

Industrial production of the Republic of Uzbekistan January-February 2019

FIGURES:

According to preliminary data in January-February 2019, enterprises of the republic produced industrial products worth 44.1 trillion. soum, the index of industrial production for the same period last year amounted to 107.2%.

The main factor in the growth of total industrial production was the increase in production

in mining and quarrying by 4.3%, manufacturing

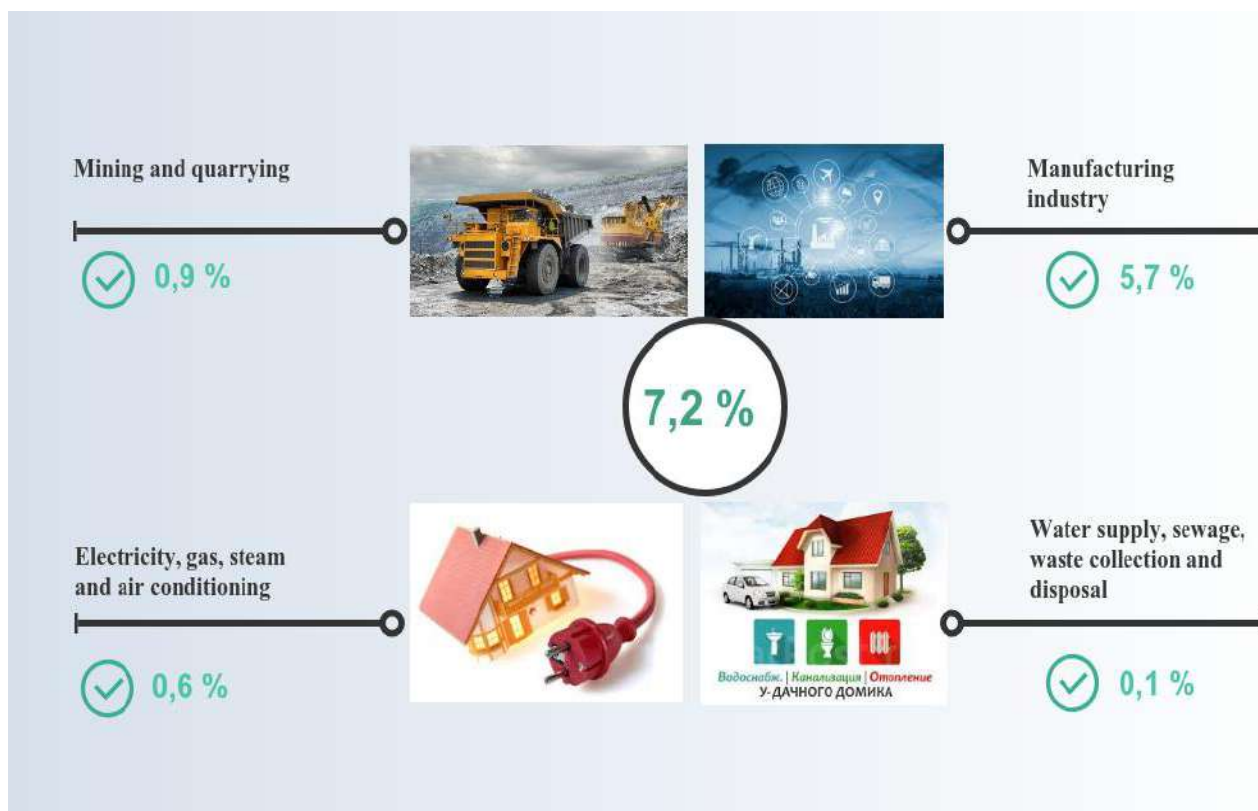

- by 8.0%, electricity, gas, steam and air conditioning

- by 6.9%, water supply, sewage, waste collection and disposal - by 9.4%.

The Structure of industrial production by main types of economic activity in January-February 2019

The contribution of the main types of economic activity in the growth of industrial production in January-February 2019

Mining and quarrying

The volume of products produced by mining and quarrying enterprises in January-February 2019 amounted to 8.1 trillion. soum, or 18.3% of the total industry.

Compared to the same period last year, natural gas production increased by 4.2% and gravel - by 2.0 p. At the same time, there was a decrease in coal production by 25.2%, oil - by 5.3%, gas condensate - by 2.5%, crushed stone - by 29.7%.

Consumer goods production

As a result of measures taken to expand the range and stimulate the production of finished products consumer goods production amounted to 12.8 trillion. sum and compared with the corresponding period of 2018, increased by 20.8%, the share in the total industry amounted to 29.0%.

Production structure and consumer goods growth January-February 2019 by January-February 2018

Compared to the same period in 2018, in the structure of consumer goods in January-February 2019 there was an increase in the share of non-food products from 67.0% to 68.8%.

In the structure of the production of food products, the production of wine-vodka products and beer was 7.2% (8.6% in January-February 2018).

Production of enterprises with foreign investments

During the reporting period, enterprises with foreign investment produced goods to 15.9 trillion. sum.

The share of products of enterprises with foreign investments in the total production volume amounted to 36.1%.

Industrial production of the regions

In the structure of industrial output of the republic, the largest share falls on the Tashkent region (15.8% of the republican industry), Tashkent (15.1%), Navoi (13.8%), Andijan (10.6%), Kashkadarya (6.8%) and Fergana (5.7%) Provinces.

**Industrial Production Index by Region
for January-February 2019% by January-February 2018**

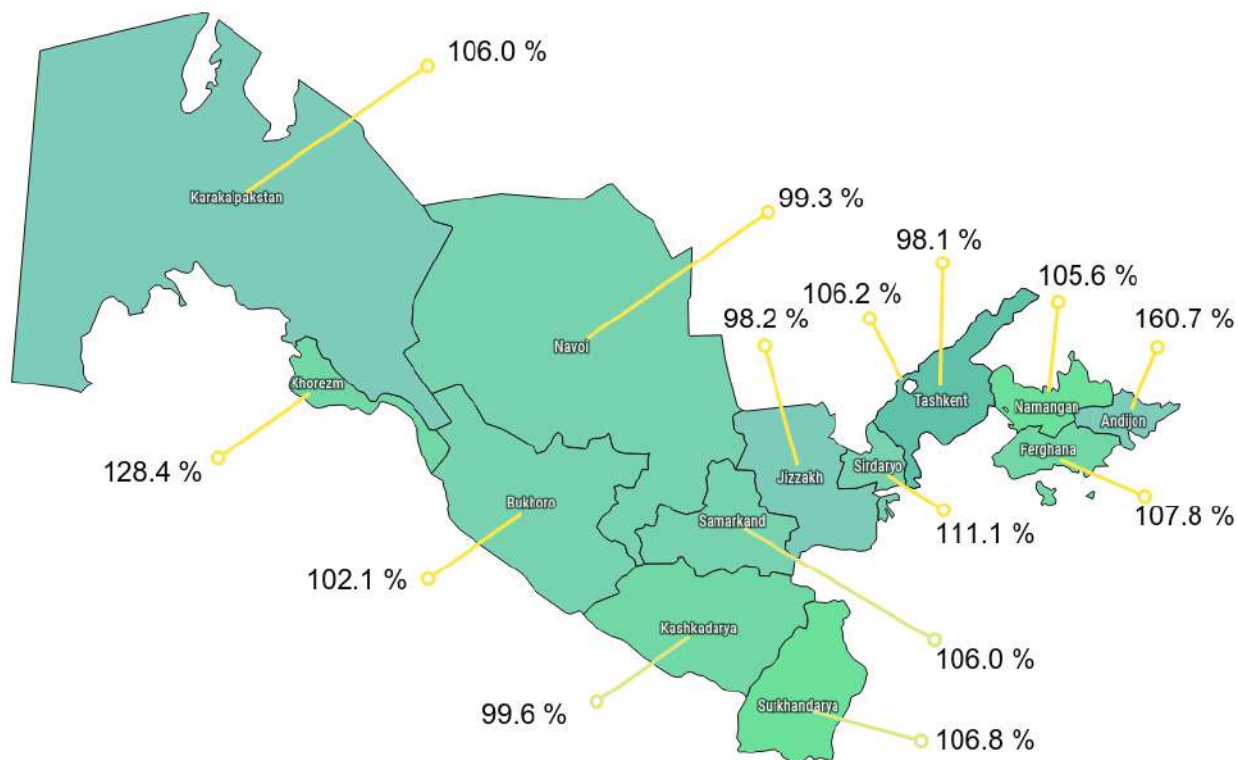

The consistent implementation of measures to increase the industrial potential of the regions contributed to a significant increase in industrial production in Andijan (123.8% by January-February 2018), Samarkand (117.2%), Khorezm (114.3%), Tashkent (107.3%) and Namangan (106.6%) regions.

At the same time, there was a significant increase in the production of consumer goods in Andijan (160.7% compared to January-February 2018), Khorezm (128.4%), Syrdarya (111.1%), Fergana (107.8%), and Surkhondaryo (106.8%) regions.

At the same time, it should be noted that the largest share of consumer goods was produced in the Andijan region (28.6% of the total volume of consumer goods of the republic), Tashkent (20.2%), Samarkand (8.2%) and Tashkent (7.6%) regions.

Growth in the production of consumer goods by region in January-February 2019, % compared to January-February 2018

The analysis of the differentiation of industrial output per capita showed the excess of the average national indicator (1,338.5 thousand soums) in the Navoi region (6308.8 thousand soums), the city of Tashkent (2672.5 thousand soums), Tashkent (2416.4 thousand soums) and Andijan (1540.2 thousand UZS) regions.

Production of consumer goods per capita in the reporting period in the republic amounted to 388.6 thousand soums, including in the Andijan region - 1207.1 thousand soums, the city of Tashkent - 1041.4 thousand soums, the Khorezm region - 367.7 thousand soums, the Syrdarya region - 360.6 thousand soums, the Navoi region - 353.4 thousand. Sumy and Tashkent region - 338.1 thousand Soum.

in January-February 2019,% by January-February 2018***

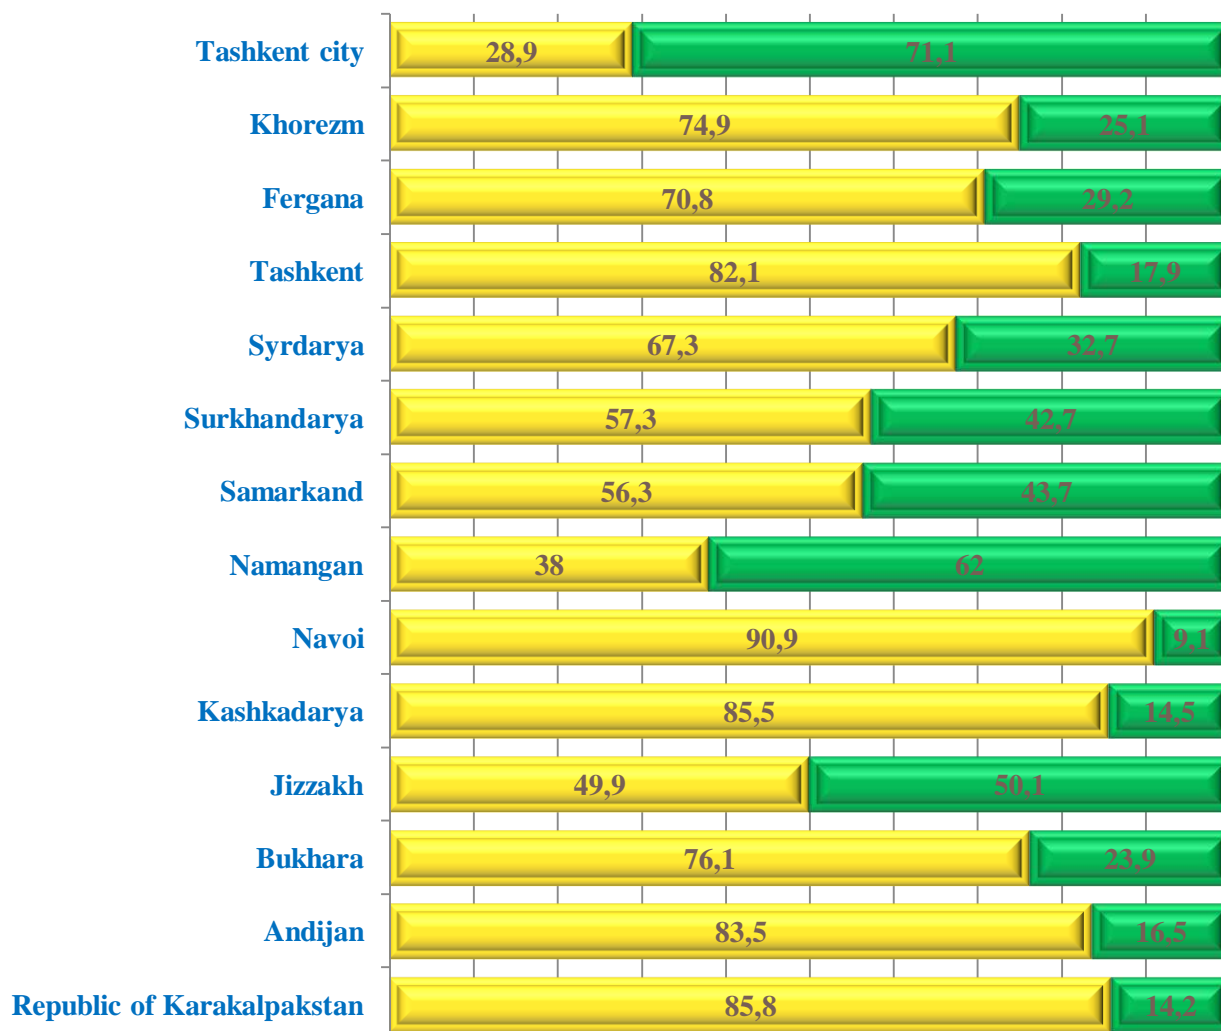

The contribution of small business in industrial production

During the reporting period, small businesses produced goods to 11.9 trillion Sum.

The share of small business in the total production amounted to 27.0%.

In the regions, the largest share of small business was observed in Tashkent (71.1% of the total industry of the region), Namangan (62.0%), Jizzakh (50.1%), Samarkand (43.7%), Surkhandarya (42.7%), Syrdarya (32.7%) and Fergana (29.2%) regions. At the same time, the smallest share of small business in the regions was noted in the Navoi region (9.1%), the Republic of Karakalpakstan (14.2%), Kashkadarya (14.5%) and Andijan (16.5%) regions.

The share of small business in the volume of industrial production of regions, in%

Existing and newly created industrial enterprises

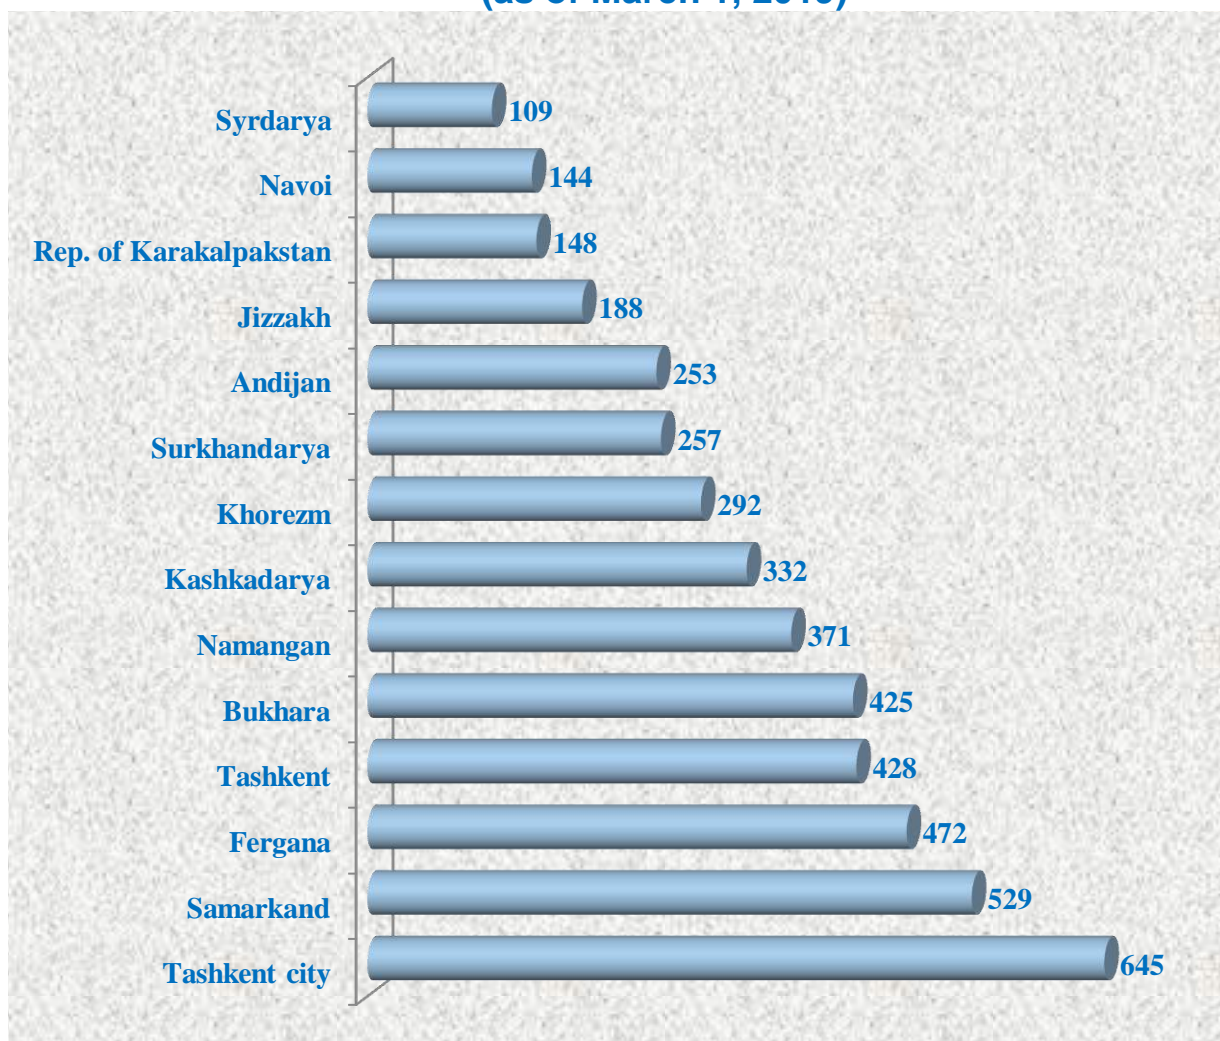

Currently, 60.8 thousand industrial enterprises operate in the republic, of which 13.9 thousand (22.9% of the total number of operating enterprises) are in Tashkent, 6.7 thousand (11.0%) - on Fergana, 6.1 thousand (10.1%) - on Tashkent region.

Number of operating industrial enterprises, units (as of March 1, 2019)

In January-February 2019, 4,623 industrial enterprises were created in the republic again, of which more than 54.1% are from Tashkent, Bukhara, Tashkent, Samarkand and Fergana regions.
