

## Industrial production of the Republic of Uzbekistan in January-April 2019

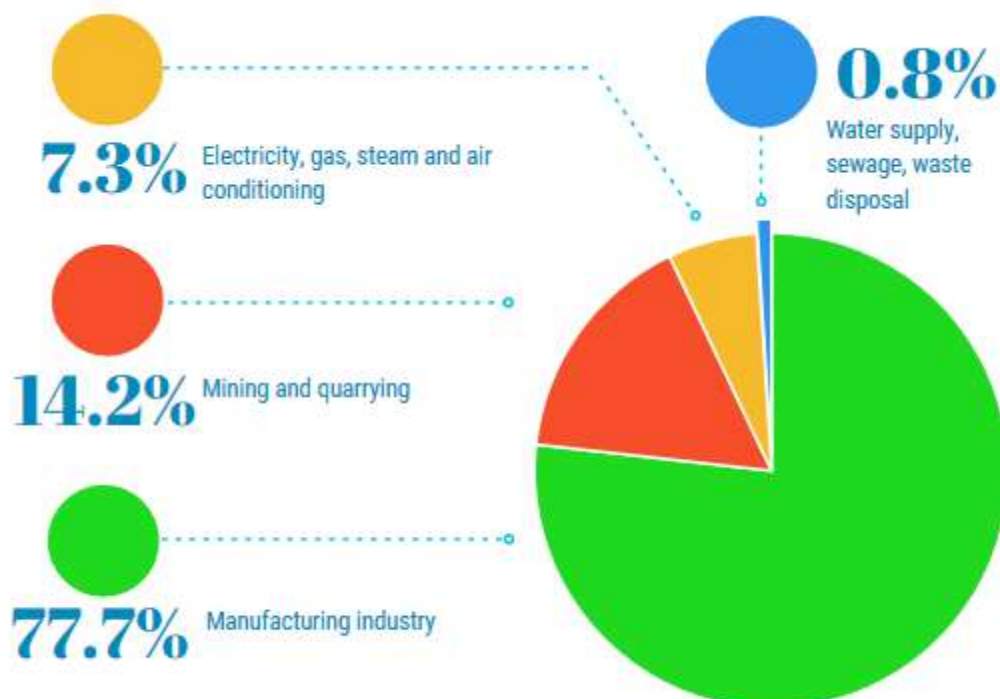

### FIGURES:

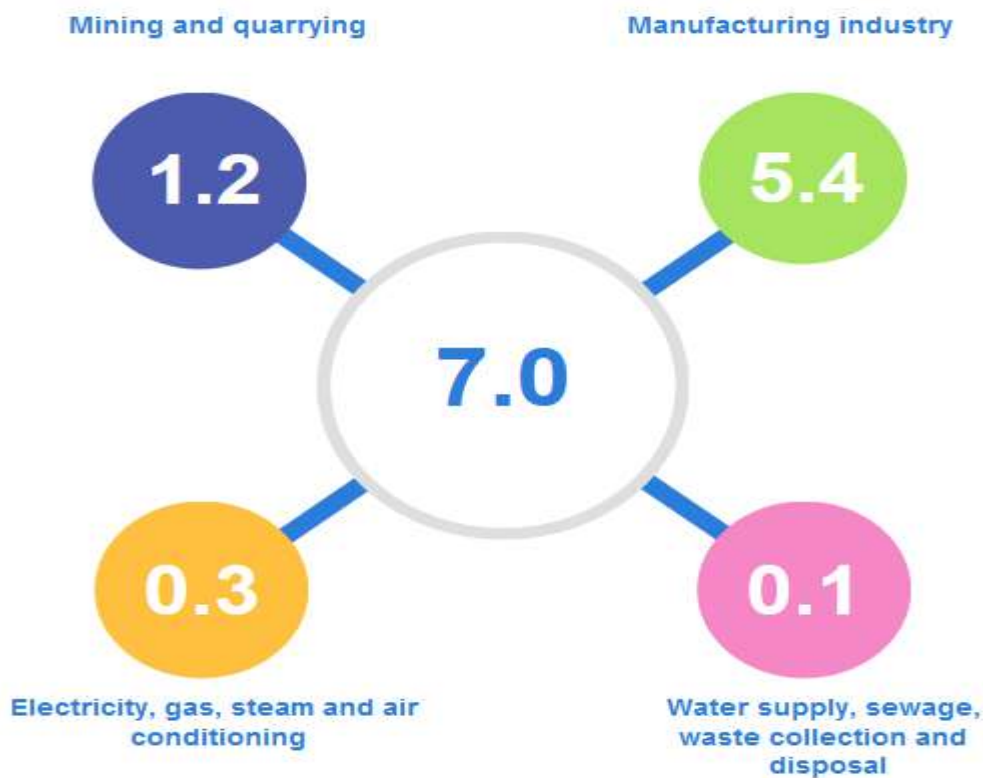

According to preliminary data, in January-April 2019, by enterprises were produced industrial products for 94.7 trillion soums, the industrial production index for the same period of last year amounted to 107.0%.

The main factor behind the growth in total industrial production was the increase in mining and quarrying by 7.2%, manufacturing - by 7.4%, electricity, gas, steam and air conditioning - by 3.4%, water supply, sewerage, waste collection and disposal - by 8.6%.

### *The structure of industrial production by main types of economic activity in January-April 2019*

### The contribution of the main types of economic activity in growth of industrial production in January-April 2019, %

#### Mining and quarrying

The production volume by mining and quarrying enterprises in January-April 2019 amounted to 13.4 trillion soums, or 14.2% of total industry.

Compared to the same period of last year, there is an increase in production of natural gas by 4.4% and gravel - in 2.2 t. At the same time, coal production decreased by 18.9%, oil - by 7.4%, gas condensate - by 1.4%, crushed stone - by 31.1%.

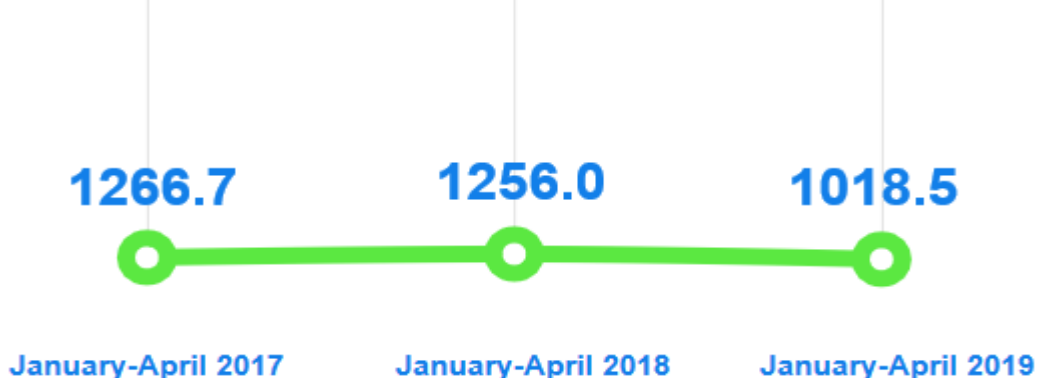

**Production of selected industrial products by large-scale mining and quarrying enterprises**

Production in January-April 2018	Industrial output	Production in January-April 2019	By January-April 2018,%
	<b>Coal, thousand tons</b>		
1256.0		1018.5	81.1 ↓
	<b>Petroleum, thousand tons</b>		
249.7		231.2	92.6 ↓
	<b>Natural gas, million cubic meters</b>

## Natural gas production, billion cubic meters

## Coal mining, thousand tons

## Petroleum production (including gas condensate), thousand tons

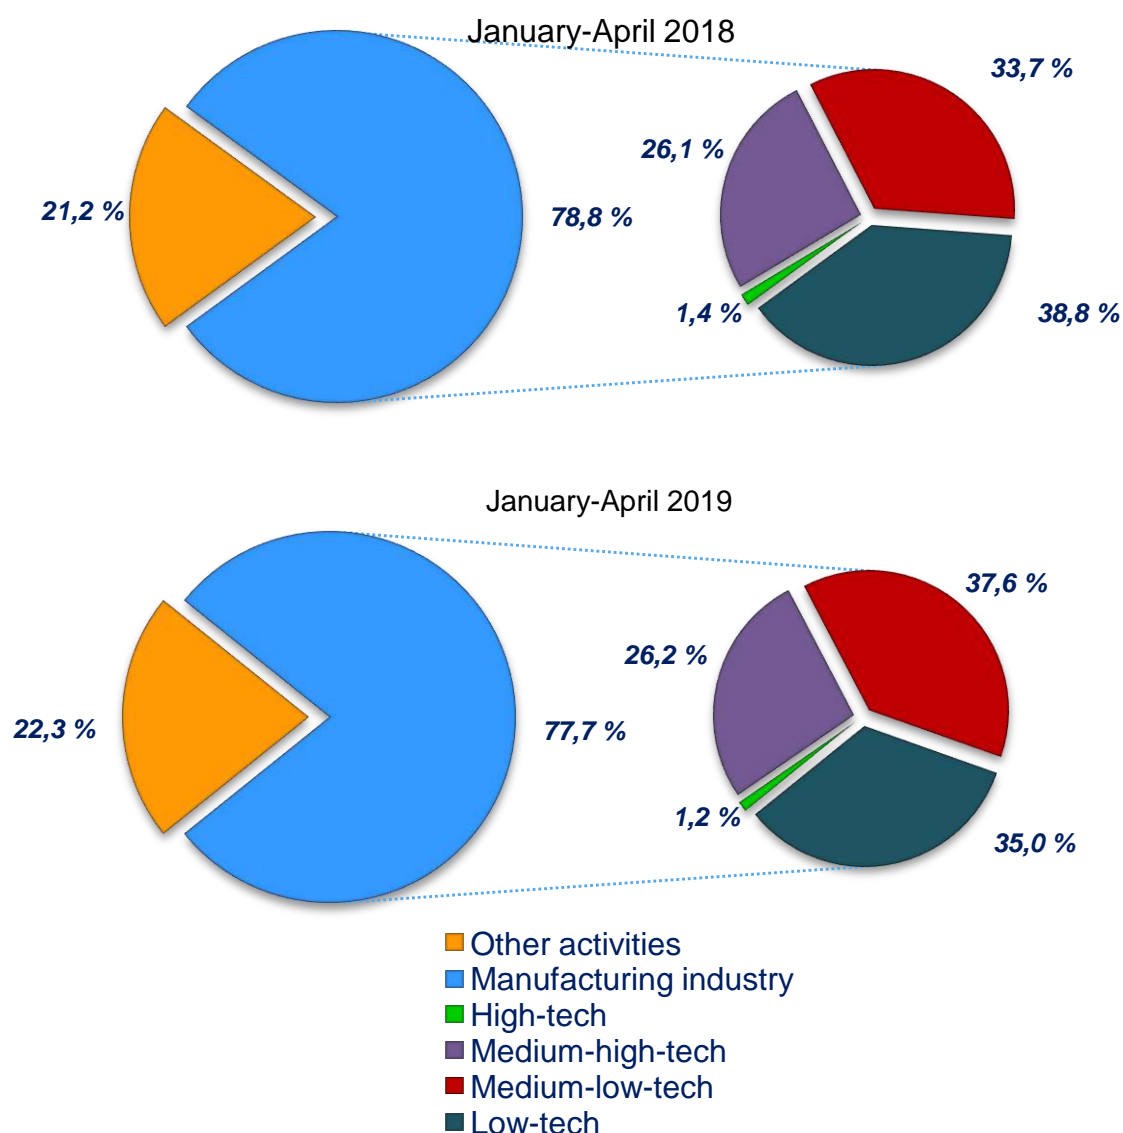

### Manufacturing industry

Manufacturing enterprises in January-April 2019 produced goods to 73.6 trillion soums, or 77.7% of total industry.

In the structure of manufacturing industry, as compared with the corresponding period of the previous year, the share of high-tech industries was 1.2% (1.4% in January-April 2018), medium-high-tech - 26.2% (26.1%), moderately low-tech - 37.6% (33.7%) and low-tech - 35.0% (38.8%).

#### *The structure of manufacturing industry for manufacturability*

In total industrial volume, the share of enterprises for the production, repair, assembly of machinery and equipment, production of cars, trailers, semi-trailers and other finished products reached 17.1% (increased by 20.2% in January-April 2018), a share of metallurgical industry - 18.0% (4.9%), enterprises for the production of textile, clothing and leather products - 13.5% (3.2%), for the production of food, beverages and tobacco products - 11.5% (8, 0%), enterprises producing chemical products, rubber and plastic products - 7.6% (2.7%).

At the same time, in manufacturing industry, compared with the corresponding period of last year, the production of trucks increased by 2.0 t., passenger cars - by 1.5 t., automobile engines - by 1.6 t., buses - by 4,1 t., Wheels of running gears, their parts and accessories - 1.5 t., radiators, silencers and exhaust pipes, clutches, steering wheels, steering columns, crankcases of steering mechanisms and parts thereof - by 1.5 t.

The overhaul of process equipment made it possible to increase the capacity utilization of chemical enterprises and to exceed the previous year's production of potassium chloride (114.3% compared to January-April 2018), carbamide (119.8%), ammonium sulfate (126.5% ), ammonium nitrate (119.2%), paints and varnishes based on acrylic or vinyl polymers (127.7%), herbicides (107.2%), caustic soda (164.4%), other nitrogen fertilizers and their mixtures (173.9%), mineral fertilizers containing nitrogen, phosphorus and potassium (137.4%).

*Production of certain types of industrial goods by large manufacturing enterprises*

Production in January-April 2018	Industrial output	Production in January-April 2019	By January-April 2018, %

***Electricity, gas, steam and air conditioning***

The production volume by enterprises of electricity, gas, steam and air conditioning amounted to 6.9 trillion soums (7.3% of total industry).

In this industry in January-April 2019, compared with the corresponding period of last year, production, transmission and distribution of electricity, steam supply systems and air conditioning increased by 3.6%.

***Production of certain types of industrial goods by large enterprises of electricity, gas, steam and air conditioning***

### *Consumer goods production*

As a result of measures taken to expand the range and stimulate the production of finished goods, the production of consumer goods amounted to 29.6 trillion soums compared to the corresponding period of 2018, increased by 17.1%, a share in total industry amounted to 31.2%.

### *The structure of production and growth of consumer goods in January-April 2019 by January-April 2018*

Compared to the same period of 2018, in the structure of consumer goods in January-April 2019 there was an increase in the share of non-food products from 67.5% to 69.1%.

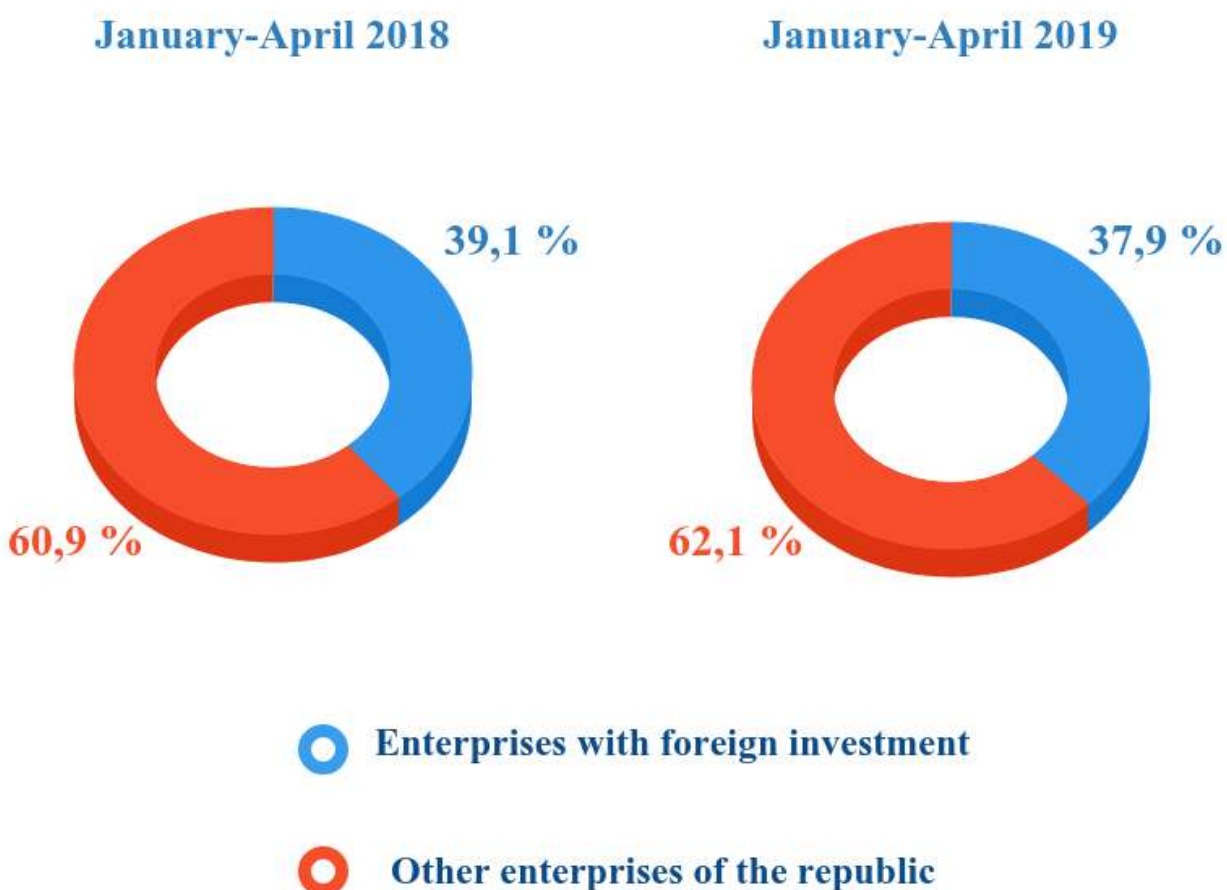

In the structure of foodstuffs, the production of wine-vodka products and beer was 7.1% (8.2% in January-April 2018).

### *Production of enterprises with foreign investments*

During the reporting period, enterprises with foreign investment were produced goods to 35.9 trillion soums.

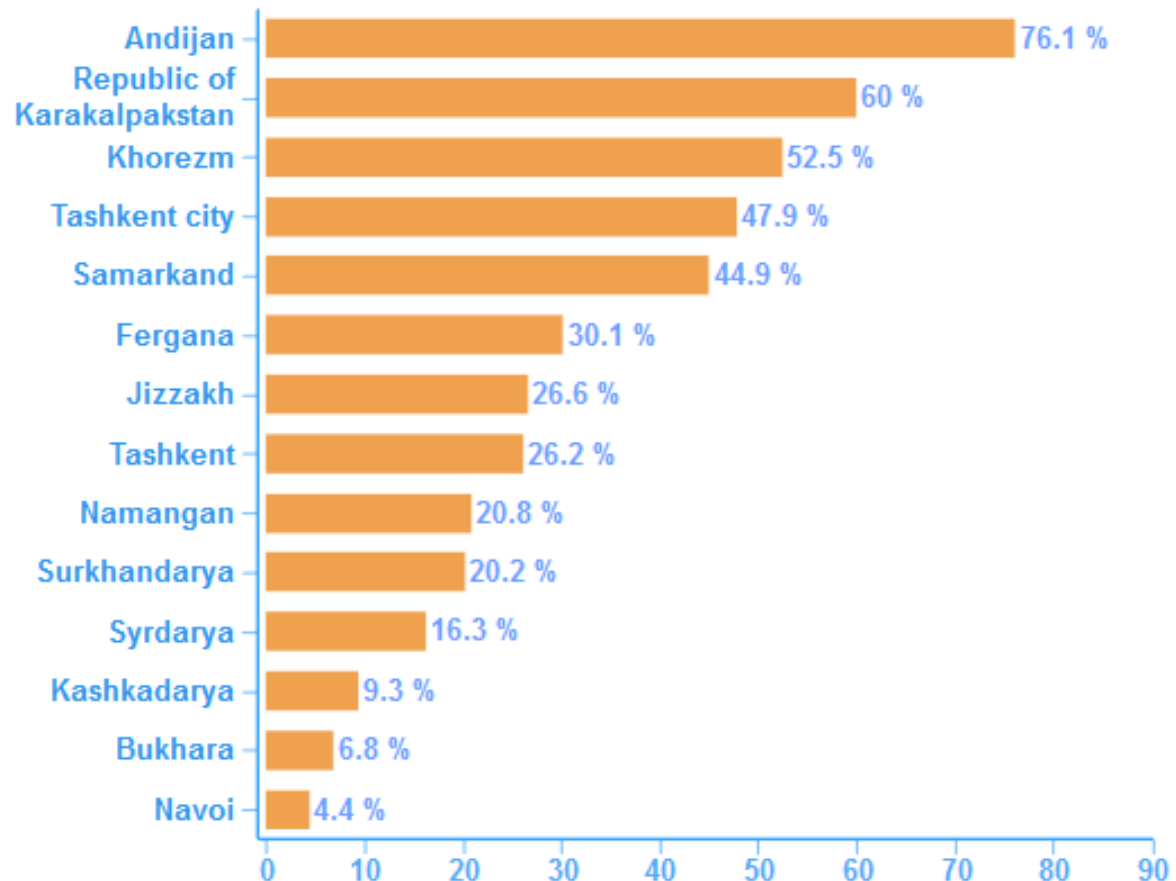

The production share of enterprises with foreign investments in total production volume amounted to 37.9%.

### **The production proportion of enterprises with foreign investments in total industry, %**

In total production volume of enterprises with foreign investments, the share of mining and quarrying enterprises amounted to 23.7%, manufacturing industry - 76.2%.

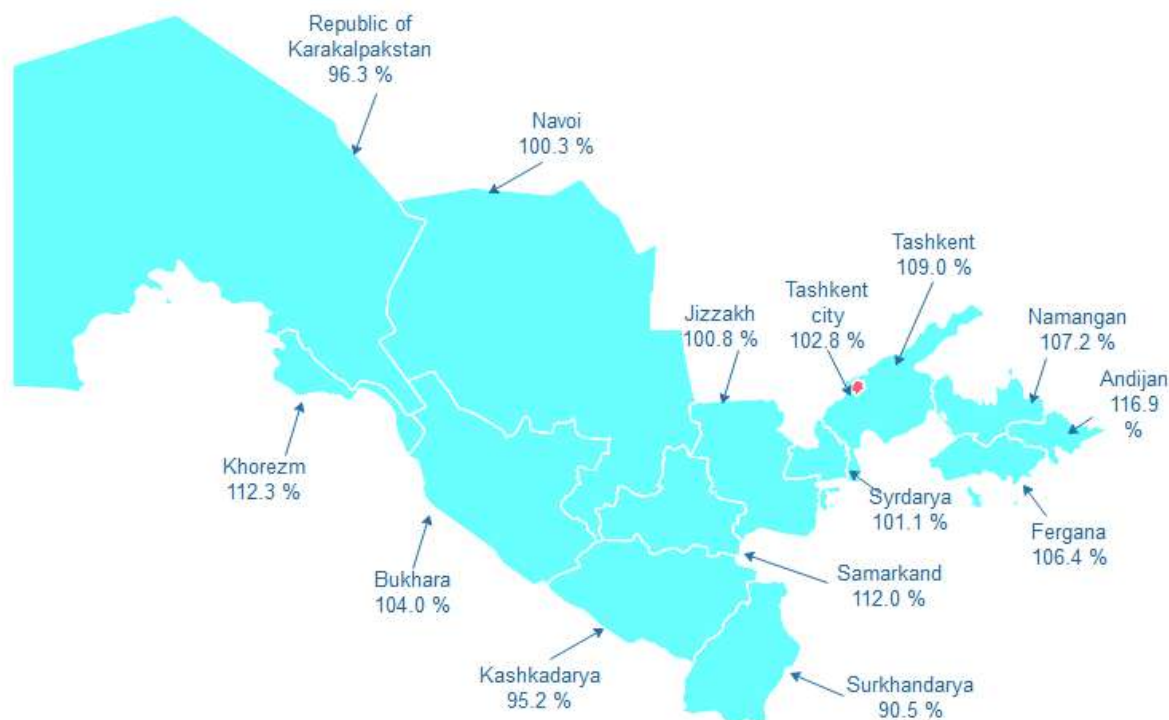

### The production proportion of enterprises with foreign investments in output volume of regions

### *Industrial production of regions*

In the structure of total industrial output, the largest share falls on Tashkent region (16.1% of total industry), Tashkent city (15.4%), Navoi (13.4%), Andijan (10.3%), Kashkadarya (6.6%) and Fergana (6.3%) regions.

*Industrial production index by regions in January-April 2019, % compared to January-April of 2018*

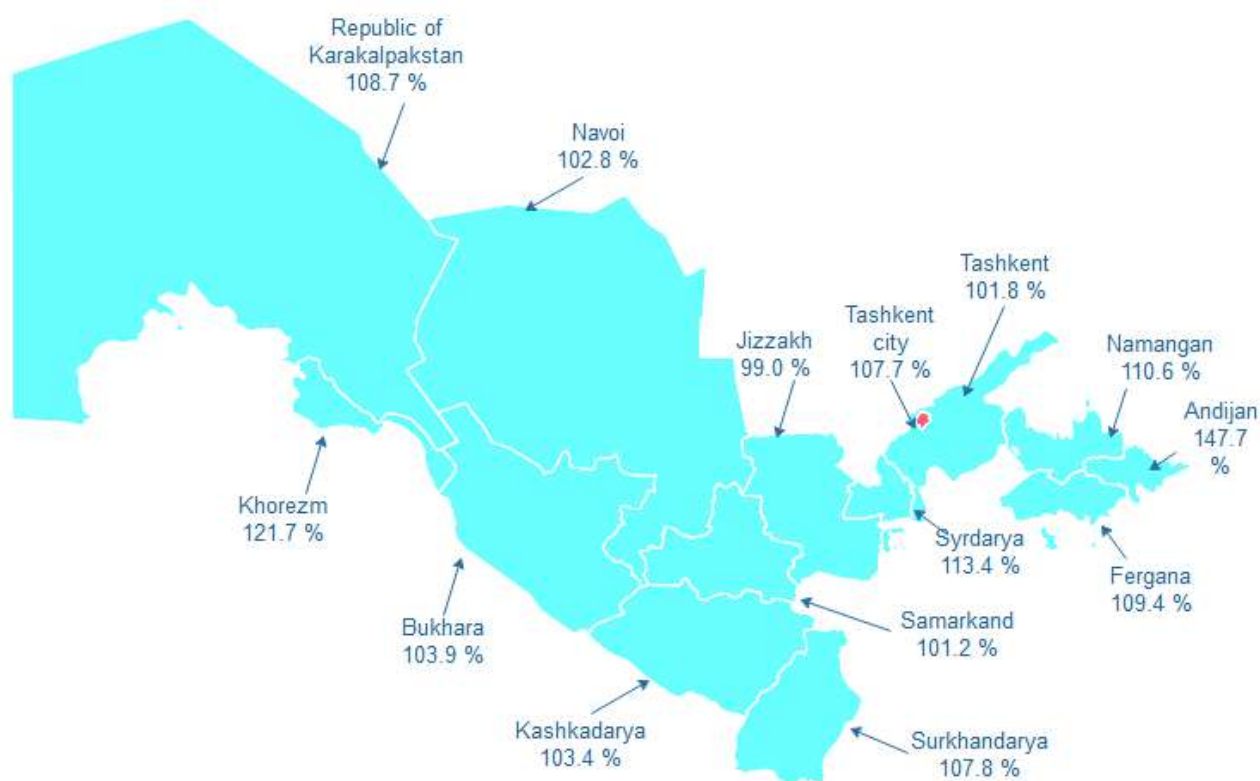

The consistent implementation of measures to increase the industrial potential of regions contributed to a significant increase of industrial production in Andijan (116.9% compared to January-April 2018), Khorezm (112.3%), Samarkand (112.0%), Tashkent (109.0%), Namangan (107.2%) and Fergana (106.4%) regions.

At the same time, there was a significant increase in production of consumer goods in Andijan (147.7% by January-April 2018), Khorezm (121.7%), Syrdarya (113.4%), Namangan (110.6%), Fergana (109.4%), Surkhandarya (107.8%) regions and the Republic of Karakalpakstan (108.7%).

At the same time, it should be noted that the largest share of consumer goods was produced in Andijan region (25.9% of total consumer goods), Tashkent city (23.4%), Tashkent (8.1%) and Samarkand (7.8%) regions.

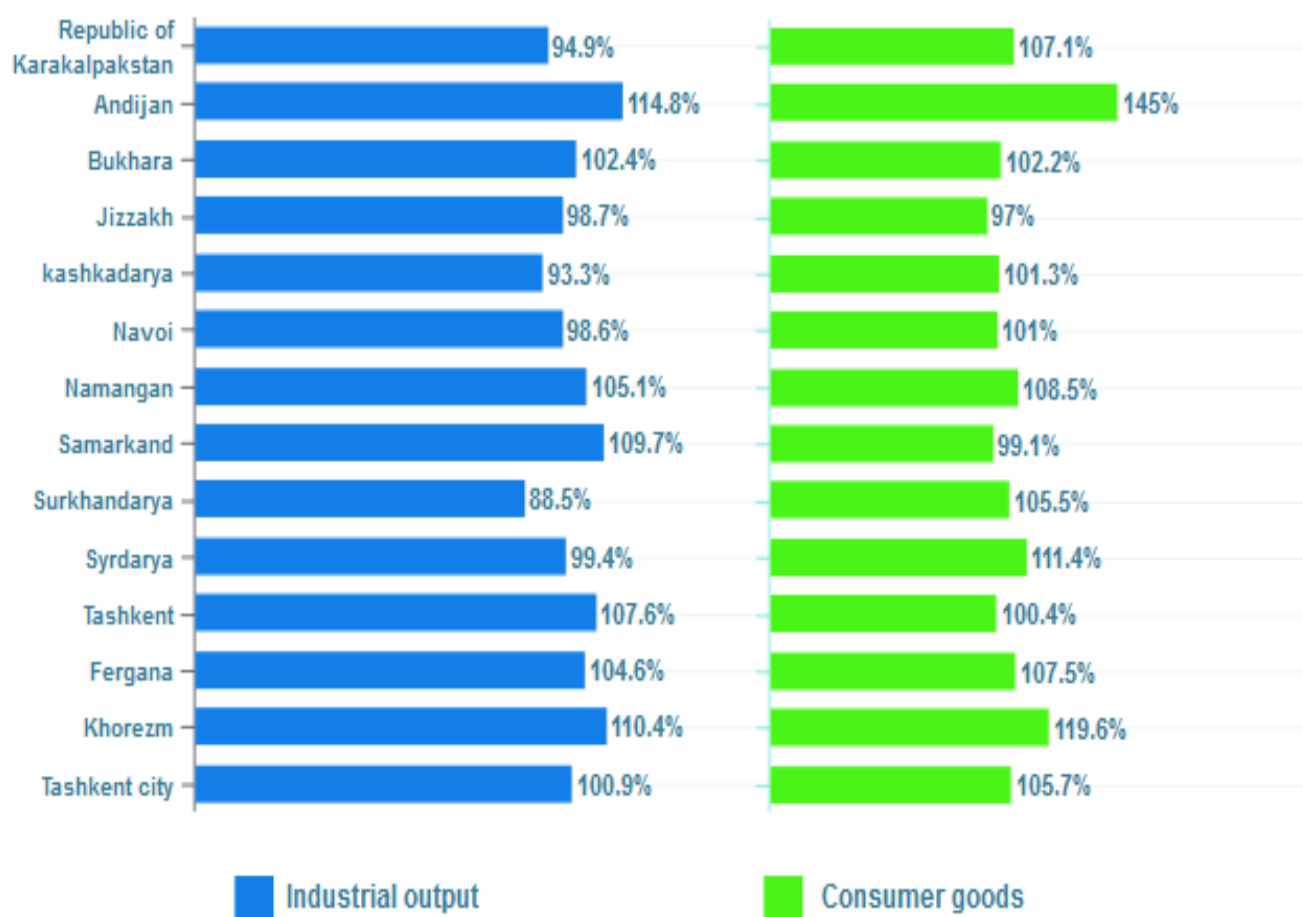

*Production growth of consumer goods by region in January-April 2019, %  
compared to January-April 2018*

Analysis of the differentiation of industrial output per capita showed an excess of the national average level (2842.5 thousand soums) in Navoi region (12925.7 thousand soums), Tashkent city (5788.9 thousand soums), Tashkent (5264.7 thousand soums) and Andijan (3182.6 thousand soums) regions.

Consumer goods production per capita in the reporting period amounted to 888.0 thousand soums, including Andijan region - 2490.8 thousand soums, Tashkent city - 2751.7 thousand soums, Navoi region - 847.5 thousand soums, Syrdarya region - 841.3 thousand soums, Tashkent region - 827.1 thousand soums and Khorezm region - 798.5 thousand soums.

*Industrial production and consumer goods per capita by regions in  
January-April 2019, % compared to January-April 2018*

*The contribution of small business in industrial production*

During the reporting period, small businesses produced goods to 27.7 trillion soums.

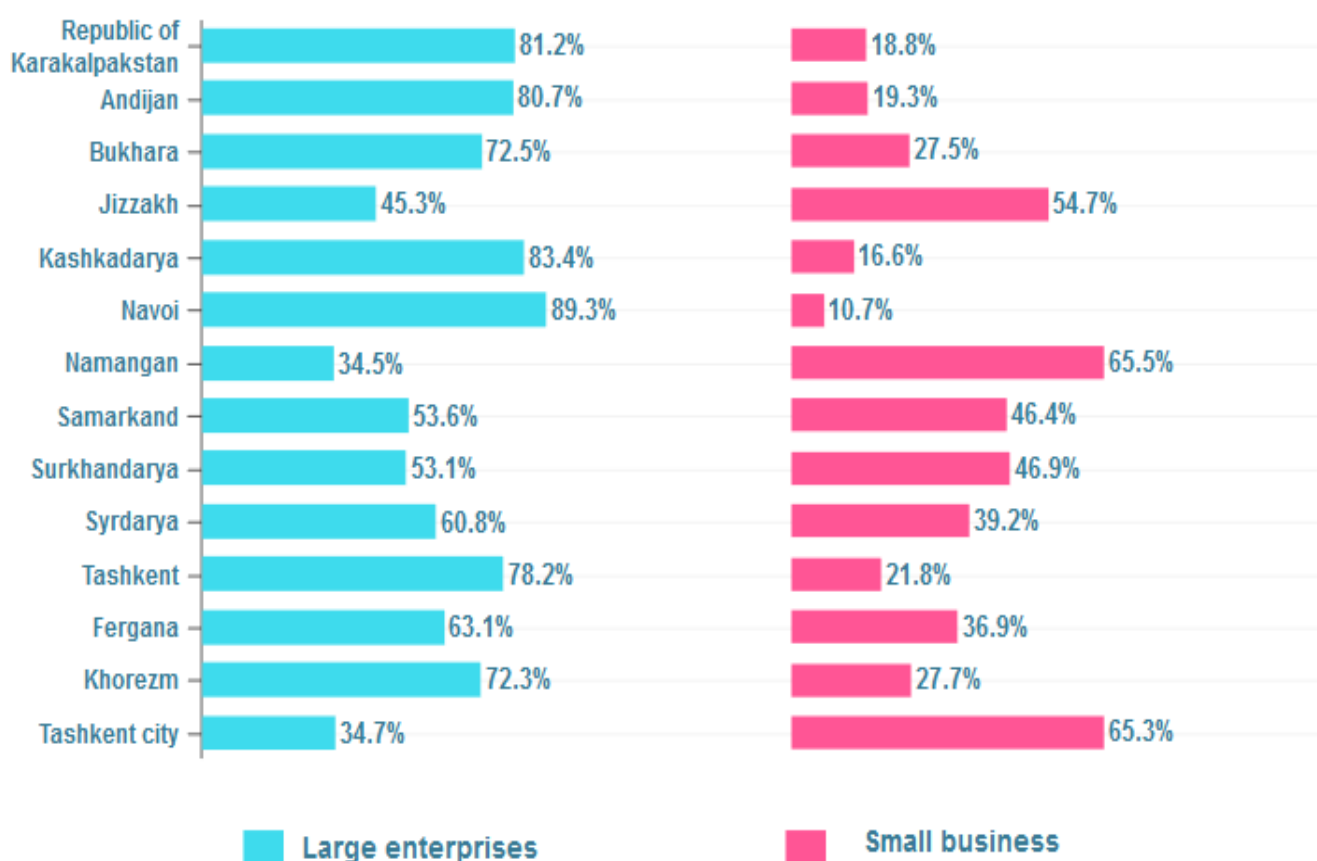

The share of small business in total production amounted to 29.2%.

In terms of regions, the largest share of small business was observed in Namangan (65.5% of total industry of region), Tashkent city (65.3%), Jizzakh (54.7%), Surkhandarya (46.9%), Samarkand (46.4%), Syrdarya (39.2%) and Fergana (36.9%) regions.

At the same time, the smallest share of small business in regions was noted in Navoi (10.7%) and Kashkadarya (16.6%) regions, the Republic of Karakalpakstan (18.8%), as well as in Andijan (19.3%) and Tashkent (21.8%) regions.

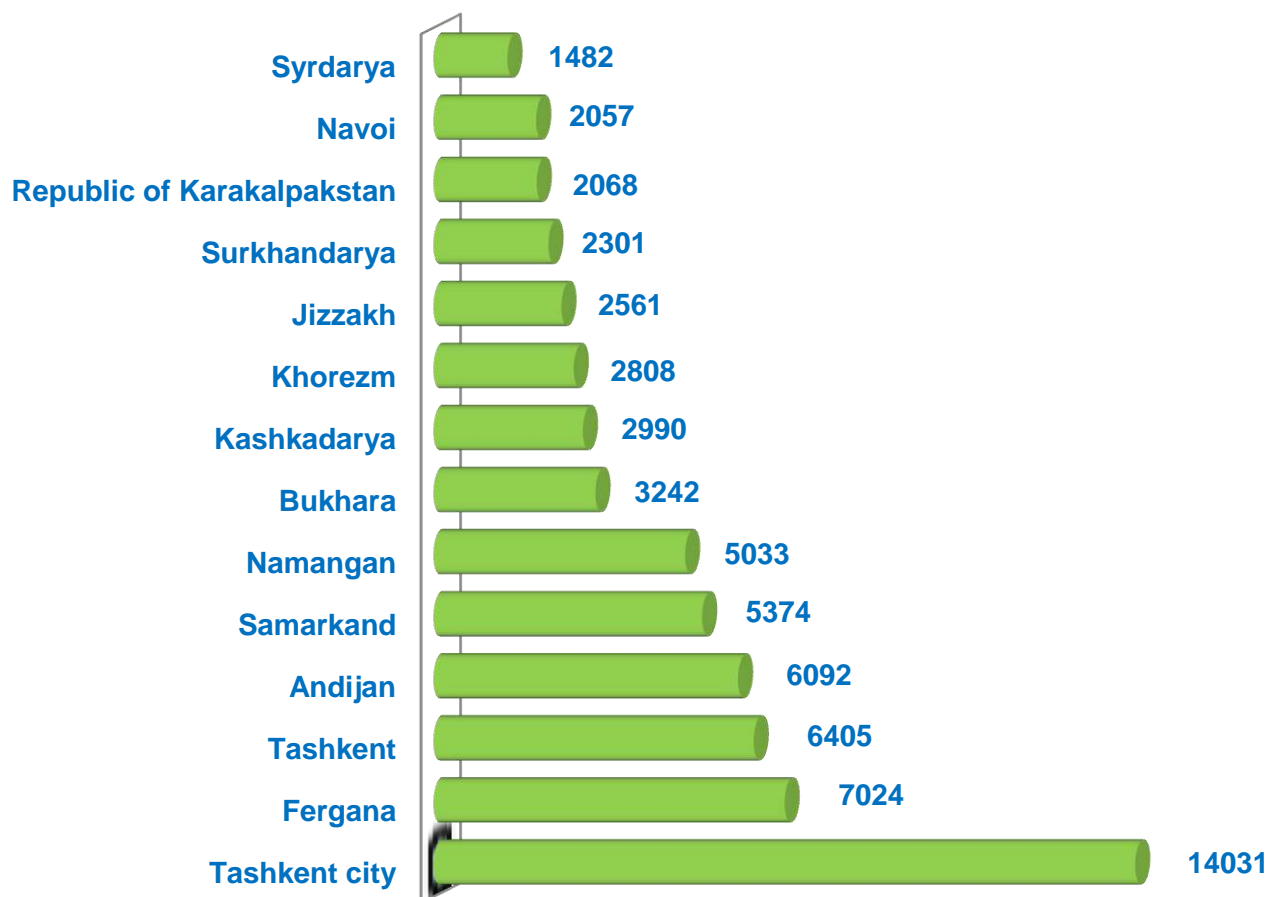

***The share of large and small businesses in the volume of industrial production of the regions, %***

## Operating and newly created industrial enterprises

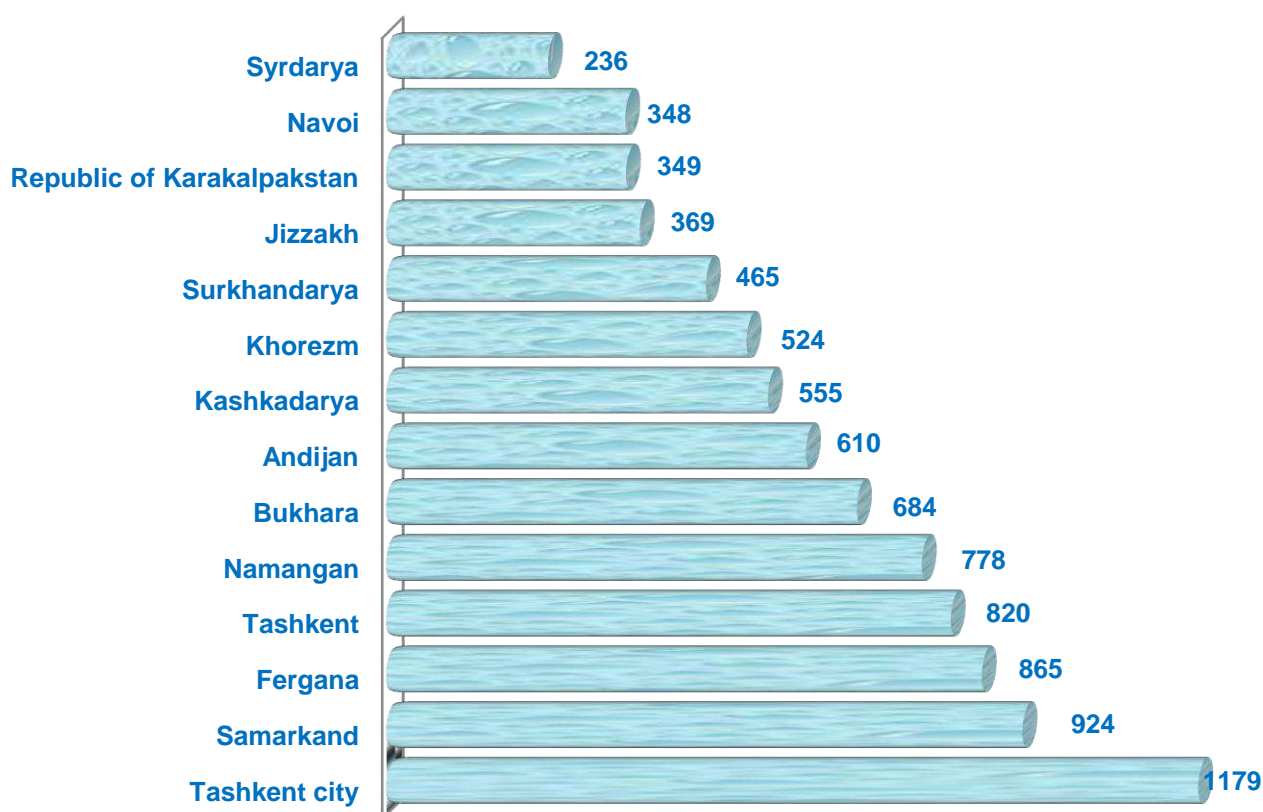

Currently, 63.5 thousand industrial enterprises operate in the republic, of which 14.0 thousand (22.1% of total number of operating enterprises) are in Tashkent city, 7.0 thousand (11.1%) - Fergana and 6.4 thousand (10.1%) - Tashkent region.

### Number of operating industrial enterprises, units (as of May 1, 2019)

In January-April 2019, 8706 industrial enterprises were re-established in the republic, of which 51.4% fall on Tashkent city, Bukhara, Tashkent, Samarkand and Fergana regions.
