

# State Committee of the Republic of Uzbekistan on Statistics

## Industrial production of the Republic of Uzbekistan in January-April 2018

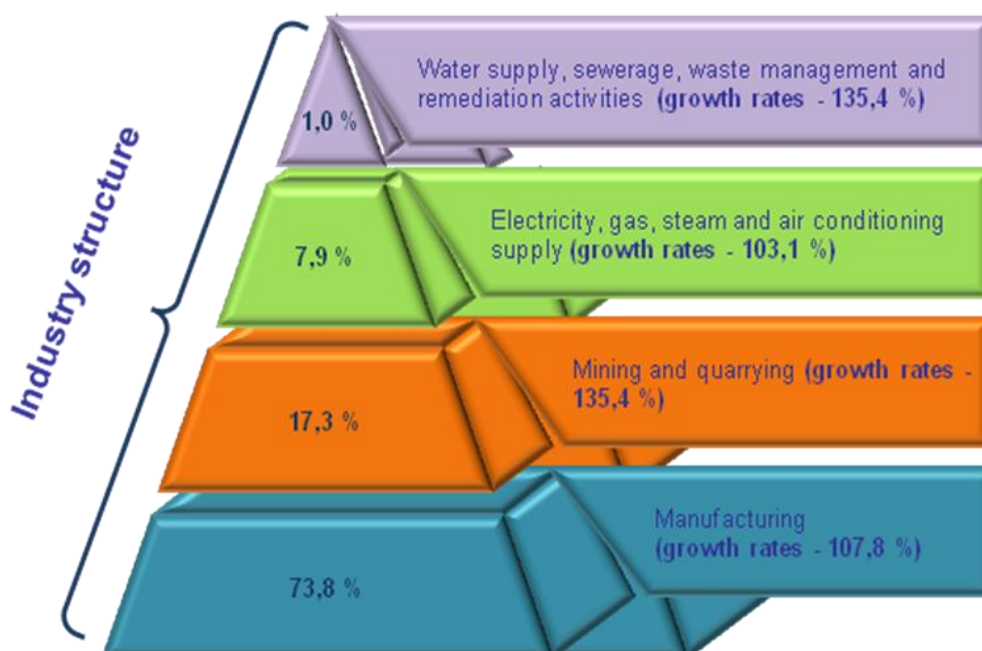

### Figures:

- Industrial output was **60,3 trln. soums**, growth by **11,6 %**
- Growth rate of consumer goods production has reached **105,5%**
- Share of consumer goods in total industrial output was - **30,3%**
- Share of small business in industry was **28,7 %**
- Number of operating industrial enterprises - **51605 units**

According to preliminary data in January-April 2018 the enterprises of the republic produced industrial products to the amount of 60.3 trillion soums, the growth rate to the same period of the last year - 111.6%.

The main factor in the growth of the total industrial output was the increase in the production of manufacturing industry by 7.8% (contribution to the increase in industrial output – 5.9 points), mining and quarrying by 35.4% (5.1 points), electricity, gas, steam and air conditioning supply by 3.1% (0.3 points) and water supply, sewerage, waste management and remediation activities by 35.4% (0.3 points).

### Structure of industrial production by main economic activities in January-April 2018

### ***Mining and quarrying***

The volume of production produced by enterprises of the mining and quarrying in January-April 2018 amounted to 10.4 trillion soums, or 17.3% of the total industrial output.

In the mining industry by type of output, compared to the corresponding period of the last year, there is an increase in the production of crushed stone by 1.9 times, kaolin - 44.8%, gas condensate - 20.3% and natural gas - 6.7%, while there is a decrease in petroleum production by 9.8%, coal - 0.8%.

### ***Production of certain types of industrial products by large mining and quarrying industrial enterprises in January-April***

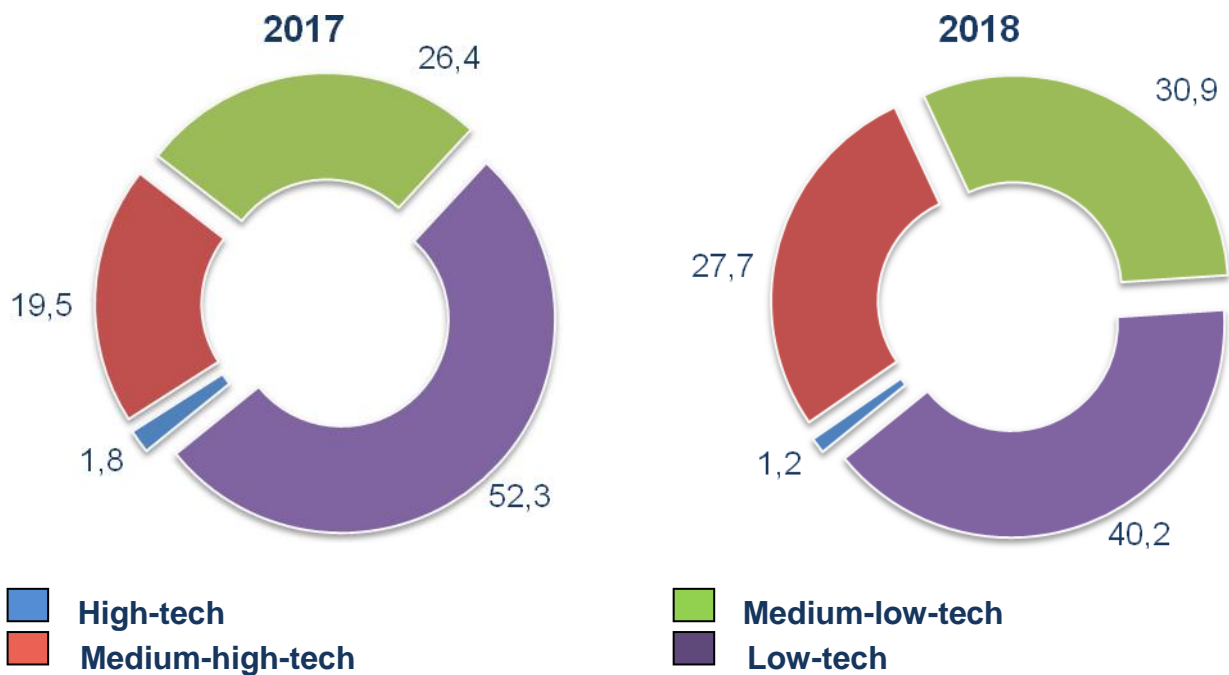

Production in 2017	Output of mining and quarrying	Production in 2018	Growth rates, %
	<b>Coal, thsd. t.</b>		
1266,7		1256,0	99,2 ↓
	<b>Petroleum, thsd. t.</b>		
276,8		249,7	90,2 ↓
	<b>Natural gas, mln. m<sup>3</sup></b>		
18278,8		19510,8	106,7 ↑
	<b>Gas condensate, thsd. t.</b>		
592,7		712,8	120,3 ↑

### Manufacturing

The volume of production produced by manufacturing enterprises in January-April 2018 amounted to 44.5 trillion soums, or 73.8% of the total industrial output.

In the structure of manufacturing the share of high-tech industries was 1.2% (in January-April 2017 - 1.8%), medium-high-tech - 27.7% (19.5%), medium-low-tech - 30.9% (26.4%) and low-tech 40.2% (52.3%).

### Structure of manufacturing by manufacturability in January-April

In comparison with the corresponding period of the last year in the manufacturing industry production of tractors increased by 11.4 times, automobile engines - 37.9%, paints and varnishes based on acrylic or vinyl polymers - 31.4%, motorcars (excluding specialized) - 26.4%, diesel fuel - 15.4%, vegetable oil - 7.2%, motor gasoline - 3.7% and cotton fiber - 1.9%, while the production of buses, trucks, portland cement and tobacco products decreased.

**Production of certain types of products by large industrial enterprises in the manufacturing industry in January-April**

Production in 2017	Manufactured products	Production in 2018	Growth rates, %
	<b>Motorcars (excluding specialized), units</b>		
40366		51005	126,4 ↑
	<b>Trucks, units</b>		
1204		854	70,9 ↓
	<b>Buses, units</b>		
300		144	48,0 ↓
	<b>Automobile engines, units</b>		
29581		40780	137,9 ↑
	<b>Cotton fiber, thsd. t.</b>		
448,1		456,4	101,9 ↑
	<b>Vegetable oil (refined), thsd. t.</b>		
82,3		88,2	107,2 ↑

Production in 2017	Manufactured products	Production in 2018	Growth rates, %
	<b>Tobacco products, mln. pcs</b>		
3370,0		3345,0	99,3 ↓
	<b>Motor gasoline, thsd. t.</b>		
365,5		378,9	103,7 ↑
	<b>Diesel fuel, thsd. t.</b>		
336,2		387,9	115,4 ↑
	<b>Portland cement, thsd. t.</b>		
2682,3		2415,6	90,1 ↓
	<b>Paints and varnishes based on acrylic or vinyl polymers, t.</b>		
2855,3		3752,1	131,4 ↑
	<b>Tractors, units</b>		
71		806	11,4 t. ↑

### ***Electricity, gas, steam and air conditioning supply***

The volume of products produced by electricity, gas, steam and air conditioning enterprises amounted to 4.8 trillion soums (7.9% of the total industrial output).

In January-April 2018, compared with the same period of the last year, in this industry production, transmission and distribution of electrical energy increased by 3.3%, production and distribution of gaseous fuels - by 0.6%.

### ***Water supply, sewerage, waste management and remediation activities***

The volume of products produced by water supply, sewage, waste management and remediation enterprises amounted to 620.5 billion soums (1.0% of the total industrial output).

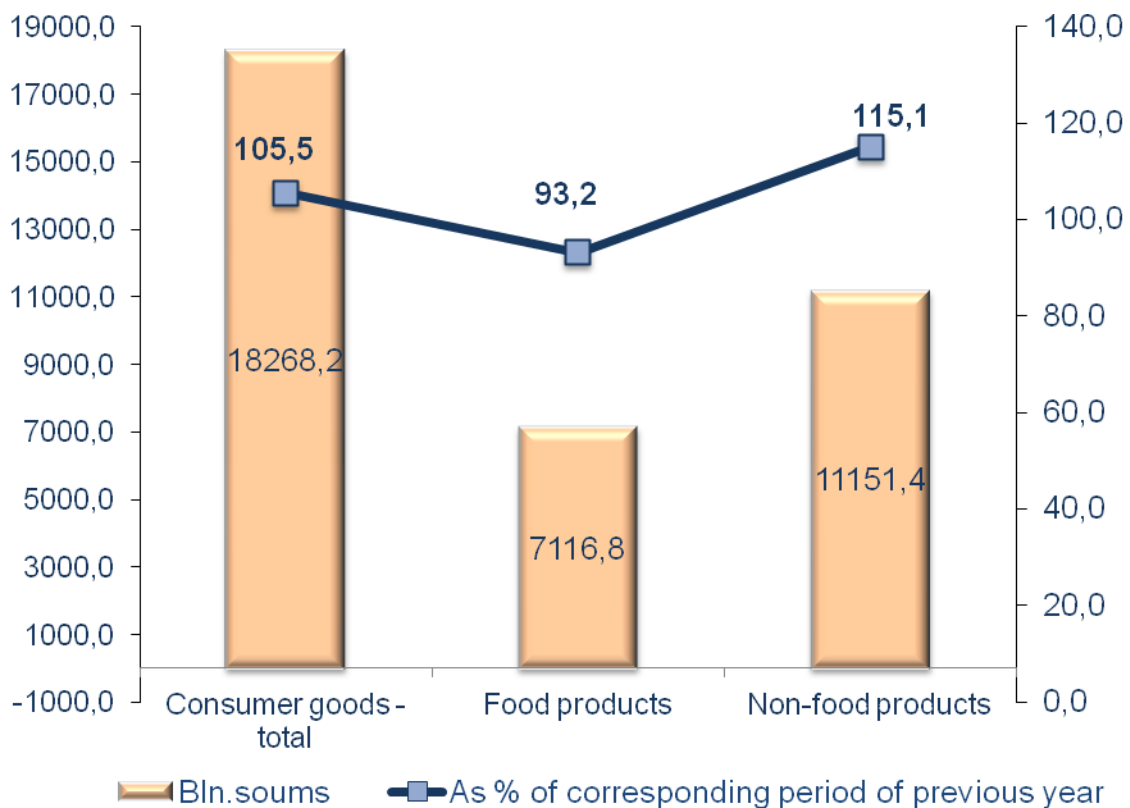

Compared to the corresponding period of the previous year there is an increase in recyclable materials containing ferrous metals by 79.1%, recyclables containing aluminum by 50.9%, water treatment and distribution services by 19.1%, services in waste water removal, transportation and remediation by 14.8%.

### Consumer goods production

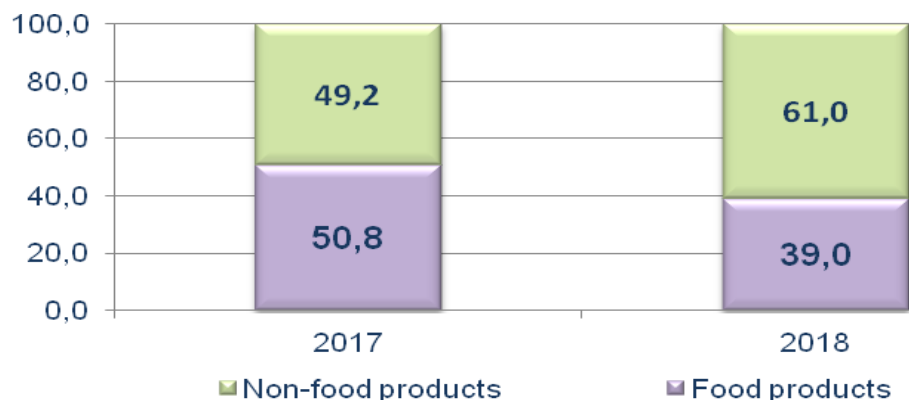

As a result of measures taken to expand the assortment and stimulate the output of finished goods the production of consumer goods amounted to 18.3 trillion soums and, as compared to January-April 2017, increased by 5.5%, the share in the total industrial output was 30, 3%.

#### Volume and growth rates of consumer goods production in January-April 2018

Compared with January-April 2017 in the structure of consumer goods the share of non-food products increased from 49.2% to 61.0% in January-April 2018.

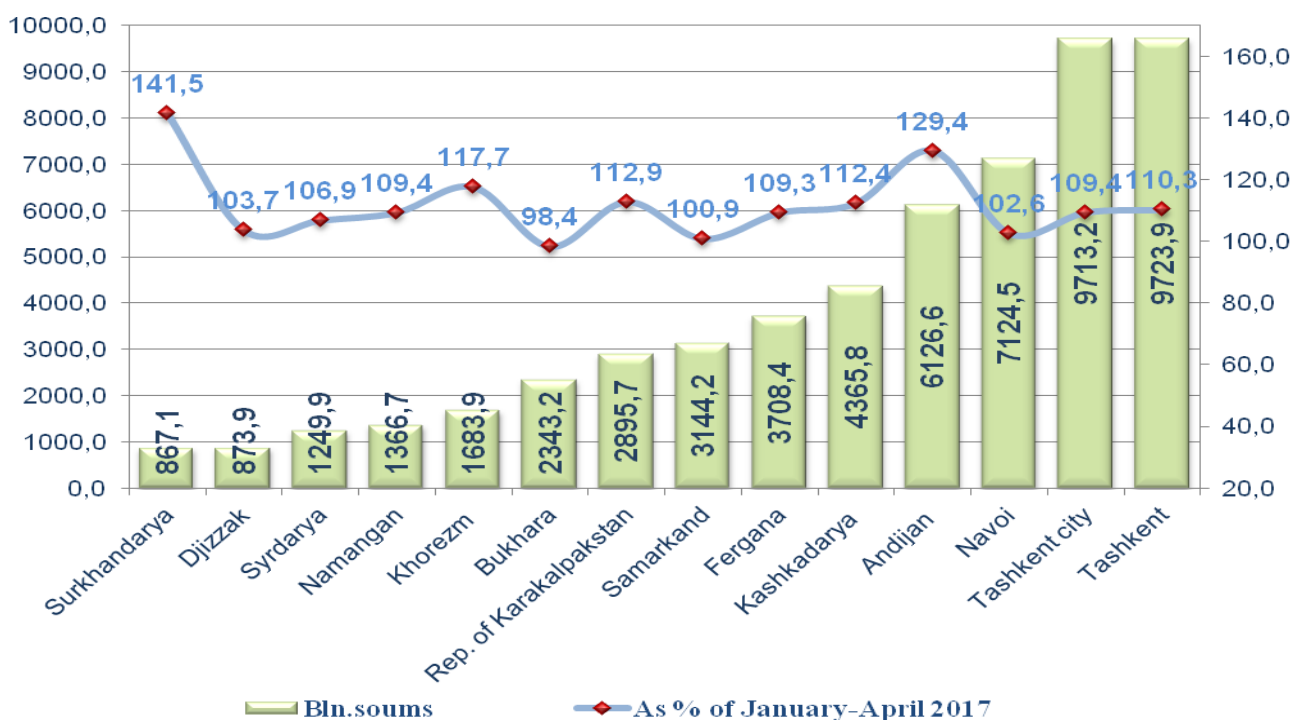

### Structure of consumer goods production in January-April, %

### Industrial production in regions

The largest share in the structure of industrial output belongs to Tashkent region and Tashkent city (16.1% of total output), Navoi region (11,8%), Andijan region (10.2%), Kashkadarya region (7.2%), Fergana region (6.2%),

### Volume and growth rates of industrial production by region in January-April 2018

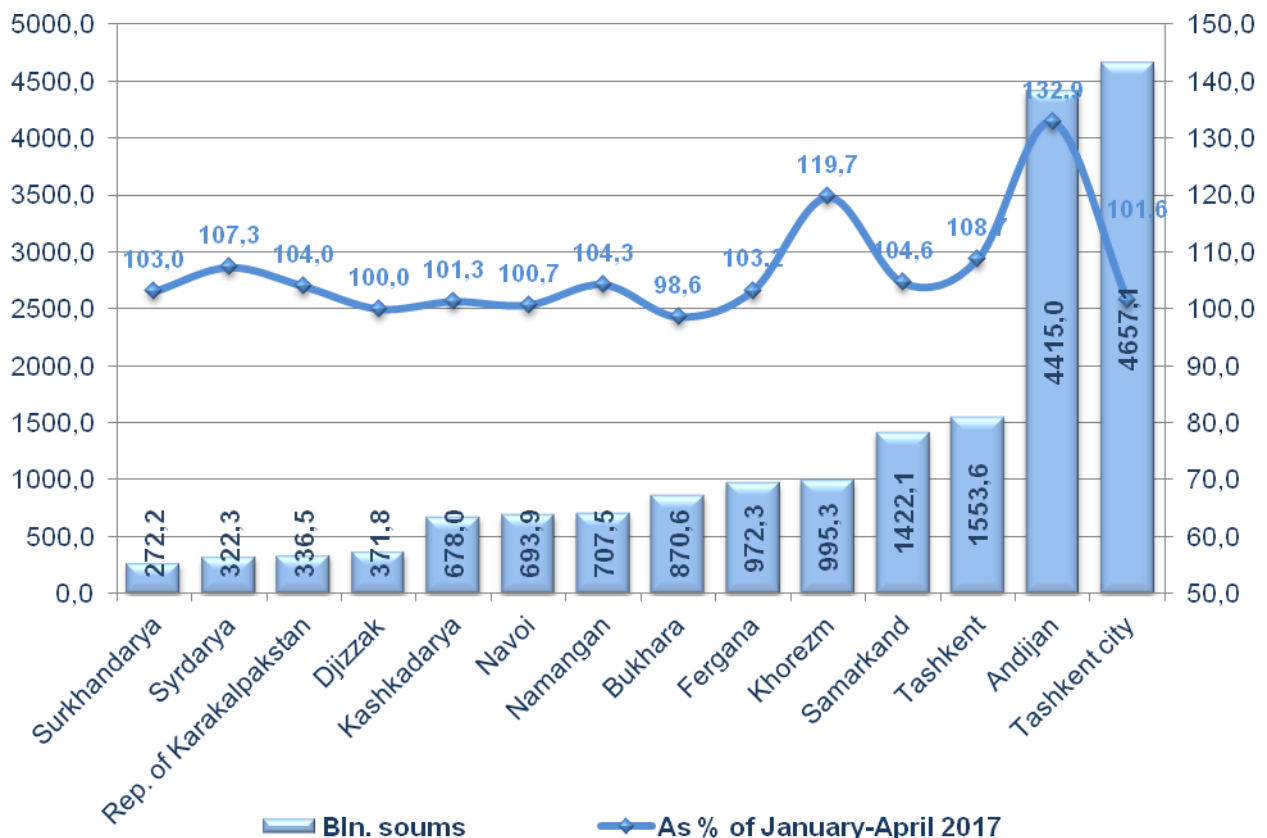

while the smallest share - to Surkhandarya region (1.4%), Djizzak region (1.5%), Syrdarya region (2.1% percent), Namangan (2.3%) and Khorezm regions (2.8%).

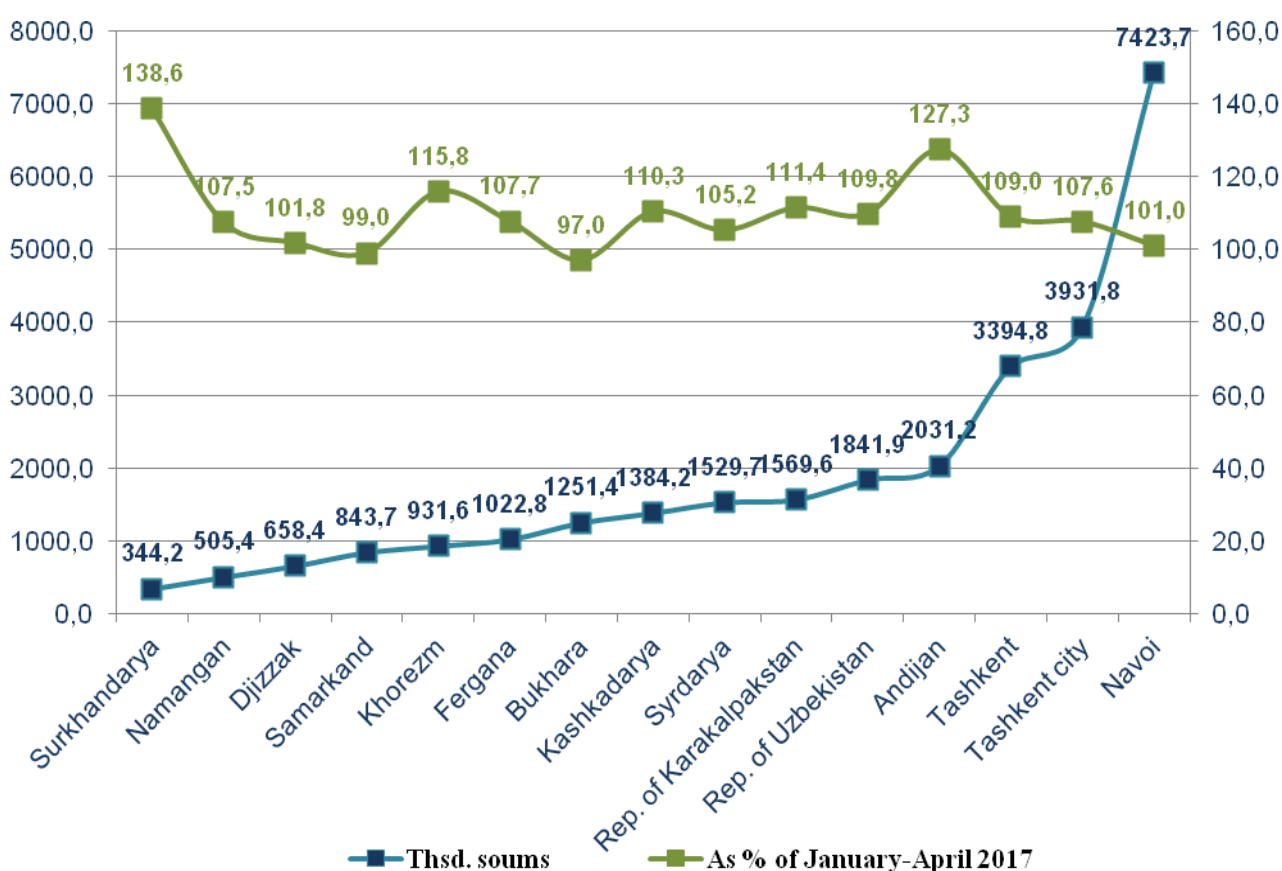

It should be noted that the implementation of high-tech projects for the production of competitive products contributed to a significant increase in production of Surkhandarya region (141.5% to January-April 2017), Andijan region (129.4%), Khorezm region (117.7%), Kashkadarya region (112, 4%) and the Republic of Karakalpakstan (112.9%).

**Volume and growth rates of consumer goods production  
by region in January-April 2018**

Analysis of the differentiation of industrial production per capita shows the excess of the average national indicator (4451.9 thousand soums) in Navoi region (13772.5 thousand soums), Tashkent city (11579.3 thousand soums), Tashkent region (7401.8 thousand soums) and Andijan region (2031,2 thousand soums) .

**Average per capita volume and growth rates of industrial production by region in January-April 2018**

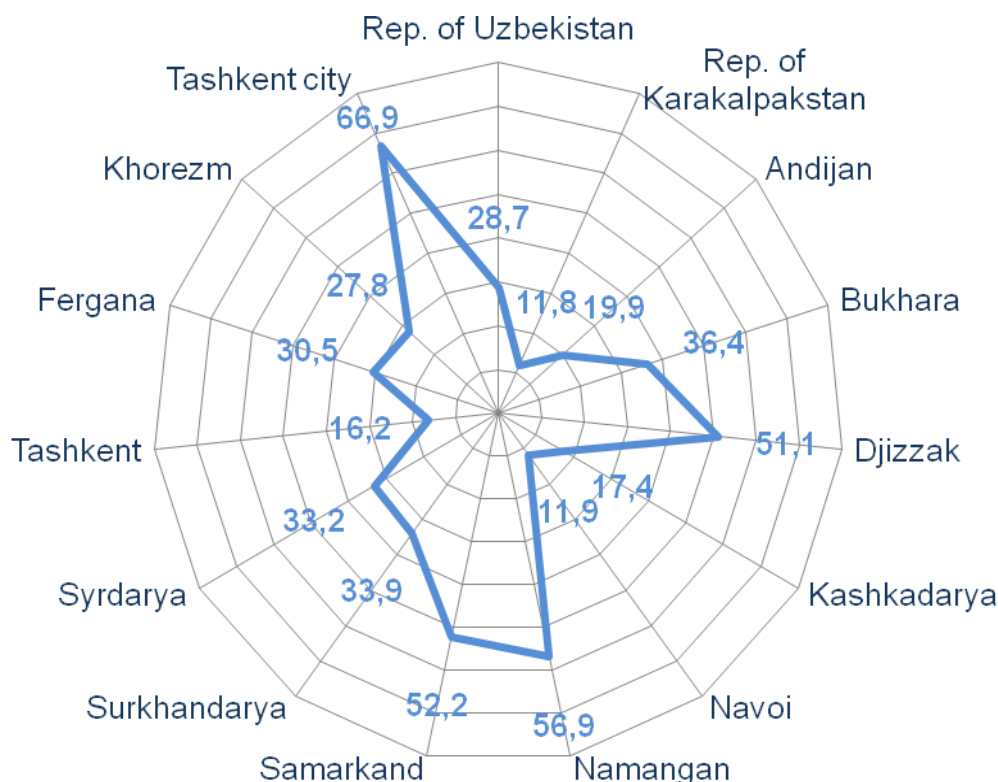

At the regional level the high growth rates of average per capita industrial output were observed in Surkhandarya region (138.6% to January-April 2017), Andijan region (127.3%) and Khorezm region (115.8%), while the low growth rates were marked in Bukhara region (97.0%) and Samarkand region (99.0%).

### ***Contribution of small businesses to industrial production***

Dynamic development of industrial activity of small business entities ensured the growth of industrial production to the corresponding period of the previous year by 4.4%, the share of small business in industry was 28.7%.

At the regional level the largest share of small business was observed in Tashkent city (66.9% of the total regional industrial output), Namangan region (56.9%), Samarkand region (52.2%) and Djizzak (51.1%), while the smallest share was registered in the Republic of Karakalpakstan (11.8%), Navoi region (11.9%), Tashkent region (16.2%) and Kashkadarya region (17.4%).

### ***Share of small business in total industrial output by region in January-April 2018, %***

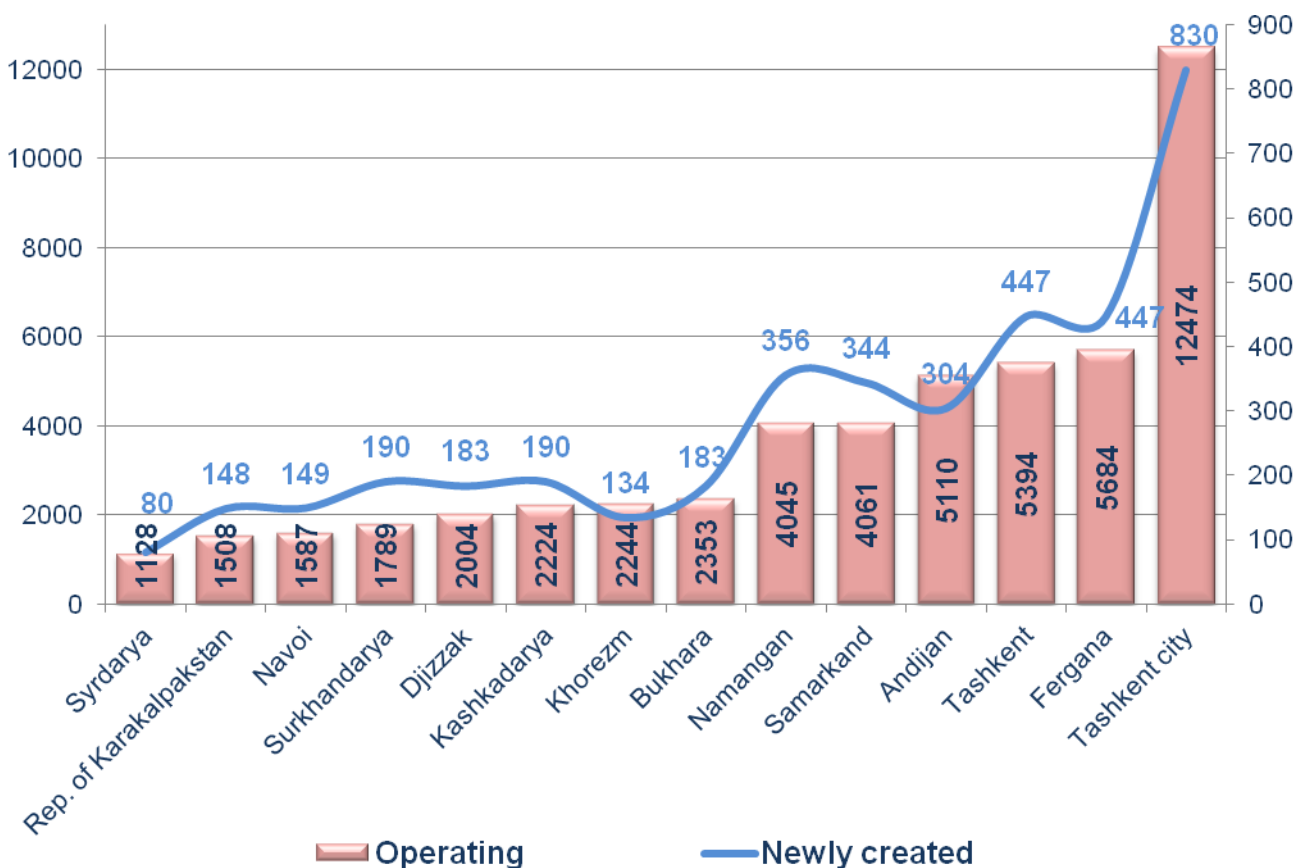

### ***Operating and newly created industrial enterprises***

Currently there are 51,6 thousand industrial enterprises in the republic, of which 12474 enterprises are located in Tashkent city, 5684 in Fergana region, 5994 in Tashkent region, 5110 in Andijan region, 4061 in Samarkand region, 4045 in Namangan region, 2353 in Bukhara region, 2244 in Khorezm region, 2224 in Kashkadarya region, 2004 in Djizzak region, 1789 in Surkhandarya region, 1587 in Navoi region, 1128 in Syrdarya region and 1508 in the Republic of Karakalpakstan.

### ***Number of operating and newly created industrial enterprises***

***as of May 1, 2018, units***

**continued**

In January-April of the current year about 4 thousand industrial enterprises were re-established in the republic, of which about 70% belongs to Tashkent city, Fergana region, Tashkent region, Andijan region, Samarkand region and Namangan region.
