

## The State committee of the Republic of Uzbekistan on statistics

### Industrial production of the Republic of Uzbekistan for January-October 2018

#### **FIGURES:**

- The volume of industrial production was **173.3 trillion soums**, growth rate - **111.2%**
- Industrial production per capita - **5.3 million soums**
- The share of consumer goods in total production was **40.3%**
- Production of consumer goods per capita - **2.1 million soums**
- The share of small business in the industry - **35.0%**

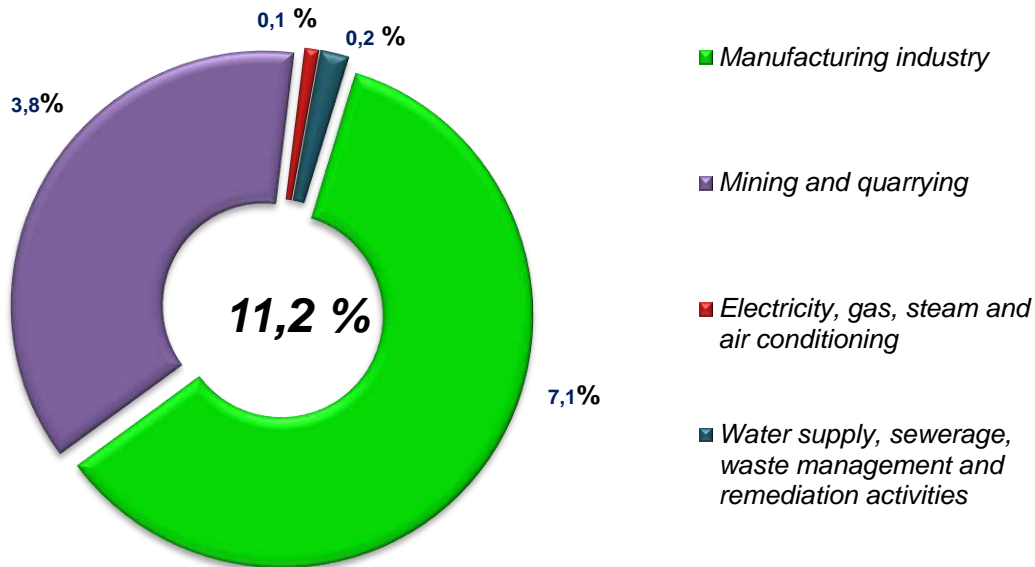

According to preliminary data in January-October 2018, enterprises of the republic produced industrial products for 173.3 trillion soums, the growth rate compared with the same period of the previous year was 111.2 %.

The main factor of growth in total industrial production there was an increase in production in the manufacturing industry by 9.0% for mining and quarrying - by 27.6%, electricity, gas, steam and air conditioning air - by 2.0%; water supply, sewerage, waste collection and disposal - by 22.5%.

#### ***Structure of industrial production by main types of economic activity in January-October 2018, %***

### The contribution of the main types of economic activity in the growth of industrial production in January - October 2018

#### Mining and quarrying

The production volume of mining and quarrying enterprises, in January – October 2018 amounted to 28.0 trillion soums, or 16.2% as of total industrial production.

Compared with the same period of the previous year, there was a 1.4 times increase in the production of rubble, kaolin by 1.2 times, gas condensate by 10.5% and natural gas by 6.8%. At the same time, there was a decrease in oil production by 9.2%, coal and gravel - by 0.4%.

**Production of selected industrial products by large mining and quarrying enterprises**

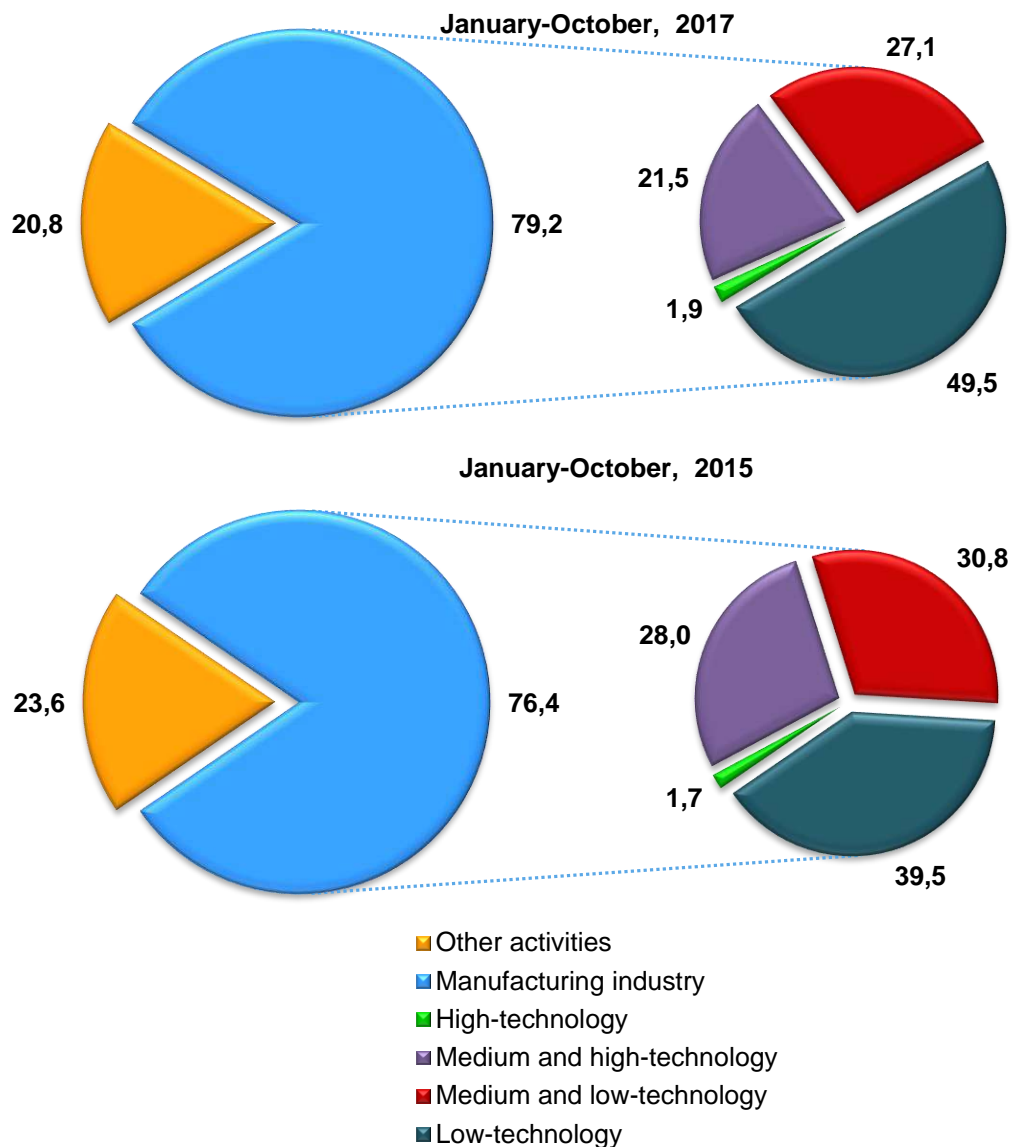

Production in January-October 2017	Mining and quarrying products	Production in January-October 2018	Growth rates, %
<b>Coal, thousands of tonnes</b>			
3373,0		3360,9	99,6 ↓
<b>Oil, thousands of tonnes</b>			
687,3		624,3	90,8 ↓
<b>Natural gas, million cubic meters</b>			
46325,1		49462,9	106,8 ↑
<b>Gas condensate, thousands of tonnes</b>			
1581,3		1747,9	110,5 ↑
<b>Rubble, thousands of tonnes</b>			
791,9		1109,8	140,1 ↑
<b>Gravel, thousands of tonnes</b>			
327,9		326,6	99,6 ↓

### Manufacturing industry

The enterprises of manufacturing industry in January-October 2018 produced with volume with volume of 132.4 trillion soums, growth rate to the corresponding period of the previous year amounted to 109.0%.

In the structure of the manufacturing industry, the share of high-tech industries was 1.7% (1.9% in January-October 2017), medium-high-tech - 28.1% (21.5%), medium-low-tech - 30.8% (27.1%) and low-tech- 39.5% (49.5%).

#### *The structure of the manufacturing industry on manufacturability*

Medium-high-tech productions of the republic made a significant contribution to the growth of manufacturing products - 6.9 %, the growth rate of which compared to the same period of 2017 amounted to 128.6 %.

In the manufacturing industry, the share of enterprises for the production, repair, installation of machinery and equipment, production of motor vehicles, trailers and semi-trailers, and other finished products reached 24.2 % (the growth rate was 136.4 % by January-October 2017); the share of enterprises for the production of textile, clothing and leather products - 17.9 % (110.4 %), for the production of food, beverages and tobacco products - 17.8 % (94.2 %), the metallurgical industry - 15.2 % (101.7 %); enterprises producing chemical products, rubber and plastic products - 10.4 % (102.9 %).

The overhaul of the technological equipment allowed us to increase the capacity utilization of chemical enterprises and to exceed the previous year's production of potassium chloride (122.7 % by January-October 2017), ammonium nitrate (112.0 %), acrylic-based paints and varnishes or vinyl polymers (132.4 %), superphosphates (168.5 %), formaldehyde (1.4 t.), mineral fertilizers containing nitrogen, phosphorus and potassium (2.3 t.).

The implementation of a set of measures to localize the production of agricultural machinery supplied to agriculture also contributed to the growth of products of medium-high-tech industries of the republic. Compared with January-October 2017, large enterprises increased production: plows - 64.0 t., tractors 4.6 t., grain combine harvesters - 10.0 %.

**Production of certain types of industrial products by large manufacturing enterprises**

Production January-October 2017	Manufacturing Products	Production January-October 2018	Growth rate, %
<b>Cars (without specialized), pcs.</b>			
112612		148305	131,7 ↑
<b>Trucks, pcs.</b>			
3198		3368	105,3 ↑
<b>Buses, pcs.</b>			
784		532	67,9 ↓
<b>Car engines, pcs.</b>			
77323		115340	149,2 ↑
<b>Cotton fiber, thousand tons</b>			
719,5		627,9	87,3 ↓
<b>Vegetable oil (refined), thousand tons</b>			
150,7		128,5	85,3 ↓

Production in January-October 2017	Manufacturing Products	Production in January-October 2018	Growth rate, %
	<b>Tobacco products, mln. pcs.</b>		
8041		8358	103,9 ↑
	<b>Motor gasoline, thousand tons</b>		
910,7		966,8	106,2 ↑
	<b>Diesel fuel, thousand tons</b>		
813,6		900,1	110,6 ↑
	<b>Portland cement, thousand tons</b>		
7207,2		6900,3	95,7 ↓
	<b>Paints and varnishes based on acrylic or vinyl polymers, t</b>		
9883,0		13086,3	132,4 ↑
	<b>Tractors, pcs.</b>		
588		2710	4,6p ↑

**Electricity, gas, steam and air conditioning**

The volume of production by enterprises of electricity, gas, steam and air conditioning amounted to 11.2 trillion soums (6.4 % of the total industry).

In this industry in January - October 2018, compared with the corresponding period of the last

year, the production, transmission and distribution of electricity, steam supply systems and air conditioning increased by 2.0 %, and the production and distribution of gaseous fuels - by 1.9 %

**Production of certain types of industrial products by large enterprises of electricity, gas, steam and air conditioning**

Production in January-October 2017	Manufacturing Products	Production in January-October 2018	Growth rate , %
	<b>Electricity, million kW / h</b>		
49051,9		50335,3	102,6 
	<b>Heat, thousand Gcal</b>		
22004,8		21621,2	98,3 

**Water supply, sewage, waste collection and disposal**

The production volume manufactured by water supply, sewerage, waste collection and disposal enterprises amounted to 1.7 trillion soums (1.0 % of the total industry).

Compared with the corresponding period last year, there is an increase in recycled materials containing ferrous metals, by 27.1 %, recycled materials containing aluminum - by 1.9 t., water treatment and water distribution services - by 27.0 %, services for disposal, transportation of wastewater and their treatment - by 34.3 %.

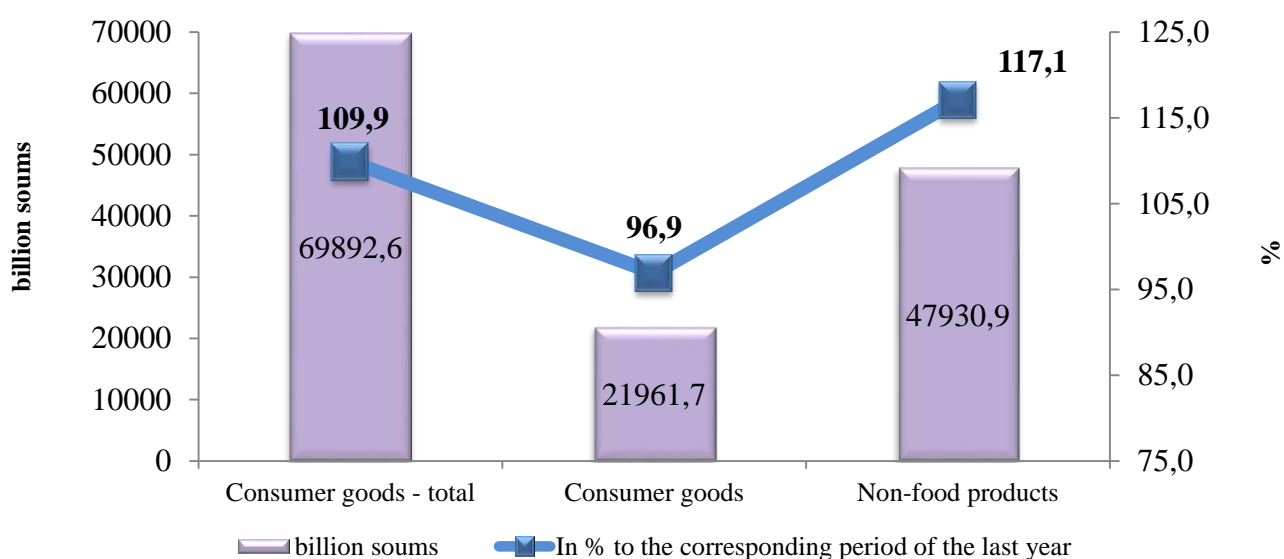

**Production of certain types of industrial products by large enterprises of water supply, sewerage, waste collection and disposal**

Production January-October 2017	Manufacturing Products	Production January-October 2018	Growth rate, %
<b>Recycled materials containing ferrous metals, thousand t.</b>			
206,9		262,9	127,1 ↑
<b>Recycled materials containing aluminum, t.</b>			
1825		3507	192,2 ↑
<b>Services for the removal, transportation of wastewater and their treatment, billion soums</b>			
104,6		140,5	134,3 ↑

### Consumer goods production

As a result of measures taken to expand the range and stimulate the production of finished products, the production of consumer goods amounted to 69.9 trillion soums and, compared with January - October 2017, increased by 9.9 %, the share in the total industry was 40.3 %.

#### Volume and growth rate of consumer goods production in January-October 2018

Compared to the same period of 2017, in the structure of consumer goods in January-October of this year, there is an increase in the share of non-food products production from 64.4 % to 68.6 %.

#### Structure of production of consumer goods by subjects of large and small businesses, %

In the structure of the production of food products, the production of alcohol and beer was 7.4 % (6.8 % in January-October 2017).

***Production of enterprises with foreign investments***

During the reporting period, enterprises with foreign investment produced goods for 68.2 trillion. soums, the growth rate compared to the corresponding period of the last year amounted to 130.0 %.

If in the previous year the share of joint ventures in the total volume of production was equal to 31.7%, in the reporting period it increased and reached 39.3%.

**The share of products of enterprises with foreign investments in the total industry, %**

The contribution to the increase in industrial production of the republic of joint ventures in January-October of the current year amounted to 7.6 %, ensuring an acceleration of the pace of reform and liberalization of the economy, as well as an increase in the competitiveness of products on the world market.

In the total volume of joint venture enterprises, the share of mining and quarrying enterprises was 22.1 %, manufacturing industry - 77.8 %.

## The proportion of production of enterprises with foreign investments in the production volume by regions

### Industrial production of the regions

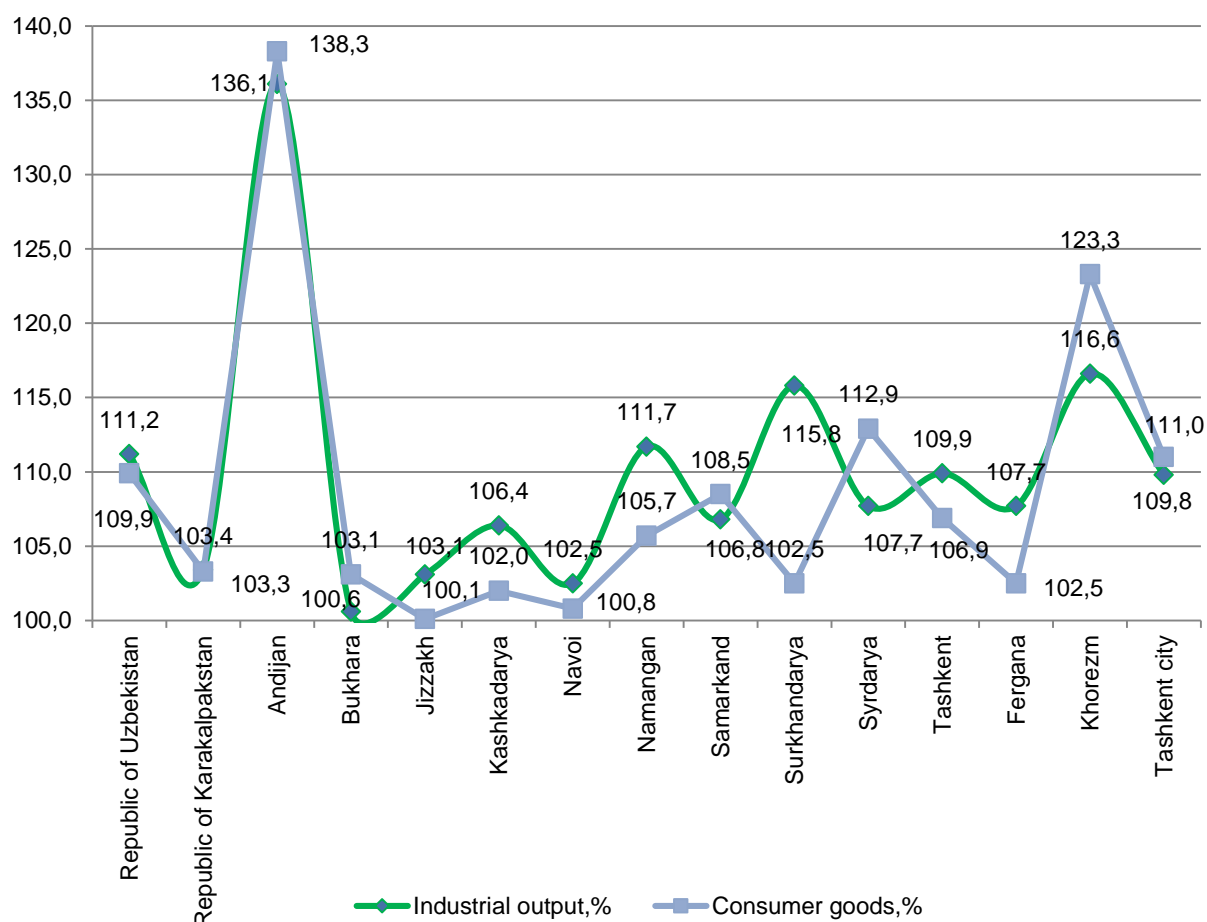

In the structure of industrial output of the republic, Tashkent city (19.2 % of the total industry), Tashkent (15.7 %), Andijan (10.8 %), Navoi (10.5 %), Kashkadarya (6.3 %) and Fergana (5.8 %) regions have the largest proportion.

At the same time, it should be noted that the largest share of consumer goods was produced in Tashkent city (27.1% of the total consumer goods), Andijan (21.3 %), Tashkent (9.2 %) and Samarkand (8.9 %) regions.

The consistent implementation of measures to raise the industrial potential of the regions contributed to a significant increase in production in Andijan (136.1 % compared to January-October 2017), Surkhandarya (115.8%), Khorezm (116.6 %), Namangan (111.7 %), Tashkent (109.9 %) regions.

At the same time, there was a significant increase in production of consumer goods in Andijan (138.3 % compared to the same period of 2017), Khorezm (123.3 %), Syrdarya (112.9 %) regions and the Tashkent city (111.0%).

**Growth rates of industrial production and consumer goods by regions in January-October 2018**  
(in% to the corresponding period of the last year)

An analysis of the differentiation of industrial output per capita showed an raise of the average national indicator (5272.2 thousand soums) in the Navoi region (18939.2 thousand soums), the Tashkent city (13407.6 thousand soums), Tashkent (9446.8 thousand soums) and Andijan (6158.8 thousand soums) regions.

The production of consumer goods per capita in the reporting period was only 2626.3 thousand soums in the republic, including 7619.1 thousand soums in Tashkent city, 4901.5 thousand soums in Andijan region, 2251.7 thousand soums in Navoi region, in Tashkent region-2248.0 thousand soums.

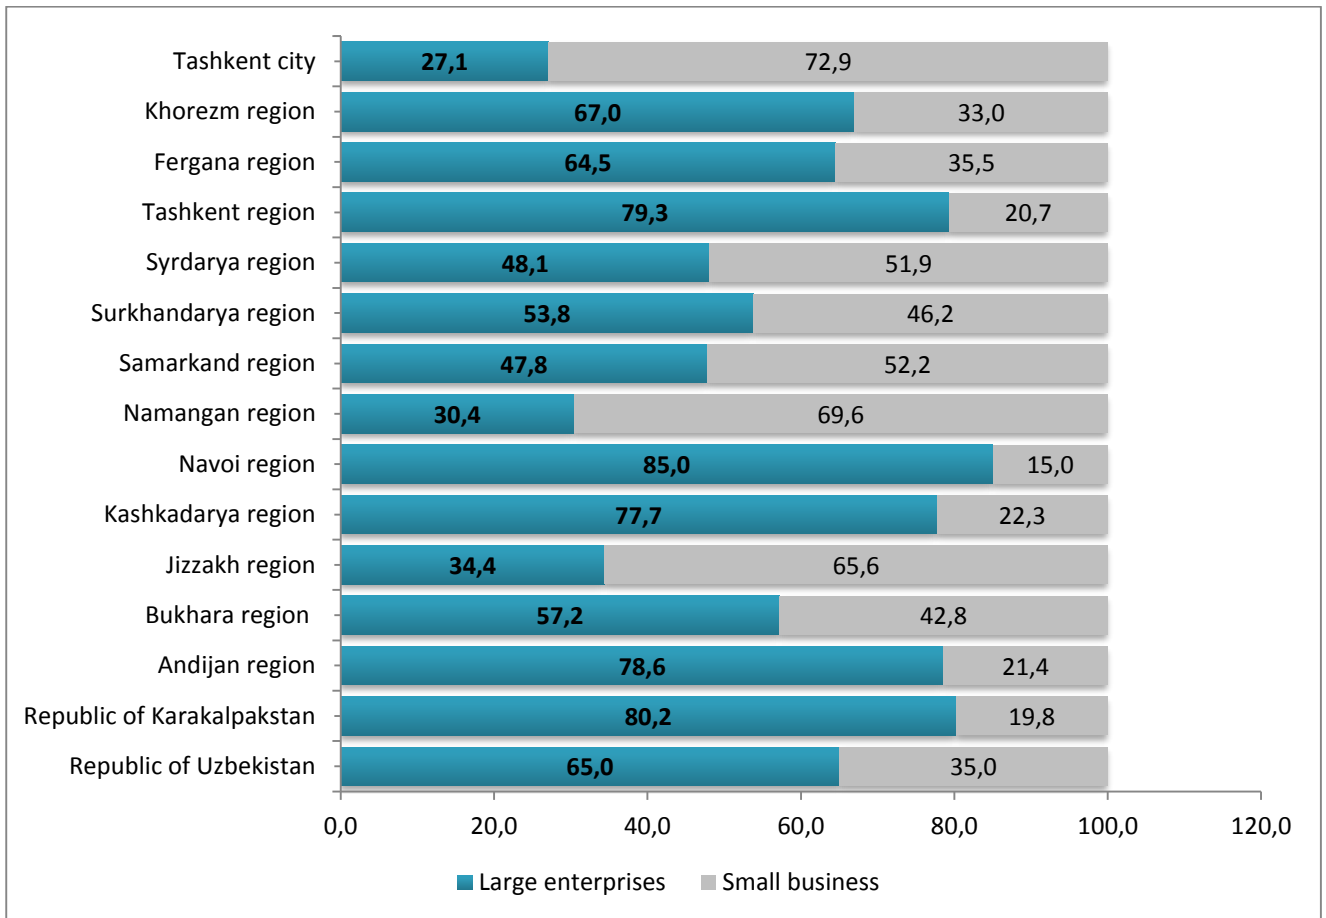

**Growth rates of industrial production and consumer goods per capita by region in January-October 2018, %**

**The contribution of small business in industrial production**

The rapid development of the industrial activity of small businesses ensured a 7.2 % increase in industrial production compared to the corresponding period of the last year, while the proportion of small business in industry was 35.0 %.

**The share of small business in the total industrial production by region in January-October 2018, %**

In terms of regions, the largest share of small business was observed in Tashkent city (72.9 % of the total industry in the region), Namangan (69.6%), Jizzakh (65.6 %) and Samarkand (52.2 %) regions. At the same time, the lowest share of small businesses was observed in the Republic of Karakalpakstan (19.8 %), Navoi (15.0 %), Tashkent (20.7 %), Andijan (21.4 %) and Kashkadarya (22.3 %) regions.
