

V. SERVICES

SECTION 1. INFORMATION ON ENTERPRISES AND ORGANIZATIONS OPERATING IN THE SERVICE SECTOR

Currently, the service sector is one of the most promising and rapidly developing sectors of the national economy. The range of activities related to it is quite wide and extends from trade, transport, information and communication technologies to financing, education, health care, consulting and management, as well as a wide variety of mediation.

As of April 1, 2023, the total number of enterprises and organizations operating in the country reached 483 554 units. 330 839 units are involved in the service sector, which accounted for 68.4% of their total number.

Total operating in the service sector (as of April 1, in units)

For comparison: as of April 1, 2019, the share of operating enterprises and organizations in the service sector was 65.8%, or 230 949 units. Compared to the same period last year, their growth rate was 117.0%.

As of April 1, 2023, out of the total number of small businesses (417 216 units), 266 305 units are involved in the service sector. Their share in the total number of operating enterprises and organizations related to the service sector amounted to 80.5%. The share of large organizations involved in service activities amounted to 19.5% (64 534 units).

In January-March 2023, the number of newly created enterprises and organizations in the service sector was fixed at the level of 15 525 units, or 65.0% of their total number (23 891 units), of which 14 868 units, or 95.8% are small businesses.

For comparison: in January-March 2019, their number was 20 479 units, of which 19 374 units are small enterprises and microfirms.

Newly created in the service sector (as of April 1, in units)

SECTION 2. DEVELOPMENT OF THE SERVICE SECTOR BY REGION

The **service sector** is a consolidated general category that includes the reproduction of various types of services provided by enterprises, organizations, and individuals.

The **volume of market services rendered** reflects the cost for the services provided to consumers (legal entities and individuals, including non-residents) for a certain period of time.

Volume of rendered market services by regions ¹⁾ (for January-March 2023)

<i>Regions</i>	<i>volume, in billion soums</i>	<i>specific weight to the total volume, in %</i>	<i>growth rates, in % to</i>	
			<i>2022</i>	<i>2021</i>
Rep. of Uzbekistan²⁾	96 758,0	100,0	110,9	115,9
Rep. of Karakalpakstan	2 712,7	2,8	106,1	118,3
<i>regions:</i>				
Andijan	4 688,0	4,8	105,6	106,9
Bukhara	4 236,8	4,4	109,9	115,9
Jizzakh	2 135,9	2,2	105,4	116,5
Kashkadarya	4 184,3	4,3	105,7	112,5
Navoi	2 473,7	2,6	108,4	114,1
Namangan	4 035,3	4,2	112,7	114,2
Samarkand	6 105,8	6,3	106,5	112,9
Surkhandarya	3 434,8	3,6	109,3	112,1
Syrdarya	1 345,5	1,4	106,2	113,4
Tashkent	6 808,7	7,0	104,4	115,2
Fergana	5 735,4	5,9	102,7	120,1
Khorezm	2 715,8	2,8	108,5	112,5
Tashkent city	36 562,4	37,8	114,6	119,8

In January-March 2023, in the total volume of market services, the share of the city of Tashkent amounted to 37.8%, or 36 562.4 billion soums. Compared to the same period in 2022, the growth rate in this region reached 114.6%.

The volume of market services provided in Syrdarya region was equal to 1 345.5 billion soums, or 1.4% of their total volume. The growth rate was 106.2%.

¹⁾ Here and further, the data for 2019-2022 are revised in accordance with the methodology of each subsequent year.

²⁾ Including unallocated volumes by region.

The volume of market services provided per capita is an indicator that reflects the market value of all services provided in the country for a certain period, on average per person (per capita). Determined by dividing the total volume of market services provided by the average resident population.

Key indicators of services per capita
(for January-March 2019-2023)

In January-March 2023, the volume of market services provided per capita reached 2 679.4 thousand soums. Compared to the period under review in 2022, the growth rate was 108.6%, and the volume increased by 526.3 thousand soums.

Rep. of Uzbekistan	Volume, in thousand soums
Tashkent city	12 321,8
Navoi	2 338,1
Tashkent	2 269,3
Bukhara	2 104,5
Syrdarya	1 497,0
Samarkand	1 479,1
Jizzakh	1 443,8

Volume of services per capita by regions
(for January-March 2023, thsd. soums)

Fergana	1 439,1
Andijan	1 407,6
Khorezm	1 384,5
Rep. of Karakalpakstan	1 370,7
Namangan	1 342,9
Surkhandarya	1 220,5
Kashkadarya	1 198,7

An important influence on the indicator of per capita development of the service sector is provided by the population. For example, in Navoi region, where the population is relatively low (1 058 thousand people), per capita indicators look better than in a densely populated region such as Kashkadarya region. Also in the industrially developed regions (excluding the extractive industry) – Navoi, Tashkent regions and the city of Tashkent, high per capita indicators of the service sector were noted, compared with Khorezm, Namangan and Surkhandarya regions.

Small business in the service sector

The small business sector contributes to sustainable economic growth, job creation, higher incomes and the well-being of the population.

In January-March 2023, the volume of services provided by small businesses was equal to 45 241.3 billion soums and their share in the total volume of market services was 46.8%, including 18.9% - small businesses and microfirms.

Small business in the service sector (for January-March 2019-2023)

Small business in the service sector by region (for January-March 2023)

Regions	Volume of services, in billion soums	Specific weight, in %	Growth rates, in %
Rep. of Uzbekistan	45 241,3	46,8	101,3
Rep. of Karakalpakstan	1 391,5	51,3	107,8
Andijan	3 056,2	65,2	104,2
Bukhara	2 551,3	60,2	105,0
Jizzakh	1 254,7	58,7	105,1
Kashkadarya	2 806,9	67,1	104,1
Navoi	1 401,8	56,7	103,8
Namangan	2 480,2	61,5	101,9
Samarkand	4 150,2	68,0	106,1
Surkhandarya	2 171,2	63,2	103,4
Syrdarya	674,4	50,1	103,1
Tashkent	4 798,9	70,5	106,2
Fergana	3 694,4	64,4	104,1
Khorezm	1 649,0	60,7	102,6
Tashkent city	13 160,6	36,0	102,2

The share of small business in the service sector (for January-March 2023)

In January-March 2023, the volume of small business in the city of Tashkent was fixed at the level of 13 160.6 billion soums.

In Syrdarya region, it was equal to 674.4 billion soums.

SECTION 3. MAIN INDICATORS OF THE DEVELOPMENT OF THE SERVICE SECTOR

The service sector is the main contributor to the gross domestic product (GDP) of many countries around the world. Thus, the share of services in GDP varies, reflecting differences in the economic structure and development of the country. By investing in and supporting the service sector, governments can continue to drive economic growth and secure a prosperous future for their citizens.

Share of services in GDP (for January-March 2019-2023)

In January-March 2023, the share of services in GDP amounted to 53.1%. Compared to the same period in 2019, this indicator increased by 4.4 p.p.

Services are the result of production activities that change the state of consumers (legal and natural persons) or facilitate the exchange of goods, services or financial assets.

Market output of services is considered when the services are the object of sale and are sold at economically significant prices (wholly or, to a large extent, covering the costs of the service producer).

Dynamics of the main indicators of the service sector in the Republic of Uzbekistan (for January-March 2019-2023)

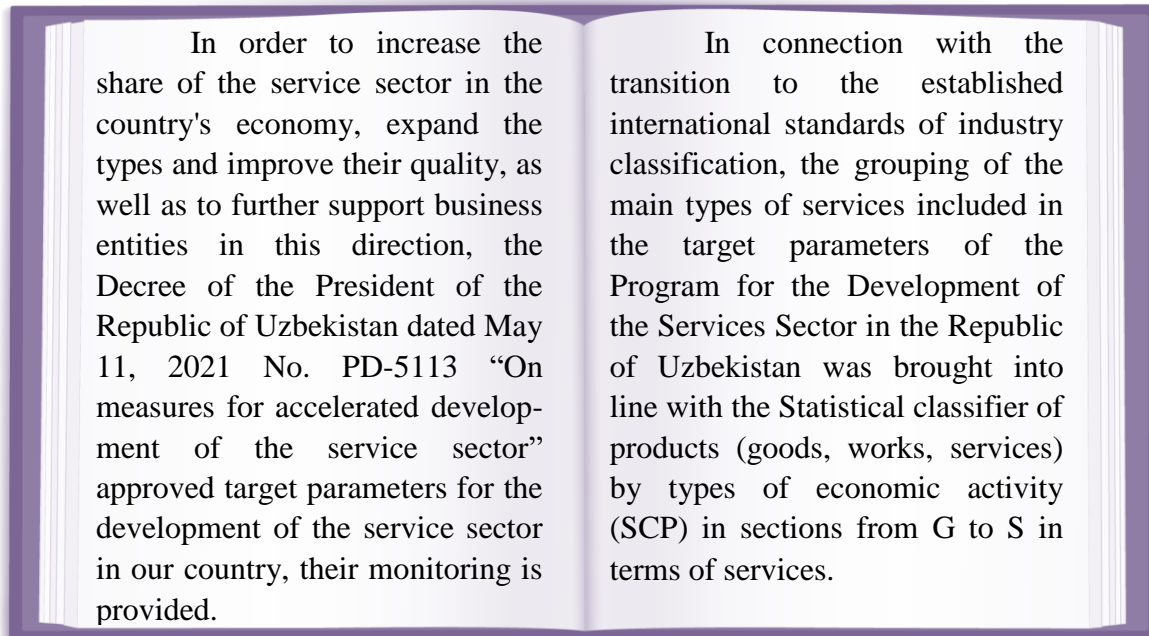

According to preliminary data, the volume of market services provided in January-March 2023 reached 96 758.0 billion soums. Compared to the same period in 2022 (115.9%), the growth rate was 110.9%, and the volume increased by 20 641.7 billion soums.

■ Growth rates, in % ■ Volume, in billion soums

The growth factor in the volume of market services provided for the period under review is an increase in the volume of such types of services as transport services (by 6 869.2 billion soums), financial services (by 5 447.5 billion soums), trade services (by 3 560.5 billion soums) and communication and informatization services (by 1 296.2 billion soums, compared with January-March 2022).

SECTION 4. PRODUCTION OF SERVICES BY TYPE OF ECONOMIC ACTIVITY

An important key factor influencing the development of the service sector in Uzbekistan is the modernization of the economy. Currently, in the digital economy, new technologies are being actively introduced, infrastructure and education are being developed, which contributes to its rapid growth.

Contribution by type of services to the increase in the total volume of market services rendered (for January-March 2023, in %)

The main factor in the growth of the total volume of market services rendered was the growth of financial services by 16.9% (contribution to the growth of the total volume of services rendered by 3.9 points), transport services – by 13.7% (contribution to the growth of 2.9 points), communication and information services – by 21.0% (contribution to the growth of 1.3 points), trade services – by 4.3% (contribution to an increase of 1.1 points), education services – by 16.6% (contribution to an increase of 0.6 points), other services – by 8.1% (contribution to an increase of 0.3 points), as well as services related to real estate – by 7.6% and accommodation and catering services – by 5.1%, whose contribution to the increase in the total volume of services rendered amounted to 0.2 points.

Key indicators of the service sector by type
(for January-March 2022-2023)

Name of types of services	Volume of services, in billion soums		Specific weight, in %	Growth rates, in %
	2022	2023		
Services – total	76 116,3	96 758,0	100,0	110,9
<i>including the main types:</i>				
communication and information services	4 915,7	6 211,9	6,4	121,0
financial services	17 738,9	23 186,4	24,0	116,9
transportation services	16 215,8	23 085,0	23,9	113,7
including motor transport services	9 233,2	10 862,6	11,2	104,2
accommodation and catering services	2 379,4	3 072,4	3,2	105,1
trade services	19 310,8	22 871,3	23,6	104,3
services related to real estate	2 122,7	2 499,0	2,6	107,6
educational services	2 991,5	3 584,7	3,7	116,6
healthcare services	1 394,4	1 688,4	1,7	103,2
rent and rental services	1 416,1	1 595,0	1,7	103,4
computer and household goods repair services	1 300,2	1 547,9	1,6	103,6
individual services	1 956,8	2 436,0	2,5	103,2
services in the field of architecture, engineering surveys, technical tests and analysis	1 423,1	1 558,2	1,6	100,1
other services	2 950,9	3 421,8	3,5	108,1

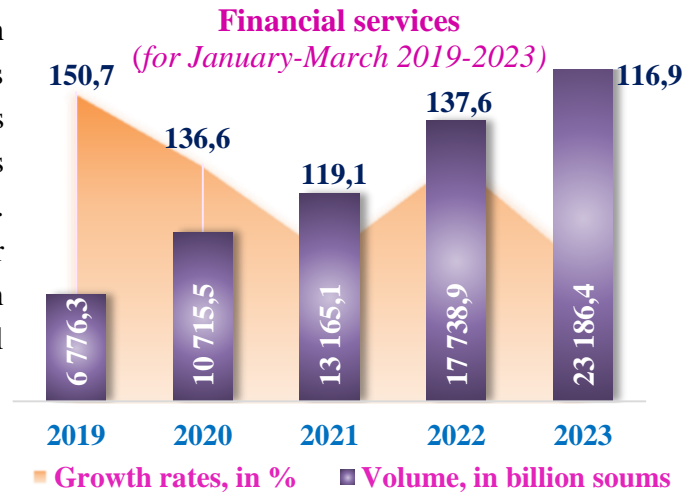

In January-March 2023, in the structure of market services provided by type of economic activity, financial services account for 24.0%, transport services – 23.9%, trade services – 23.6%, communication and informatization services – 6.4%, services in the field of education – 3.7%.

For comparison: during the period under review in 2022, trade services in total amounted to 25.4%, financial services – 23.3%, transport services – 21.3%, communication and information services 6.4%, education services – 3.9%.

Financial services

The volume of financial services is recorded in terms of the volume of interest income received from financial intermediation (in the amount of payment for them), as well as in the form of a fee for the services of a financial institution in providing a loan or maintaining a deposit.

Compared with January-March 2019, the volume of financial services increased by 16 410.1 billion soums and reached 23 186.4 billion soums for the period under review in 2023. The share of these services in their total volume amounted to 24.0%. In total, the growth rate of financial services amounted to 116.9%.

Structure of financial services (for January-March 2023)

The structure of financial services is dominated by services, except for insurance and pension services. In January-March 2023, their share was 89.2%.

Financial services by region (for January-March 2023)

Regions	Volume of services, in billion soums	Specific weight, in %	Growth rates, in %
Rep. of Uzbekistan	23 186,4	100,0	116,9
Rep. of Karakalpakstan	650,7	2,8	106,9
Andijan	1 033,6	4,5	104,8
Bukhara	922,8	4,0	128,1

Structure of transport services by type of transport

(for January-March 2023)

¹⁾Including unallocated volumes by region

Motor transport services

Motor transport services include all ground passenger transportation, with the exception of rail transportation, other services of land passenger transport and road transport services for freight transportation and relocation services.

In January-March 2023, the volume of market services provided by vehicles was equal to 10 862.6 billion soums.

Compared to January-March 2022, the growth rate of these services amounted to 104.2%. In the total volume of rendered market services, their share was fixed at the level of 11.2%.

Motor transport services
(for January-March 2019-2023)

Structure of motor transport services by type of transportation
(for January-March 2022-2023)

Passenger transportation services predominate in the total volume of motor transport services – 58.4%.

For comparison: for January-March 2022, this figure was 58.8%.

Motor transport services by regions
(for January-March 2023)

Regions	Volume of services, in billion soums	Specific weight, in %	Growth rates, in %
Rep. of Uzbekistan ¹⁾	10 862,6	100,0	104,2

Other information services	142,2	27,9

In January-March 2023, in the overall structure of the alternative population, the ICT service sector occupies 92.2%. This sector is dominated by telecommunications services – 66.8%.

The share of the content and media sector in the total volume of the alternative population was 7.8%. In its structure, the share of services related to programming and broadcasting reached 39.8%.

Educational services

This section includes public as well as private education at any level and training in any profession, full-time or part-time, as well as through Internet channels and mail. This includes education provided by various institutions within the regular school system at various levels, as well as adult education (training and retraining courses), educational support activities, etc.

When carrying out activities in the **field of education**, the cost of the rendered market services, including the distance form of education (contract form of education), is reflected.

In January-March 2023, the volume of services in the field of education reached 3 584.7 billion soums.

Compared to January-March 2022, the growth rate for the specified period amounted to 116.6%.

Explanations of statistical indicators

The volume of services by type of economic activity includes accrued payments for services rendered in actual market prices without VAT.

The market output of services is considered when the services are the object of sale and are sold at economically significant prices (wholly or to a large extent covering the costs of the service producer).

The statistical indicator "**Volume of market services rendered**", which measures the value of services rendered for a certain period of time, reflects the cost for the services provided to consumers (legal entities and individuals, including non-residents).

The volume of market services provided is the value of market services provided by all service providers (legal entities and individuals) as specialized in the production of services and for which the provision of services is not the main activity.

Payment for services by consumers can be made in cash, including payment by plastic cards and by transfer, including electronic payments and electronic money.

Services provided to non-residents (if they are not paid in soums) are determined at contract prices recalculated at the soum rate established by the Central Bank of the Republic of Uzbekistan on the date of payment for services.

Electronic payments - the implementation of non-cash payments through electronic payment documents using technical means, information technologies and information systems services.

Electronic money issued by electronic money issuers in the territory of the Republic of Uzbekistan must be nominated only in the national currency of the Republic of Uzbekistan.

The classification of services by type of activity is carried out in accordance with the Statistical Classifier of Products (goods, works, services) by type of economic activity of the Republic of Uzbekistan (hereinafter referred to as the SCP).

Communication and informatization services cover services in the field of communications, including the transmission of sound information, images and other information flows using telephone, telex, telegraph, radio broadcasting, e-mail, satellite, facsimile, etc.

The volume of market services is formed for all types of economic activity classified according to the UPC in terms of services (sections G-S).

Financial services cover financial intermediation and insurance activities. The group of financial intermediation services includes monetary intermediation services (financial leasing, loans, including pawnshops), financial intermediation of dealers and investment funds, services of auxiliary financial intermediation of financial markets (commodity, stock and currency exchanges) and other financial services.

Transport services cover the activity of transporting goods and passengers by all modes of transport, as well as ancillary services during transportation, including logistics services.

Accommodation and catering services include the provision of short-term lodging services such as hotels, hotels, motels and other accommodations and the provision of food and beverages.

Trade services combine wholesale and retail trade services, which also include intermediary services for the sale and purchase of goods in the interests of another person on the basis of contracts, commissions, commissions or agency agreements, as well as maintenance and repair of cars and motorcycles.

Real estate services - real estate activities, which include services for the rental of residential and non-residential premises, as well as mediation services for the purchase and sale of real estate.

Education services cover services in terms of commercial education in public institutions of higher, secondary specialized, vocational, general secondary, preschool education, as well as private education at any level and training in any profession, including on radio and television, Internet channels and through mail.

Services in the field of health care cover a range of services provided by stationary hospitals, clinics, dental institutions, medical laboratories on a fee basis.

Leasing and rental services - services for renting machinery and equipment without an operator, rental of household products and personal items.

Services in the field of architecture, engineering surveys and the provision of technical advice in these areas are design, survey, design, technological and other engineering services, as well as construction supervision services performed by specialized organizations on a contractual basis.
