

# The State Committee of the Republic of Uzbekistan on Statistics

## Industrial production of the Republic of Uzbekistan in January-November 2018

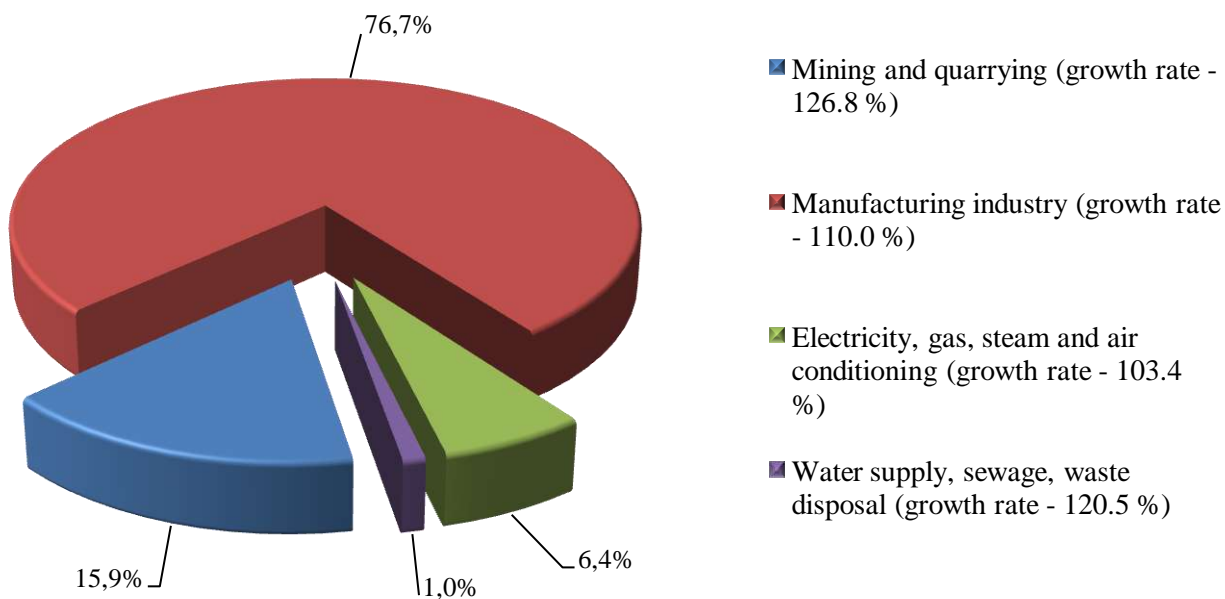

### FIGURES:

- The volume of industrial production amounted to **198.8 trillion soums**, growth rate - **112.0%**
- Industrial production per capita - **6.0 million soums**
- The share of consumer goods in total production amounted to **38.1%**
- Production of consumer goods per capita - **2.3 million soums**
- The share of small business in the industry - **34.9 %**

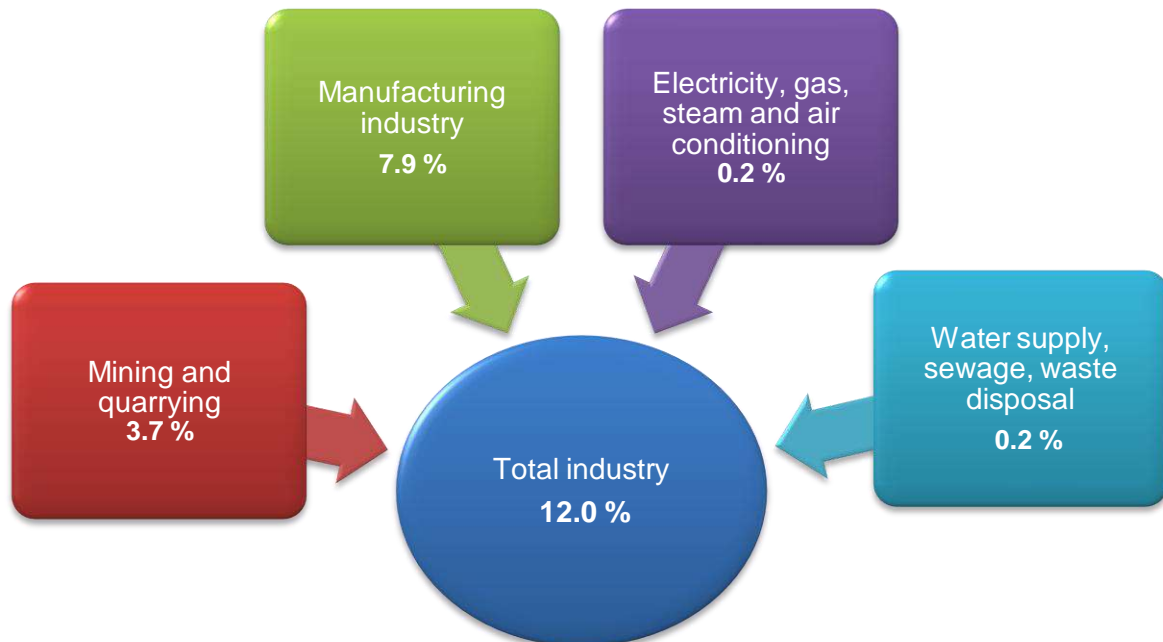

According to preliminary data, in January-November 2018, enterprises of the republic produced industrial products worth 198.8 trillion soums, the growth rate over the same period last year amounted to 112.0 %.

The main factor of growth in total industrial production was an increase in manufacturing in the manufacturing industry by 10.0 %, mining and quarrying - by 26.8 %, electricity, gas, steam and air conditioning - by 3.4 %, water supply, sewage, waste collection and disposal - by 20.5 %.

### *Structure of industrial production by main types of economic activity for January-November 2018, %*

## The contribution of the main types of economic activity in the growth of industrial production in January - November 2018

### Mining and quarrying

The volume of products produced by mining and quarrying enterprises in January-November 2018 amounted to 31.7 trillion soums, or 15.9 % of the total industry.

Compared with the same period last year, observed rubble-given production increase of 1.2 times, kaolin by 1.2 times, gas condensate by 11.1 %, and natural gas by 6.7 %. At the same time, there was a decrease in oil production by 8.9 % and gravel - by 2.7%.

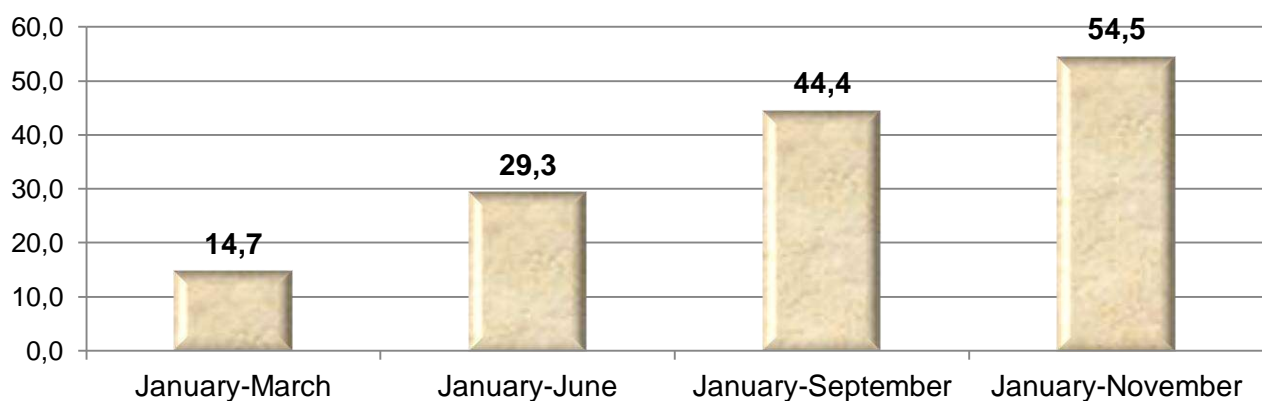

**Production of selected types of industrial products by large-scale mining and quarrying enterprises**

Production <i>January- November 2017</i>	Mining and quarry products	Production <i>January- November 2018</i>	Growth rate, %
<b>Coal, thousand t.</b>			
3699,3		3751,3	101,4 ↑
<b>Oil, thousand t.</b>			
751,5		684,4	91,1 ↓
<b>Natural gas, million cubic meters</b>			
51088,0		54490,1	106,7 ↑
<b>Gas condensate, thousand t.</b>			
1732,7		1924,8	111,1 ↑
<b>Crushed stone, thousand t.</b>			
903,2		1116,4	123,6 ↑
<b>Gravel, thousand t.</b>			
370,7		360,6	97,3 ↓

### Oil production (incl. Gas condensate), mln. t.

### Natural gas production, billion cubic m.

### Coal, mln t.

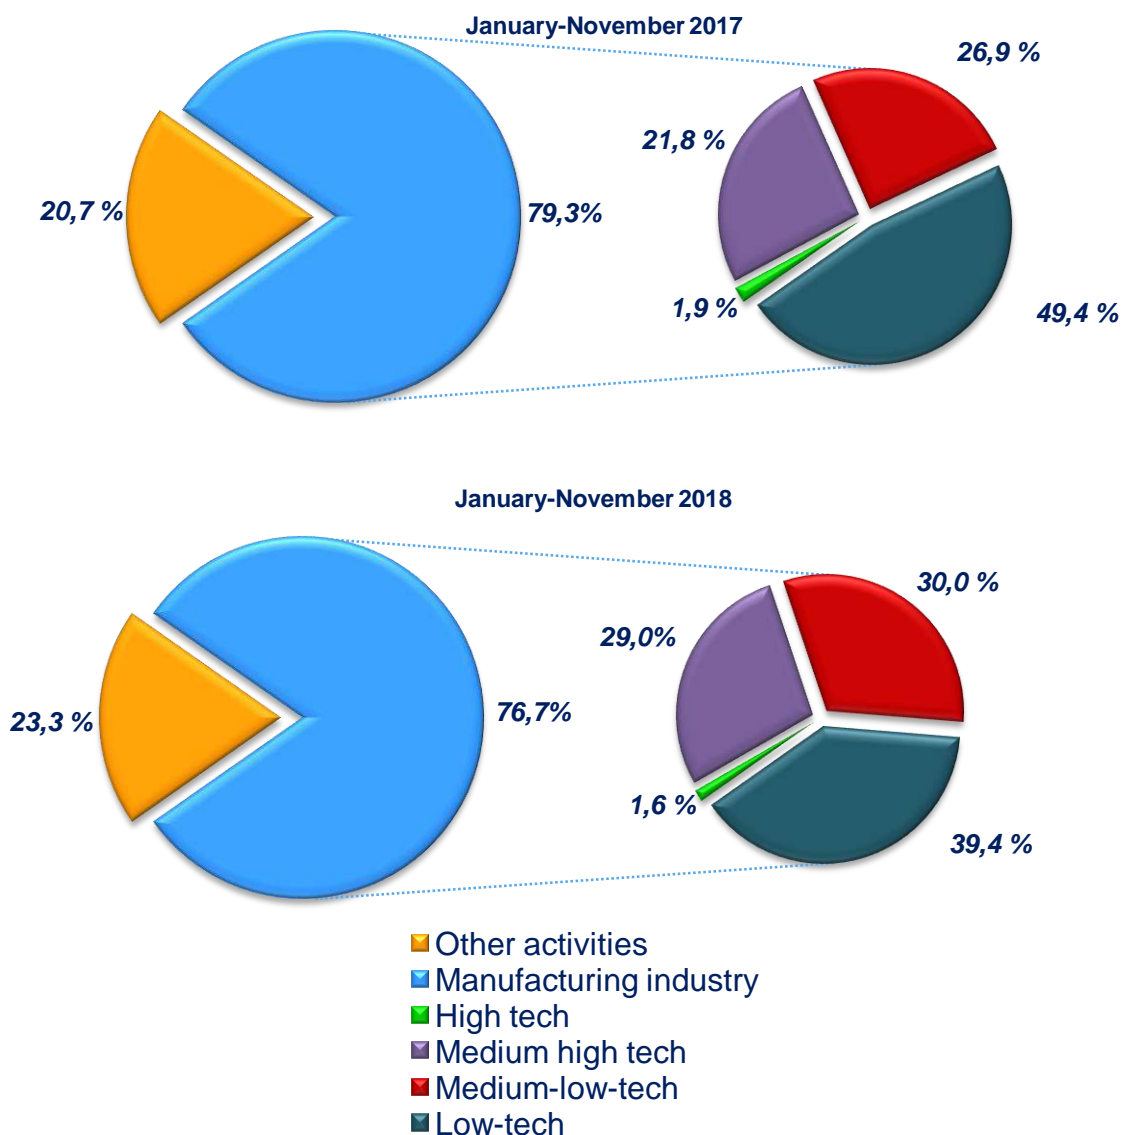

### Manufacturing industry

Manufacturing enterprises in January-November 2018 produced goods for 152.5 trillion soums, growth rates compared to the corresponding period last year amounted to 110.0 %.

Compared to the corresponding period of the previous year, the share of high-tech industries in the structure of the manufacturing industry was 1.6 % (1.9 % in January-November 2017), medium-high-tech - 29.0 % (21.8 %), medium-low-tech - 30.0 % (26.9 %) and low-tech-39.4 % (49.4 %).

#### *The structure of the manufacturing industry for manufacturability*

Medium-high-tech manufactures of the republic made a significant contribution to the growth of manufacturing products - 7.6 %, the growth rates of which compared to the same period of 2017 amounted to 130.6 %.

In the manufacturing industry, the share of enterprises for the production, repair, assembly of machinery and equipment, production of cars, trailers, semi-trailers and other finished products reached 18.7 % (growth rate - 140.4 % by January-November 2017); the share of enterprises for the production of textile, clothing and leather products - 13.7 % (110.1 %), for the production of food, beverages and tobacco products - 13.6 % (95.1 %), the metallurgical industry - 11.3 % (101.5 %); enterprises producing chemical products, rubber and plastic products - 8.5 % (102.8 %).

The overhaul of the technological equipment allowed us to increase the capacity utilization of chemical enterprises and to exceed the previous year's production of potassium chloride (115.8 % by January-November 2017), ammonium nitrate (109.9 %), acrylic-based paints and varnishes or vinyl polymers (131.9 %), superphosphates (167.6 %), formaldehyde (1.4 t.), mineral fertilizers containing nitrogen, phosphorus and potassium (2.2 t.).

The implementation of a set of measures to localize the production of agricultural machinery, supplied to agriculture, also contributed to the growth of products of medium-high-tech industries of the republic. Compared with January-November 2017, large enterprises increased production: plows - 64.3 t., tractors 3.9 t., grain combine harvesters - 11.0 %.

**Production of certain types of industrial products by large manufacturing enterprises**

Production January- November 2017	Manufacturing Products	Production January- November 2018	Growth rate, %
<b>Passenger cars (without specialized), pcs.</b>			
123701		174570	141,1 ↑
<b>Trucks, pcs.</b>			
3530		3785	107,2 ↑
<b>Busses, pcs.</b>			
915		733	80,1 ↓
<b>Automobile engines, pcs.</b>			
84908		115340	135,8 ↑
<b>Cotton fiber, thousand t.</b>			
831,9		711,0	85,5 ↓
<b>Vegetable oil (refined), thousand t.</b>			
180,1		154,8	86,0 ↓

Production <i>January- November 2017</i>	Manufacturing Products	Production <i>January- November 2018</i>	Growth rate, %
<b>Tobacco products, mln. pcs.</b>			
8814		9454	107,3 ↑
<b>Motor gasoline, thousand t.</b>			
1003,3		1053,0	105,0 ↑
<b>Diesel fuel, thousand t.</b>			
892,4		985,7	110,4 ↑
<b>Portland cement, thousand t.</b>			
7867,3		7627,3	96,9 ↓
<b>Paints and varnishes based on acrylic or vinyl polymers, t.</b>			
10647,3		14038,7	131,9 ↑
<b>Tractors, pcs.</b>			
760		2976	3,9p ↑

**Electricity, gas, steam and air conditioning**

The volume of production by enterprises of electricity, gas, steam and air conditioning amounted to 12.8 trillion soums (6.4 % of the total industry).

In this industry in January-November 2018, compared with the corresponding period last year, the production, transmission and distribution of electricity, steam supply systems and air conditioning increased by 3.3 %, and the production and distribution of gaseous fuels - by 6.3 %

**Production of certain types of industrial products by large enterprises of electricity, gas, steam and air conditioning**

Production January- November 2017	Manufacturing Products	Production January- November 2018	Growth rate, %
54312,1	<p style="text-align: center;"><b>Electricity, mln. kW/h</b></p> 	56248,8	103,6 ↑
24525,5	<p style="text-align: center;"><b>Heat, thousand Gcal</b></p> 	24803,5	101,1 ↑

**Water supply, sewage, waste collection and disposal**

The volume of products produced by water supply, sewerage, waste collection and disposal amounted to 1.9 trillion soums (1.0 % of the total industry).

Compared with the corresponding period last year, there is an increase in recycled materials containing ferrous metals by 27.3 %, recycled materials containing aluminum in 2 t., Water treatment and distribution services by water pipelines - by 26.2 %, services in removal, transportation of wastewater and their treatment - by 29.9 %.

**Production of certain types of industrial products by large enterprises of water supply, sewerage, waste collection and disposal**

### Consumer goods production

As a result of measures taken to expand the range and stimulate the production of finished products, consumer goods production amounted to 75.7 trillion soums and, compared with January - November 2017, increased by 11.9%, the share in the total industry amounted to 38.1 %.

#### Volume and growth rates of consumer goods production in January- November 2018

Compared to the same period in 2017, in the structure of consumer goods in January-November of the current year, an increase in the share of non-food products production is observed from 63.7 % to 68.2 %.

#### Structure of production of consumer goods by subjects of large and small businesses, %

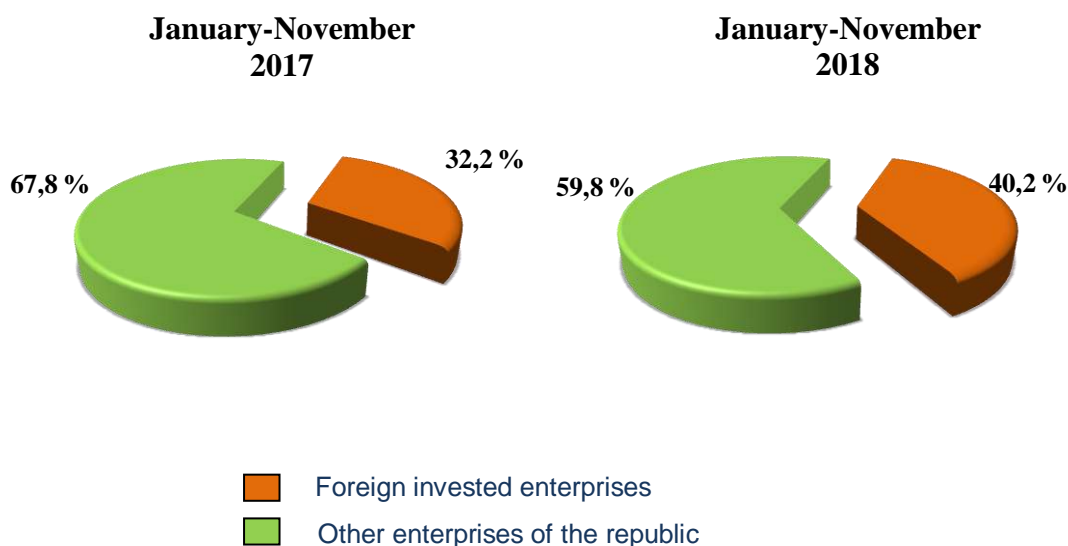

In the structure of the production of foodstuffs, the production of wine-vodka products and beer was 7.5% (7.0% in January-November 2017).

***Production of enterprises with foreign investments***

During the reporting period, enterprises with foreign investment produced goods to 80.0 trillion soums, the growth rate compared to the corresponding period last year amounted to 131.1 %.

If in the previous year the share of joint ventures in the total production was equal to 32.2 %, in the reporting period it increased and reached 40.2 %.

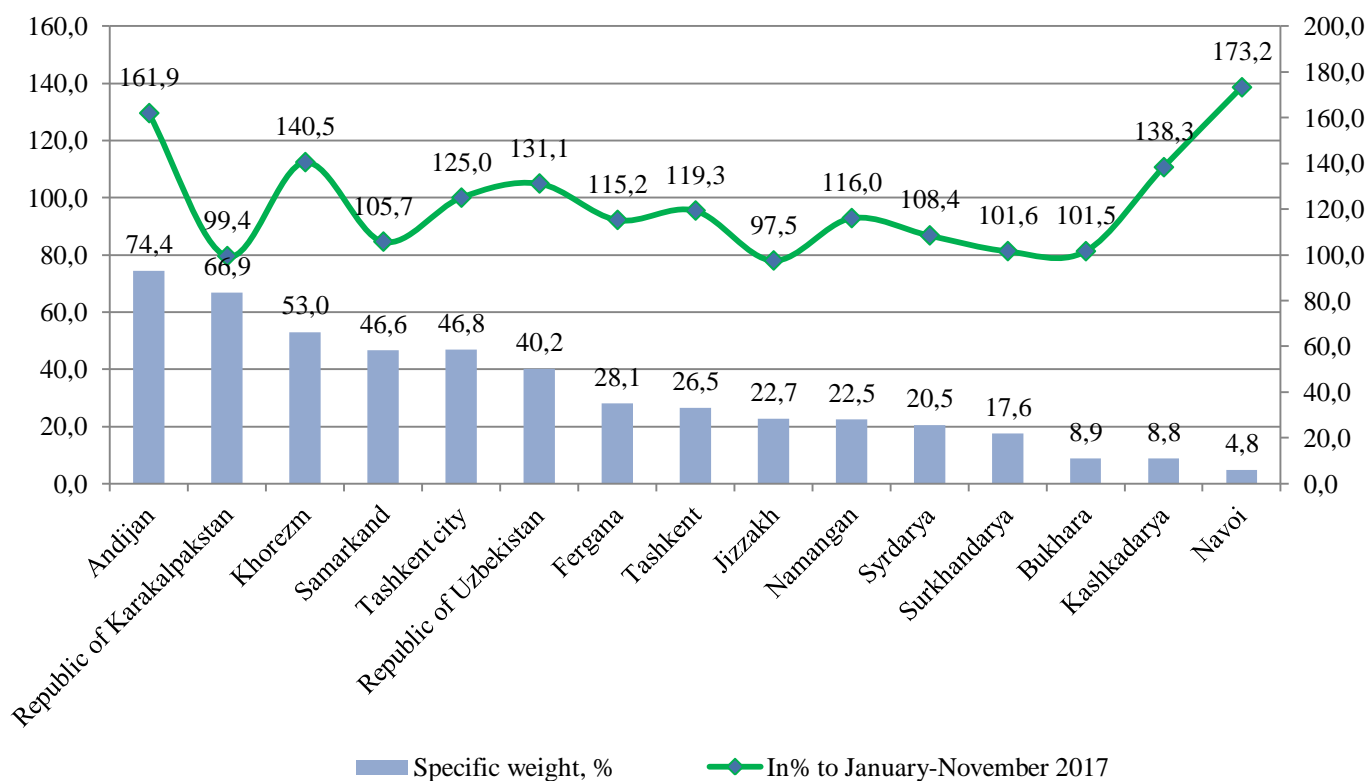

**Share of products of enterprises with foreign investments in the total industry**

The contribution to the increase in industrial production of the republic of joint ventures in January-November of this year amounted to 10.7 %, ensuring an acceleration of the pace of reform and liberalization of the economy, as well as an increase in the competitiveness of products on the world market.

In the total volume of joint venture products, the share of mining and quarrying enterprises was 21.5 %, manufacturing industry - 78.4 %.

### The proportion of products of enterprises with foreign investments in the volume of production of the regions

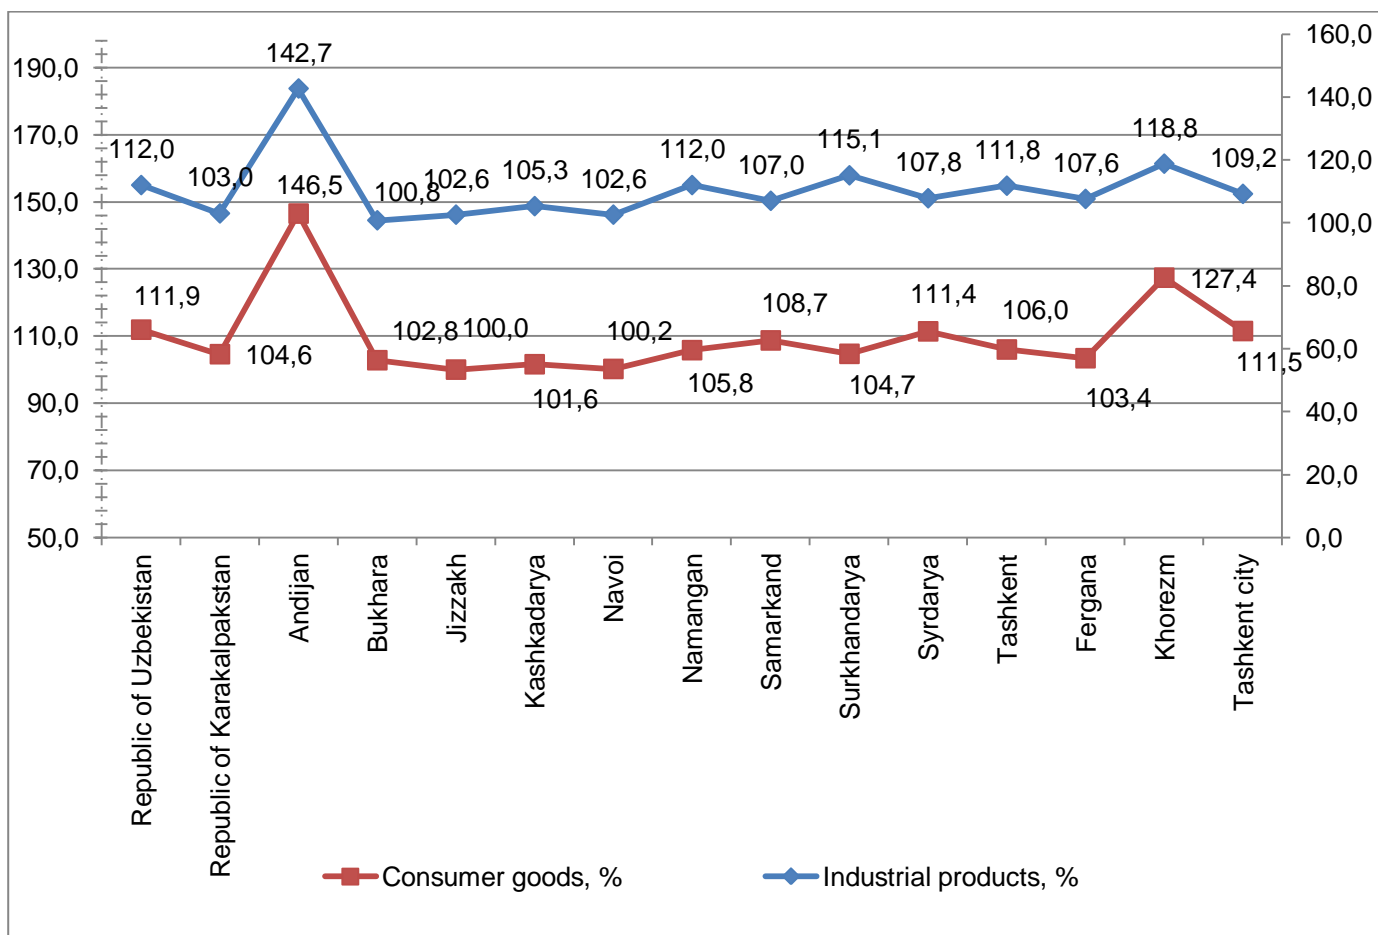

### Industrial production of the regions

In the structure of industrial output of the republic, the largest share falls on the Tashkent city (19.2 % of the republican industry), Tashkent (15.4 %), Andijan (11.0 %), Navoi (10.2 %), Kashkadarya (6.3 %) and Fergana (5.7 %) regions.

At the same time, it should be noted that the largest share of consumer goods was produced in the Tashkent city (25.4 % of the total consumer goods), Andijan (22.8 %), Tashkent (9.0 %) and Samarkand (9.0 %) regions.

The consistent implementation of measures to increase the industrial potential of the regions contributed to a significant increase in production in Andijan (142.7 % compared to January-November 2017), Surkhandarya (115.1%), Khorezm (118.8 %), Namangan (112.0 %), Tashkent (111.8 %) regions.

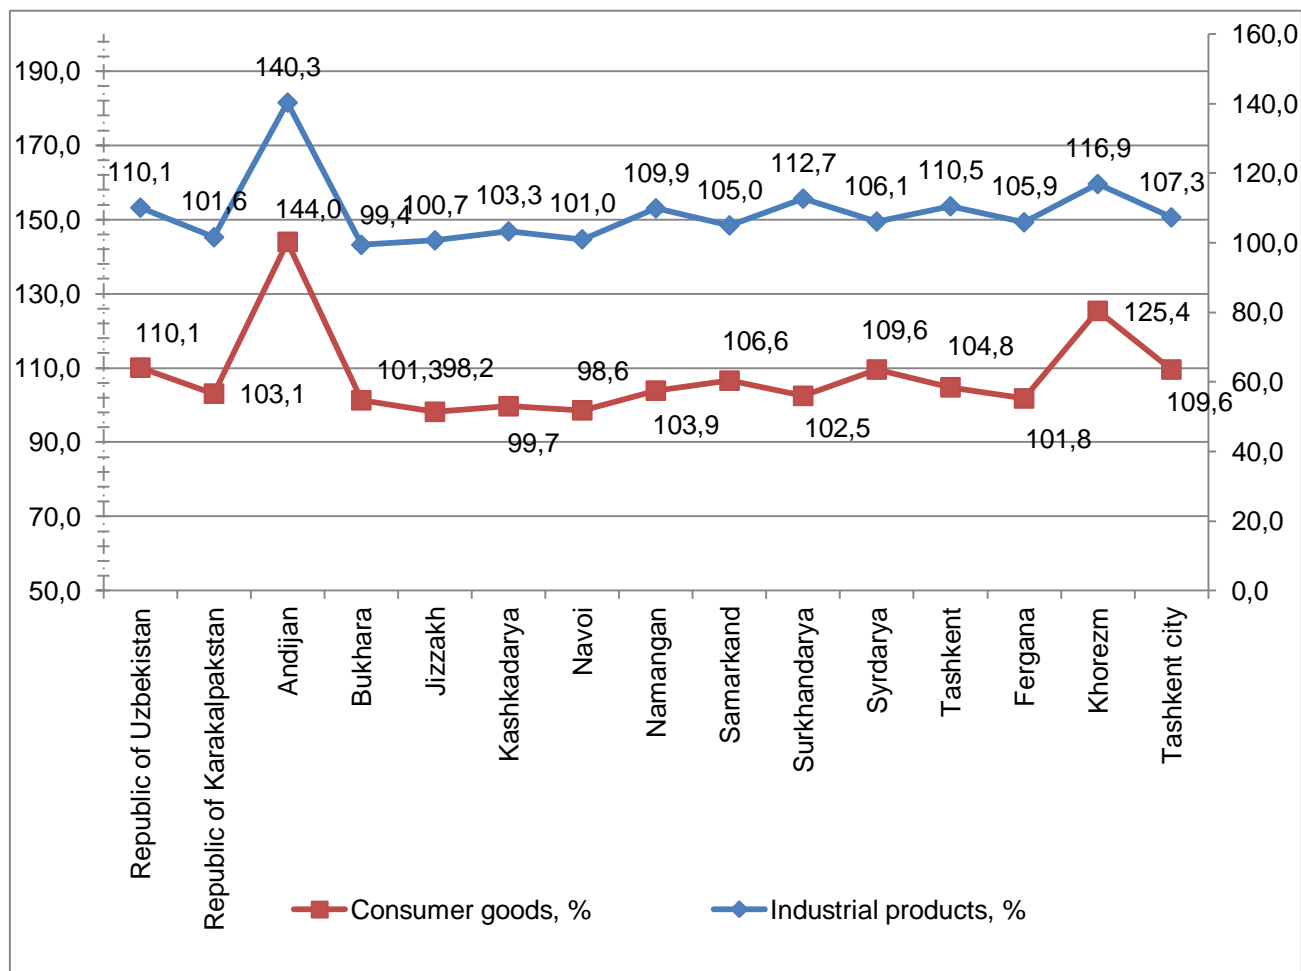

At the same time, there was a significant increase in the production of consumer goods in Andijan (146.5 % compared to the same period of 2017), Khorezm (127.4 %), Syrdarya (111.4 %) regions and the Tashkent city (111.5%).

Analysis of the differentiation of industrial output per capita showed an excess of the average national indicator (6049.3 thousand soums) in the Navoi region (20993.6 thousand soums), the Tashkent city (15363.9 thousand soums), Tashkent (10647.2 thousand soums) and Andijan (7201.9 thousand soums) regions.

In the reporting period, the production of consumer goods per capita in the republic amounted to 2302.8 thousand soums, including 7740.6 thousand soums in the Tashkent city, 5703.7 thousand soums in Andijan region, 2477.3 thousand soums in Navoi region, in the Tashkent region-2382.9 thousand soums.

**Growth rates of production of industrial products and consumer goods will perfume the population by region in January-November 2018, %**

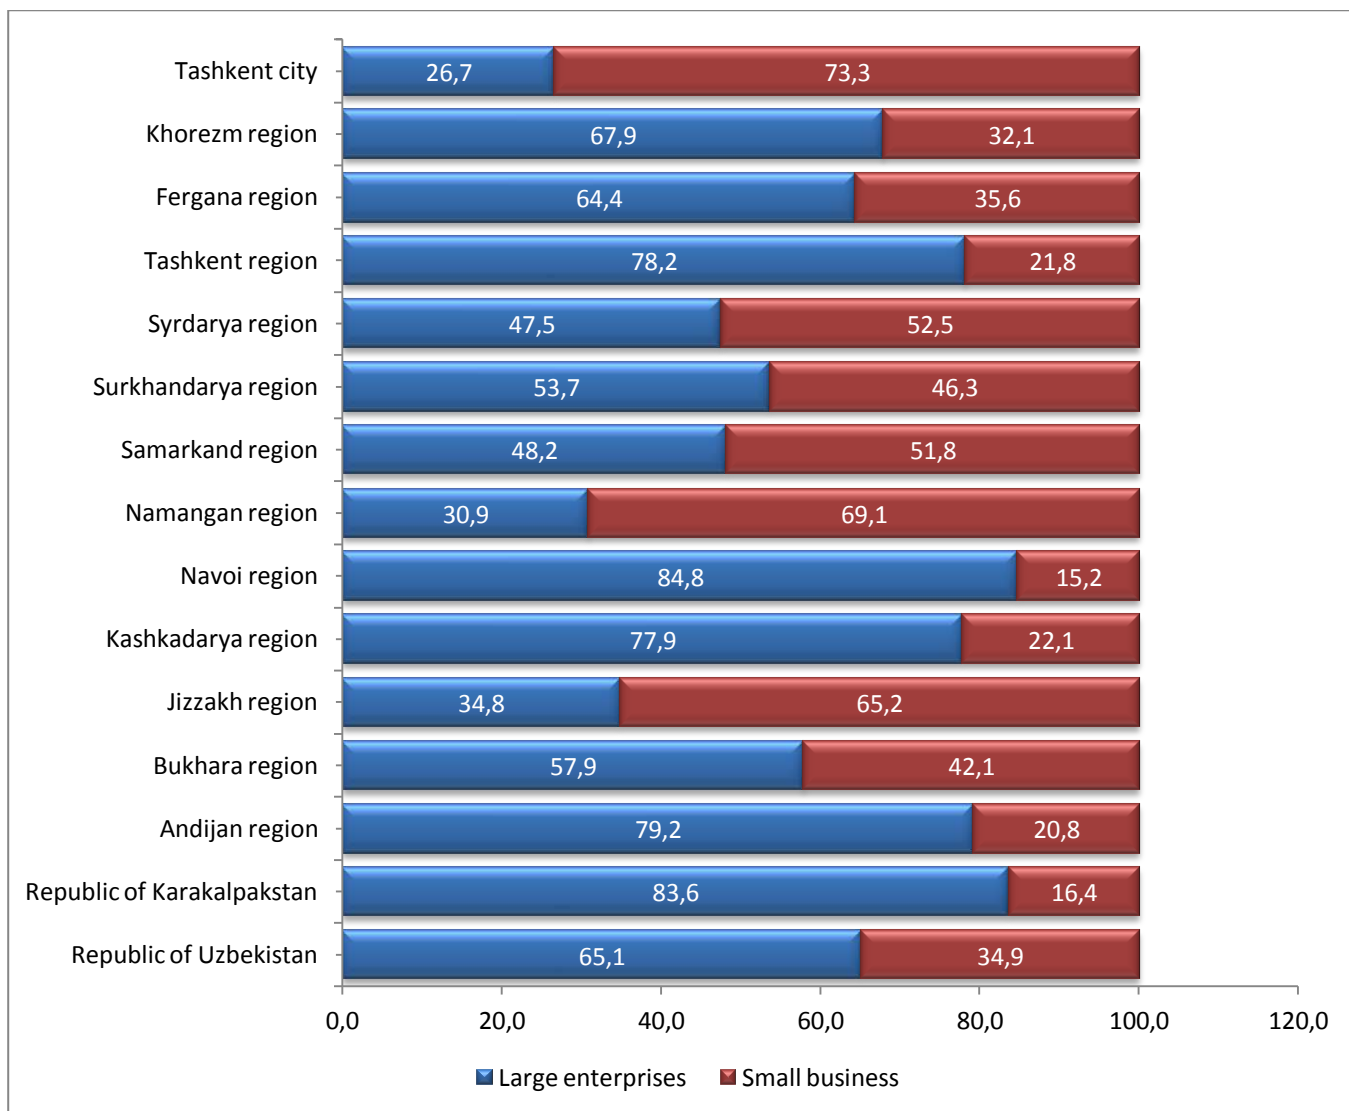

**The contribution of small business in industrial production**

The dynamic development of industrial activity of small businesses ensured the growth of industrial production by the corresponding period of last year by 7.5 %, while the share of small business in industry was 34.9 %.

In terms of regions, the largest share of small business was observed in Tashkent (73.3 % of the total industry of the region), Namangan (69.1 %), Jizzakh (65.2 %) and Samarkand (51.8 %) regions.

At the same time, the smallest share of small businesses was observed in the Republic of Karakalpakstan (16.4 %), Navoi (15.2 %),
