

Industrial production of the Republic of Uzbekistan *January-April 2020*

According to preliminary data, in January-April 2020, the republic's enterprises produced industrial products worth 104.2 trillion soums, the index of physical volume* of industrial production compared to the same period in 2019 was 94.6%.

In the structure of production, the largest share falls on manufacturing enterprises (78.4%).

Industrial production by main economic activities

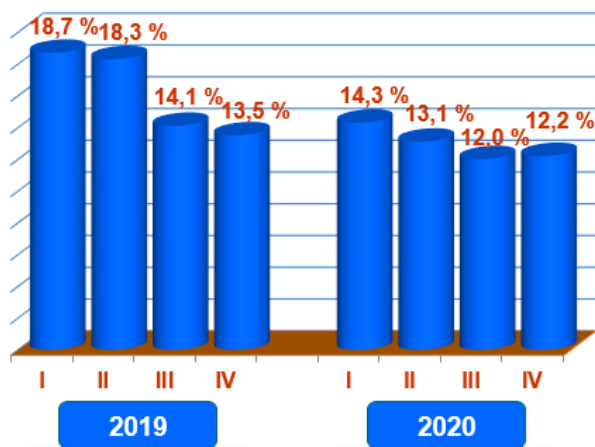

The main factor in the decline in the physical volume of industrial production was a decrease in the volume of mining and quarrying - by 18.3%, manufacturing - by 2.5%, water supply, sewerage, waste collection and disposal - by 11.4%, while there is an increase in production of electricity, gas, steam and air conditioning - by 5.5%.

* **The index of physical volume** of industrial production is a relative indicator characterizing the change in the mass of manufactured products (works, services) in the compared periods.

Mining and quarrying

Share in total industrial output, %

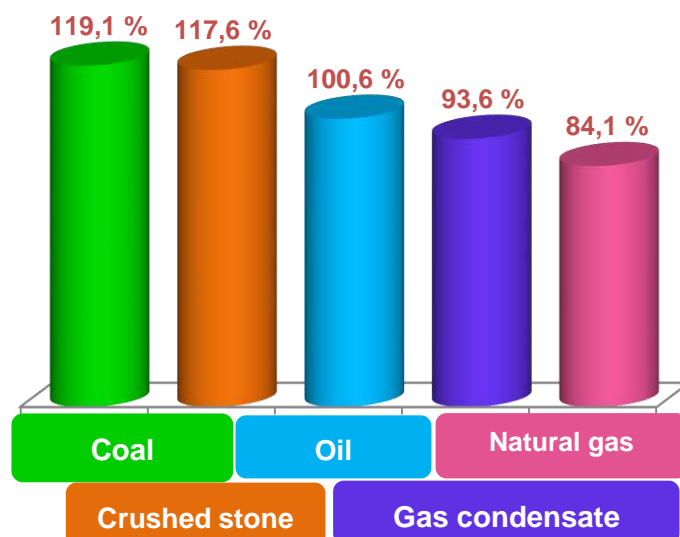

The volume of products produced by mining and quarrying enterprises in January-April 2020 amounted to 12.7 trillion soums, or 12.2% of the total industry.

Industrial production by large mining and quarrying companies

Compared to the same period in 2019, there is an increase in coal production by 19.1%, crushed stone - by 17.6% and oil - by 0.6%. At the same time, there is a decrease in gas condensate production - by 6.4%, gravel - by 77.8%, kaolin - by 46.4%, natural gas production - by 15.9%.

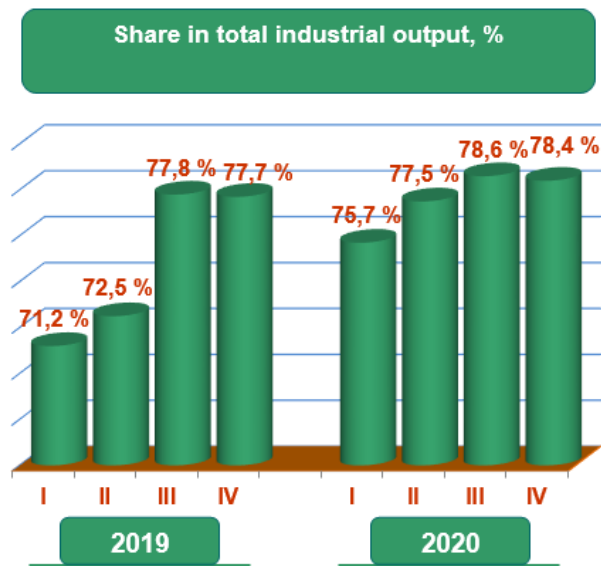

Name of production	January-April 2019	January-April 2020	+/-
Coal, <i>thousand tons</i>	1 018,5	1 213,4	194,9
Oil, <i>thousand tons</i>	231,2	232,6	1,4
Natural gas, <i>million cubic meters</i>	20 509,7	17 253,8	-3 255,9
Gas condensate, <i>thousand tons</i>	541,3	506,9	-34,4
Crushed stone, <i>thousand tons</i>	458,7	539,7	81,0
Gravel, <i>thousand tons</i>	115,9	25,7	-90,2
Kaolin, <i>thousand tons</i>	78,3	41,9	-36,4

Manufacturing industry

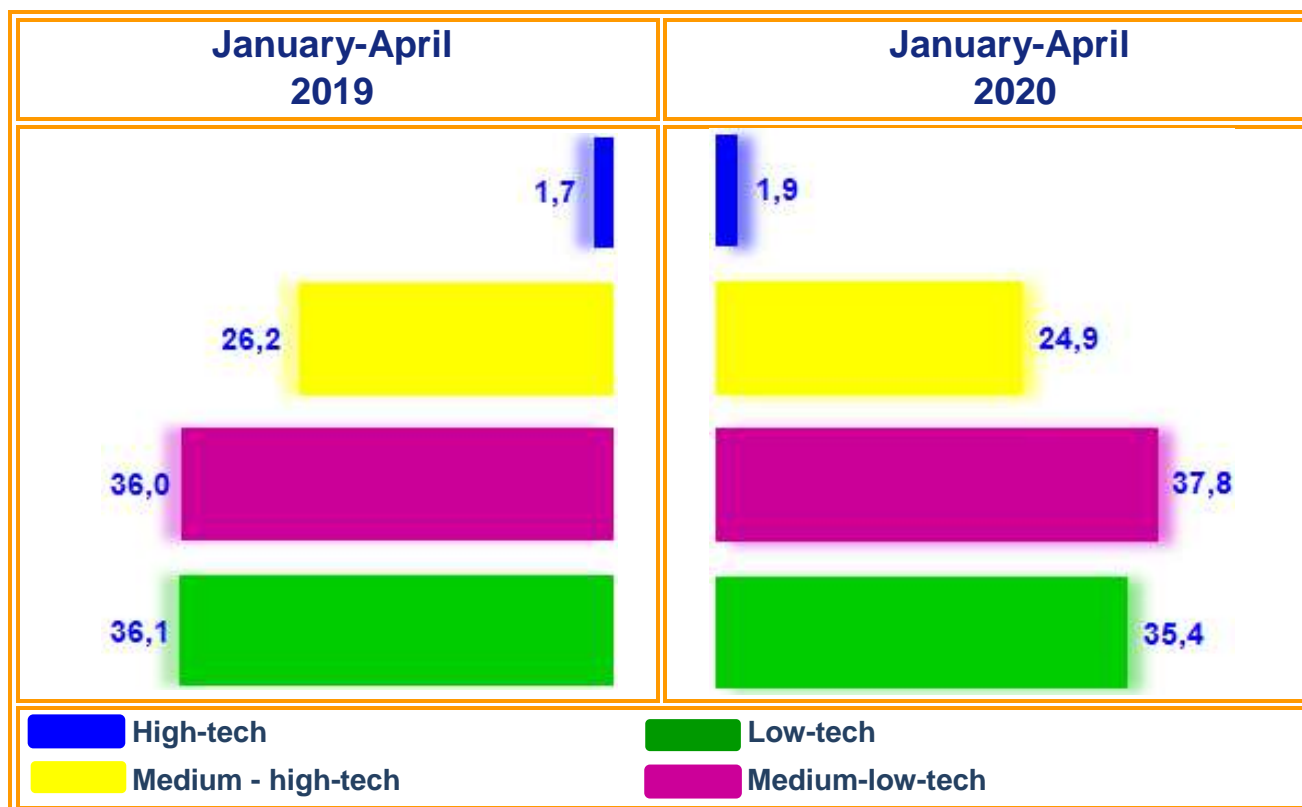

Manufacturing enterprises in January-April 2020 produced products worth 81.7 trillion soums, or 78.4% of the total industry.

Structure of manufacturing industry by technological effectiveness

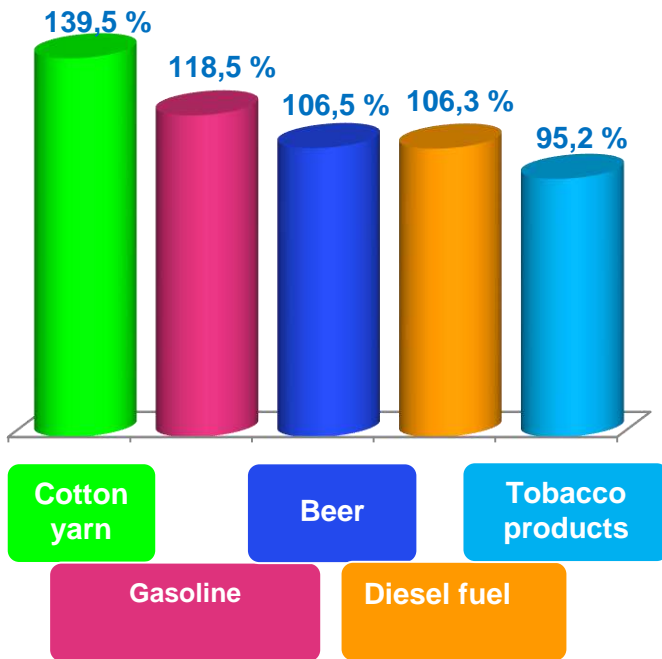

In the structure of the manufacturing industry, the share of high-tech industries amounted to 1.9% (1.7% for January-April 2019), medium-high-tech - 24.9% (26.2%), medium-low-tech - 37.8% (36.0%) and low-tech - 35.4% (36.1%).

In the volume of the manufacturing industry, the share of enterprises for the production, repair, assembly of machinery and equipment, the production of cars, trailers, semi-trailers and other finished products amounted to 20.3% (the physical volume index reached 100.5% compared to January-April 2019), metallurgical industry - 25.1% (98.2%), enterprises for the production of textile, clothing and leather products - 17.3% (106.1%), enterprises for the production of food, beverages and tobacco - 15.7% (97.2%), enterprises for the production of chemical products, rubber and plastic products - 9.5% (93.4%).

Industrial production by large manufacturing enterprises

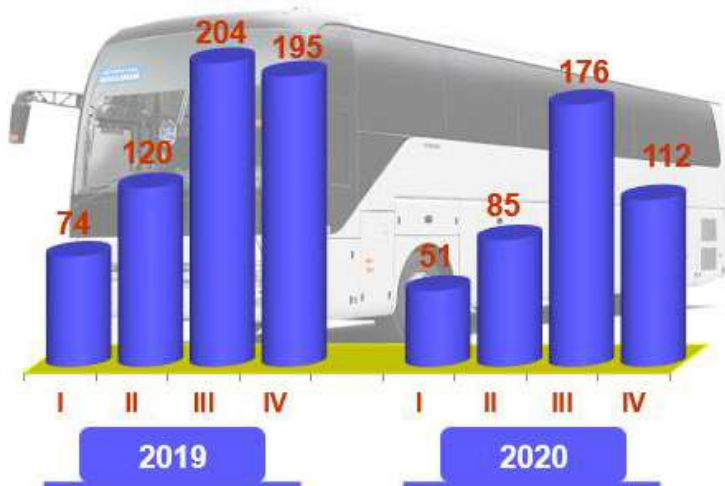

In January-April 2020, 365.8 thousand tons of motor gasoline were produced in the republic (an increase of 18.5% compared to the corresponding period of 2019), 153.8 thousand tons of cotton yarn (39.5%), 615.0 thousand tons of soft and spelled wheat flour (23.3%) and 49.7 million liters of beer (6.5%).

Name of production	January-April 2019	January-April 2020	+/-
Passenger cars, pcs.	79 614	96 727	17 113
Trucks, pcs.	1 719	1 237	-482
Automobile engines, thousand units	63,8	77,1	13,3
Soft and spelled wheat flour, thousand tons	498,8	615	116,2
Cotton fiber, thousand tons	238,8	271,3	32,5
Vegetable oil (refined), thousand tons	80,4	64,7	-15,7

Bus production

by months 2019-2020, pcs.

In January-April 2020, 424 buses were produced in the republic (decrease in production by 28.5% compared to the corresponding period of 2019).

The largest production volume in 2020 was recorded in March, amounting to 176 units.

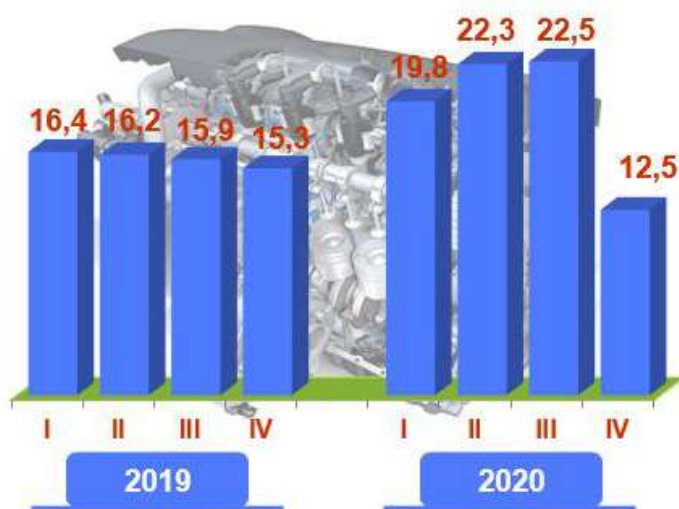

Production of automobile engines

by months 2019-2020, thousand pcs.

In January-April 2020, 77.1 thousand automobile engines were produced in the republic. (growth - by 20.9% compared to the corresponding period of 2019).

In 2020, the largest volume of production of these products was noted in March, amounting to 22.5 thousand pieces.

Truck production
by months 2019-2020, pcs.

In January-April 2020, in the republic 1237 trucks were produced (the volume of production decreased by 28.5% compared to the corresponding period of 2019).

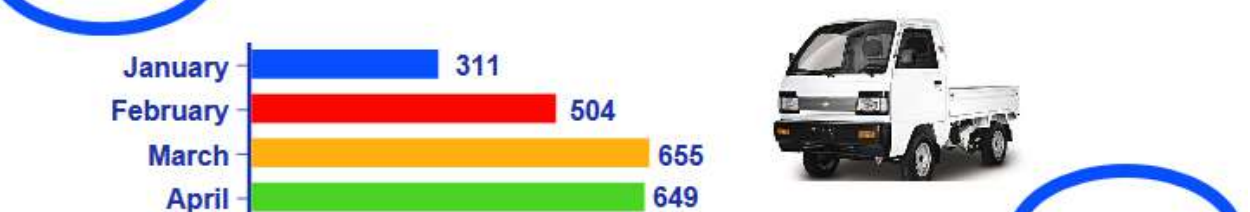

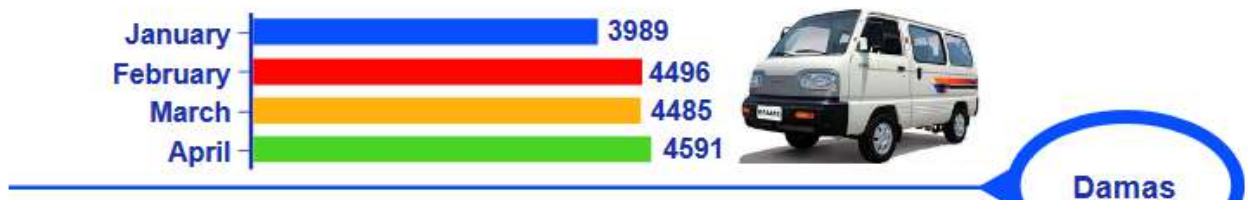

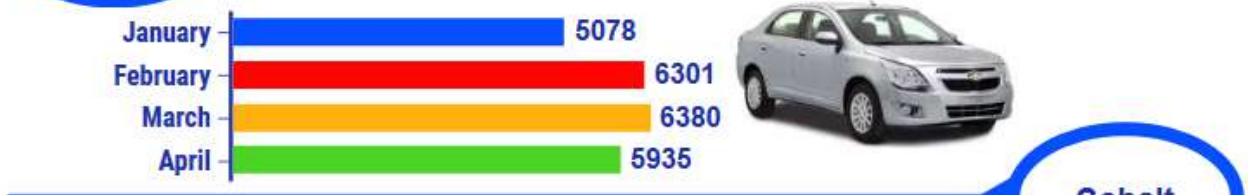

In 2020, the largest volume of production of these products was noted in March, amounting to 378 pcs.

Compared to the same period of 2019, in the manufacturing industry the production of passenger cars increased by 1.2 times, automobile engines - by 1.2 t., automobile gasoline - by 1.2 t., running wheels, their parts and accessories - 1.2 t., radiators, silencers and exhaust pipes, clutches, steering wheels, steering columns, crankcase steering gears and parts thereof - 1.4 t.

In the automotive industry, in January-April 2020, 25 081 cars of “Nexia” brand were produced (the growth rate compared to the same period in 2019 was 113.8%), 23 694 - “Cobalt” (139.6%), 17 907 - “Gentra” (140.7%), 17 561 - “Damas” (123.6%), 10 365 - “Spark” (158.1%) and 2 119 - “Labo” (79.5%).

Automobile production in the Republic of Uzbekistan
by months 2019-2020, pcs.

Production of tractors in the Republic of Uzbekistan by months 2019-2020, pcs.

In January-April 2020, 456 tractors were produced in the republic (production growth increased by 2.8 t. compared to January-April 2019).

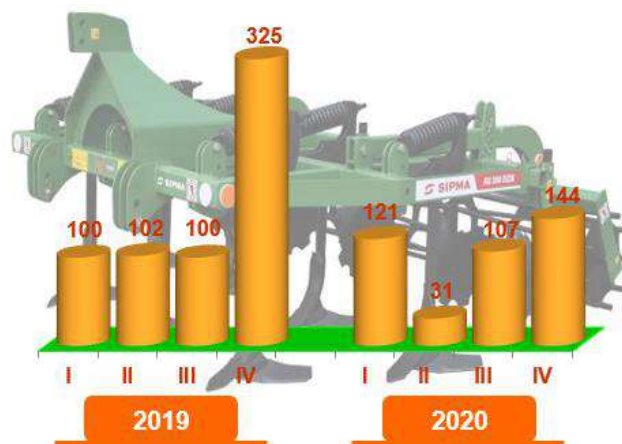

The largest volume of tractor production was recorded in April 2020, amounting to 234 pcs.

Production of rippers and cultivators in the Republic of Uzbekistan by months 2019-2020, pcs.

In January-April 2020, 403 rippers and cultivators were produced in the republic. (production decline was recorded by 35.7% compared to the corresponding period of 2019).

In April 2020, the largest production volume of these products was recorded, amounting to 144 pcs.

**Production of certain types of industrial products
by large manufacturing enterprises**

Name of production	January-April 2019	January-April 2020	+/-
Paints and varnishes based on acrylic or vinyl polymers, tons	4 780,2	3 081,7	-1 698,5
Portland cement, thousand tons	2 834,4	2 768,9	-65,5
Tobacco products, million pcs.	3 578	3 406	-172,0
Diesel fuel, thousand tons	341,8	363,4	21,6
Gasoline, thousand tons	308,7	365,8	57,1
Tractors, pcs.	164	456	292

The overhaul of technological equipment allowed increasing the capacity utilization of chemical enterprises and exceeding the previous year's production indicators of ammonium sulfate (110.0% versus January-April 2019), potassium chloride (104.8%) and caustic soda (2.7 t.).

At the same time, there is a decrease in the production of methyl alcohol (43.3% compared to January-April 2019), paints and varnishes based on acrylic or vinyl polymers (64.5%).

Electricity, gas, steam and air conditioning

Share in total industrial output, %

The volume of products produced by electricity, gas, steam and air conditioning enterprises amounted to 9.1 trillion soums (8.8% of the total industry).

The index of physical volume of the industry, compared with the corresponding period of 2019, increased by 5.5%.

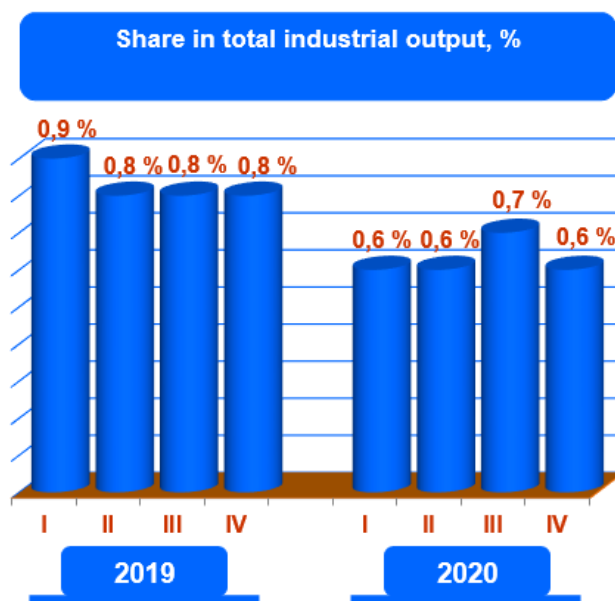

Production of certain types of industrial products by large enterprises of electricity, gas, steam and air conditioning

Name of production	January-April 2019	January-April 2020	+/-
Electricity, million kW / h	21 596,4	21498,4	-98,0
Thermal energy, thousand Gcal	11 709,5	12 105,4	395,9
Gas of underground coal gasification, thousand cubic meters	113 941	110 179	-3 762

Water supply, sewerage, waste collection and disposal

The volume of products produced by enterprises of water supply, sewerage, waste collection and disposal amounted to 0.7 trillion soums (0.6% of the total industry).

Production of certain types of industrial products by large enterprises of water supply, sewerage, waste collection and disposal

Name of production	January-April 2019	January-April 2020	+/-
Services for the disposal, transportation of wastewater and their treatment, <i>million soums</i>	61 328,3	57 245,6	-4 082,7
Services for emptying, cleaning and treating cesspools, sumps and septic tanks, <i>million soums</i>	104,4	123,5	19,1
Textile waste, <i>tons</i>	4 085,1	4 561,8	476,7

Compared with the corresponding period of 2019, there was an increase in textile waste production by 11.7%, non-hazardous waste collection services - by 27.5%, services for emptying, cleaning and treating cesspools, sumps and septic tanks - by 18.3% . At the same time, a decrease in the volume of services for disposal, transportation of wastewater and their treatment by 6.7% was recorded.

Consumer goods manufacturing

As a result of measures taken to expand the range and stimulate the production of finished products, the production of consumer goods amounted to 31.0 trillion. soum and, compared with the corresponding period of 2019, increased by 4.9%, the share in the total industry amounted to 29.8%.

January-April
2020

Compared to the same period in 2019, in the structure of consumer goods production for January-April 2020, an increase in the share of non-food products was observed from 64.5% to 65.0%.

In the structure of food products, the production of wine-vodka products and beer amounted to 7.7% (7.9% for January-April 2019).

In the structure of production of consumer goods in the republic, the largest share falls on the Andijan region (26.7% of the total consumer goods), Tashkent city (19.0%), Tashkent (9.0%), Samarkand (8.3%) and Fergana (6.2%) regions.

The largest growth in consumer goods production was recorded in the Republic of Karakalpakstan (108.5% compared to the corresponding period of 2019), Khorezm (117.2%), Fergana (114.0%), Andijan (107.2%) regions and the city of Tashkent (112.6%), exceeding the national average (104.9%).

Volume of production, structure and growth rates of consumer goods by region
January-April 2020

	Billion soums	Share, %	As % of January-April 2019
Republic of Uzbekistan*)	31 040,1	100,0	104,9

104,5	Andijan	107,2
104,8	Khorezm	117,2
106,5	Surkhandarya	102,1

At the same time, there has been a significant increase in consumer goods production in Khorezm (117.2% compared to January-April 2019), Ferghana (114.0%), Andijan (107.2%), Navoi (103.6%), Surkhandarya (102.1%) regions, the Republic of Karakalpakstan (108.5%) and the city of Tashkent (112.6%).

Share of industrial products of regions in the total volume of production in the Republic of Uzbekistan, %

In the structure of industrial production of the republic, the largest share falls on enterprises in Tashkent city (16.6% of the republican volume of industry), Navoi (16.6%), Tashkent (16.7%), Andijan (10.5%) and Fergana (5.8%) regions.

The smallest share of industrial production was recorded at the enterprises of Surkhandarya (1.4%) and Jizzakh (1.5%) regions.

An analysis of the differentiation of industrial output per capita showed an excess of the national average (3 066.9 thousand soums) in Navoi (17 353.1 thousand soums), Tashkent (5 911.0 thousand soums), Andijan (3 499.3 thousand soums) regions and the city of Tashkent (6 706.6 thousand soums).

The production of consumer goods per capita in the reporting period in the republic amounted to 913.7 thousand soums, including 2 288.7 thousand soums in the city of Tashkent, 2 641.3 thousand soums in the Andijan region, and 948.5 thousand soums in the Tashkent region, Navoi region - 959.0 thousand soums, Khorezm region - 945.2 thousand soums.

**Volume of industrial production and consumer goods
per capita by region**

Contribution of small business to industrial production
January-April 2020

For the reporting period, small businesses produced products worth 21.6 trillion soums, the share of which in the total volume of production amounted to 20.8%.

By regions, the largest share of small business was observed in the Jizzakh region (43.8% of the total industry of the region), Tashkent city (34.4%), Surkhandarya (37.1%), Samarkand (36.8%), Namangan (35.3%) and Fergana (31.5%) regions.

At the same time, the smallest share of small business was noted in Navoi (5.9%), Andijan (15.9%) and Tashkent (14.5%) regions, as well as in the Republic of Karakalpakstan (17.4%). The analysis of the structure of industrial production by regions of the republic showed that the low share of production of small businesses in the total industry is explained by the significant production volume of large industrial enterprises located in these regions.

Active and newly established industrial enterprises as of May 1, 2020

Today, 72.1 thousand industrial enterprises operate in the republic, of which 14.7 thousand (20.4% of the total number of functioning enterprises) are in Tashkent city, 7.8 thousand (10.8%) - Fergana, 7.7 thousand (10.7%) - Tashkent, 7.0 thousand (9.7%) - Andijan, 6.0 thousand (8.3%) - Samarkand and 5.6 thousand (7.8%) - Namangan region.

Number of newly created industrial enterprises, units		Number of operating industrial enterprises, units
196	Syrdarya	1831
199	Rep. of Karakalpakstan	2380
259	Navoi	2811
194	Jizzakh	2908
467	Surkhandarya	2981
437	Khorezm	3272
265	Kashkadarya	3490

751	Andijan	6985
463	Tashkent	7705
389	Fergana	7782
582	Tashkent city	14706

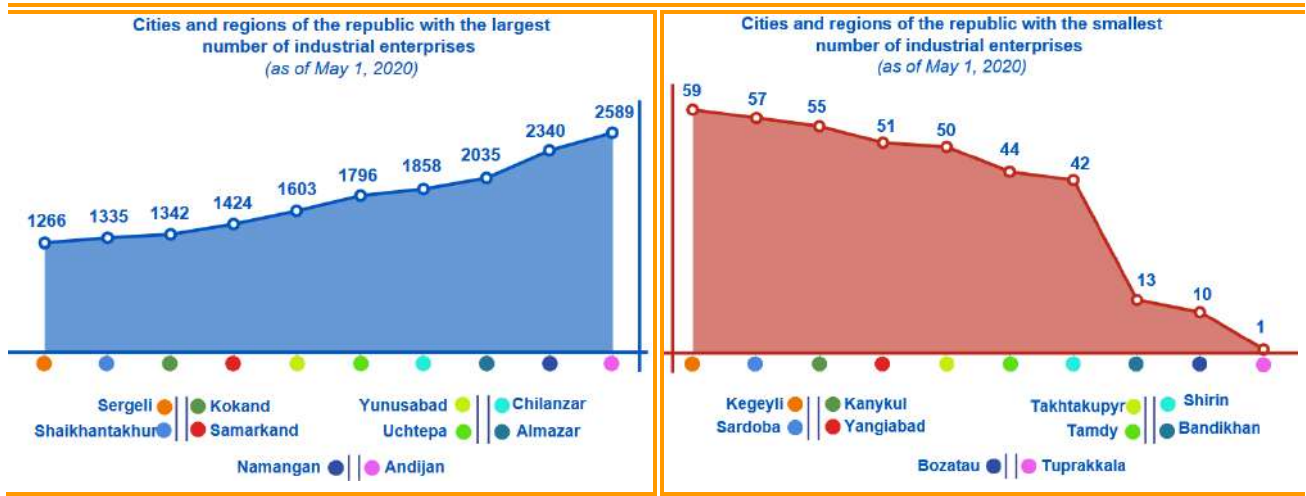

In January-April 2020, 5 367 industrial enterprises were newly created in the republic, of which 582 (10.8% of the total number of newly created) are located in Tashkent city, 463 (8.6%) - Tashkent, 751 (14, 0%) - Andijan, 437 (8.1%) - Khorezm, 495 (9.2%) - Samarkand and 389 (7.2%) - Fergana regions.

Active industrial enterprises in the context of cities and regions

as of May 1, 2020

Today, the largest number of operating industrial enterprises is located in the cities of Andijan (2 589 units), Namangan (2 340 units), Samarkand (1 424 units), Kokand (1 342 units), as well as in the following districts of Tashkent: Almazar (2 035 units), Chilanzar (1 858 units), Uchtepa (1 796 units), Yunusabad (1 603 units), Shaikhantakhur (1 335 units) and Sergeli (1 266 units).

As of May 1, 2020, the smallest number of operating industrial enterprises is located in the city of Shirin (42 units) and Sardoba (57 units) district of Syrdarya region; Tamdy district (44 units) of Navoi region; Yangiabad district (51 units) of the Jizzakh region; Kegeyli (59 units), Kanlykul (55 units), Takhtakupyr (50 units) and Bozatau (10 units) districts of the Republic of Karakalpakstan; Bandikhan district (13 units) of the Surkhandarya region; as well as in the Tuprakkala region (1 unit) of the Khorezm region.
