**Number of newly created enterprises and organizations  
by type of economic activity, units.  
(excluding farms and dehqan farms)**

The number of operating commercial enterprises and organizations as of October 1, 2019 reached 325.3 thousand units, of which 83.3 thousand units are private enterprises, 24.1 thousand units are family enterprises, 211.0 thousand units are limited liability companies and 6.9 thousand units are other enterprises and organizations.

**Number of operating commercial enterprises according to  
Classifier of legal forms, units**  
*(excluding farms and dehkan farms)*

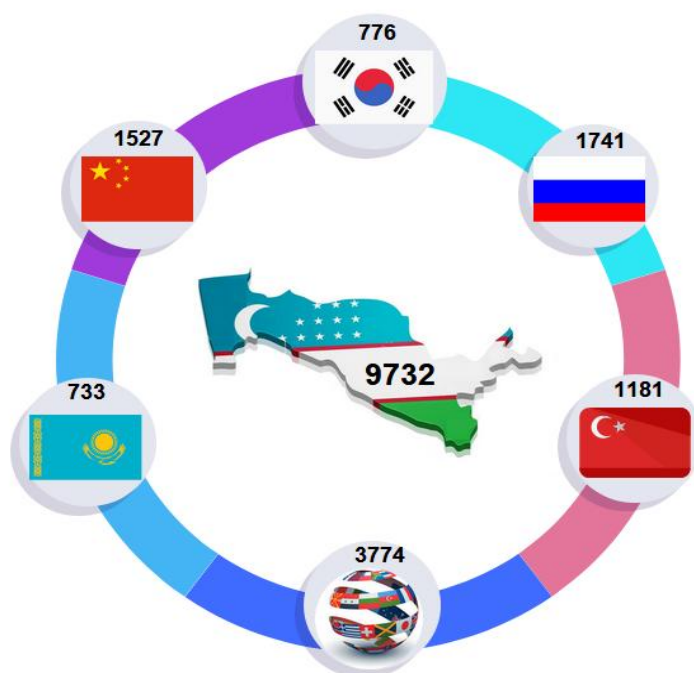

---

The largest number of operating commercial enterprises and organizations is located in Tashkent (72 060 units), Tashkent (31 235 units), Fergana (28 751 units), Andijan (26 417 units) and Samarkand (24 926 units) regions. In the Syrdarya (10 101 units), Navoi (13 601 units) and Jizzakh (13 741 units) regions recorded a small number of them.

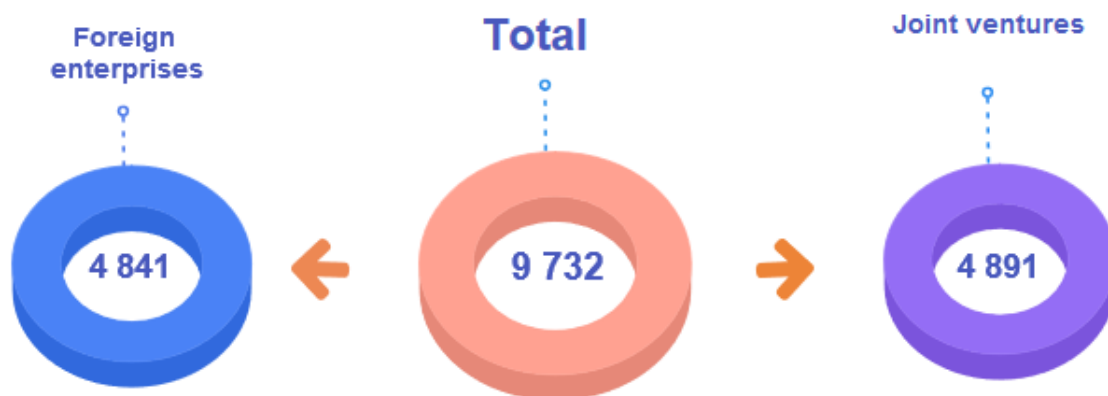

As of October 1, 2019, the number of operating enterprises with participation of foreign capital amounted to 9 732 units compared to the same period last year, it increased by 2 772 units, or 39.8 %. Most of them belong to the subjects of the Russian Federation, the Republic of Turkey, the people's Republic of China, the Republic of Kazakhstan and the Republic of Korea.

## Number of operating enterprises with foreign capital by countries, units.

It should be noted that 4 891 enterprises with foreign capital are joint ventures, 4 841-foreign.

## Number of operating enterprises with foreign capital, units.

The main part of operating enterprises with participation of foreign capital is recorded in the city of Tashkent-5,778 units (59.4 %), Tashkent – 1,066 units (10.9%) and Samarkand 500 units (5.1%) regions. The smallest share falls on Khorezm-124 units (1.3 %), Syrdarya - 146 units (1.5%), Kashkadarya - 178 units (1.8%) and the Republic of Karakalpakstan - 143 units (1.5%).

This, in turn, indicates the need to strengthen joint work with foreign partners, develop and attract foreign investment in these regions.

Of the total number of operating small enterprises and microfirms by type of economic activity accounted for trade – 94.9 thousand units (29.4 %), industry - 68.0 thousand units (21.1 %), construction – 35.5 thousand units (11.0 %), agriculture, forestry and fisheries - 27.8 thousand units (8.6 %), accommodation and catering services – 24.4 thousand units ((7.5 %), transportation and storage services – 15.0 thousand units (4.6 %), information and communication – 7.5 thousand units (2.3 %), health and social services – 6.1 thousand units (1.9%) as well as other types – 43.9 thousand units (13.6 %). It can be seen that the largest share of operating small enterprises and micro firms are in trade and industry. Health, social, information and communication services account for the smallest share.

**Share of operating small enterprises and micro firms  
by type of economic activity**  
*(excluding farms and dehqan farms)*

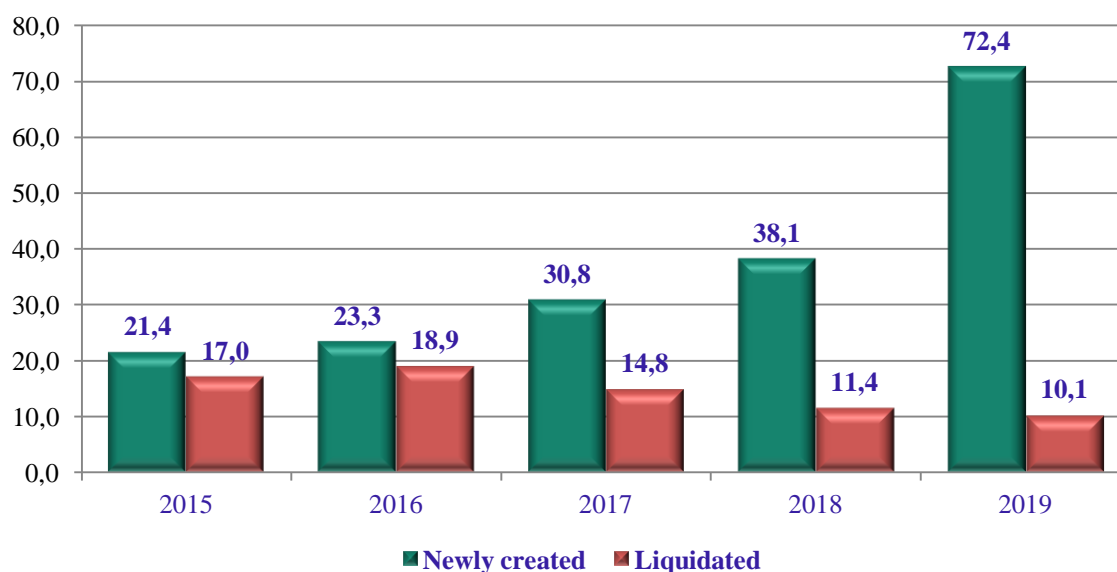

**Type of activity of small enterprises and micro firms by regions, %**  
(excluding farms and dehqan farms)

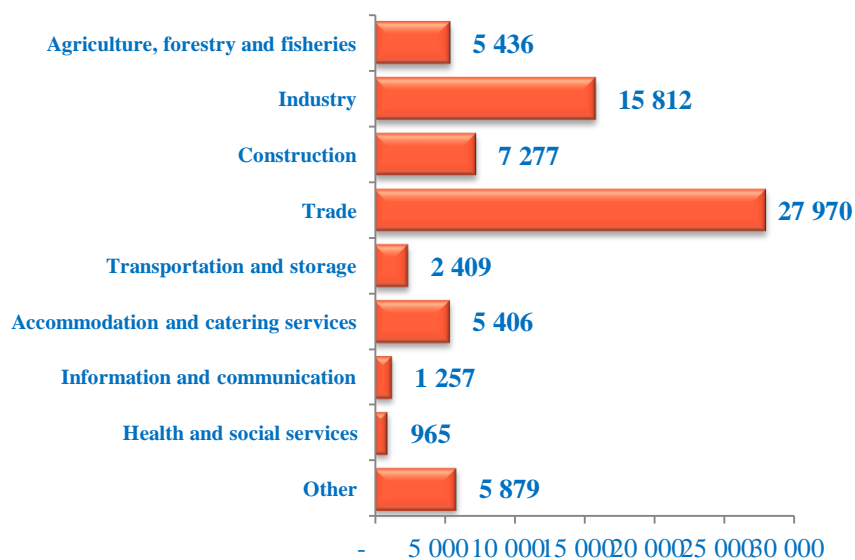

According to the results for January-September 2019, the number of newly created small enterprises and microfirms amounted to 72.4 thousand units, which is 1.9 times more than in the same period last year. A significant part of their total number is recorded in the city of Tashkent (14,485 units), Tashkent (7,124 units), Samarkand (6,166 units) and Fergana (5,747 units) regions. The smallest share falls on Syrdarya (2,031 units), Jizzakh (2,941 units), Surkhandarya (3,593 units), Navoi (5,092 units) regions, as well as on the Republic of Karakalpakstan (2,993 units).

**Dynamics of newly created and liquidated small enterprises and microfirms  
in January-September, thousand units.**  
*(excluding farms and dekhkan farms)*

In January-September 2019 (excluding farms and dekhkan farms), 10 104 small enterprises and microfirms liquidated their activities for certain reasons. Compared to the same period last year, this figure decreased by 1,341 units.

**Number of newly established small enterprises and micro firms  
by type of economic activity, units**  
*(excluding farms and dekhkan farms)*

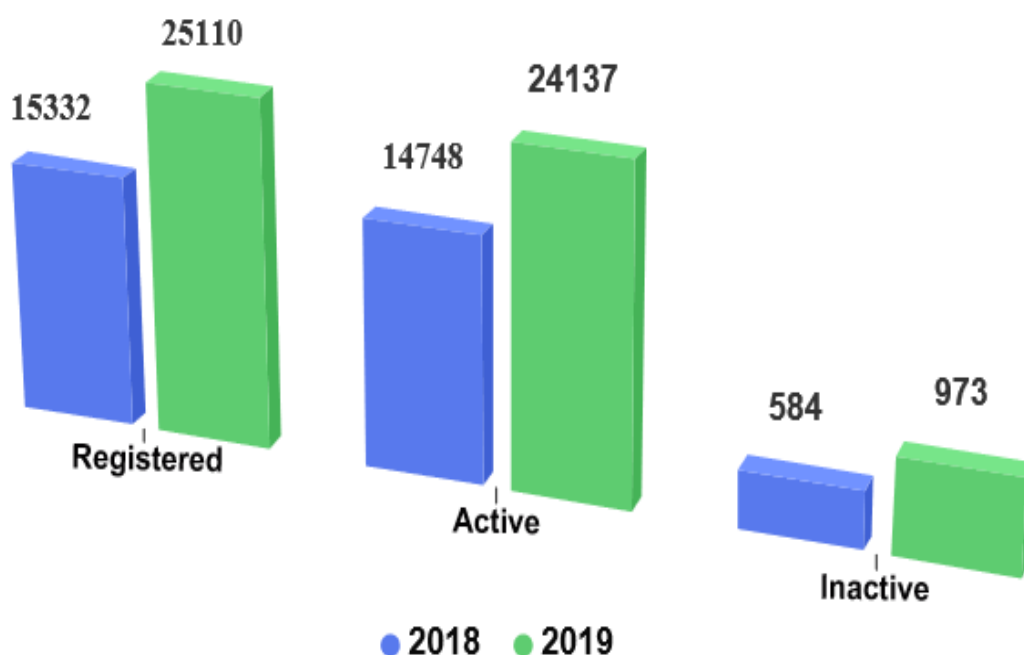

If we consider the number of newly created small enterprises and microfirms by type of economic activity, the largest part fell on trade-27 970 units, industry-15 812 units, construction-7 277 units, agriculture, forestry and fisheries - 5 436 units. The smallest number accounted for health and social services - 965 units, information and communication -1 257 units, as well as transportation and storage-2 409 units.

### Family business

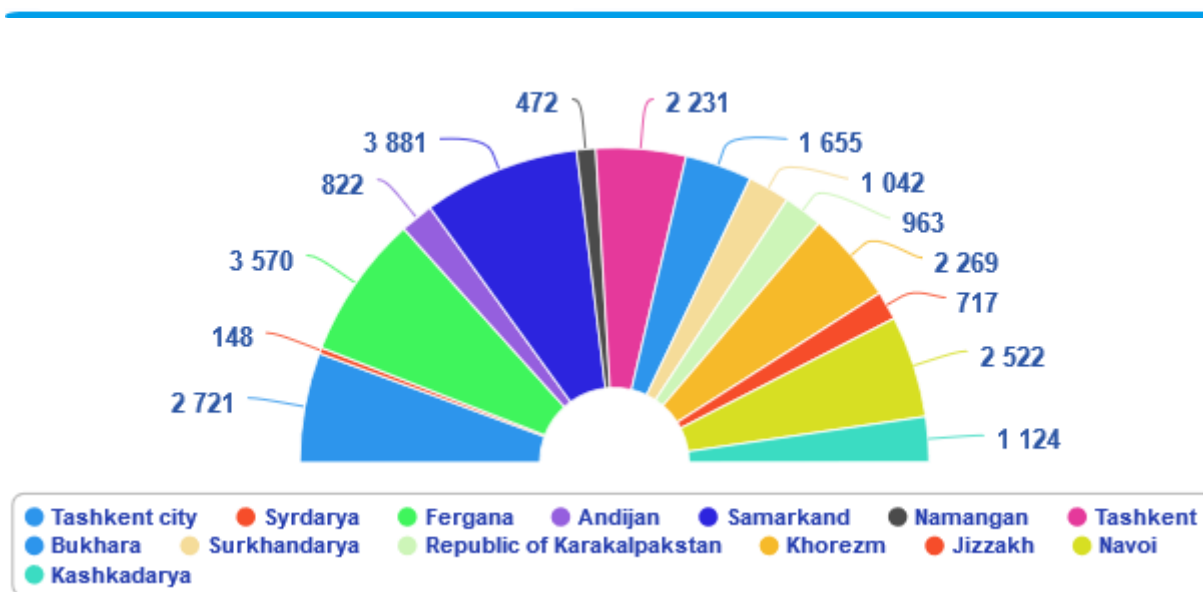

As of October 1, 2019, the number of registered family enterprises that have passed the state registration as a legal entity amounted to 25 110 units, of which the operating ones reached 24 137 units, or 96.1 %. Compared to the previous year, the growth in the number of registered and operating family businesses reached an average of 63.7 %.

**The number of family enterprises, units**  
(as of October 1)

If we consider the number of operating family enterprises by type of economic activity, then the largest share fell on industry - 35.0% or 8 444 units, accommodation and catering services - 21.0% or 5 071 units, trade - 22,1% or 5 331 units, agriculture, forestry and fisheries - 10.0% or 2 406 units, construction - 1.1% or 276 units, transportation and storage - 1.0% or 243 units, health and social services - 1.0% or 240 units, information and communication - 0.9% or 215 units and other types - 7.9% or 1 911 units.

## Number of operating family businesses by regions, units

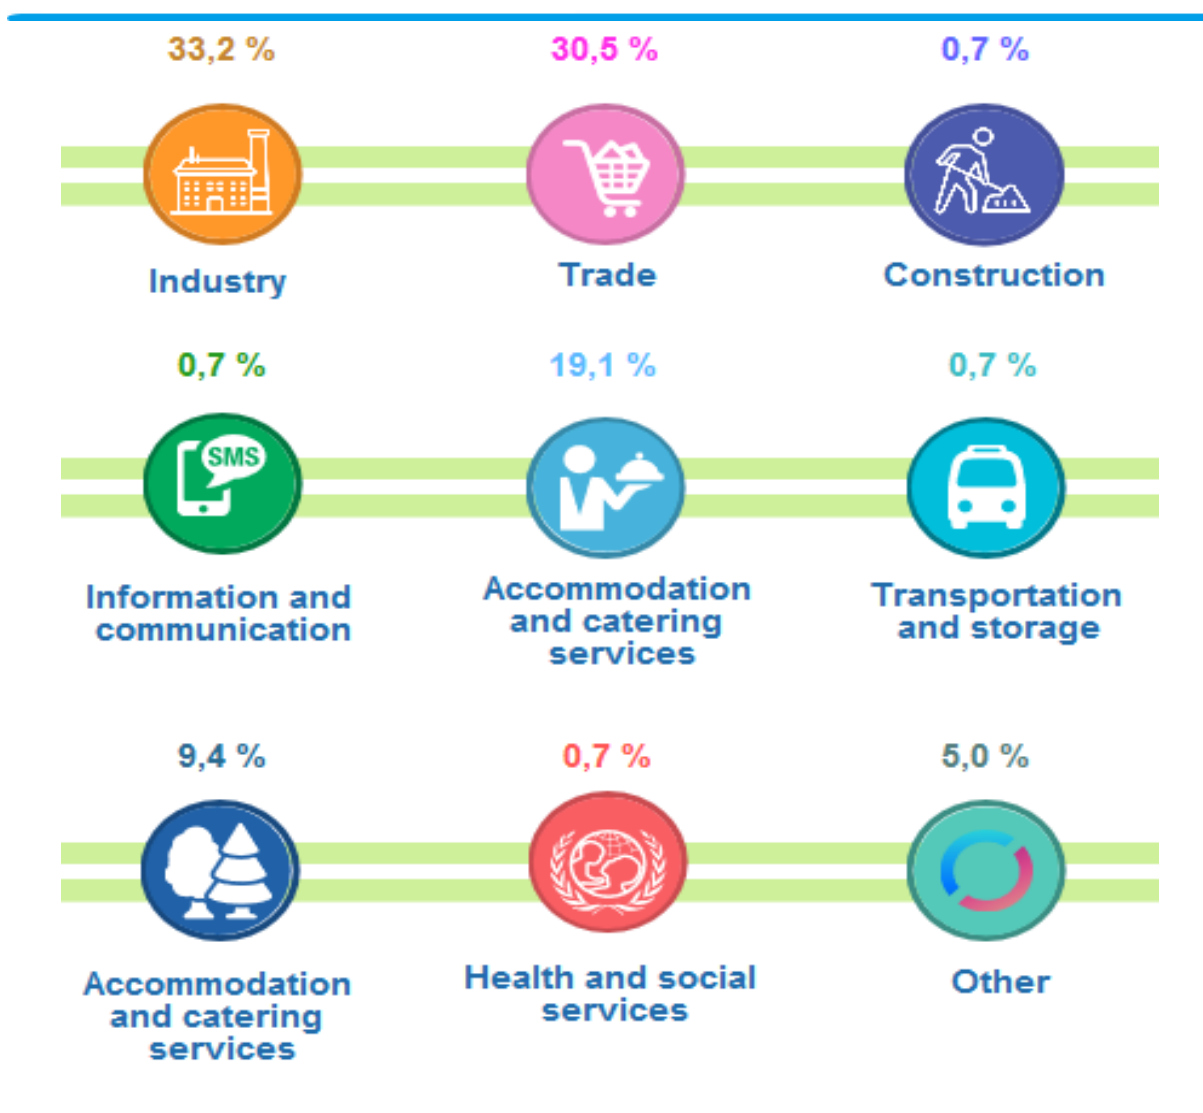

If we consider the number of operating family enterprises by type of economic activity as of October 1, 2019, the largest number fell on industry and accommodation and catering services, the smallest on health and social services as well as information and communication.

According to the results in January-September 2019, the number of newly created family enterprises amounted to more than 9.3 thousand units, which is 2.7 more than in the same period last year.

If we consider the number of newly created family enterprises by type of economic activity, then their main share fell on industry - 33.2% or 3 088 units, trade - 30.5% or 2 839 units, accommodation and catering services - 19.1% or 1 773 units, agriculture, forestry and fisheries - 9.4% or 870 units, construction - 0.7% or 63 units, transportation and storage - 0.7% or 64 units, health and social services - 0.7% or 70 units, information and communication - 0.7% or 62 units and other types - 5.0% or 467 units.

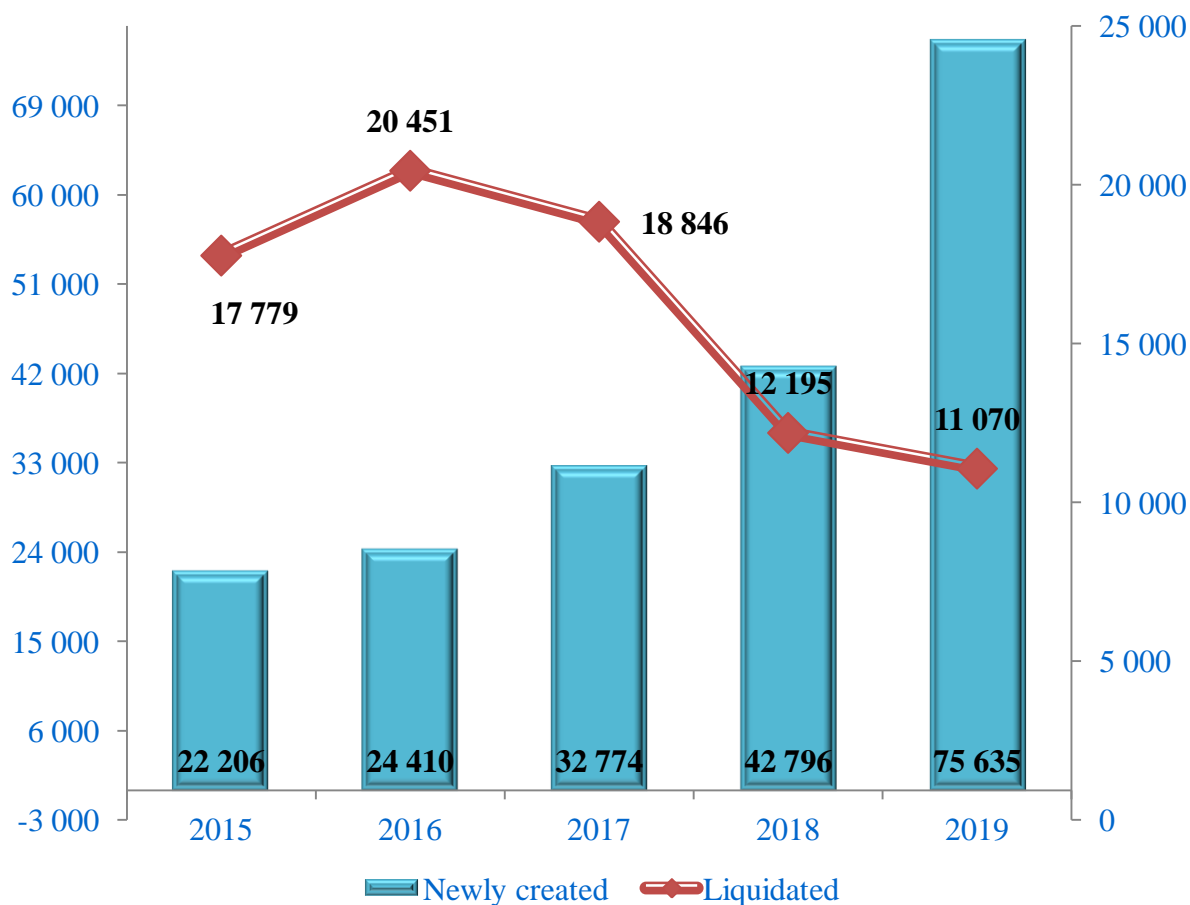

**Share of newly established family enterprises  
in January-September 2019 by types of economic activity, %**

In January-September 2019 (excluding farms and dekhkan farms), 11 070 enterprises and organizations liquidated their activities for certain reason. Compared to the same period last year, this figure decreased by 1,125 units.

*In our country, there have been many positive changes in terms of solving problems and improving the competitiveness of business entities, as a result of which the level of compliance of entrepreneurs with current market is steadily increasing. For example, in 2017 it was 18 846 units, 2018-12 195, in January-September 2019, this figure reached 11 070 units.*

**Dynamics of newly created and liquidated enterprises and organizations  
in January-September 2015-2019, units.  
(excluding farms and dehqan farms)**

If we consider the liquidated enterprises by type of economic activity, the main share fell on trade - 27.3 % or 3022 units, industry - 17.6 % or 1949 units, construction – 9.5 % or 1056 units, agriculture, forestry and fisheries - 10.3 % or 1146 units, accommodation and catering services - 6.8 % or 752 units, transportation and storage – 3.9 % or 433 units, information and communication - 2.4 % or 264 units, health and social services - 1.2 % or 128 units and other types - 21.0 % or 2320 units.

From here it is visible that the main part of the liquidated enterprises fell on trade and industry. The lowest share by type of economic activity was recorded in the sphere of health, social services, information and communication.

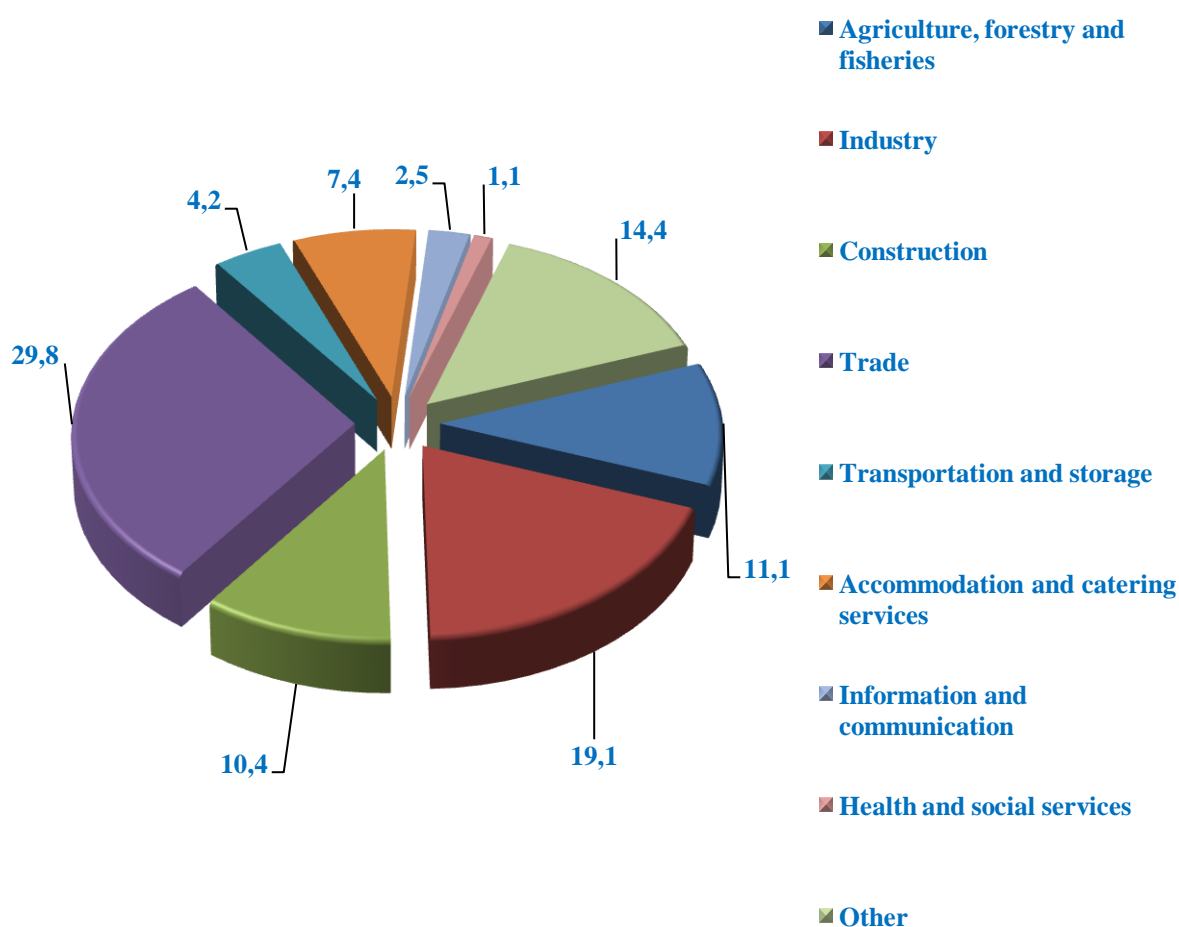

**Number of liquidated enterprises and organizations  
by type of economic activity, units  
(excluding farms and dehqan farms)**

In January-September 2019, 10 104 units of small enterprises and microfirms were liquidated. Their main share was in trade – 3007 units (29.8 %) – industry, 1926 units (19.1 %) – construction, 1122 units (11.1 %) – agriculture, forestry and fisheries, 745 units (7.4 %) – accommodation and catering services, 427 units (4.2 %) – transportation and storage, 258 units (2.5 %) – information and communications, 113 units (1.1 %) – health and social services, and 1454 units (14.4 %) – in other activities.

**Share of liquidated small enterprises and micro firms  
by type of economic activity, %  
(excluding farms and dehqan farms)**

As a result of entrepreneurship support, the number of liquidated small enterprises and micro-firms decreases from year to year. The proof of this is in Tashkent city-883 units, Samarkand-169 units, Fergana-189 units, Namangan-318 units and Bukhara - 139 units regions the number of liquidated enterprises and organizations in 2019 was less than in January-September 2018.

**The number of liquidated small enterprises and microfirms  
by regions, units**  
*(excluding farms and dehkan farms)*

## Explanation of statistical indicators

**The Unified State Register of Enterprises and Organizations** is an automated system containing periodically updated information of a reference character, provides state accounting and identification of enterprises and organizations on the basis of a unified classification system.

**Registered** - legal entities that have passed state registration with the registration authority in the prescribed manner and have legal entities in the State Register (with the exception of liquidated legal entities).

**Active** - legal entities that have passed state registration with the registration authority in the prescribed manner, and have not submitted information to the state statistics authorities about the failure to carry out or the completion of financial and economic activities.

**Inactive** persons are legal entities that have passed state registration with the registration authority in the established manner and have not carried out financial and economic activities or have not formed their statutory funds within the time periods established by law, and also have not provided information on the liquidation process.

**Newly created** - legal entities that have passed state registration with the registration authority in the prescribed manner and are entered (newly included) in the state register of legal entities.

**Liquidated** - legal entities, information on which is provided by the registering body after making an entry on the liquidation of a legal entity in the state register of legal entities to state statistics bodies.

**The level of activity of legal entities** is the percentage of legal entities inactive at a specified time to the total number of registered legal entities.

**The level of newly created legal entities** is the percentage of legal entities registered for a given period to the total number of existing legal entities.

**The number of registered (active)** legal entities per 1,000 people - the ratio of the number of registered (active) legal entities at a given date to the number of permanent residents, expressed in 1000 units.

**Small enterprises and microfirms** are organizations related to small businesses in accordance with Appendix 1 to the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan dated August 24, 2016 No. 275 “On measures to transfer to the international system of classification of types of economic activity”.

**Enterprises with the participation of foreign capital** - enterprises with the participation of non-residents, foreign legal entities (branches and divisions of foreign firms), foreign citizens and stateless persons in the authorized capital of the enterprise.
