

Industrial production of the Republic of Uzbekistan *January-May 2020*

According to preliminary data, in January-May 2020, enterprises of the republic produced industrial products worth 131.9 trillion soums, the index of physical volume* of industrial production compared to the same period in 2019 amounted to 97.8%.

In the structure of production, the largest share falls on manufacturing enterprises (79.6%).

Industrial production by main economic activities

The main factor in the decline in the physical volume of industrial production was a decrease in the volume of mining and quarrying - by 18.9%, water supply, sewerage, waste collection and disposal - by 11.4%, while there is an increase in the volume of manufacturing - by 1.5%, production in electricity, gas, steam and air conditioning - by 13.0%.

*The index of physical volume of industrial production is a relative indicator characterizing the change in the mass of manufactured products (works, services) in the compared periods.

Mining and quarrying

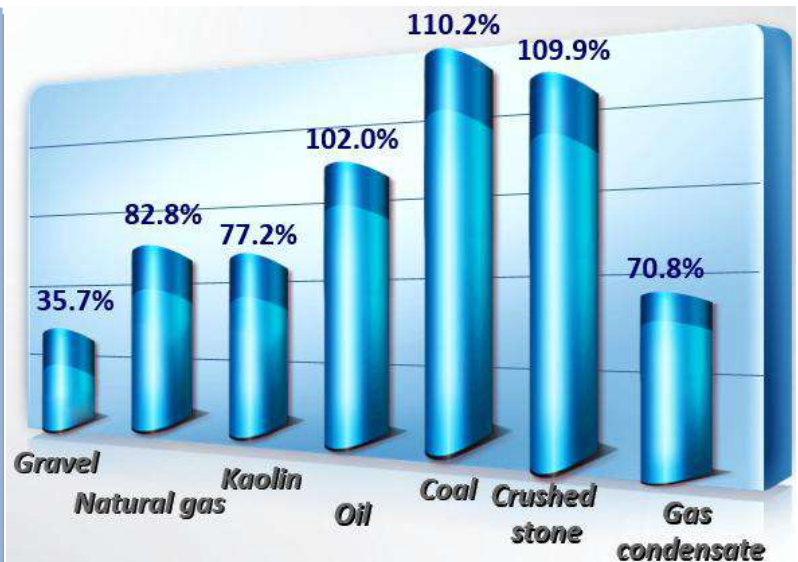

The volume of products produced by mining and quarrying enterprises in January-May 2020 amounted to 15.1 trillion soums, or 11.4% of the total industry.

Industrial production by large mining and quarrying companies

Compared to the same period in 2019, there is an increase in coal production by 10.2%, crushed stone - by 9.9% and oil - by 2.0%. At the same time, there is a decrease in gas condensate production - by 29.2%, gravel - by 64.3%, kaolin - by 22.8%, natural gas production - by 17.2%.

Name of production	January-May 2019	January-May 2020	+/-
Coal, <i>thousand tons</i>	1 239.7	1 366.7	127.0
Oil, <i>thousand tons</i>	290.4	296.3	5.9
Natural gas, <i>million cubic meters</i>	25 515.6	21 137.6	-4 378.0
Gas condensate, <i>thousand tons</i>	875.9	620.0	-255.9
Crushed stone, <i>thousand tons</i>	651.9	716 .3	64.4
Gravel, <i>thousand tons</i>	150.2	53.6	-96.6
Kaolin, <i>thousand tons</i>	102.3	78.9	-23.4

Manufacturing industry

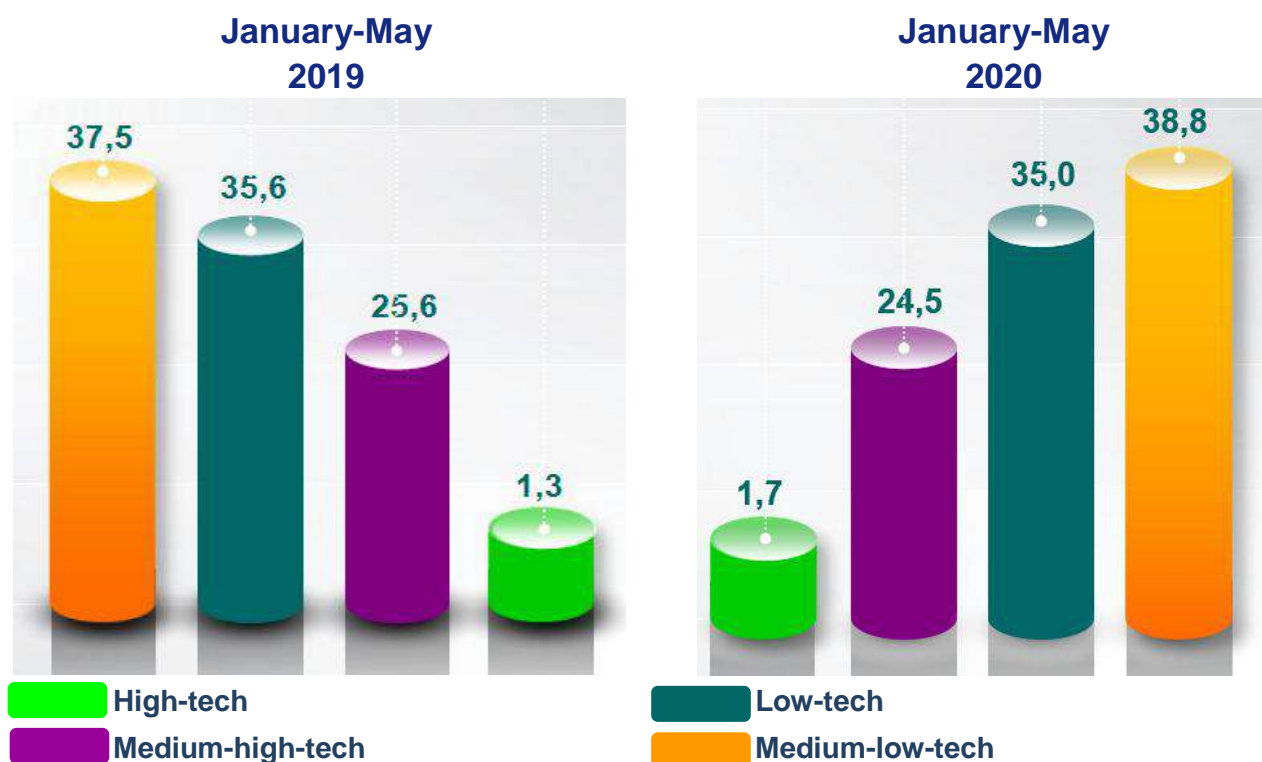

Manufacturing enterprises in January-May 2020 produced products worth 105 trillion soums, or 79.6% of the total volume of industry.

Structure of manufacturing industry by technological effectiveness

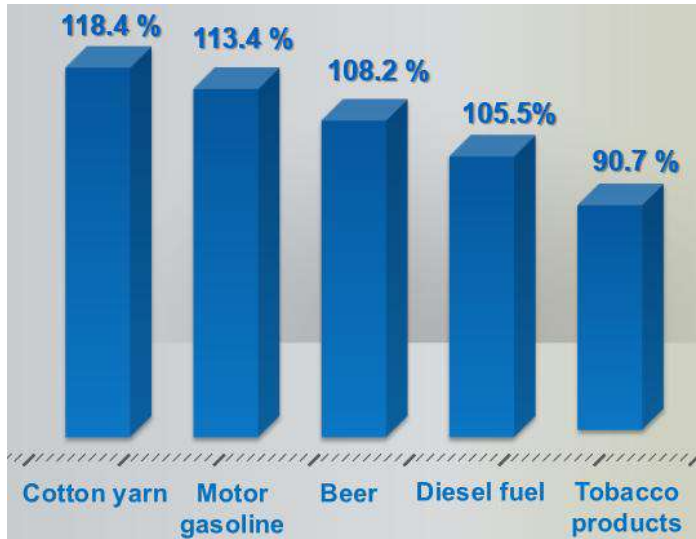

In the structure of the manufacturing industry, the share of high-tech industries was 1.7% (1.3% in January-May 2019), medium-high-tech - 24.5% (25.6%), medium-low-tech - 38.8% (37.5%) and low-tech - 35.0% (35.6%).

In the manufacturing industry, the share of enterprises in manufacturing, repairing, assembling machines and equipment, manufacture of motor vehicles, trailers, semi-trailers and other finished products amounted to 19.6% (physical volume index reached 100.3% compared to January-May 2019), metallurgical industry – 25.7% (102.4%), enterprises producing textile, garment and leather products – 16.3% (107.5%), production of food, beverages and tobacco – 16.3% (103.8%), enterprises producing chemical products, rubber and plastic products - 9.7% (96.4%).

Industrial production by large manufacturing enterprises

In January-May 2020, the republic produced 441.3 thousand tons of motor gasoline (an increase of 13.4% compared to the corresponding period of 2019), 178.0 thousand tons of cotton yarn (18.4%), 769.7 thousand tons of soft and spelled wheat flour (22.8%) and 72.7 million liters of beer (8.2%).

Industrial production by large manufacturing enterprises

Name of production	January-May 2019	January-May 2020	+/-
Passenger cars, pcs.	98 780	117 925.0	19 145
Trucks, pcs.	2 044.0	1 443.0	-601
Car engines, thousand pcs.	78.3	94.2	15.9
Soft and spelled wheat flour, thousand tons	627	769.7	142.7
Cotton fiber, thousand tons	260.1	315.0	54.9
Vegetable oil (refined), thousand tons	92.9	82.7	-10.2

Bus production
by months 2019-2020, pcs.

In January-May 2020, 448.0 buses were produced in the republic. (production decreased by 41.2 % compared to the corresponding period of 2019).

Largest production volume in 2020 was recorded in March, amounting to 176 pcs.

Production of automobile engines
by months 2019-2020, thousand pcs.

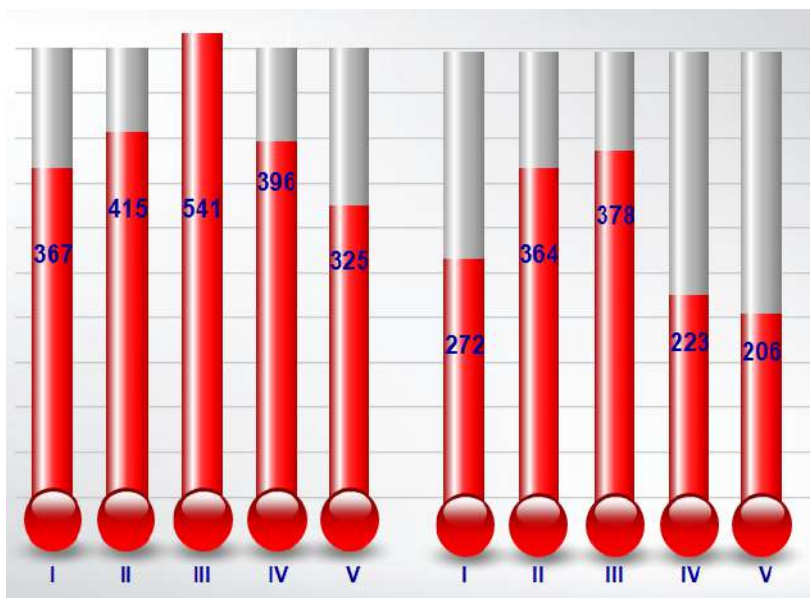

In January-May 2020, 94.2 thousand automobile engines were produced in the republic (an increase of 20.3% compared to the corresponding period of 2019).

In 2020, the largest volume of production of these products was noted in March, amounting to 22.5 thousand pieces.

Truck production
by months 2019-2020, pcs.

In January-May 2020, 1 443 trucks were produced in the republic (the volume of production decreased by 29.4% compared to the corresponding period of 2019).

In 2020, the largest volume of production of these products was noted in March, amounting to 378 pcs.

Compared to the same period of 2019, the manufacturing industry increased the production of passenger cars - by 1.2 times, automobile engines - by 1.2 times, automobile gasoline - by 1.1 times, running wheels, their parts and accessories - 1.1 times, radiators, silencers and exhaust pipes, clutches, steering wheels, steering columns, crankcase steering gears and parts thereof - 1.4 times.

In the automotive industry, in January-May 2020, 29 408.0 cars model Nexia were produced (the growth rate compared to the same period in 2019 was 102.6%), 30 125.0 - Cobalt (152.0%), 21 310 - Gentra (132.1%), 22 150.0 - Damas (119.0%), 12 162.0 - Spark (154.9%) and 2 770 - Labo (85.0%).

Production of tractors in the Republic of Uzbekistan
by months 2019-2020, pcs.

In January-May 2020, 623 tractors were produced in the republic (production growth increased by 1.8 times compared to January-May 2019).

The largest volume of tractor production was recorded in April 2020, amounting to 234 pcs.

Production of rippers and cultivators in the Republic of Uzbekistan

by months 2019-2020, pcs.

In January-May 2020, 473 pieces of rippers and cultivators were produced in the Republic (a decrease in production was recorded by 44.3% compared to the corresponding period of 2019).

In April 2020, the largest volume of production of these products was recorded, amounting to 144 pcs.

**Production of certain types of industrial products by
large manufacturing enterprises**

Name of production	January-May 2019	January-May 2020	+/-
Paints and varnishes based on acrylic or vinyl polymers, tons	6 261.3	4 796.2	-1 465.1
Portland cement, thousand tons	3 795.4	3 764.0	-31.4
Tobacco products, million. pcs.	4 579.0	4 154.0	-425.0
Diesel fuel, thousand tons	437.4	461.6	24.2
Gasoline, thousand tons	389.0	441.3	52.3
Tractors, pcs.	338	623	285

The overhaul of technological equipment allowed to increase the capacity utilization of chemical enterprises and exceeding the previous year's production indicators of ammonium sulfate (111.9% compared to January-May 2019), potassium chloride (102.2%) and caustic soda (3.0 times).

At the same time, there is a decrease in the production of methyl alcohol (42.2% versus January-May 2019), paints and varnishes based on acrylic or vinyl polymers (76.6%).

Electricity, gas, steam and air conditioning

The volume of products produced by electricity, gas, steam and air conditioning enterprises amounted to 11.0 trillion soums (8.4% of the total industry).

Index of physical volume of the industry, compared with the corresponding period in 2019, increased by 13.0%.

Production of certain types of industrial products by large enterprises of electricity, gas, steam and air conditioning

Name of production	January-May 2019	January-May 2020	+/-
Electricity, <i>million kW / h</i>	26 090.2	26 193.5	103.3
Heat energy, <i>thousand Gcal</i>	13 971.9	13 595.4	-376.5
Gas of underground coal gasification, <i>thousand cubic meters</i>	125 412.0	126 647.0	1 235.0

Water supply, sewerage, waste collection and disposal

The volume of products produced by enterprises of water supply, sewerage, waste collection and disposal amounted to 0.8 trillion soums (0.6% of the total industry).

Production of certain types of industrial products by large enterprises of water supply, sewerage, waste collection and disposal

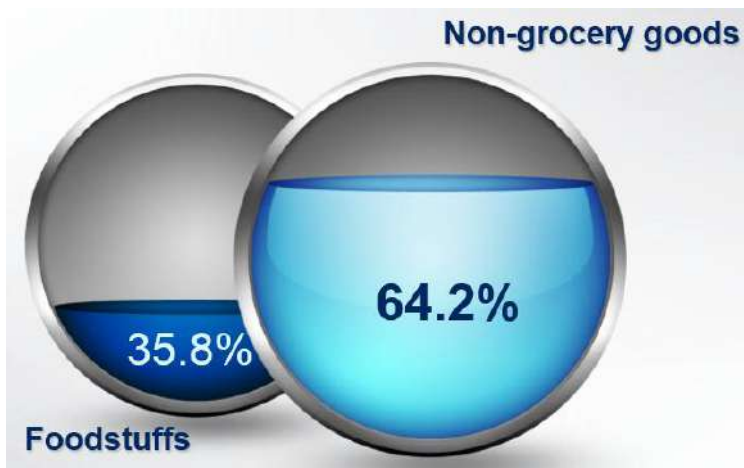

Name of production	January-May 2019	January-May 2020	+/-
Waste water disposal, transportation and treatment services, <i>million soums</i>	77 021.1	69 655.7	-7 365.4
Services for emptying, cleaning and treating cesspools, sumps and septic tanks, <i>million soums</i>	135.6	153.0	17.4
Textile waste, <i>tons</i>	5 294.5	5 532.4	237.9

Compared with the corresponding period of 2019, there was an increase in the production of textile waste - by 4.5%, services for emptying, cleaning and treating cesspools, sumps and septic tanks - by 12.8%. At the same time, a decrease in the volume of services for the disposal, transportation of wastewater and their treatment was recorded - by 9.6%.

Consumer goods manufacturing

As a result of measures taken to expand the assortment and stimulate the production of finished products, the production of consumer goods amounted to 40.3 trillion soums and, compared with the corresponding period of 2019, increased by 1.9%, the share in the total industry amounted to 30.5%.

Compared with the same period in 2019, in the structure of consumer goods production for January-May 2020, a decrease in the share of non-grocery goods was recorded from 64.4% to 64.2%.

In the structure of food production, the production of wine-vodka products and beer amounted to 6.6% (7.0% for January-May 2019).

In the structure of production of consumer goods of the republic, the largest share falls on the Andijan region (25.6% of the total volume of consumer goods), Tashkent city (18.4%), Tashkent (10.0%), Samarkand (8.1%) and Fergana (6.2%) regions.

The largest growth in consumer goods production was recorded in the Republic of Karakalpakstan (105.3% compared to the corresponding period of 2019), Khorezm (109.9%), Andijan (107.9%) regions and the city of Tashkent (106.3%), exceeding the average of the republic (101.9%).

Volume of production, structure and growth rates of consumer goods by region

Index of the physical volume of industrial production and the growth rate of consumer goods by regions of the Republic of Uzbekistan, %

The change in industrial production was significantly influenced by a decrease in the index of physical volume of industrial production in Samarkand (83.4% compared to January-May 2019), Kashkadarya (92.4%), Syrdarya (93.4%), Fergana (96.5 %) regions and Tashkent city (99.6%).

IPV of industrial production, %

Growth rates of consumer goods, %

At the same time, there has been a significant increase in consumer goods production in Khorezm (109.9% compared to January-May 2019), Tashkent (105.0%), Andijan (107.9%), regions, the Republic of Karakalpakstan (105.3%) and Tashkent city (106.3%).

**Share of industrial products of regions in the total volume of
production in the Republic of Uzbekistan, %**

In the structure of industrial production of the republic, the largest share falls on the enterprises of Tashkent city (17.1% of the republican industry volume), Navoi (17.4%), Tashkent (16.9%), Andijan (10.4%) and Fergana (5.6%) regions.

The smallest share of industrial production was recorded at the enterprises of Surkhandarya (1.4%) and Jizzakh (1.5%) regions.

An analysis of the differentiation of industrial output per capita showed an excess of the national average (3 884.2 thousand soums) in Navoi (22 922.2 thousand soums), Tashkent (7 569.1 thousand soums), Andijan (4 366.7 thousand soums) regions and the city of Tashkent (8 730.4 thousand soums).

The production of consumer goods per capita in the reporting period in the republic amounted to 1 185.8 thousand soums, including 2 866.0 thousand soums in the city of Tashkent, 3 291.5 thousand soums in the Andijan region, and Tashkent region - 1367.6 thousand soums, Navoi region - 1 336.4 thousand soums, Khorezm region - 1 200.7 thousand soums.

Contribution of small business to industrial production
January-May 2020

For the reporting period, small businesses produced products worth 28.7 trillion soums, the share of which in the total volume of production amounted to 21.7%.

By regions, the largest share of small business was observed in the Jizzakh region (47.2% of the total industry of the region), Tashkent city (34.8%), Surkhandarya (39.8%), Samarkand (39.1%), Namangan (39.6%) and Fergana (32.7%) regions.

At the same time, the smallest share of small business was noted in Navoi (6.3%), Andijan (17.0%) and Tashkent (15.6%) regions, as well as in the Republic of Karakalpakstan (18.4%). The analysis of the structure of industrial production by regions of the republic showed that the low share of production of small businesses in the total industry is explained by the significant production volume of large industrial enterprises located in these regions.

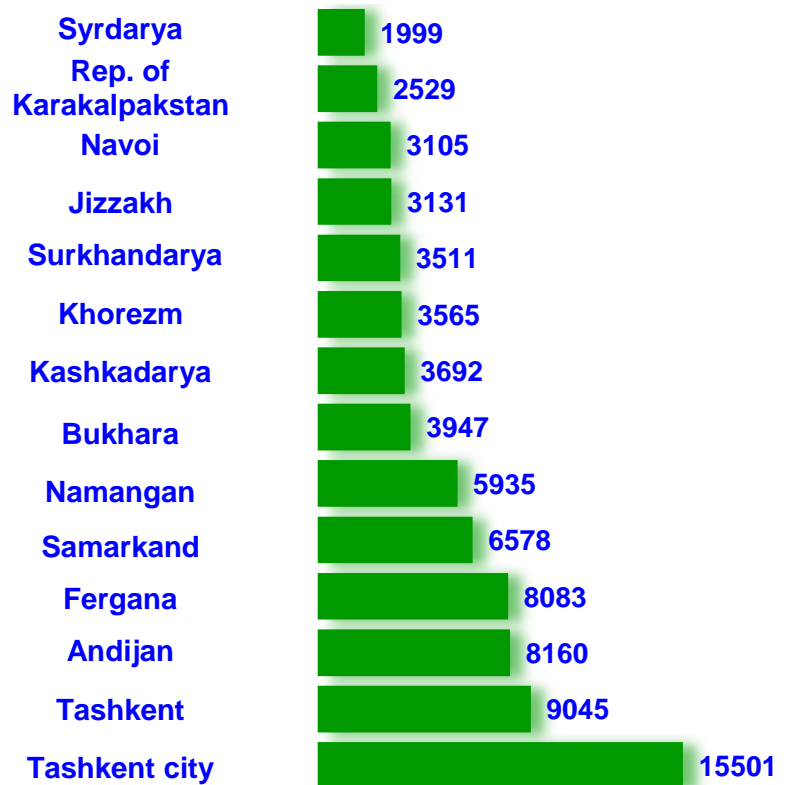

Registered and newly created industrial enterprises
as of June 1, 2020

Today, 78.8 thousand industrial enterprises operate in the republic, of which 15.5 thousand (19.7% of the total number of registered enterprises) are in the city of Tashkent, 8.1 thousand (10.3%) - in Fergana, 9.0 thousand (11.5%) - Tashkent, 8.2 thousand (10.4%) - Andijan, 6.6 thousand (8.3%) - Samarkand and 5.9 thousand (7.5%) - Namangan region.

Number of newly created industrial enterprises, units

Number of registered industrial enterprises, units

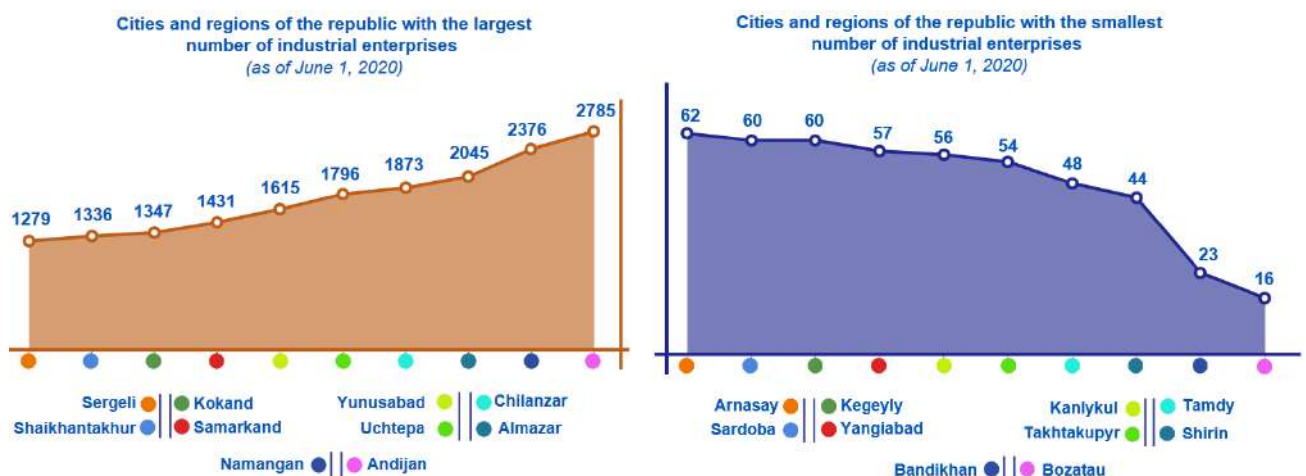

In January-May 2020, 7 451 industrial enterprises were newly created in the republic, of which 734 (9.9% of the total number of newly created) are in Tashkent, 591 (7.9%) - Tashkent, 1183 (15.9 %) - Andijan, 506 (6.8%) - Khorezm, 598 (8.0%) - Samarkand and 498 (6.7%) - Fergana regions.

Operating industrial enterprises in the context of cities and regions

as of June 1, 2020

Today, the largest number of operating industrial enterprises is located in the cities of Andijan (2 785 units), Namangan (2376 units), Samarkand (1431 units), Kokand (1 347 units), as well as in the following districts of Tashkent city: Almazar (2 045 units), Chilanzar (1 873 units), Uchtepa (1 796 units), Yunusabad (1 615 units), Shaikhantakhur (1 336 units) and Sergeli (1 279 units).

As of May 1, 2020, the smallest number of operating industrial enterprises is located in Shirin (44 units) and Sardoba (60 units) district of Syrdarya region; Tamdy district (48 units) of the Navoi region; Yangiabad district (57 units) of the Jizzakh region; Kegeyly (60 units), Kanlykul (56 units), Takhtakupyr (54 units) and Bozatau (16 units) districts of the Republic of Karakalpakstan; Bandikhan district (23 units) of Surkhandarya region.
