

Industrial production of the Republic of Uzbekistan in January-May 2019

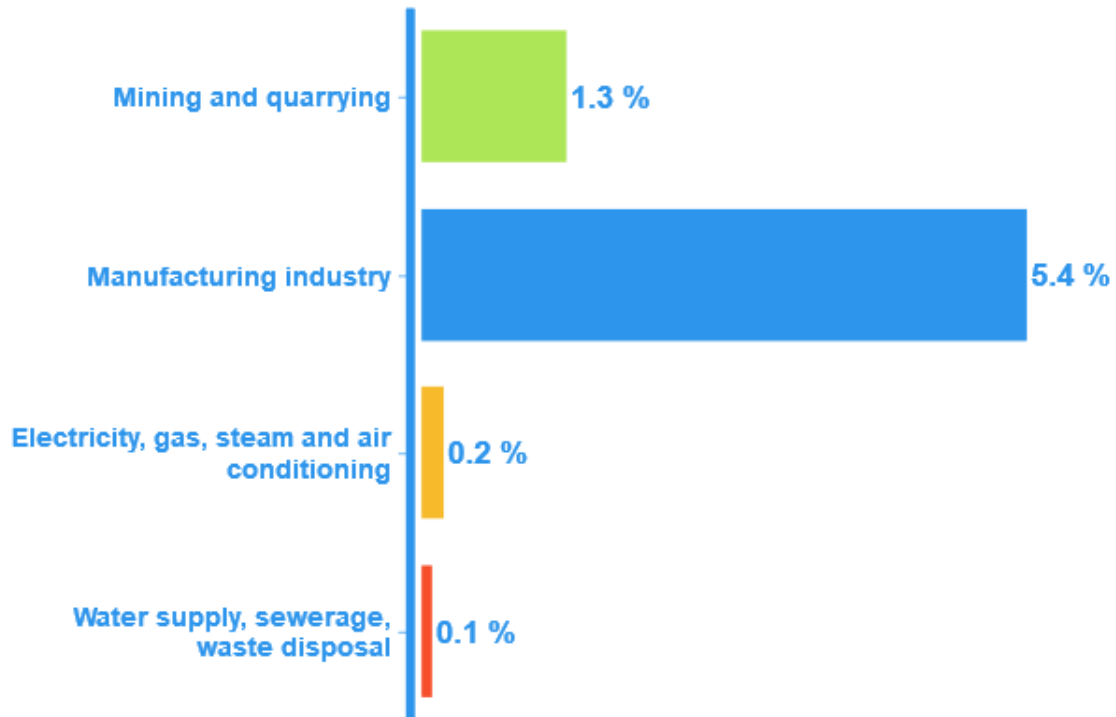

According to preliminary data, in January-May 2019, enterprises of the republic produced industrial output worth 120.7 trillion soums, the industrial production index to the same period of last year amounted to 107.0%.

The main factor behind the growth in total industrial production was an increase in mining and quarrying by 7.4%, manufacturing - by 7.4%, electricity, gas, steam and air conditioning - by 3.1%, water supply, sewerage, collection and disposal of waste - by 9.6%.

Structure of industrial production by main types of economic activity in January-May 2019

**The contribution of the main types of economic activity in the growth
of industrial production in January-May 2019, %**

Mining and quarrying

The output volume of mining and quarrying enterprises in January-May 2019 amounted to 16.3 trillion soums, or 13.5% of total industry.

Compared to the same period of last year, there was an increase in natural gas production by 3.6% and gravel - by 1.8 t., while coal production decreased by 15.3%, oil - by 7.7%, gas condensate - by 2.2%, rubble - by 6.5%.

Production of selected industrial goods by large-scale mining and quarrying enterprises

| Production in January-May 2018 | Industrial output | Production in January-May 2019 | by January-May 2018,% |
|--|---|--------------------------------|-----------------------|
| Coal, thousand tons | | | |

Natural gas production, billion cubic meters

Coal mining, thousand tons

Oil production (including gas condensate), thousand tons

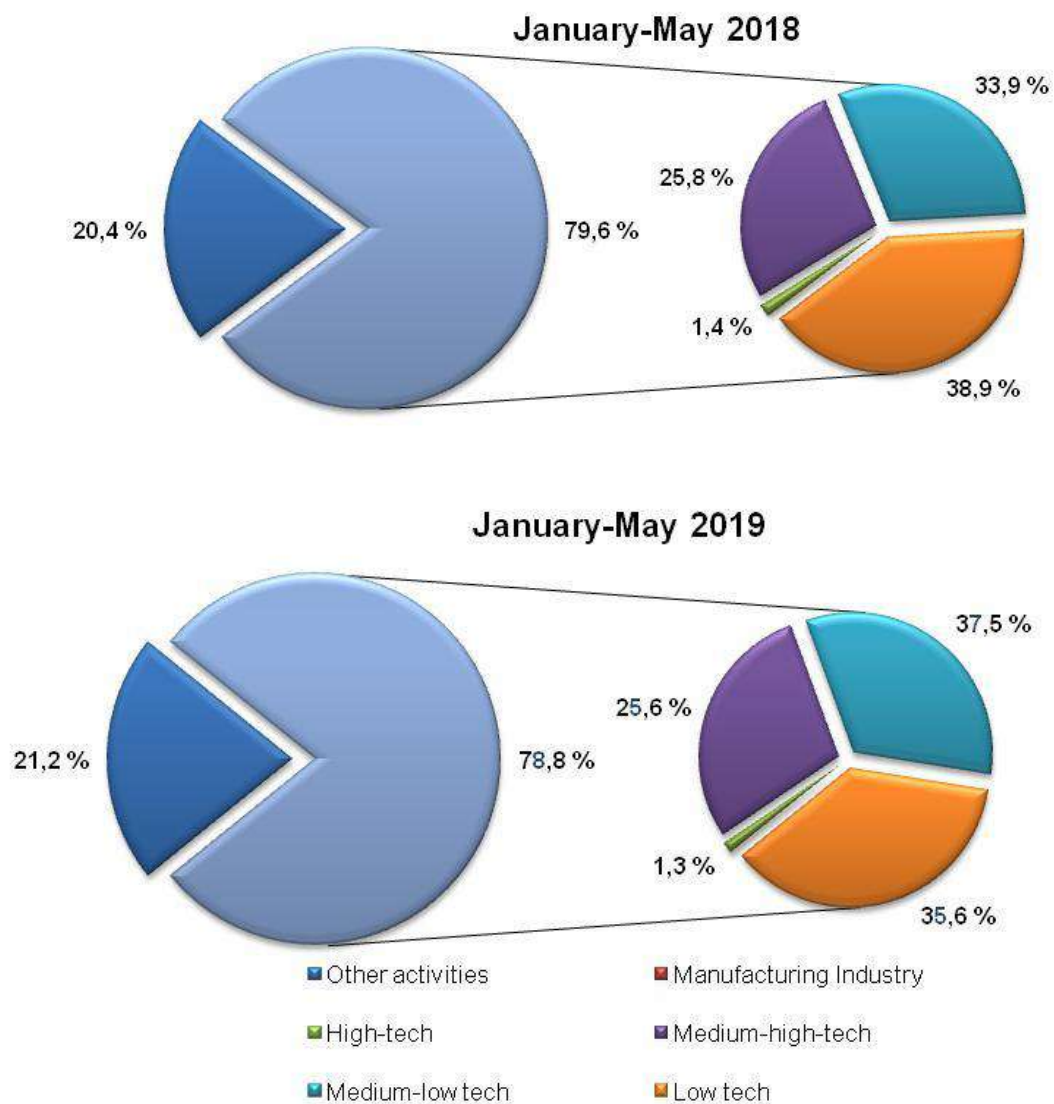

Manufacturing industry

Manufacturing enterprises in January-May 2019, produced to 95.1 trillion soums, or 78.8% of total industry.

In the structure of the manufacturing industry, as compared to the corresponding period of the previous year, the share of high-tech industries was 1.3% (1.4% in January-May 2018), medium-high-tech - 25.6% (25.8%), medium-low-technology - 37.5% (33.9%) and low-technology - 35.6% (38.9%).

The structure of the manufacturing industry by manufacturability

In total volume of industry, the share of enterprises for the production, repair, assembly of machinery and equipment, manufacturing cars, trailers, semi-trailers and other finished products reached 17.0% (growth by 23.6% by January-May 2018), the share of the metallurgical industry - 17.8% (5.0%), enterprises for the production of textile, clothing and leather products - 13.3% (3.8%), for the production of food, beverages and tobacco products - 12.4% (5, 7%), enterprises for the production of chemical products, rubber and plastic products - 7.8% (2.1%).

At the same time, in manufacturing industry, compared with the corresponding period of last year, the production of trucks increased by 1.9 t., passenger cars - by 1.5 t., automobile engines - by 1.5 t., buses - by 3, 5 t., wheels of running gears, parts thereof and accessories - by 1.5 t., radiators, mufflers of noise and exhaust pipes, clutches, steering wheels, steering columns, crankcases of steering mechanisms and parts thereof - by 1.5 t.

The overhaul of technological equipment allowed to increase the capacity utilization of chemical enterprises and to exceed the previous year's production of potassium chloride (113.3% compared to January-May 2018), carbamide (122.5%), ammonium sulfate (117.5%), ammonium nitrate (116.2%), paints and varnishes on acrylic or vinyl polymers (117.9%), herbicides (130.5%), caustic soda (150.7%), other nitrogen fertilizers and their mixtures (150.0%), mineral fertilizers containing nitrogen, phosphorus and potassium (129.1%).

Production of certain types of industrial goods by large
manufacturing enterprises

Consumer goods production

As a result of measures taken to expand the range and stimulate the production of finished goods, the production of consumer goods amounted to 39.1 trillion soums compared to the corresponding period of 2018, increased by 16.1%, a share in total industry amounted to 32.4%.

The structure of production and growth of consumer goods in January-May 2019 by January-May 2018

Compared to the same period of 2018, in the structure of consumer goods in January-May 2019, there was an increase in percentage of non-food products from 67.1% to 68.0%.

In the structure of the output of food products, the production of wine products and beer was 6.4% (7.5% in January-May 2018).

² Including unallocated data by regions

In the structure of industrial output of the republic, the largest share falls on Tashkent region (16.2% of total industry), Tashkent city (15.9%), Navoi (13.4%), Andijan (10.1%), Kashkadarya (6.5%) and Fergana (6.1%) regions.

Industrial production index by regions in January-May 2019, % compared to January-May of 2018

The consistent implementation of measures in order to increase the industrial potential of the regions contributed to a significant increase in industrial production in Andijan (118.9% compared to January-May 2018), Khorezm (110.1%), Samarkand (110.8%), Tashkent (109.6%), Namangan (108.3%) and Bukhara (107.9%) regions.

At the same time, there was a significant increase in consumer goods production in Andijan (141.0% by January-May 2018), Khorezm (125.2%), Syrdarya (115.3%), Namangan (110.2%), Bukhara (109, 6%), Fergana (108.8%), Surkhandarya (107.9%) regions and the Republic of Karakalpakstan (108.0%).

At the same time, it should be noted that the largest share of consumer goods was produced in Andijan region (24.5% of total consumer goods), Tashkent city (21.9%), Tashkent (8.6%) and Samarkand (8.1%) regions.

Production growth of consumer goods by region in January-May 2019, % compared to January- May 2018

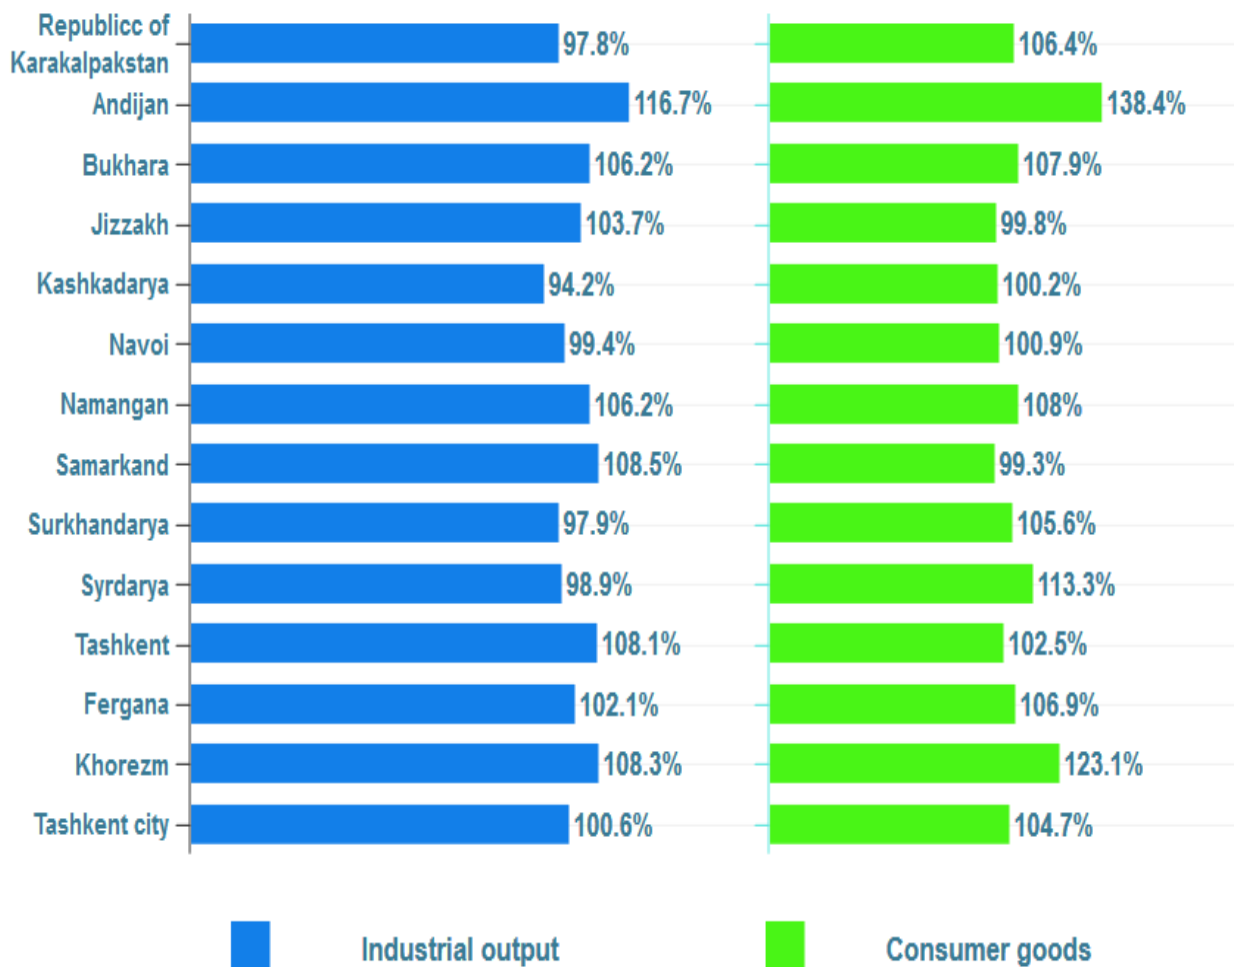

Analysis of the differentiation of industrial output per capita showed an excess of the national average level (3622,5 thousand soums) in Navoi region (16434,1 thousand soums), Tashkent city (7634,9 thousand soums), Tashkent (6715,2 thousand soums) and Andijan (3958,9 thousand soums) regions.

Consumer goods production per capita in the reporting period amounted to 1173,3 thousand soums, including Andijan region - 3117,4 thousand soums, Tashkent city - 3394,5 thousand soums, Navoi region - 1182,3 thousand soums, Syrdarya region - 1174,8 thousand soums, Tashkent region - 1159,7 thousand soums and Khorezm region - 1103,2 thousand soums.

The contribution of small business in industrial production

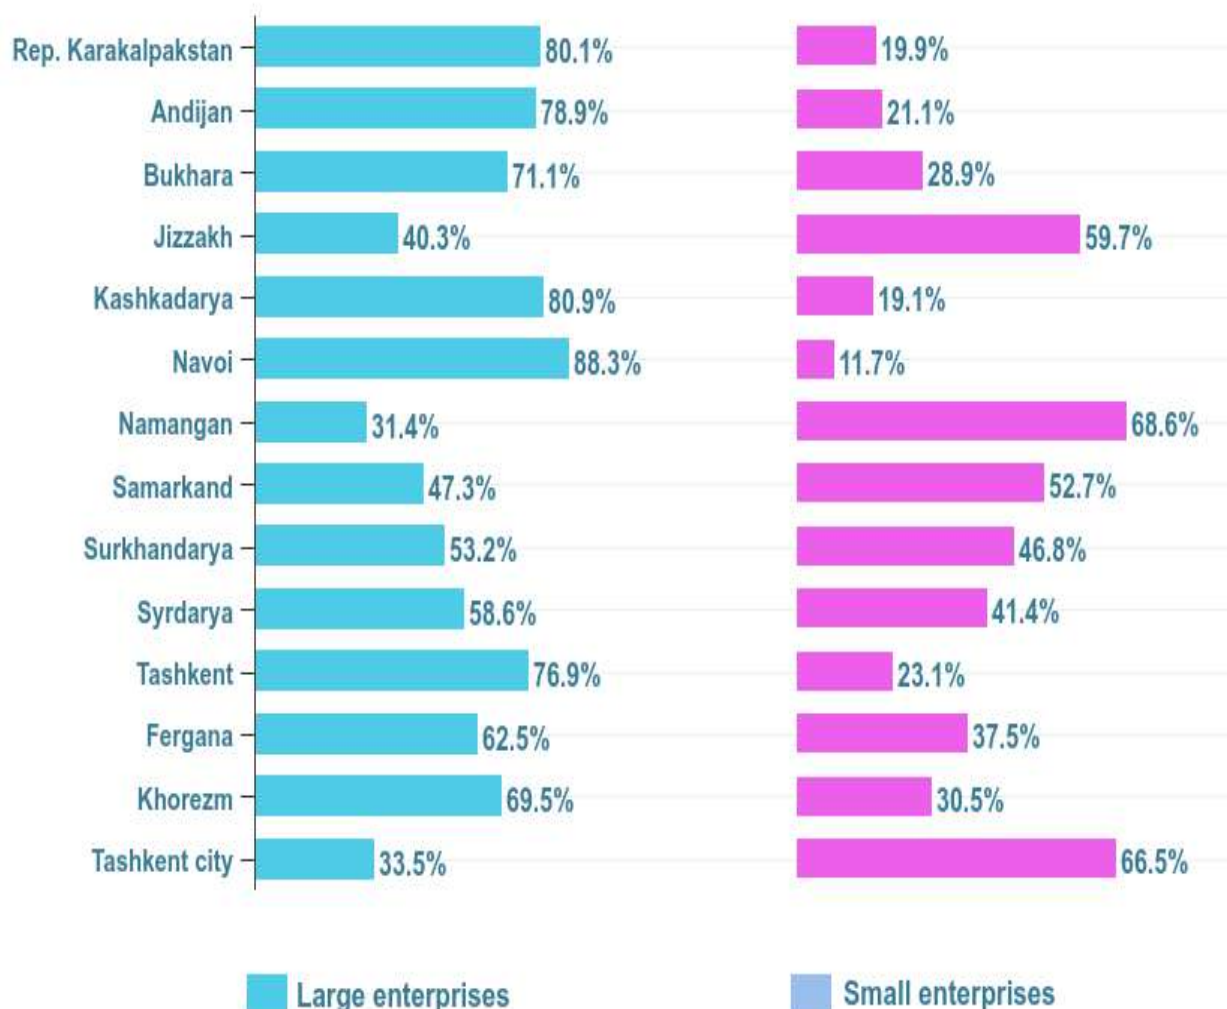

During the reporting period, small businesses produced goods to 37.8 trillion. sum

The share of small business in total production amounted to 31.3%.

In the regions, the largest share of small business was observed in Namangan (68.6% of total industry of the region), Tashkent city (66.5%), Jizzakh (59.7%), Surkhandarya (46.8%), Samarkand (52.7%), Syrdarya (41.4%) and Fergana (37.5%) regions.

At the same time, the smallest share of small businesses in the regions was noted in Navoi (11.7%) and Kashkadarya (19.1%) regions, the Republic of Karakalpakstan (19.9%), as well as in Andijan (21.1%) and Tashkent (23.1%) regions.

The share of large and small businesses in the volume of industrial production of the regions, %

Operating and newly created industrial enterprises

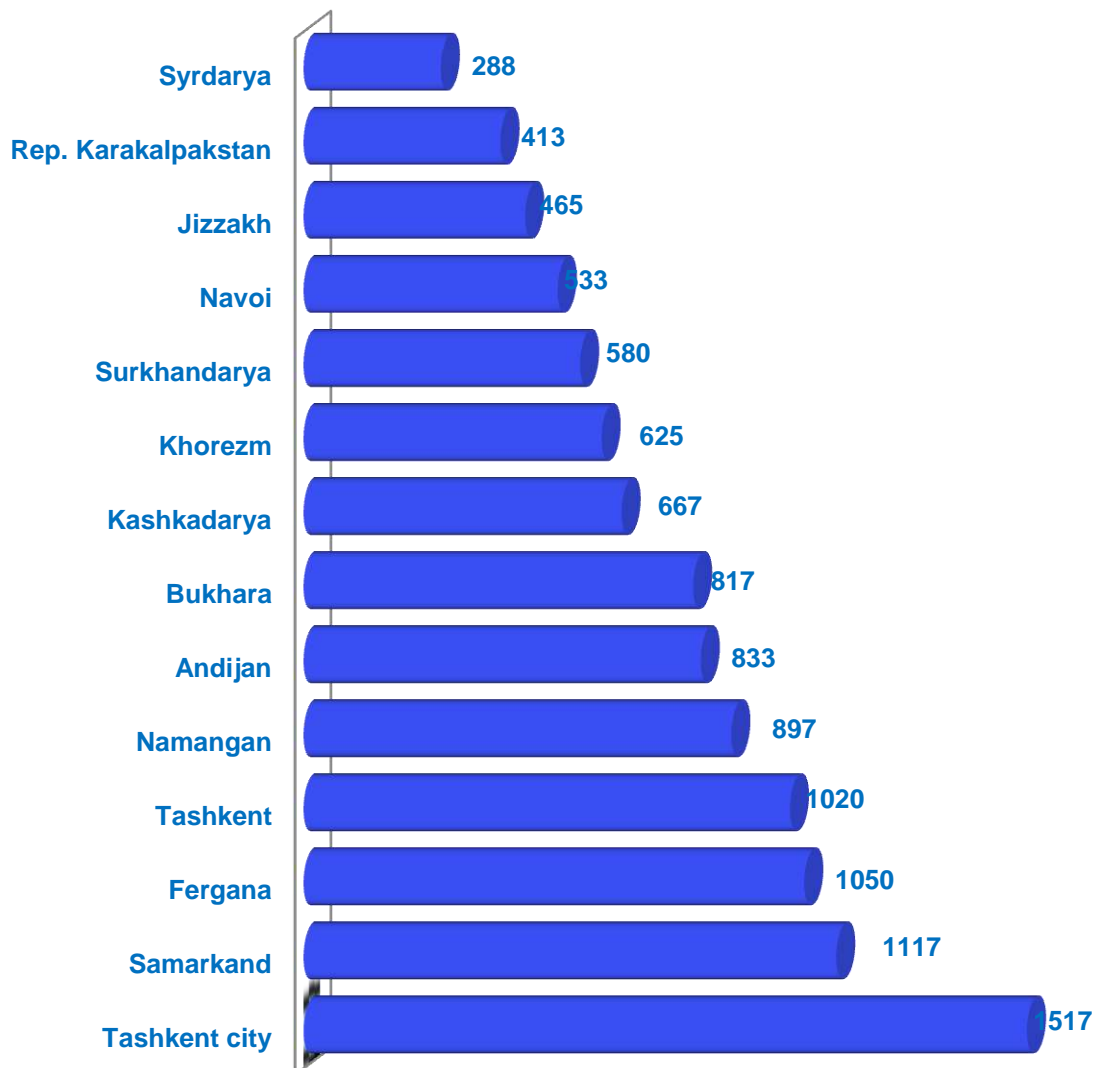

Currently, 65.3 thousand industrial enterprises operate in the republic, of which 14.3 thousand (21.9% of the total number of operating enterprises) are in Tashkent, 7.2 thousand (11.0%) - Fergana and 6.6 thousand (10.1%) - Tashkent region.

Number of operating industrial enterprises, units (as of June 1, 2019)

In January-May 2019, 10822 industrial enterprises were re-established in the republic, of which 51.8% are from Tashkent city, Namangan, Tashkent, Samarkand and Fergana regions.
