

FOREIGN TRADE TURNOVER OF THE REPUBLIC OF UZBEKISTAN

(January-November 2018)

According to the results of January-November 2018, the foreign trade turnover of the republic amounted to 28664.7 million USD and increased, as compared with the same period last year, by 17.6 %. Exports amounted to 11 324.0 million USD (decreased by 3.2 %), the volume of imports - 17 340.7 million USD (growth rate of 36.8 %). The balance of foreign trade is minus 6016.7 million USD.

Foreign trade turnover of the Republic of Uzbekistan (million USD)

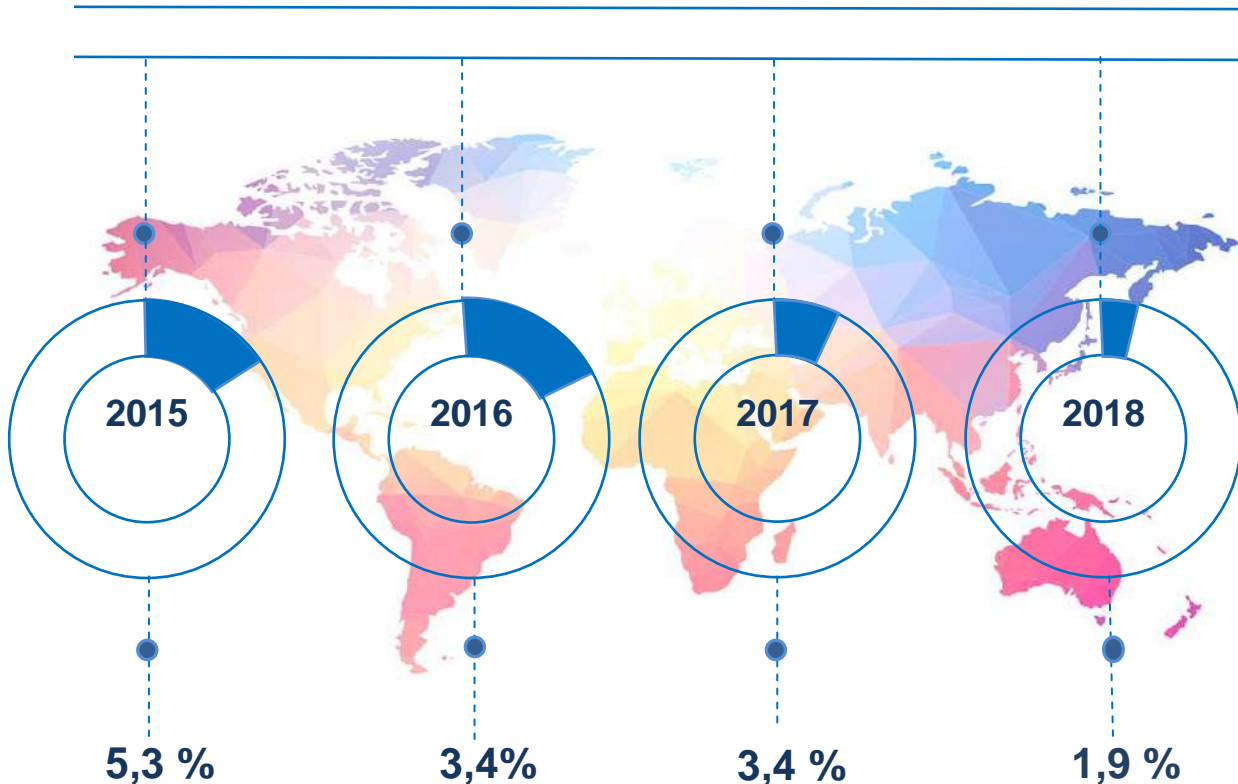

As a result of the increase in the production of products that replaced imported goods and the diversification of industrial production, significant changes have been achieved in the structure of exports.

For example, an analysis of the trend in the share of cotton fiber in total exports showed that in January-November 2015, the share of exports of cotton

fiber amounted to 5.3 % of total exports, while 409.3 thousand tons of raw materials were exported. In January-November 2016 348.9 thousand tons of cotton fiber were exported. In January-November 2017, its share in the total export volume decreased to 3.4 % and 246.9 thousand tons of raw materials were exported.

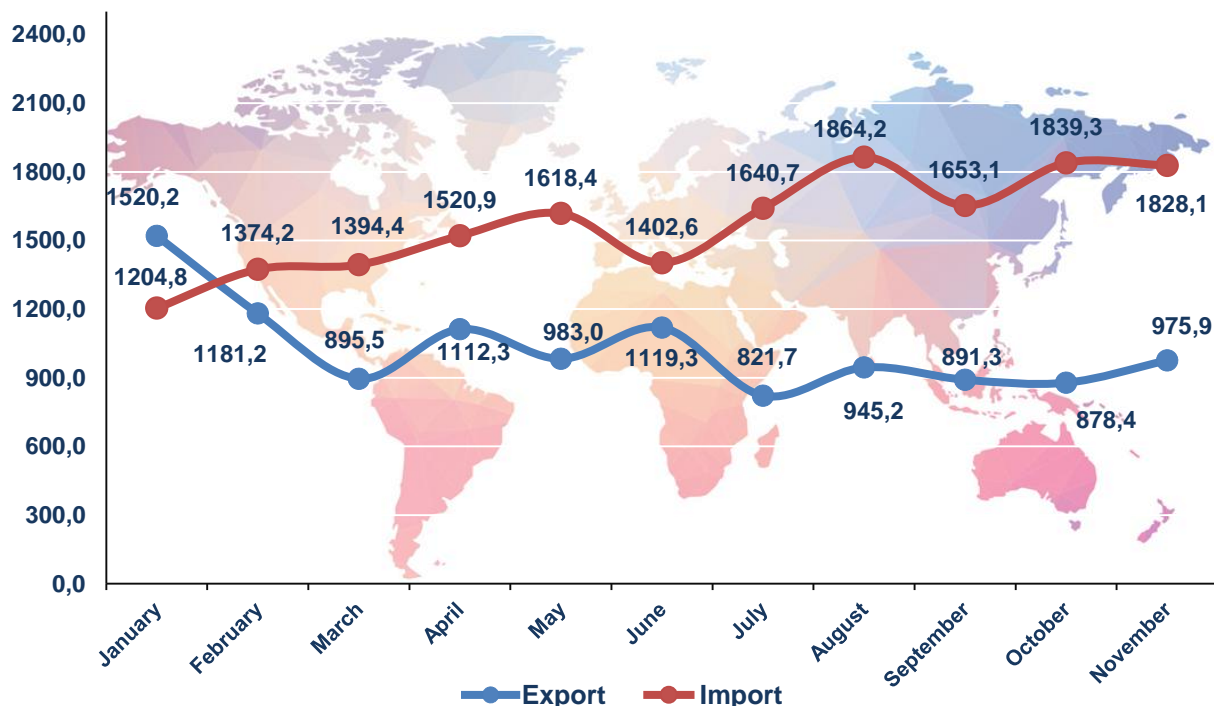

Dynamics of the share of cotton fiber in exports, in %
(January-November)

In January-November of this year, the share of cotton fiber in total exports (1.9 %) decreased significantly compared with the same period last year. During the same period, 110.9 thousand tons of cotton fiber were exported in the amount of 213.2 million USD.

It should be noted that in November 2018, exports of goods and services increased by 97.6 million USD compared with October, while imports of goods and services decreased by 11.2 million USD.

**Dynamics of indicators of monthly exports and imports of goods and services in
January-November 2018**
(million USD)

The order of the states with the largest share in the commodity turnover of the republic for the eleven months of 2018 remained the same as in the previous months of the year.

Export

The volume of exports in January-November 2018 amounted to 11 324.0 million USD (compared with the same period last year decreased by 3.2 %). The share of goods in the composition of exports reached 75.5 %, of which energy carriers and petroleum products - 21.0 %, foodstuffs - 9.0 %, chemical products and products from it - 7.3 %.

Structure of exports of goods and services in January-November (million USD)

An analysis of the structure of exported goods and services in January-November of the current year showed that, compared with the corresponding period of last year, there were no significant changes, but it should be noted that the share of exports of certain types of goods and services in total exports in January-November of the current year declined compared with the corresponding period last year.

In particular, this situation is reflected in the field of cotton fiber, machinery and equipment.

Textile exports

In January-November 2018, exports of textile products amounted to 1178.4 million USD and increased, compared to the same period in 2017, by 15.3 %, which is 10.4 % of total exports. Of the export structure of textile products, the main share is cotton yarn (56.7 %), finished knitwear and garments (22.4 %). Since the beginning of the year, more than 340 types of goods have been exported to 46 countries of the world.

Textile export structure (January-November 2018)

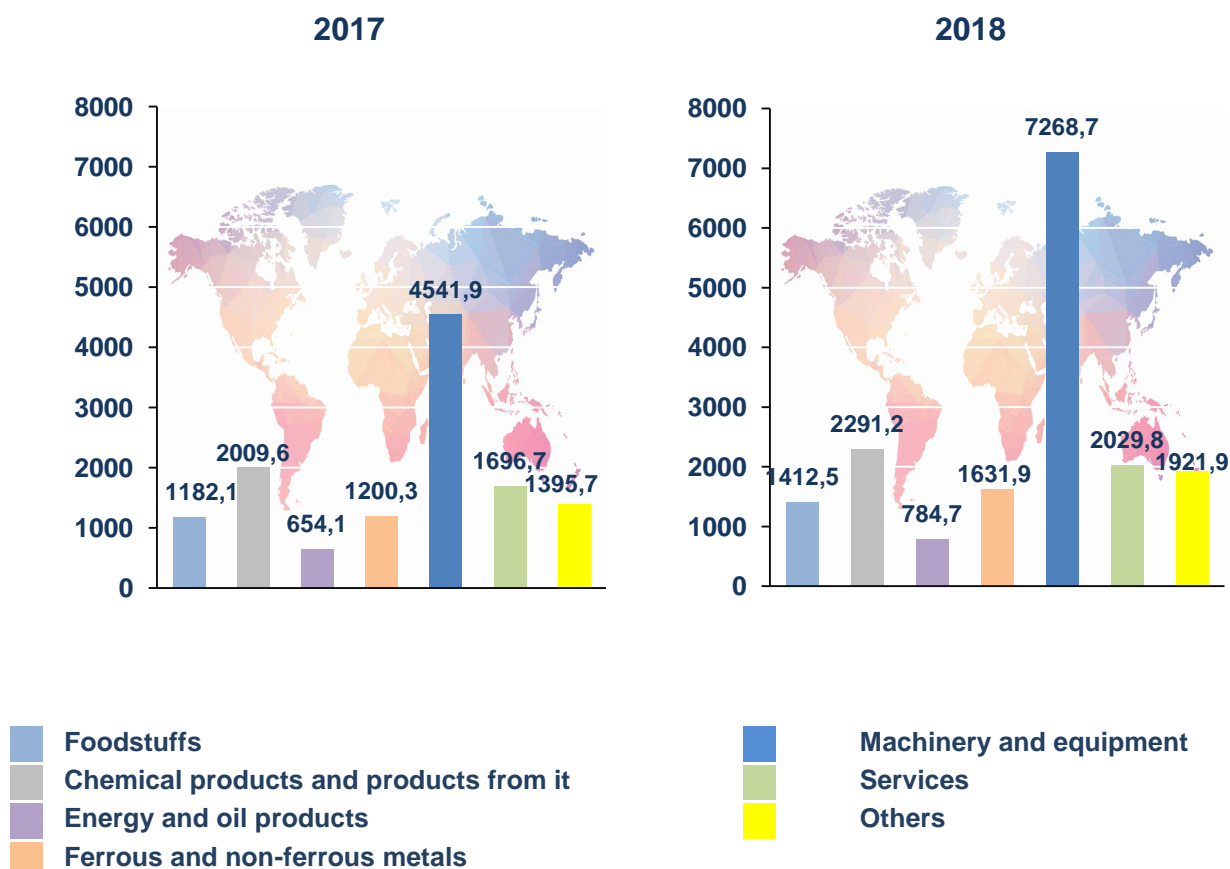

It is noteworthy that, in the first years of independence, exports of light industry products of the republic had a raw material focus, now our country has become a leader in the export of finished textile and light industry products.

IMPORT

In January-November of the current year, the volume of imports amounted to 17340.7 million USD (growth rate - 36.8 %). In the structure of imports, the main share is occupied by machinery and equipment (41.9 %), chemical products and products from it (13.2 %), as well as food products (8.2 %).

Import of building materials

In January-November 2018, the volume of imports of construction materials amounted to 1075.3 million USD and increased, compared to the same period in 2017, by 27.4 %, which is 6.2 % of the total imports. From the structure of imports of building materials, the main share is cement (14.8 %), wood and wood products (52.1 %), asbestos (3.8 %), as well as glass and wood products (5.0 %).

Structure of imports of building materials in January-November 2018

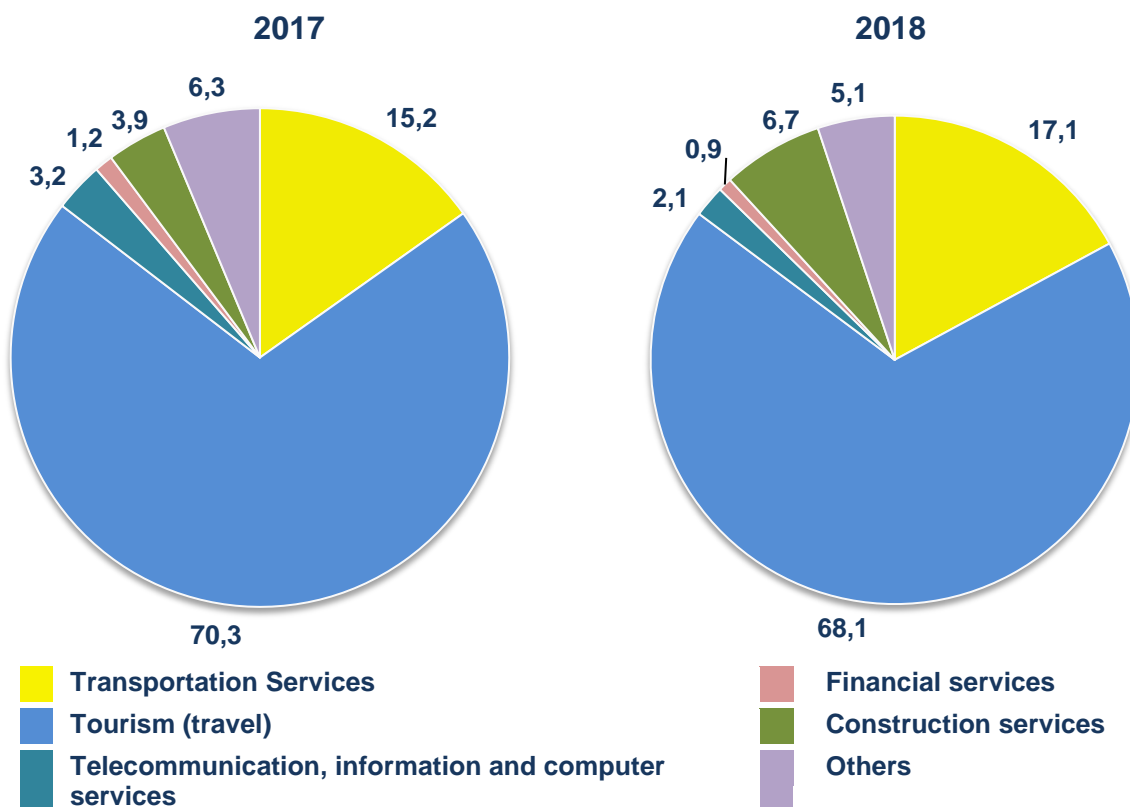

As is clear from the above infographic, the import of building materials in January-November 2018 increased significantly, compared with the corresponding period of 2017. The growth in the volume of imports of building materials is due to large-scale construction and reconstruction work in our country. It should be noted that the government is implementing a number of reforms aimed at the production of building materials and products, as well as providing the domestic market with high-quality and cheap building materials.

Volume of major importing partner countries

Structure of imports of services in January-November, (in %)

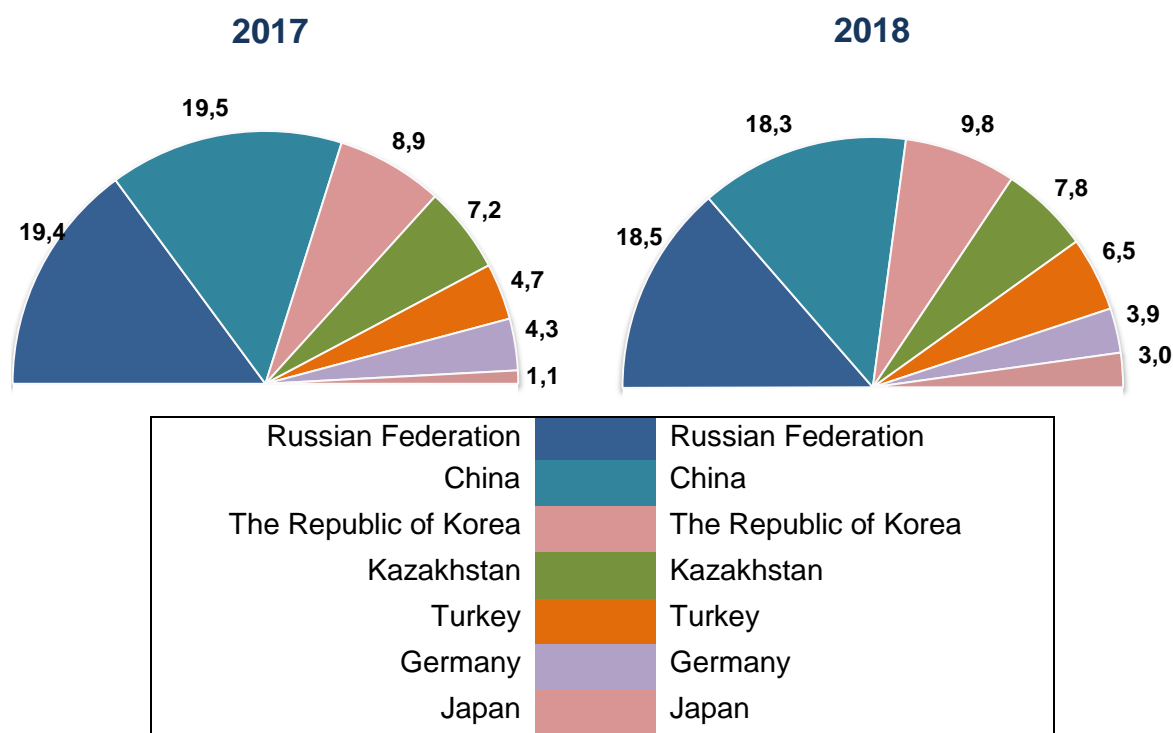

The volume of imports of services in January-November 2018 amounted to 2029.8 million USD, or 12.0 % of total imports and increased, compared to the same period last year, by 19.6 %. Transport services, tourism, as well as telecommunication, information, computer, construction and financial services, account for the bulk of services imports.

Dynamics of imports of goods and services in 2018 (month, million USD)

At the same time, it should be noted that over the past period of 2018 in August the volume of imports was more than in the other months. In November of this year, the volume of imports of goods and services amounted to 1828.1 million USD.

**Volume of large partner countries in the import of goods and services
in January-November 2018**
(million USD)

In January-November 2018, goods and services from 159 countries were imported into the republic.

5 major partner countries (the Russian Federation, the People's Republic of China, the Republic of Korea, Kazakhstan and Turkey) in the total volume of imports have a share of 60.9 %, which is 10553.8 million USD.

The table below contains information about major partner countries exporting machinery, equipment, food products to the Republic of Uzbekistan and having the main share in the republic's imports.

Main partner countries exporting machinery and equipment to the Republic of Uzbekistan

Countries	CHINA	RUSSIA	TURKEY	THE REPUBLIC OF KOREA	GERMANY
million USD	1031,4	342,0	303,3	579,0	268,3
compared with the same period last year, %	73,8	85,3	115,8	69,2	75,0
specific weight, %	14,2	4,7	4,2	8,0	3,7

Main partner countries exporting to the Republic of Uzbekistan chemical products and products from it

Countries	CHINA	RUSSIA	TURKEY	THE REPUBLIC OF KOREA	GERMANY
million USD	312,1	184,1	103,5	87,1	42,4
compared with the same period last year, %	62,6	69,6	72,1	56,5	47,5
specific weight, %	13,6	8,0	4,5	3,8	1,9

As a result of large-scale reforms of the country's foreign economic activity and strong ties with the countries of the world, the export potential of our state grows.

In addition, thanks to the creation of a number of tax and customs benefits, as well as the modernization of industrial production, some of our national products have become more exported and occupy their positions in foreign markets.
