

IV. AGRICULTURE, FORESTRY AND FISHERIES

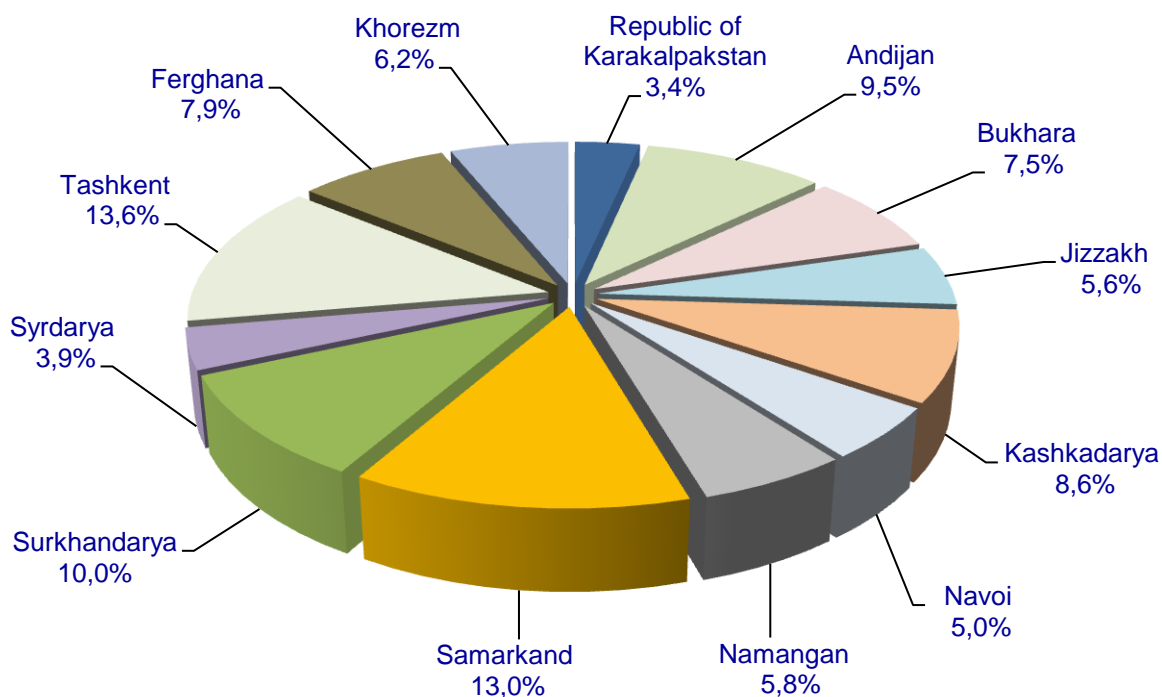

According to preliminary data, in January-September 2018, the total amount of products (services) of agriculture, forestry and fisheries amounted to 59 327.1 billion soums, or 101.3% compared to the corresponding period of 2017, including in plant growing and animal husbandry, hunting and services in these areas - 58998.1 billion soums (101.3 %), forestry - 100.5 billion soums (103.6 %), fisheries - 238.5 billion soums (130.1 %).

The volume of products (services) of agriculture, forestry and fisheries in the context of regions

The highest growth rates were observed in Namangan (105.8 %), Ferghana (104.5%) and Bukhara (104.0 %) regions. On the contrary, in Kashkadarya (97.9 %) and Samarkand (97.5 %) regions, low rates were observed.

The share of regions in the total volume of products (services) of agriculture, forestry and fisheries

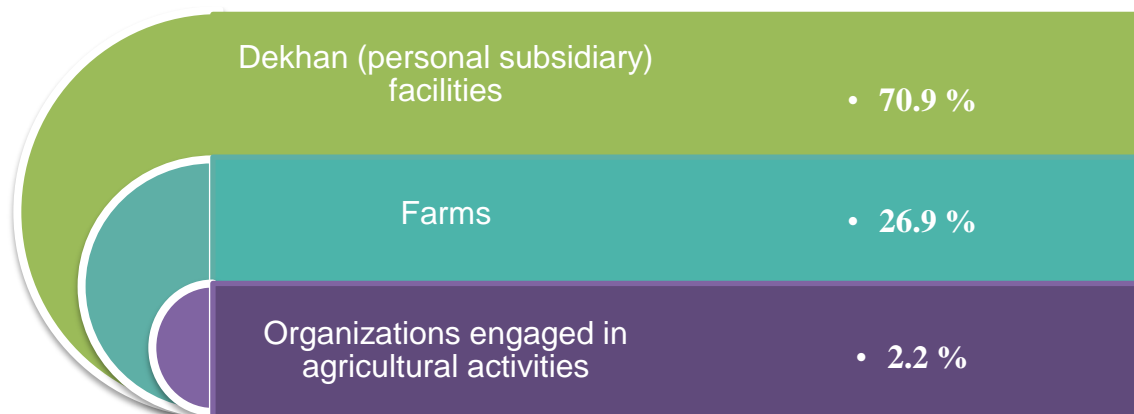

The share of the Tashkent region in the total volume of products (services) of agriculture, forestry and fisheries of the republic was 13.6 % and it is the leader among the regions, Samarkand and Surkhandarya regions occupy the next places with indicators of 13.0% and 10.0 %, respectively. The lowest share was registered in the Republic of Karakalpakstan (3.4 %), Syrdarya (3.9 %) and Navoi (5.0 %) regions.

Agriculture Products

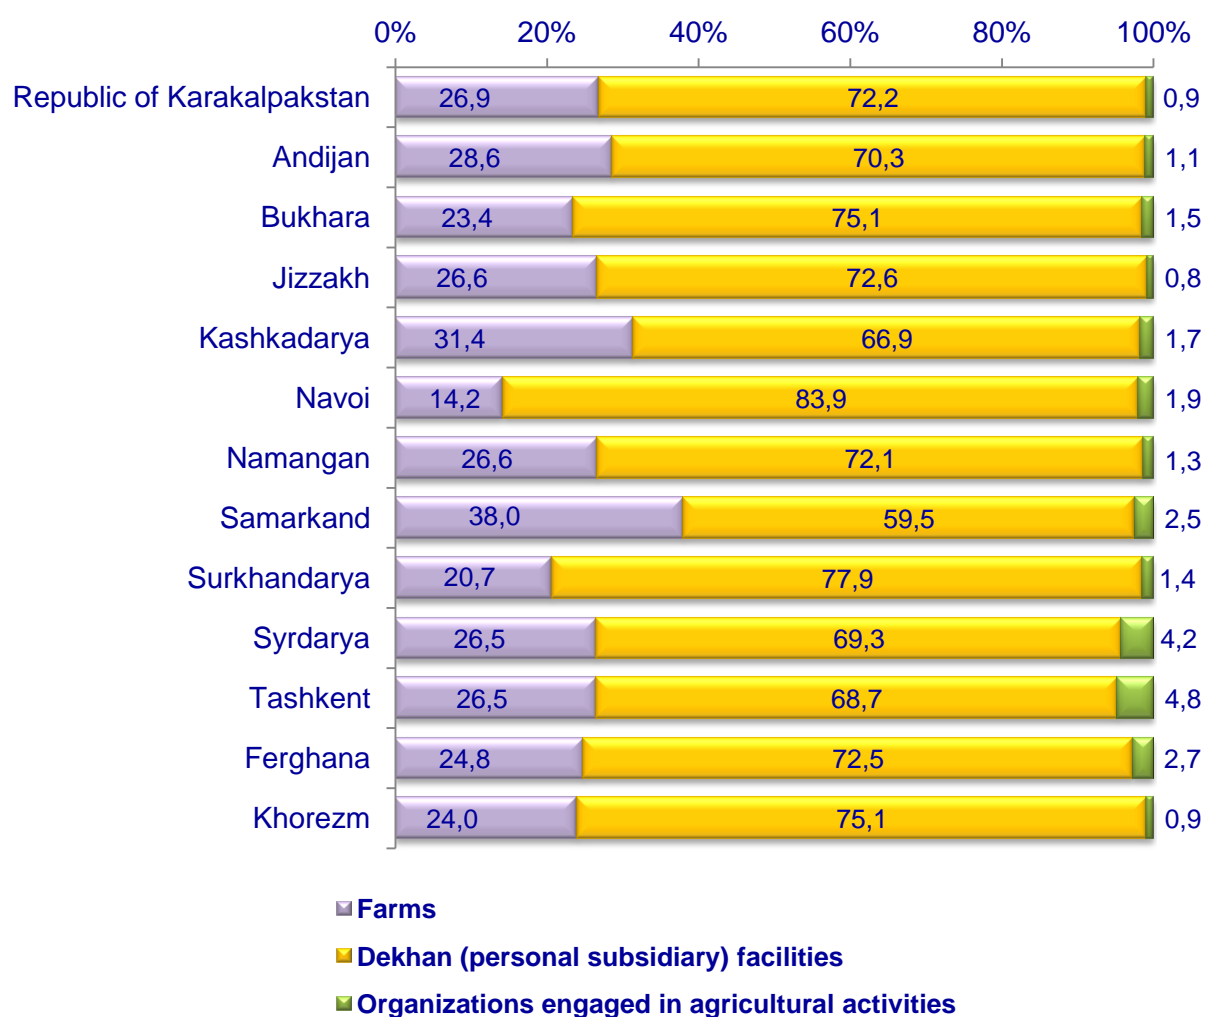

The growth of agricultural production in January-September 2018, compared with the corresponding period of 2017, amounted to 101.3 %, including crop production reached 97.5%, livestock production - 107.0 %.

The distribution of agricultural production by farm categories

Analysis by categories of farms showed that 70.9 % of the total volume of agricultural production accounts for dekhkan (personal subsidiary) farms, 26.9 % for farms, and 2.2 % for organizations engaged in agricultural activities.

Distribution of agricultural production by categories of farms by region

When analyzing the distribution of shares of gross agricultural output by categories of farms in the context of territories, it was observed that the highest rates in all regions fall on dekhkan (personal subsidiary) farms. The highest rates fall on the share of Navoi (83.9 %), Surkhandarya (77.9 %), and Bukhara and Khorezm (75.1 %) regions.

Analysis of the share of farms in gross agricultural output in relation to all categories of farms showed that the highest rates fall on the share of Samarkand (38.0 %), Kashkadarya (31.4 %) and Andijan (28.6 %) regions.

Crop production

The volume of crop production in January-September 2018 amounted to 33340.1 billion soums, or 97.5 % of the corresponding period of 2017. The share of crop production in the total volume of agricultural production reached 57.3 %.

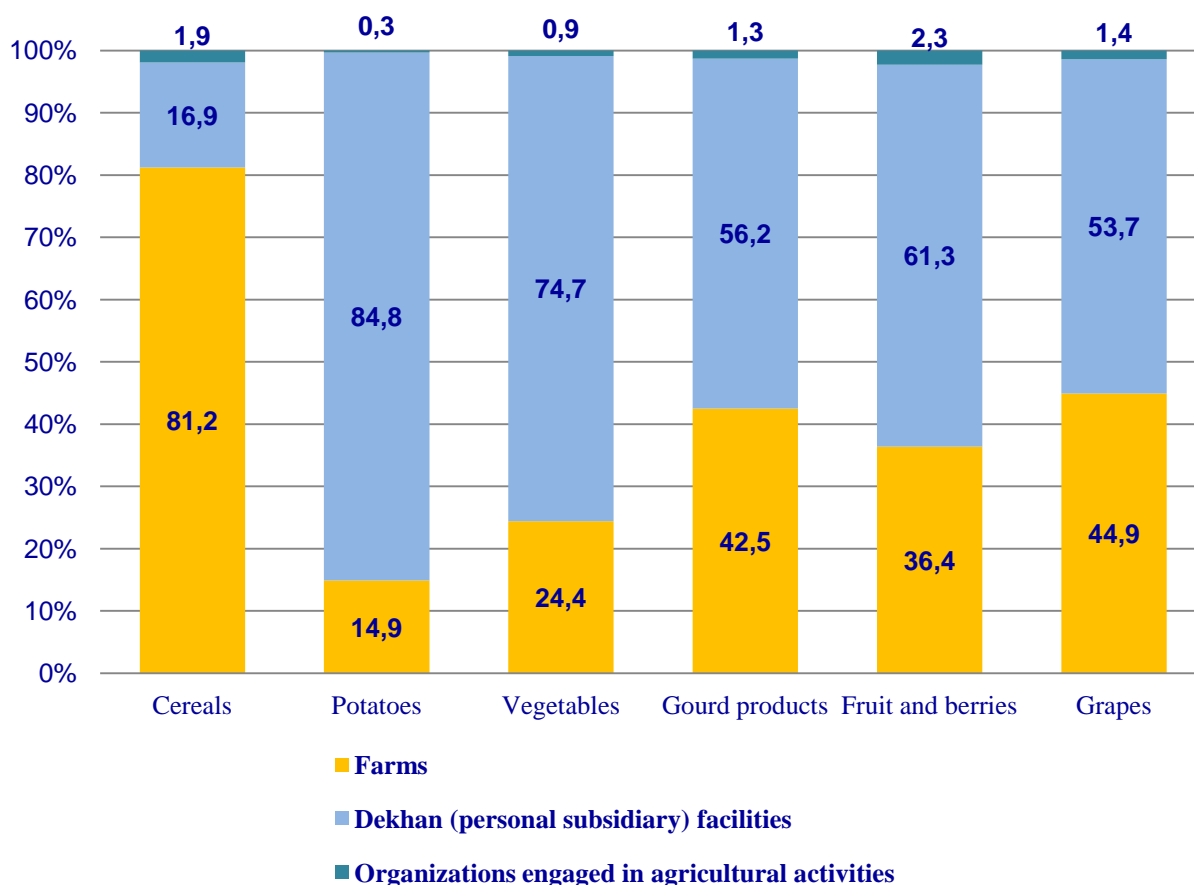

Production of main types of crop production by categories of farms

(January-September 2018)
