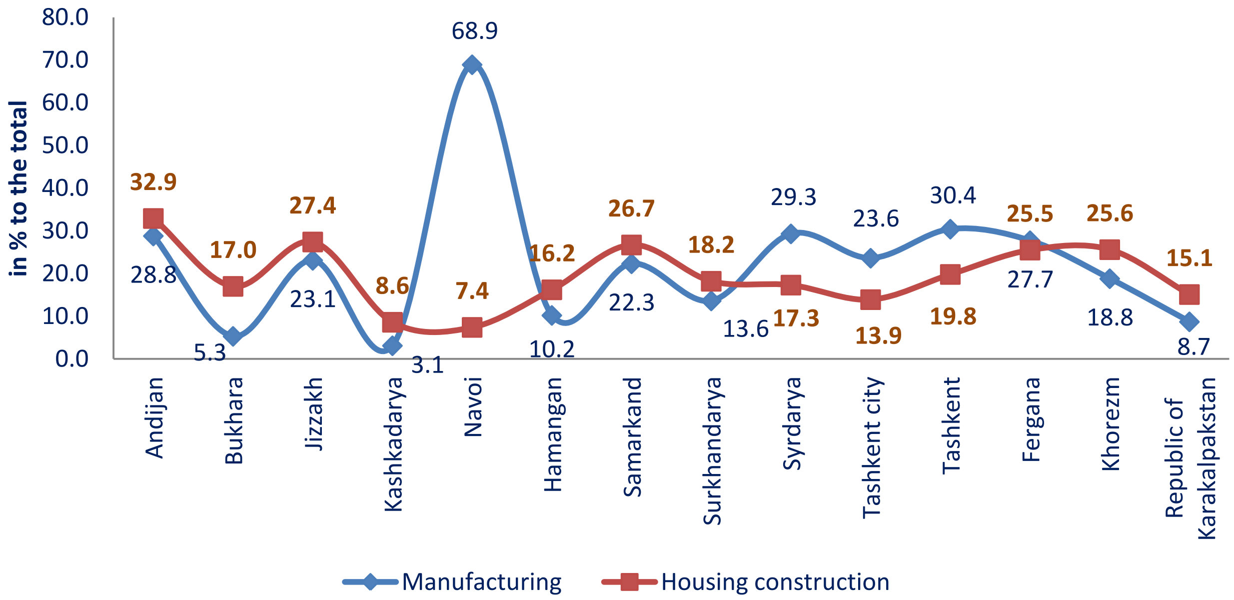
In the structure by type of economic activity, the manufacturing industry is leading. 23,661.6 billion soums, or 22.0% of total investments in fixed assets, were mastered from all sources of financing in this industry.

As a part of the manufacturing industry, three activities are leading:

- production of textiles and clothing - 4,636.6 billion soums (4.4%);
- metallurgical industry - 4,299.8 billion soums (share in the total investment volume - 4.0%);
- chemical industry - 4,097.2 billion soums (3.8%).

In the mining industry, 12,253.9 billion soums, or 11.4% of the total investment, of which 8,871.7 billion soums, or 8.3% of the total investment, were spent on natural gas production.

Two leading sectors: the structure of investment in the manufacturing industry and housing construction by region



As a result of the active development of investments in such projects as the construction of ammonia and carbamide production, the organization of the production of nitric acid, the construction of a complex for the production of polyvinyl chloride (PVC), caustic soda and methanol, as well as other projects, provided a high proportion of investment in the manufacturing industry in Navoi .

They accounted for 68.9% of the total investment in this region.

The smallest share of investment in total investment in the manufacturing industry was observed in the Kashkadarya region - 3.1%. This is mainly due to the fact that significant funds in this region are directed to the mining industry.

In the reporting period, 31350.0 billion soums, or 29.2% of the total investment in fixed assets, were foreign investments and loans.

In the total structure of foreign investment and loans, foreign investment amounted to 13,085.0 billion soums and, respectively, 18,265.0 billion soums accounted for foreign loans.

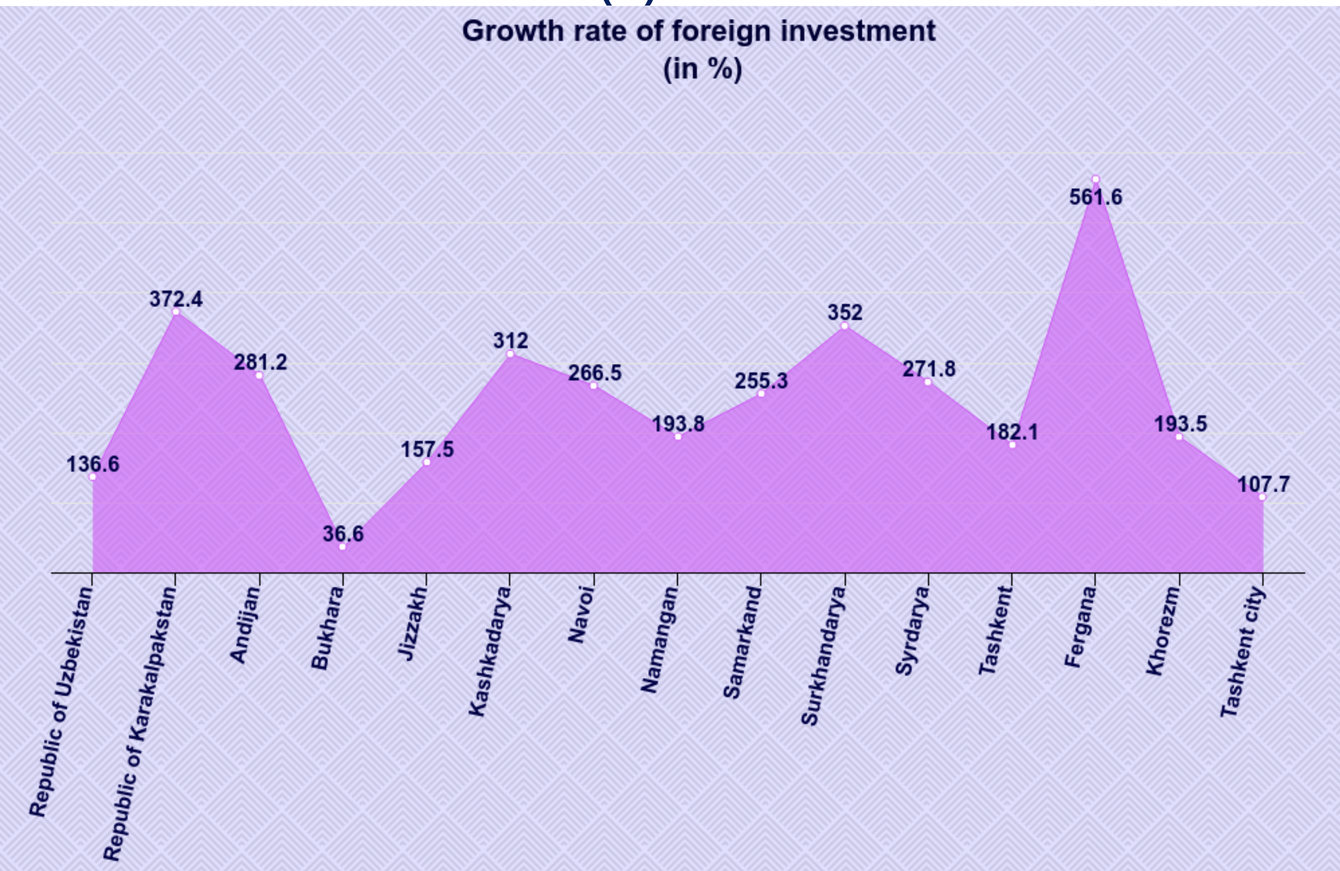
For January-December 2018, direct and other foreign investments and loans amounted to 14,660.4 billion soums, of which 89.3%, or 13,085.0 billion soums, were foreign investments and 10.7%, or

1,575.4 billion soums - foreign loans.

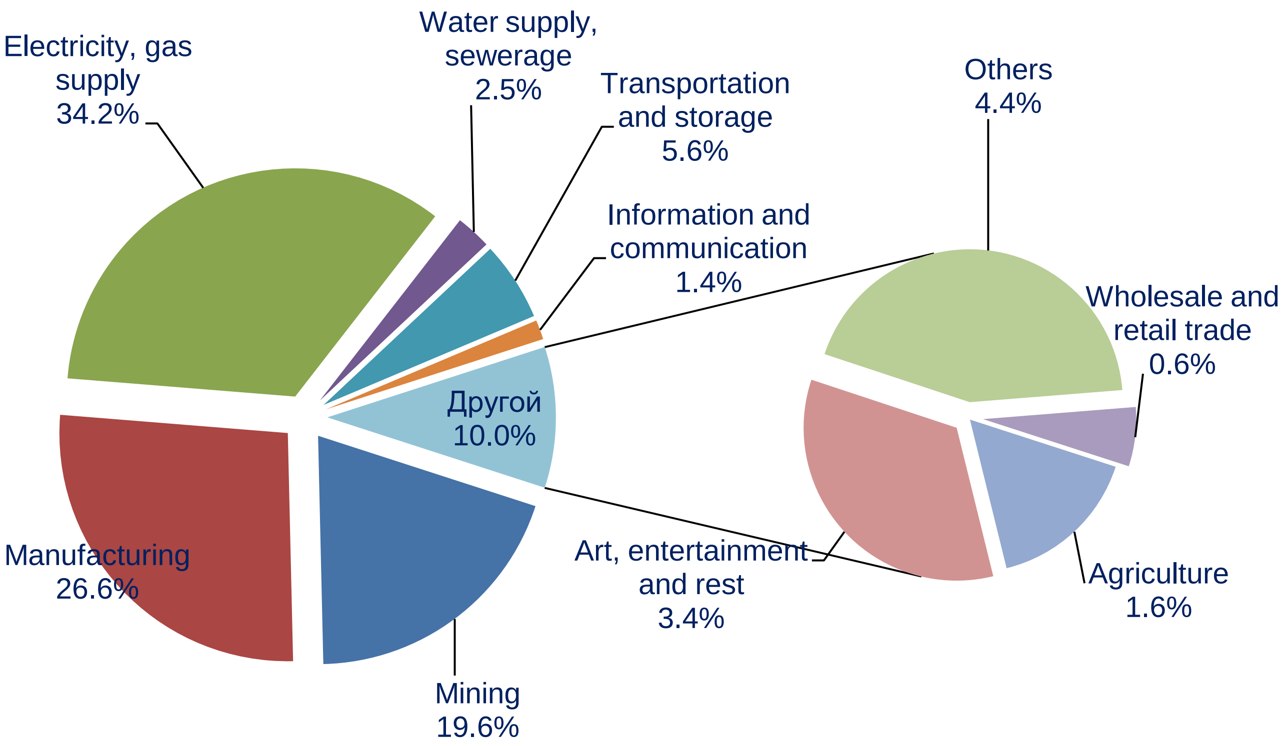
The growth rate of foreign investment and loans, compared with last year, amounted to 136.6%. This indicator was the highest in the Fergana region, where it was observed an increase of 5.6 times.

This indicator was the lowest in the Bukhara region - 36.6%.

Growth rates of foreign investment and loans (%)



Foreign investment and loans by activity:



As a result of projects such as the expansion with the construction of a second combined-cycle plant with a capacity of 450 MW, the construction of a new thermal power plant with a total capacity of 900 MW consisting of two blocks of combined-cycle plants with a capacity of 450 MW each in the Turakurgan district of Namangan region, investments in electricity, gas, steam and air conditioning amounted to 10 731.7 billion soums, or 34.2% of the total foreign investment and loans.

A significant amount of foreign investment and loans was also used in the manufacturing industry, which amounted to 8352.1 billion soums, or 26.6% of the total foreign investment and loans.

In the mining industry, this figure was 6 159.3 billion soums. or 19.6% of total foreign investment and loans. It is associated with such projects as the production of synthetic liquid fuel based on purified methane from the Shurtan gas chemical complex, the development of Kandym group fields and the construction of a modern gas processing plant

Entering objects

1148 billion soums of investments were used for new construction and capital reconstruction of hospitals, outpatient polyclinic institutions, rural medical institutions and other healthcare facilities, which accounted for 42.3% of investments in health care.

61.1 billion soums of investments were spent on the construction and reconstruction of vocational colleges, which accounted for 2.2% of the investments in the form of education.

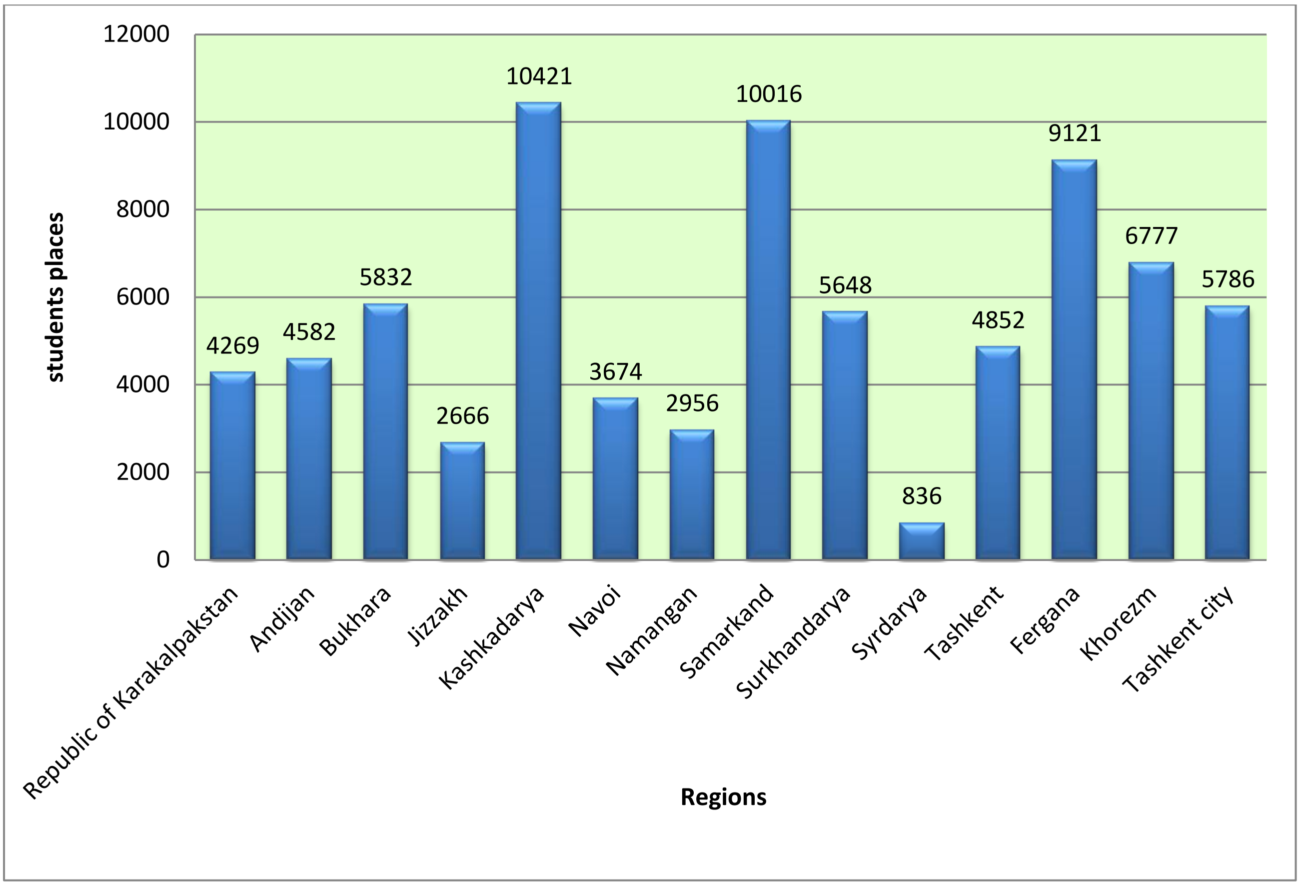
As part of the measures being implemented to further improve the quality of the educational process, 627.4 billion soums of investments were mastered for the construction and reconstruction of general education and specialized schools, or 22.6% of investments in education by type of activity.

Higher education institutions **- 3978 student places**

general education and specialized schools - **77436 student places**

hospitals - **6032 beds**, outpatient clinics - **19368 visits**

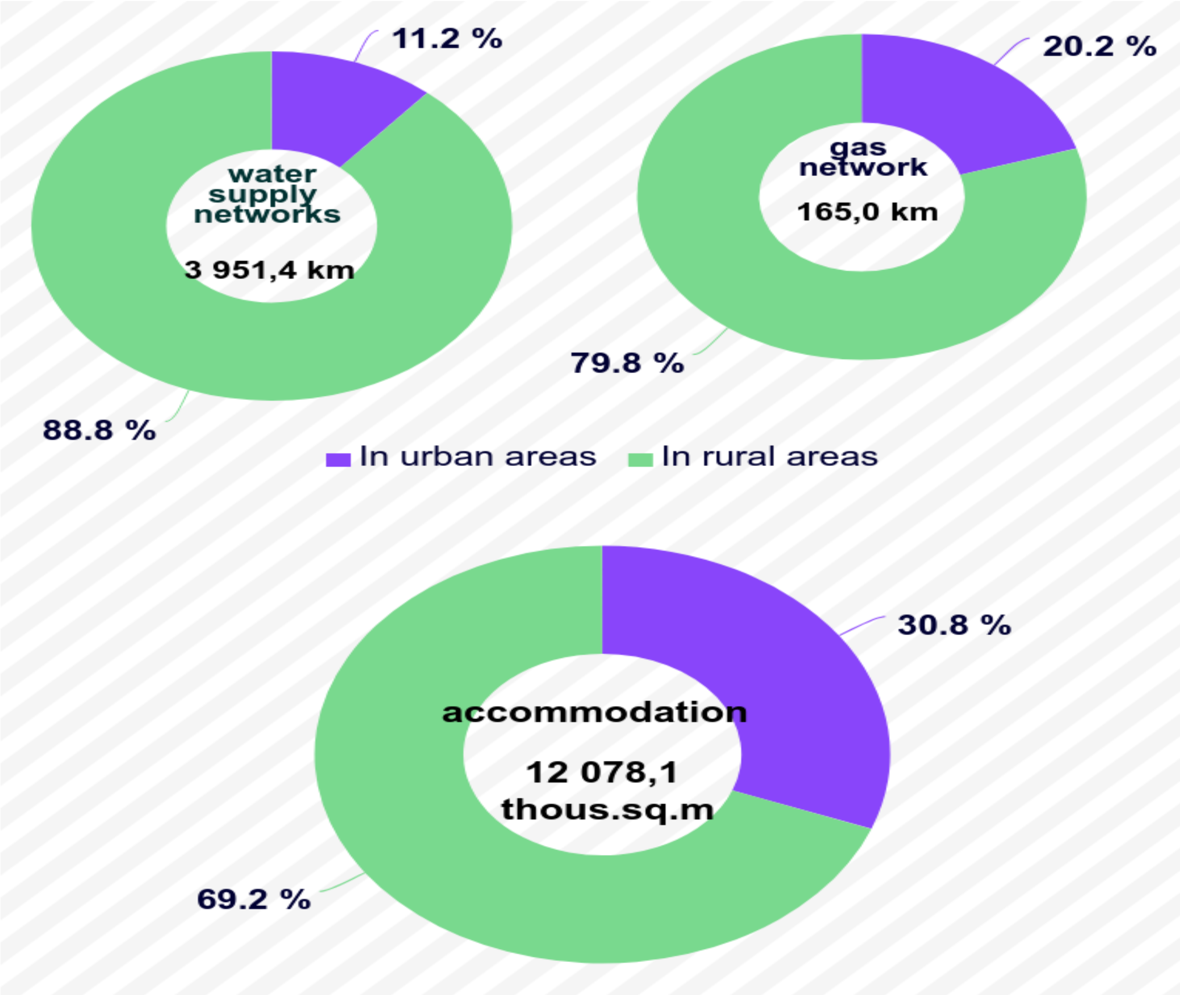
Entering secondary schools



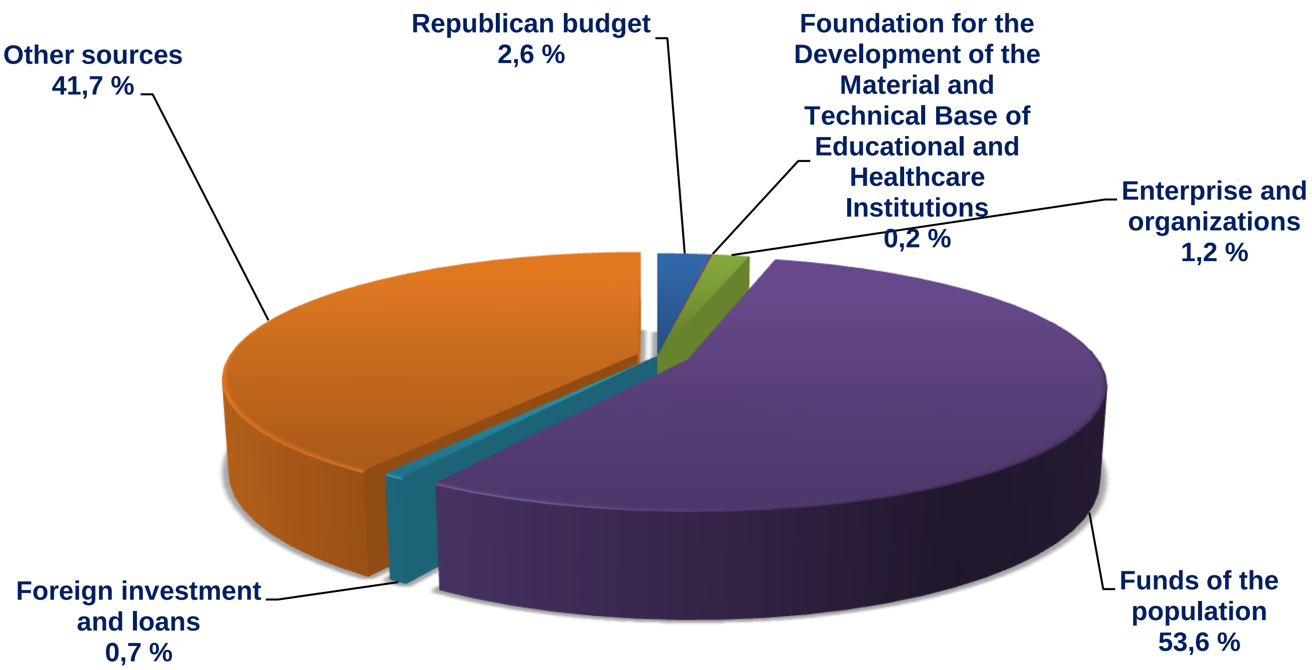
The leading positions in the number of introduced general education and specialized schools in January-December 2018 are occupied by the Kashkadarya region - 10421 academic places, respectively, the Samarkand region - 10016 academic points. places, Fergana region - 9121 study. places, Khorezm region - 6777 uch. places, Bukhara region - 5832 uch. places and Tashkent city - 5786 places.

Total 17 695.8 billion rubles in soums investments were used in the operation of residential buildings, including 454.1 billion soums from the Republican budget, 35.1 billion soums from the Development Fund of the material and technical base of educational and medical institutions, 218.3 billion soums of enterprises and organizations, 9 451.4 billion soums were used for public funds, 127.6 billion soums, foreign investments and loans, and other sources of financing 7,341.3 billion soums were used for investments.

Investments in fixed assets



Mastered investment in housing



During the current period, 12,078.1 thousand square meters of housing was commissioned, 105.4% of the corresponding period of the previous year, of which 10,370.3 thousand square meters. compared to the corresponding period last year, 114.9% were commissioned to individuals, the area of typical projects and the area entered was 1,653.7 thousand square meters. compared with the corresponding period last year was 99.5%..
