# Investment and construction statistics

The share of regions in total volume of construction works (% of total)

In the regional context, construction organizations of Tashkent city performed 23.0% of total volume of construction work in the republic, the cost of which was estimated 6,129.8 billion soums. Such a large-scale construction is explained by the fact that the largest construction organizations of the country are located in Tashkent city, and multitude of small construction organizations and microfirms are functioning. Along with this, large-scale construction works are being carried out in this territory, including the construction of subway lines, the international business center "Tashkent-City", residential buildings under government programs, and other buildings and structures for sale, which has served to a significant increase in construction work.

# Investment and construction statistics

The highest growth rate of construction works were observed in Navoi region. High growth rates were achieved here - 116.1%, performed due to:

("Navoiydavmaxsuspudrat"); current repair of highways ("Navoiy ko'priklardan foydalanish" UE); construction of collectors (UE "Karmanadavsuvmaxsuspudrat"); construction and reconstruction of the park.

High growth rates in Tashkent city were achieved through the construction of the following facilities:

YANGIZAMONBINO LLC - construction of social housing under the program of the President in Tashkent UE "O'ZTEMIRYO'LQURILISHMONTAJ" - the construction of the park "Navruz" in Tashkent, the construction of a modern airport complex of civilian (business) aviation on the basis of the Tashkent-Vostochny airfield, the construction of the Shurbulak reservoir in the Republic of Karakalpakstan

TREST-12 LLC - construction of the building of the International Islamic Center, reconstruction of school number 24 named after Shastri, reconstruction of the building "Uzbekfilm", reconstruction of the administrative building of the Central Bank, construction of a country complex "Kuksaroy", construction of a hostel of the Military Academy

MOSTOOTRYAD-67 construction of bridges and the "Yunusabad" metro line in Tashkent city.

In Surkhandarya region, high growth rates were observed due to the construction of the following large objects:

SUE "QIZIRIQDAVSUVMAXSUSPUDRAT" -reconstruction of the Sherabod channel system.

LLC "TO'PALANG-SUV-GES-QURILISH" construction of the reservoir "Zarchop" small hydroelectric power station
